University Studies, BUS

Requirements for Students Matriculating in or before Academic Year 2020-2021. Learn more about University Academic Regulation 3.1 (p. 884).

Minimum Overall Grade Point Average: 2.00

Total Hours: 120

Purpose

Individualization and flexibility are features of the program leading to the degree of Bachelor of University Studies. The program is designed for goal-directed, motivated, and mature students who find that the present degree programs (majors) at the University will not enable them to attain their educational objectives. The Bachelor of University Studies degree program allows a student to use the total resources of the University available to accomplish unique educational objectives. The program may or may not prepare a student for a particular occupation or for entry into a professional school.

Degree Requirements

1. All students who intend to present a program for the University Studies degree should be enrolled in one of the colleges of the University or the Office of University College Advising.
2. The study plan must include no fewer than 40 upper-division semester credit hours which are selected from two or more disciplines and which in their aggregate comprise a rational combination of concepts and skills.
3. The study plan must meet all general education requirements of the University and the college of enrollment.
4. A minimum of 120 semester credit hours shall be required for granting the degree.

Procedure

Students who believe their educational objectives can best be fulfilled through a Bachelor of University Studies degree program will be responsible for complying with the following procedures:

1. Obtain the declaration of major and plan of study forms for the Bachelor of University Studies from the Director of Student Academic Services in the college that will grant the degree, University College Advising, or the Advising Center at OSU-Tulsa. This form will list the General Education requirements for the college.
2. Meet with an advisor to determine the student's educational objectives and the two or three areas of concentration.
3. Obtain approval from a departmental representative (faculty member or advisor) if the area of concentration does not represent a minor or certificate.
4. Submit the completed form to the Office of the Dean in the college of enrollment for approval. The form will be forwarded to the Office of the Provost.
5. Any necessary changes in the approved program should be requested by the student through the student's advisor and dean.
6. Fulfill the approved graduation requirements for the degree and apply for graduation before the final semester of coursework.

Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2026.

University Studies: Multidisciplinary Studies, BUS

Requirements for Students Matriculating in or before Academic Year 2020-2021. Learn more about University Academic Regulation 3.1 (p. 884).

Minimum Overall Grade Point Average: 2.00

Total Hours: 120

Purpose

The bachelor's degree in multidisciplinary studies is a four-year degree plan for students who find that current University degree programs will not allow them to meet their educational objectives and who wish to tailor course choices to meet individual goals. The program allows students to prepare for professional careers that require extensive knowledge in a broad array of subjects. The multidisciplinary program allows students to focus on two or three areas of study that are selected by the student.

Degree Requirements

1. The student must complete a minimum of 120 semester hours of which at least 40 hours must be upper-division.
2. The major requires two or three areas of concentration. If the student selects two areas of concentration, each area will include at least 27 hours of coursework; for three areas of concentration, each area will include at least 18 hours of coursework. Of the 54 hours of concentration, at least 27 hours must be upper-division. A course may not be used to fulfill the requirements of more than one area of concentration. The remaining coursework, to total at least 120 hours, may be selected from different disciplines.
3. Areas of concentration may include coursework from the requirements for a minor or certificate or a group of related courses approved by a departmental representative (faculty member or advisor). A study plan may use 18 hours of 'major' courses from an AA, AS or AAS degree to fulfill one of three areas of concentration. The other two areas of concentration will include at least 27 hours of upper-division coursework.
4. All students who intend to present a program for multidisciplinary studies must enroll in one of the colleges of the University (select one of the colleges responsible for an area of concentration).
5. The study plan must meet all General Education requirements of the University and the college of enrollment.
6. A multidisciplinary studies faculty advisory committee will oversee program quality and conduct an annual curriculum review.

Area of Concentration

Code	Title	Hours
Concentration 1		27
Concentration 2		27
OR		
Concentration 1		18
Concentration 2		18
Concentration 3		18

Procedure

Students who believe their educational objectives can best be fulfilled through a multidisciplinary studies program will be responsible for complying with the following procedures:

1. Obtain the multidisciplinary studies declaration of major and plan of study forms from the Director of Student Academic Services in the college that will grant the degree, University College Advising or the Advising Center at OSU-Tulsa. The form will list the General Education requirements for the college.
2. Meet with an advisor to determine the student's educational objectives and the two or three areas of concentration.
3. Obtain approval from a departmental representative (faculty member or advisor) if the area of concentration does not represent a minor or certificate.
4. Submit the completed form to the Office of the Dean in the college of enrollment for approval. The form will be forwarded to the Office of the Provost.
5. Any necessary changes in the approved program should be requested by the student through the student's advisor and dean.
6. Fulfill the approved graduation requirements for the degree and apply for graduation before the final semester of coursework.

Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2026.

UNIVERSITY ACADEMIC REGULATIONS

In addition to these minimal regulations, additional college, department or program requirements may apply. Students are advised to review all steps of their academic progress with their academic advisor.

1. Admission, Academic Standing and Withdrawal

1.1 Admission of Freshmen

Policies and procedures governing the admission of new freshmen are detailed in another section of the Catalog. (See "Undergraduate Admissions (p. 27).")

Assessment/Course Placement

To help insure that students possess the skills necessary to be successful in college, the Oklahoma State Regents for Higher Education require students to obtain a 19 ACT subject area score(s) in science reasoning, mathematics, and English to enroll in course work in the respective subject area(s). Students must score 19 or higher in reading to enroll in courses that require extensive reading. Students scoring below 19 will be required to remediate in the discipline area (UNIV courses with course numbers beginning with 0) or undergo additional testing to determine the level of readiness for college level work. Students must pass developmental courses within the first 24 hours attempted or have all subsequent enrollments restricted to developmental courses until the deficiencies are removed. If a student fails to remediate in a single subject within the 24 hour limit and is in good academic standing, the advisor and dean may recommend to the Provost that the student be allowed to continue to enroll in college level courses in addition to developmental courses.

1.2 Admission of Transfer Students

Policies and procedures governing the admission of transfer students are detailed in another section of the Catalog. (See "Undergraduate Admissions (p. 27).")

1.3 Admission to Certain Professional Programs

Admission to certain programs as approved by the University may be restricted. (See "Undergraduate Admissions (p. 27)" and appropriate college sections in the Catalog.)

1.4 English Proficiency Requirement

As a condition of admission to undergraduate study at OSU, all persons for whom English is a second language shall be required to present evidence of English proficiency. (See "Undergraduate Admissions (p. 27).")

1.5 Satisfactory Academic Progress

Students not under academic suspension from the University are judged to be making satisfactory progress toward their educational objectives. They are eligible to enroll in any of the undergraduate colleges except as may be restricted. (See Academic Regulation 1.3 Admission to Certain Professional Programs.)

1.6 Good Academic Standing and Scholastic Requirements for Continuing Enrollment of a Student Under Academic Probation in an Undergraduate College

Undergraduate students must meet the GPA requirements below to be in good academic standing. Each college, department, or academic program within OSU may require higher standards for admission, retention, or good academic standing.

Overall Hours attempted (total retention/graduation hours attempted)	Minimum Overall Grade-Point Average Required (retention/graduation GPA)
0 through 30	1.70
31 or more	2.00

Any student not maintaining an overall GPA as indicated above will be placed on probation for one semester. At the end of that semester, he or she must have a current term (semester) GPA of 2.00, not to include physical education activity (leisure) or developmental courses, or meet the minimum standard required above, in order to continue as a student.

First year students (30 or fewer credit hours, as defined by OSRHE policy) with an overall GPA of 1.70 to less than 2.00 will be placed on academic notice. These students should remain in contact with their student academic service offices regarding special academic support services and procedures.

See Academic Regulation 6.4: Grade-Point Average Calculations for a description of overall and current term GPA calculations. These calculations are made three times per year, to coincide with the conclusion of the fall and spring semesters, and the collective summer term. Grades submitted after these calculations are carried forward to the next calculation. (See also Academic Regulation 6.13 Academic Forgiveness.)

A student enrolling on probation should seek help from an academic advisor and a counselor in the University Counseling Services when deciding on an academic load and extracurricular activities.

1.7 Academic Suspension

A student on probation will be suspended when he or she earns a current term (semester) GPA of less than a 2.00 in regularly-graded course work not including physical education activity (leisure) or developmental courses, and the overall grade-point average falls below the following. See Academic Regulation 6.4: Grade-Point Average Calculations for a description of overall and term GPA calculations.

