HISTORY OF OKLAHOMA STATE UNIVERSITY

The story of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma's territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College in Payne County. OAMC's first students assembled for class on December 14, 1891, even though there were no buildings, no books and no curriculum. The college's first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie that were donated by four local homesteaders. The college's first six graduates received their diplomas in 1896.

Visitors to the OSU campus often marvel at its beauty and consistency of architecture. Much of the credit goes to OAMC's legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett's 25-year campus master plan envisioned some of the university's most famous and beautiful structures, including the Edmon Low Library and the OSU Student Union. A new campus master plan is guiding unprecedented construction that is making OSU more competitive in academics and athletics. Starting in the fall of 2008, OSU has opened the new Multimodal Transportation Terminal, the new North Classroom Building, the west end zone of Boone Pickens Stadium, refurbished Old Central, the Donald W. Reynolds Architecture Building, an upgraded Murray Hall and the new Henry Bellmon Research Center and an updated and expanded Student Union. Hall of Fame Avenue on the north and University Avenue on the south have both been significantly upgraded, and the university has completed a major overhaul making Monroe Street more pedestrian friendly.

OSU grew quite rapidly following World War II. The post-war years were marked by a huge enrollment surge. Some graduates from that era may remember "Veteran's Village," a thriving community that developed on the northwest edge of campus as veterans and their families moved into surplus military housing provided by the college. The mid-1940s also were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling and the NCAA championship in basketball. The next year, the wrestling and basketball teams repeated as national champions, and the football team won the Sugar Bowl.

Coaches and players from that era are now sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

People often ask when OSU made the transition from college to university. By the 1950s the college had grown substantially. Suggested names for a "new" institution were "Great Plains University," "International University," and "Atomic University." In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU would build academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988, and OSU-Tulsa was born in 1999.

Today, OSU has more than 37,000 students across five campuses and a presence in every Oklahoma county through its extension offices and experiment stations. From six graduates in 1896, to nearly 5,000 annually today, the small college on the prairie has grown and prospered far beyond the dreams of its founders. OSU teaching, research and graduates are making a bigger impact on the lives of people around the world than ever before. It's a great time to be a Cowboy!

MESSAGE FROM THE PRESIDENT

This is a momentous day on the beautiful campus of Oklahoma State University.

As an Oklahoma State University graduate, you join a long list of successful men and women who have gone before you. For decades, OSU graduates have used their creativity and passion to make an impact on our world. In fact, *Branding Success* is the name of our current fundraising campaign. We know each one of you is prepared to boldly go forward and find your own success.

We are honored to welcome all the family and friends that are here to join in this wonderful and meaningful accomplishment. We are thankful your graduate chose OSU. You should be extremely proud of the role you played in his or her success.

The entire OSU community – faculty, staff, alumni and donors – takes special pride in watching our students walk across the stage. This is the day that makes all our work worthwhile. OSU exists to help our students pursue their dreams and today we all rejoice!

Congratulations. Best wishes. Go Pokes!

Sincerely,

A handwritten signature in black ink that reads "V. Burns Hargis". The signature is written in a cursive, flowing style.

Alma Mater Hymn of Oklahoma State University

Words by Robert McCulloch, '49

Proud and immortal, Bright shines your name;
Oklahoma State, We herald your fame.
Ever you'll find us loyal and true,
To our Alma Mater, O. S. U.

Oklahoma

Written by Oscar Hammerstein II

Music by Richard Rodgers

Oklahoma, where the wind comes sweepin' down the plain,
And the wavin' wheat can sure smell sweet
When the wind comes right behind the rain.
Oklahoma, ev'ry night my honey lamb and I
Sit alone and talk and watch a hawk makin' lazy circles in the sky
We know we belong to the land
And the land we belong to is grand!
And when we say - Yeeow! A-yip-i-o-ee-ay!
We're only sayin' You're doin' fine, Oklahoma!
Oklahoma - O.K.

HONORARY DEGREE AND COMMENCEMENT SPEAKER

Thomas P. Stafford, Lt. General, USAF (retired) **Doctorate of Science**

General Thomas P. Stafford was born September 17, 1930, in Weatherford, Oklahoma, where he graduated from Weatherford High School in 1948. Graduating with honors in 1952 from the U.S. Naval Academy, Annapolis, Maryland, he was commissioned a second lieutenant in the newly formed United States Air Force. General Stafford has flown six rendezvous in space and logged 507 hours of space flight. He has flown over 120 different types of fixed wing and rotary aircraft and three different types of spacecraft.