Total Overall Hours attempted (total retention/graduation hours attempted)	Minimum Overall Grade-Point Average Required (retention/graduation GPA)
0 through 30	1.70
31 or more	2.00

1.8 Reinstatement after Academic Suspension

A student who has been suspended from the University for academic reasons may not be readmitted until one regular semester (fall or spring) has elapsed (unless the faculty appeals committee grants immediate reinstatement). Students who wish to appeal suspension status should inquire about procedures and deadlines from their advisor or the Office of Academic Affairs. Students who were concurrently enrolled in another college or university during the semester may appeal the suspension by submitting an official transcript from the institution. Procedures and

deadlines for appealing may be obtained from the Office of Academic Affairs.

Readmission after one regular semester (fall or spring) has elapsed will be considered on the merits of the individual case. Suspended students can be readmitted only one time. If a student is suspended a second time, he or she must attend another institution and raise the overall (retention/graduation) GPA before readmission to OSU can be considered.

A student with 90 or more hours in a specified degree program who has been academically suspended may enroll, at the discretion of the institution, in up to 15 additional credit hours in a further attempt to achieve the requirements for retention. During these 15 hours of enrollment, the student must achieve a minimum 2.00 current term (semester) GPA at the end of each term or must raise the overall (retention) GPA to 2.00 or above to avoid suspension. This senior suspension exception must be approved by the Director of Student Academic Services or Associate Dean for Instruction in the student's college in the form of a letter to the Registrar. This option can be exercised only once per student.

A student suspended from OSU at the end of the spring semester may continue in the summer semester at OSU if this spring suspension was the student's first suspension. The student must complete a minimum of six hours and must achieve a 2.00 current term (summer semester) GPA, or raise the overall (retention/graduation) GPA to the OSRHE standard, in order to continue in the subsequent fall semester. The student should contact his or her dean's office for additional information and restrictions. (See also Academic Regulation 1.7 Academic Suspension.)

1.9 Readmission

An undergraduate student who has attended OSU but was not enrolled during the immediate past semester (except the summer session) must submit an updated Application for Admission and current application fee. A student who has enrolled in another college or university since last attending OSU must submit a transcript from each school. Admission status will be determined after an evaluation of the previous work has been made.

1.10 Cancelling Enrollment and Withdrawing from the University

Enrollment cancellation occurs when a student drops all classes before classes begin, that is, before the applicable semester or session begins. Student requests to cancel enrollment must be received by the Office of the Registrar before the first day of classes for the term. Enrollment changes, such as cancelling enrollment or withdrawing from the University are the responsibility of the student. Failure to attend classes or nonpayment of tuition and fees does not constitute notice of cancellation.

Withdrawing from the University occurs when a student drops all classes after classes begin, that is, after the applicable semester or session begins. The withdrawal process is initiated with the student's academic advisor or in the student's academic student services office. International students must also consult with International Students and Scholars (ISS) before dropping courses or withdrawing for the semester. Under reporting regulations required by the Student and Exchange Visitor Information System (SEVIS), dropping below full-time can put a student's visa status in jeopardy.

General cancellation and withdrawal periods are provided in the table below. The Academic Calendar provides specific dates for each term. Exceptions to these deadlines may be considered by petition

due to documented extraordinary circumstances and committee approval. The Retroactive Drop/Withdraw Petition and the Petition for a Refund of Tuition and Fees are available on the Registrar website (registrar.okstate.edu (<http://registrar.okstate.edu>)).

Cancellation/Withdrawal Periods for Full-Semester (16-week) Courses

Semester Time Period	Course Grade	Course-Related Tuition/Fee Refund
Before term begins (cancellation)	No transcript records	100% refund
First 6 days	No transcript record	100% refund
Day 7-10	No transcript record	Partial refund
Weeks 3-12	"W"	No refund
Weeks 13-14	"W" or "F" as assigned by instructor	No refund
Weeks 15-16	Final grade as assigned by instructor	No refund

Summer courses, intersession courses, and other courses that do not extend through the entire 16-week semester follow proportionate cancellation/withdrawal/refund periods. (See also *OSU Policy 2-0206 Adding and Dropping Classes and Withdrawing from the University*).

2. Student Status

2.1 Classification of Students

Undergraduate classification is determined by the criteria below:

Freshman	fewer than 30 semester credit hours earned
Sophomore	30 to 59 semester credit hours earned
Junior	60 to 89 semester credit hours earned
Senior	90 or more semester credit hours earned

These hours are calculated based on overall (retention) hours earned.

2.2 Full-Time Students

Undergraduate students who are enrolled in 12 or more semester credit hours (six or more for the summer session) are classified as "full-time" students. Graduate students enrolled in nine or more semester credit hours (three or more for the summer session) are classified as "full-time."

Credit hours offered through correspondence study are not counted toward full-time status, unless the course is independent study taken through regular enrollment.

Students engaged in an internship or cooperative education program assignment that requires full-time work on the assignment are regarded as full-time students when they are enrolled in the number of credit hours deemed appropriate for the academic credit they receive for the assignment.

A student holding a 0.50 FTE Graduate Teaching/Research Associate/Assistant (GTA or GRA) appointment who is enrolled in a minimum of six hours during the fall or spring semester and two hours during the summer semester will be certified as a full-time graduate student. Any FTE appointment less than 0.50 requires nine hours of enrollment for the fall or spring semester and three hours of enrollment for the summer

semester in order for the student to be classified as a full-time student. There is no reduction in credit hour requirements in the final semester of enrollment for GTAs or GRAs.

A student enrolled for the final semester of a bachelor's degree program may be classified as a full-time student if enrolled in fewer than 12 hours during that semester.

Doctoral Candidacy Enrollment Requirements

Doctoral students who have completed the requirements for admission to doctoral candidacy and had their "Admission to Doctoral Candidacy" form approved by the Graduate College may enroll for a minimum of at least two credit hours during any term and be considered full-time. This post-candidacy reduced enrollment option applies to all qualified graduate students, including GTAs, GRAs, international students and veterans receiving VA benefits. A student is normally expected to enroll primarily in research hours or in program-approved courses after being admitted to doctoral candidacy.

2.3 Part-Time Students

Students who are enrolled but not meeting the definition of full-time students are classified as "part-time." Undergraduate students are classified as "half-time" if they are enrolled in six hours in a regular semester (or three hours in a summer session). Graduate students are classified as "half-time" if they are enrolled in four hours in a regular semester (or two hours in a summer session).

2.4 Special Students

A student who does not have immediate plans to enter a degree program but wants to take courses may be classified as a "special student." A student on an F-1 visa may not enroll as a special student since he or she must be admitted to a degree program.

3. Undergraduate Degree Requirements

3.1 Date of Matriculation

A student's matriculation date is associated with his or her first term after high school graduation as an admitted student in an accredited institution of higher education. That date will be used in calculating the time limit for the use of a given plan of study.

3.2 Changes in Degree Requirements

A student generally follows the degree requirements associated with his or her matriculation year. Although the curriculum may be revised before a student graduates, students will be held responsible for the degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation. A student has the option of adopting the new degree requirements that have been established since matriculation. The time limit for following a given undergraduate degree program is six years. Time limits for graduate degrees are described under "Academic Regulations" in the "Graduate College (p. 1904)" section of the Catalog.

3.3 The Honors College

(See the "Honors College (p. 1903)" section of the Catalog.)

3.4 General Education Requirements

In keeping with State Regents policy, every OSU undergraduate degree includes a 40-credit-hour general education core that meets the requirements specified in the following table. Degree requirements may exceed the minimum criteria stated below. Courses that carry

general education designations are identified in the student information system and the Courses section of the Catalog. Physical education/leisure activity courses may not be used to meet general education requirements.

General Education Area	General Education Designation	Required Minimum (at least 40 credit hours total)	Courses and Notes (See degree plans for details)
The following English, history and government courses are specified on all degree plans as required by OSRHE and OSU policy.			
English Composition	-	6 credit hours	See Academic Regulation 3.5
American History	-	3 credit hours	HIST 1103, HIST 1483, or HIST 1493
American Government	-	3 credit hours	POLS 1113
The analytical and quantitative thought course may be specified on degree plans.			
Analytical and Quantitative Thought	A	3 credit hours of mathematics	MATH or STAT prefix with A designation
For the following 15 credit hours, generally degree plans do not require specific courses (see exception below); Students are allowed to choose any courses that meet the area requirements.			
Humanities	H	6 credit hours	Courses with H designation
Social and Behavior Sciences	S	3 credit hours	Courses with S designation
Natural Sciences	N	6 credit hours	Courses with N designation. One course must also carry the L designation.
Scientific Investigation (Laboratory Science)	L	1 course	See Natural Sciences
Diversity	D	1 course	Course with D designation; No minimum credit hour requirement; Institutional policy, not required by the State Regents; Unless the D course also carries an A, H, S, or N, it is not included in the minimum 40-credit-hour general education total.