General Stafford was selected among the second group of astronauts in September of 1962 by the National Aeronautics and Space Administration (NASA) to participate in Projects Gemini and Apollo. In December 1965, he piloted Gemini VI, the first rendezvous in space, and helped develop techniques to prove the basic theory and practicality of space rendezvous. In June of 1966, he commanded Gemini IX and performed a demonstration of an early rendezvous that would be used in Apollo, the first optical rendezvous, and a lunar orbit abort rendezvous. From August 1966 to October 1968, he headed the mission planning analysis and software development responsibilities for the astronaut group for Project Apollo.

In 1975, Stafford was commander of the Apollo-Soyuz flight, the first joint US-Soviet space mission. A brigadier general at the time, he became the first general officer to fly in space. Stafford was an instructor in flight test training and specialized academic subjects—establishing basic textbooks and directing the writing of flight test manuals for use by the staff and students. He is co-author of the *Pilot's Handbook for Performance Flight Testing* and the *Aerodynamics Handbook for Performance Flight Testing*.

In 2011, Stafford was awarded the National Aeronautic Association Wright Brothers Memorial Trophy, the most prestigious honor in aviation, which is presented annually to a living American for “significant public service of enduring value to aviation in the United States.” He also received the Air Force Association’s Lifetime Achievement Award on September 21, 2011. Stafford’s many military decorations and awards include the Air Force Distinguished Service Medal with two oak leaf clusters, Distinguished Flying Cross with oak leaf cluster, Air Force Commendation Medal and Air Force Outstanding Unit Award ribbon with three oak leaf clusters. Other awards presented to Stafford include the Presidential Medal of Freedom, NASA Distinguished Service Medal with oak leaf cluster, and the NASA Exceptional Service Medal with oak leaf cluster. Stafford received the Russian Medal “For Merit in Space Exploration” for outstanding contribution to the development of international cooperation in manned space flight.

As a native Oklahoman, Thomas Stafford is recognized for his many contributions and tributes throughout our great state. Stafford is heavily honored in his hometown of Weatherford, including his name being on the local airport, the Thomas P. Stafford Airport, and The Stafford Air & Space Museum. The museum houses one of the finest collections of aviation and space flight exhibits in the central United States. The museum is also an official Affiliate organization of the Smithsonian Institution.

COMMENCEMENT SPEAKER

Andrew W. Lester
A & M Board of Regents, Chairman

A founding member of the Edmond law firm of Lester, Loving & Davies, Andy Lester has a civil litigation and appellate practice that emphasizes civil rights, constitutional, business, and state and local government law. He is regularly involved in high profile legal matters, from serving as Special Counsel to the State House of Representatives during an impeachment inquiry and Chief Counsel to a Special Investigative Committee reviewing ethics allegations against a House Member, to facing off against the White House over the use of Executive Privilege.

While in law school, he served on President Ronald Reagan's Transition Team for the Equal Employment Opportunity Commission. Twenty years later, he chaired Governor Brad Henry's Law Enforcement/Corrections Transition Team and was a member of the Budget/Finance Transition Team, where he helped write Governor Henry's first State budget (which, he notes, closed a \$750,000,000 shortfall without raising taxes).

For eight years, he served as a United States Magistrate Judge. Lester is also an Adjunct Professor at Oklahoma City University School of Law, having taught State & Local Government, Employment Law, Criminal Law and International Law. He has written over 100 articles on professional and public policy issues, and has published one book, *Constitutional Law and Democracy*, a collection of speeches he gave in the former Soviet Union.

Lester is Chairman of the Board of Regents for the Oklahoma Agricultural & Mechanical Colleges. Appointed to the Board of Regents in 2007, he was reappointed to a full eight-year term in 2010, winning unanimous confirmation in the Oklahoma Senate. He previously chaired the Langston University Presidential Search Committee in 2011-2012, served as Chairman of the Board of Trustees for Langston University-Tulsa and Langston University-Oklahoma City, and is a former member of the Board of Trustees of Eureka College, President Reagan's alma mater.

Lester also chairs the Oklahoma Advisory Committee for the United States Commission on Civil Rights. He is a former President and Chairman of the Board of the Historical Society for the Tenth Judicial Circuit and remains a member of its Board of Directors. He served two terms as President of the Oklahoma Association of Municipal Attorneys, and is a member of the Advisory Board of the Salvation Army-Oklahoma City Command.

In 2012, Lester was named Edmond's Citizen of the Year. He is a past president of the Rotary Club of Edmond, and in 2011 was named the Rotarian of the Year.