International Dimension	I	1 course	Course with I designation; No minimum credit hour requirement; Institutional policy, not required by the State Regents; Unless the I course also carries an A, H, S, or N, it is not included in the minimum 40-credit-hour general education total.
-------------------------	---	----------	--

Degree plans may specify courses for the following 10 hours.

Additional General Education Courses	A, H, S, or N	10 credit hours to reach total of 40
--------------------------------------	---------------	--------------------------------------

OSU degree plans are designed to allow maximum flexibility within general education areas H, S, N, L, D, and I, so students may select the courses they take to fulfill these requirements. No more than 10 general education credit hours should be specific required courses on a degree plan, as indicated in the last row of the table above. Departments/Colleges may request an exception from the Office of Academic Affairs to specify more than 10 hours, but such exceptions would generally be approved only in the case of formal written external accreditation or certification requirements.

Substitution of general education courses is allowed when background for the major demands greater depth in an area in which a general education requirement is stated. Only in the Analytical and Quantitative Thought (A) and Natural Sciences (N) areas is substitution of the more advanced lower-division course permitted. Such a substitution requires the recommendation of the student's academic advisor and dean and the approval of the Office of Academic Affairs. (See also Academic Regulation 3.6.)

For students who earn an Associate of Arts or Associate of Science degree from another college or university within the Oklahoma State System, the lower-division general education requirement of the baccalaureate degree shall be the responsibility of the institution awarding the associate degree, providing the general education requirements specified by the State Regents are met. OSU may, with the approval of the State Regents, require that transferring students complete additional general education work for the degree if such additional work is programmed as a part of the upper division requirements of the degree program.

The Oklahoma State Regents for Higher Education require computer proficiency prior to graduation. The use of computers is an integral part of every OSU degree program; hence a student demonstrates proficiency by satisfactorily completing degree requirements.

3.5 English Composition Requirement

The University requires a minimum of six semester credit hours in English composition for a baccalaureate degree. The required sequence of courses is ENGL 1113 Composition I and ENGL 1213 Composition II.

For those who qualify, ENGL 1123 International Freshman Composition I or ENGL 1313 Critical Analysis and Writing I may be substituted for ENGL 1113 Composition I. Students who earn an "A" or "B" in ENGL 1113 Composition I (or ENGL 1123 International Freshman Composition I or ENGL 1313 Critical Analysis and Writing I) or who earn three semester credit hours in English composition through credit by exam, and who have the consent of their college, may substitute ENGL 3323 Technical Writing for ENGL 1213 Composition II. Students who qualify may substitute ENGL 1223 International Freshman Composition II or ENGL 1413 Critical Analysis and Writing II for ENGL 1213 Composition II. A third course may be required by the student's college to satisfy either an additional composition or oral communication requirement.

3.6 Substitution of Required Courses

A *course substitution* is a specific course that takes the place of a required course on a degree plan because it meets the content and/or spirit of the requirement. Individual colleges have the authority to approve substitutions for required courses on degree plans with two exceptions:

1. Substitutions related to university general education requirements require approval from Academic Affairs (see Academic Regulation 3.4), with the exception of the English composition substitutions described in Academic Regulation 3.5;
2. A lower-division course may not be substituted for an upper-division course to meet degree requirements.

3.7 Waiving of Required Courses

A *course waiver* excuses a student from completing a required course on a degree plan because the student has fulfilled the content requirement of the course by completing other courses or academic experiences. A course waiver does not result in awarding credit hours and consequently does not reduce the number of semester credit hours required for the degree or for any other degree-related requirements. A maximum of six semester credit hours may be waived, and waiver approval is granted only in special circumstances. Required courses in English, American history and American government cannot be waived. Waivers must be approved by the student's advisor, the head of the student's major department and the dean of the college. Waivers involving university general education requirements must in addition be approved by Academic Affairs.

3.8 Changing Majors

Students are advised to select a specific major no later than the end of the sophomore year. Students on probation, or not making satisfactory progress toward a degree, may change majors only with the approval of the dean of the college in which they wish to pursue a different degree. Students should contact the office of Student Academic Services of his or her college concerning procedures and forms to change majors and/or minors.

3.9 Deadline for Completion of Requirements

Degrees are conferred only on specific commencement dates. If a student completes requirements for a degree after a commencement date, the degree will be granted at the next scheduled commencement after the student files a graduation application. (See Academic Regulation 7.8 Graduation Application.) The student may request a certified statement of completion of graduation requirements from the Office of the Registrar.

3.10 Second Baccalaureate Degree

A student who receives a baccalaureate degree from OSU may use all applicable courses toward a second baccalaureate degree. An additional

baccalaureate degree may not be earned in the same major as the first degree, even if the option is different. For example, it is not possible to earn both a BS degree in Sociology with an option in Anthropology and a BS degree in Sociology with an option in Applied Sociology. Completion of requirements for more than one concentration may be noted on the official transcript, but a second degree will not be awarded. The Bachelor of University Studies cannot be earned as a second or concurrent OSU baccalaureate degree.

Second Graduate Degrees

The Oklahoma State Regents for Higher Education (OSRHE) do not allow students to obtain a second degree in the same "major" as the first degree, even if the options/concentrations are different. For example, it is not possible to earn both an MS degree in Physics with a concentration in Medical Physics and an MS degree in Physics with a concentration in Optics and Photonics. Completion of requirements for more than one concentration may be noted on the official transcript, but a second degree will not be awarded. Additionally, because of the OSRHE requirement for a coursework common core within a master's degree options, it should not be assumed that obtaining an additional option/concentration within the same degree program and level will be possible. Careful discussions and planning with the Graduate Program Coordinator prior to admission is imperative, if such study is desired.

3.11 Double Majors and Minors

A double major can be earned by satisfying the primary major's degree requirements and the major requirements for the second major plus any additional college/departmental requirements from the second major degree plan if deemed appropriate by the college home of the second major. If the general education courses are met from one college, they do not need to be met for the second major if it is in another college. The second major does not necessarily require hours above the minimum required for the first major. Whether additional hours are required generally depends upon the number of electives allowed by the first major and the extent of overlap between courses in the two majors.

Minors are available for many fields of study. A list of current minors and their requirements can be found on the Degree Requirements page of the Registrar's website and in the "Minors and Certificates (p. 871)" section of the *Catalog*. Undergraduate minors may not duplicate majors or options/concentrations within a student's curriculum (for example, a student who earns a BA in Art with an Art History concentration may earn a minor in Studio Art but not Art History).

All components of a student's curriculum, including multiple majors and/or minors, will be noted on the student's transcript while in-progress. Students should contact their college Student Academic Services office for information on adding or removing additional majors or minors from their curriculum.

3.12 Pre-Finals Week

Final examinations are scheduled at the end of each semester and are preceded by pre-finals week, which begins seven days prior to the first day of finals. During pre-finals week, all normal class activities will continue; however, no assignment, test or examination accounting for more than five percent of the course grade may be given; and no activity or field trip may be scheduled that conflicts with another class. This excludes makeup and laboratory examinations, out-of-class assignments or projects made prior to pre-finals week, and independent study courses. No student or campus organization may hold meetings, banquets, receptions, or may sponsor or participate in any activity, program, or related function that requires student participation. Additional

information may be obtained from the student services office of each college or the Office of Academic Affairs.

3.13 Final Exam Overload

In the event that a student has three or more final exams scheduled for a single day, that student is entitled to arrange with the faculty member instructing the highest numbered course (based on the 4-digit course number) to reschedule that examination at a time of mutual convenience during final exam week. (Common final exams are not among those to be rescheduled unless two common exams are scheduled at the same time.) The affected student should submit to the instructor a written request to take the affected exam at a different time at least two weeks prior to the beginning of final exam week. In seeking to provide relief to the student, the instructor may request that the student provide a copy of his or her schedule to confirm the difficulty. The instructor has one week prior to the beginning of final exam week to arrange a mutually convenient time for administration of the final exam, after which the student may take the request to the instructor's department head.

4. Credits

4.1 Residence Credit

Residence credit is awarded for work taken on campus (not through correspondence or credit earned by examination) or at a location officially designated as a residence center by the governing board of the institution (e.g., in-state military bases and OSU courses at OSU-Tulsa.)

4.2 Credit Earned Through Outreach and Correspondence

Outreach Credit

Outreach credit is earned by OSU-admitted students who complete credit courses offered during normal academic terms through OSU academic outreach programs. Outreach courses are also referred to as "electronically delivered" and "traditional off-campus courses and programs" in State Regents' policy. OSU accepts transfer outreach credit from other accredited institutions. Outreach credit is fully applicable toward the satisfaction of requirements for academic degrees and certificates consistent with State Regents' and institutional residence and degree requirements.