Lester has appeared as counsel before committees of the United States Senate and the United States House of Representatives, and has been a featured guest on television shows such as *Hardball* with Chris Matthews and *The Situation Room* with Wolf Blitzer.

He attended Ludwig-Maximilians-University in Munich, Germany, received his A.B. from Duke University, and his M.S. in Foreign Service and his J.D. from Georgetown University.

Andy and Barbara Lester have been married over 30 years. Their daughter, Susan Lester, is a member of the Oklahoma State University Spring 2013 graduating class.

ADDITIONAL FALL 2012 DEGREE RECIPIENTS

OSU fall degree candidates are invited to participate in the OSU fall commencement ceremony, and their names are listed in the fall commencement book. However, because the fall commencement book goes to print shortly after November 1, it is not possible to include candidates who apply for graduation after that date. This section recognizes these degree recipients, some of whom will participate in today's ceremony.

The list of degree candidates was prepared before final grades were reported, and inclusion herein does not constitute evidence of graduation. Final action to ensure an accurate listing of names of all persons qualified for degrees could not be compiled before this program went to print. The listing of a name in this program should not be construed as an indication that the person will in fact receive a degree from Oklahoma State University at this commencement. Conversely, the absence of a student's name from this list does not necessarily mean the person will not be awarded a degree. Final certification of degree and academic distinction will be made by the Colleges and the Registrar after candidates have completed all degree requirements.

ACADEMIC REGALIA

The robes, hats and hoods worn by faculty members and graduates as they march into the commencement hall, and even the different colors you see on them, have historical origins and significance.

During the Middle Ages, scholars at the earliest English and European universities wore wool or fur garments to stay warm in the drafty, stone buildings that were poorly heated. Most of the scholars were also monks or priests, and as such had the hair shaved from the crowns of their heads in the distinctive clerical tonsure. Most wore cloaks that included a hood that could be pulled up to keep their heads warm. The academic gowns and hoods were adapted from both secular and clerical garments of the time, and the hood was chosen by the early scholars to indicate by color, trim or binding the degree held by the wearer. The style of academic dress most frequently worn in the United States dates back to colonial times, although it was not formally adopted until near the end of the 19th Century, when it was chosen as appropriate attire by the Intercollegiate Commission during a meeting in New York. It has remained the general standard in America since, although some variations occur at individual institutions. In the United States, black is the traditional color for academic gowns, although some institutions allow holders of doctoral degrees to wear robes in the university's colors.

The sleeves of the robes vary, depending on the degree held by the wearer. The bachelor's robe has long, pointed sleeves. The master's robe has sleeves that are oblong and closed at the ends, with slits through which the arms may be extended. The doctoral robe has a full sleeve with a velvet facing on the front and at the neck, and three velvet bars on each sleeve. The velvet may be black or of a color that symbolizes the degree held by the wearer.

The head covering most commonly used in the United States is the square, tasseled "mortarboard." Some American universities, however, use berets, and in other countries a variety of styles of head coverings is worn with academic regalia. The tassel is usually black and is worn over the left front quarter of the mortarboard. Holders of doctoral degrees may wear gold tassels.

The hood is the most distinctive feature of American academic dress, which through color and design may indicate the wearer's degree and the institution at which that degree was earned. Hoods are lined with the colors of the institution that awards the degree, and may be faced with the color designating the degree awarded. Hoods vary in length. The bachelor's hood is about three feet long, the master's slightly longer and the doctoral version is longer still and is decorated with broad color panels.

Candidates for advanced or professional degrees wear hoods symbolic of the degree. The color of the trim of the hood and the sleeve chevrons and panels of the academic gown are distinctive of the degree as follows:

<u>Degree:</u>	<u>Gown:</u>	<u>Hood:</u>
Doctor of Philosophy	Black Velvet Panels	Blue Velvet Collar and Sleeve Chevrons
Doctor of Education	Light Blue Velvet	Light Blue Collar Panels and Sleeve Chevrons
Doctor of Osteopathic Medicine	Kelly Green Velvet	Kelly Green Velvet Collar Panels and Sleeve Chevrons
Doctor of Veterinary Medicine	Steel Gray Panels	Steel Gray Collar and Sleeve Chevrons
Master of Arts	White Collar	
Master of Science	Golden Yellow Collar	

The colors of Oklahoma State University are embodied in the lining of the hood (orange and black chevron). The colors of the hoods of faculty and guests are those of the institution conferring the degree.

Portions of the proceeding were adapted from the commencement program of the University of Arkansas at Little Rock.