Correspondence Credit

Correspondence credit is earned by students who complete year-long correspondence study courses offered through Office of Individual Study. Admission to OSU is not required to earn correspondence credit unless the student intends to apply the credits toward an OSU degree. OSU will accept, toward a degree, a maximum of eight transfer semester credit hours earned through correspondence study from other accredited institutions. Credits earned through correspondence study cannot exceed one-fourth of the credits required for a baccalaureate degree. (See also Academic Regulations 2.2, 4.1, 5.5, and 6.11.)

4.3 Transfer Credit from Other Accredited Four-Year Institutions

Except as excluded in Academic Regulations 4.4 Transfer of Credit from Community Colleges and 7.2 Residence Credit Requirements, credits transferred from accredited senior colleges will apply toward baccalaureate degrees in the same way that they would apply had they been earned in residence at OSU. Students may not use transfer credits to satisfy more than one-half the major course requirements for a department unless they have the approval of the head of that department and the academic dean.

4.4 Transfer Credit from Community Colleges

Credits will be accepted by transfer from a community college to meet lower-division (i.e., 1000- and 2000-level courses) requirements only. A minimum of 60 semester credit hours must be earned at a senior college. Within these guidelines, transfer credits are subject to the individual colleges' degree requirements. See Academic Regulation 4.6 for degree applicability of credit for prior learning received from community college transcripts.

4.5 Transfer Credit from International Colleges and Universities

Credit is accepted based on equivalent standards as outlined in Academic Regulations 4.3 and 4.4. Credit is accepted based on the U.S. letter grade equivalents for the post-secondary grading method used in each country of study.

4.6 Credit for Prior Learning (Credit by Exam)

Credit for prior learning, also referred to as credit by exam, applies to learning acquired from, but not limited to, work and life experiences, non-degree granting institutions, professional training, military training, or open source learning. OSU uses the State Regents' recognized or approved methods to validate prior learning for awarding credit, including the following examinations: Advanced Placement Program (AP), International Baccalaureate Program (IB), College Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), and OSU Advanced Standing Examinations.

- a. credit earned by examination will be recorded on a student's OSU transcript with a neutral grade of "CBE-P" (Pass) if the student earns the equivalent of a "C" or better on the examination. No grade is recorded if the student fails the exam;
- b. credit earned by examination does not count toward the minimum of 30 hours that must be earned in residence (See Academic Regulation 7.2 Residence Credit Requirements);
- c. credit earned by examination through institution-independent exams, including AP, CLEP, IB and DSST (see military credit below), applies toward the minimum 60 semester credit hours that must be earned at a senior college, regardless of whether OSU received the exam scores directly from the primary testing source or from transfer transcripts (including high school, community college, and senior college transcripts). Credit earned through Advanced Standing (Departmental) Examinations will only apply toward the minimum 60 credit hours that must be earned at a senior college if the examination credit was awarded at a senior college. Advanced Standing (Departmental) Examinations from community colleges do not apply toward the 60 credit hours. Generic credit by exam (unknown exam type) will only apply toward the minimum 60 credit hours that must be earned at a senior college if the source of the credit is a senior college.
- d. a native speaker of a foreign language (one whose high-school level instruction was conducted principally in that language) cannot earn credit toward graduation in lower-division (1000-2000 level) courses in that language (See Academic Regulation 4.9 Foreign Language Credit for Native Speakers);

OSU Advanced Standing Examinations may be offered by academic departments on campus in subject areas not offered through the examination programs listed above. Any currently enrolled student whose travel, employment, extensive readings or educational experience appear

to have given the student proficiency in a subject that is offered at OSU, equivalent to the proficiency ordinarily expected of those students who take the subject in a regular class, may apply for an examination on the subject.

In addition to the regulations listed above, to qualify for an OSU Advanced Standing Examination the student must:

- a. be enrolled at OSU;
- b. not have taken an Advanced Standing exam over the course within the preceding six months;
- c. receive the approval of the head of the department and the associate dean in which the course is offered;
- d. present a valid student I.D. at the examination.

Information pertaining to OSU Advanced Standing Examinations may be obtained from the Office of Undergraduate Admissions.

Military Credit

OSU accepts credit as recommended by the American Council on Education (ACE), as published in "The Guide to the Evaluation of Military Experiences in the Armed Services," for selected educational experiences provided by the armed forces. OSU also accepts credit earned through the DSST exams (DANTES Subject Standardized tests) for active veteran and dependent military personnel.

Students who wish to establish credit for military training should request and submit a copy of their JST (Joint Services Transcript) and/or a DSST transcript to the Office of Undergraduate Admissions for evaluation.

Training Programs

OSU awards credit as recommended by the American Council on Education (ACE) in the "National Guide to Educational Credit for Training Programs." Students may present certificates of completion or a transcript from the ACE Registry of Credit Recommendations to the Office of Undergraduate Admissions for evaluation. OSU also awards credit based on the recommendation of the Board of Regents of the University of the State of New York in the NCCRS (National College Credit Recommendation Service, formerly National PONSIS).

4.7 Graduate Credit Hours for Undergraduates

An OSU undergraduate senior may take a limited number of courses for graduate credit toward an OSU degree program. Undergraduates admitted to an approved OSU accelerated master's degree program may utilize some of these credits for both a baccalaureate degree and graduate degree as outlined in section 11.15 of the Graduate College section of the University Catalog. All other undergraduates are subject to the graduate credit rules below.

The credits may not be utilized for both a baccalaureate degree and a graduate degree. The courses in question must be approved for graduate credit (as listed in the Course Catalog). The applicability of such graduate courses to a specific graduate program will be determined by the student's graduate advisory committee when the student enrolls in the Graduate College and submits a plan of study for an advanced degree.

To receive credit, a Graduate Credit for Seniors form must be completed by the student to receive graduate credit for courses taken. This form must be submitted to the Graduate College prior to the end of the second week of class instruction of a regular semester, or the first week of a

regular summer session. The required form is available on the Graduate College's website or in the Graduate College.

Such credit may be earned only if the following conditions are satisfied at the time of application:

1. Students must have a minimum overall (cumulative graduation/retention) undergraduate GPA of 3.00.
2. The total enrollment must not exceed 18 credit hours for a regular semester or nine credit hours for a summer session.
3. The student must be within 12 semester credit hours of completing requirements for the baccalaureate degree at the beginning of the semester or summer session in which courses are taken for graduate credit.
4. Admission to courses taken for graduate credit must have approval of the course instructor, the director of the undergraduate student services office associated with the student's major, and the dean of the Graduate College.

Not more than 15 semester credit hours taken while a senior may be approved for graduate credit. The student must earn a grade of "B" or higher in those courses for which he or she seeks graduate credit. Credit will be applied to the student's graduate transcript only after the student has been admitted as a graduate student at OSU. Students are cautioned that institutions other than OSU may or may not allow courses taken for graduate credit during the senior year to be transferred into one of their graduate programs.

4.8 Semester Credit Hour

A semester credit hour is equivalent to

- a. sixteen 50-minute class sessions (including examinations) conducted under the guidance of a qualified instructor plus 32 hours of preparation time, or
- b. sixteen 3-hour laboratory sessions, or
- c. sixteen 2-hour laboratory sessions plus 16 hours of preparation time.

These same equivalencies apply to outreach courses, short courses and other learning formats for which academic credit is awarded.

4.9 Foreign Language Credit for Native Speakers

A native speaker of a foreign language cannot enroll in or earn credit toward graduation in lower-division (1000- or 2000-level) courses in that language. A native speaker of a foreign language is defined as a person whose high-school level instruction was conducted principally in that language.

Native speakers may occasionally have valid reasons for establishing credit in a lower-division course. Requests for such consideration should be directed to the dean of the student's college for recommendation to the head of the Department of Foreign Languages and Literatures.

5. Enrollment

5.1 Course Numbering System

All courses are identified by numbers composed of four digits. The first digit indicates the class year in which the subject is ordinarily taken, although enrollment is not exclusive as to student classification (1-freshman, 2-sophomore, 3-junior, 4-senior, 5 and 6-graduate, 7-professional); the second and third digits identify the course within the field; and the last digit indicates the number of semester credit hours the course carries. For example, a course numbered 1123 should be

interpreted as a freshman, or beginning, level course carrying three hours of credit. A course number beginning with zero indicates that the course does not carry University credit. A course number ending in zero indicates that the course carries variable credit.
