Unless the applicant has successfully completed all of the above, Oklahoma State University will not make a recommendation or verify program completion for an in-state or out-of-state certificate.

A candidate assigned the grade of "F" in any section of clinical practice will not qualify for a recommendation for a license or any level of certification. Requirements for certification and degrees are not necessarily the same thing. Candidates must meet all other certification requirements, including portfolio and foreign language proficiency if appropriate.

# COLLEGE OF ENGINEERING, ARCHITECTURE AND TECHNOLOGY

## College Administration

Paul J. Tikalsky, PhD, PE, F.ASCE, F.ACI, EACR—Dean and Donald & Cathey Humphreys Chair

Randy Seitsinger, FAIA—Associate Dean of Academic Affairs and AT&T Professor

Charles F. Bunting, PhD—Associate Dean for Research and Henry Bellmon Chair

Raman P. Singh, PhD—Associate Dean for Engineering, OSU-Tulsa and Director, Helmerich Research Center

Ed Kirtley, MA—Assistant Dean of Outreach and Extension

## Campus Address and Phone

**Address:** 201 Advanced Technology Research Center, Stillwater, OK 74078

**Phone:** 405-744-5140

**Website:** [www.ceat.okstate.edu](http://www.ceat.okstate.edu) (<http://www.ceat.okstate.edu>)

The vision of the College of Engineering, Architecture and Technology (CEAT) is "To be the leading public university in engineering, architecture, and technology that engages diverse students, faculty and staff with industry and government to deliver excellence in advanced learning, leadership, relevant research, and benefits to society."

"Our mission is to provide a diverse population with a quality education in engineering, architecture and technology. Through CEAT, OSU develops ethical leaders who promote economic and community vitality with technical knowledge, innovation, and communication expertise that connects scientific research, professional education, technical assistance and scholarship to industry, the State of Oklahoma, the nation and the world."

The College of Engineering, Architecture and Technology is a community of scholars, innovators and leaders that is transforming our lives. The preparation of professionals that anticipate the needs of a changing world is at the nexus of society, economy, ethics, sustainability and humanity. The College is committed to training professionals that innovate, design and build projects that provide solutions for both the developed and the developing world.

The mission of the College of Engineering, Architecture and Technology (CEAT) is one that embraces students from diverse backgrounds to imagine and discover the challenges of engineering, architecture and technology, and to bring about innovation using their proficiency in science, mathematics, communications, ethics and humanity. This mission is built on the foundation of the University's mission and the expectations of a world class university.

As Oklahoma's land-grant university, CEAT fulfills the most fundamental premise that founded OSU; to promote economic and community viability through technical assistance, academic and professional education, training and communication in the areas of engineering, architecture and technology, and by connecting scientific research and scholarship to industry, communities, and individual citizens in Oklahoma, the region and the world.

As we progress into the future, professionals with a higher education will continue to be largely responsible for shaping our world. The power they exercise is an exciting prospect and presents a sobering responsibility. Less complex problems have been solved and are now a part of history. Many difficult problems remain. The need for talented and highly trained professionals is obvious; one will be embarking on a lifetime of challenge as he or she prepares for a career in engineering, engineering technology or architecture at Oklahoma State University.

The College of Engineering, Architecture and Technology offers a complete spectrum of educational opportunities at both the undergraduate and graduate levels designed to give graduates the capability and flexibility to meet the ever-changing needs of a society that is committed to technological innovation. To make continuing contributions, engineers, architects and technologists must have many abilities at their command. The modern tools and processes of industry must be understood. The processes of design and analysis require a firm understanding of mathematics and the sciences. An effective engineer, architect or engineering technologist must develop sensitivity to human needs, ideas, institutions and cultures. These programs prepare graduates to be effective contributors within human organizations and provide an increased understanding of both the technical and non-technical factors that shape our human environment. With this firm foundation, and a commitment to lifelong learning, College of Engineering, Architecture and Technology graduates are fully prepared to make contributions to society throughout their professional careers.

The curriculum in each program provides the optimum combination of breadth in the enduring fundamentals and specialization in a discipline. Each curriculum sensitizes the student to ethical, social, cultural, and global issues that will shape their ideas and contributions. To equip the student to contribute to solutions at the cutting edge of technology, curricula are continuously evolving to include current applications of the principles. Through the combination of theory, practice and improved sensitivity to diverse issues, graduates will be prepared to support their diverse interests while positively contributing to the advancement of technology and the world.

## Academic Programs

Academic programs offered in the College of Engineering, Architecture and Technology culminate in the following degrees:

### Schools of Engineering

Bachelor of Science in Aerospace Engineering, Biosystems Engineering with options in bioprocessing and food processing, environment and natural resources, machine systems and agricultural engineering, and premedical; Chemical Engineering with options in biomedical/biochemical and premedical; Civil Engineering with an option in environmental; Computer Engineering; Electrical Engineering; Industrial Engineering and Management; and Mechanical Engineering with options in premedical.

Master of Science in Biosystems Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering with options in Control Systems and Optics and Photonics, Engineering and Technology Management, Environmental Engineering, Industrial Engineering and Management, Materials Science and Engineering, Mechanical and Aerospace Engineering with an option of Unmanned Aerial Systems and Petroleum engineering.

Doctor of Philosophy in Biosystems Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering and

Management, Materials Science and Engineering, and Mechanical and Aerospace Engineering.

## School of Architecture

Bachelor of Architecture, Bachelor of Architectural Engineering.

## Division of Engineering Technology

Bachelor of Science in Engineering Technology in Construction Management Technology with options in building and heavy, Electrical Engineering Technology with a computer option, Fire Protection and Safety Engineering Technology, and Mechanical Engineering Technology.

## Accreditation

Undergraduate engineering programs are separately accredited by the Engineering Accreditation Commission of the ABET, <http://www.abet.org>.

The Bachelor of Architecture program is accredited by the National Architectural Accrediting Board, Inc., <http://www.naab.org/>

The undergraduate engineering technology programs are separately accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

## High School Preparation

In addition to the curricular requirements for admission specified by OSU, the College of Engineering, Architecture and Technology strongly recommends that students have a fourth year of mathematics and an additional year of laboratory science.

Initial placement in OSU mathematics courses is by placement examination to ensure that each student will be challenged, but has the preparation to be successful in the first mathematics course. Placement in science courses is based on prior preparation in the science and completion of or placement beyond prerequisite mathematics courses. When appropriate, a student with an exceptionally strong background can obtain academic credit by advanced standing examination or by College Level Examination Program (CLEP) tests.

### Enrolling in the College of Engineering, Architecture, and Technology (effective fall 2018)

A freshman student who has been admitted to OSU can be enrolled directly into a CEAT pre-professional degree program if the student has both of the following performance requirements:

1. an ACT Composite score of 24 or higher, or a total SAT score of 1090 or higher, or a SAT R score of 1160 or higher, and
2. an ACT MATH score of 24 or higher, or a SAT Math score of 560 or higher, or a SAT-R Math score of 600 or higher, OR achieve a GPA of 3.5 or higher (on a 4.00 grading scale standard weighting (1.0) to The College Board's Advanced Placement courses and the International Baccalaureate higher-level courses) in the required 15 core high school courses.

*SAT total score is the combination of Critical Reading and Math sections only. SAT-R scores indicated here represent tests taken on or after the National March 2016 test.*

Prospective engineering, architecture, or technology students who do not meet these performance qualifications may enroll in any other college or may enroll in University College in the Pre-CEAT program and work with a CEAT-focused advisor to gain the academic background for enrollment in CEAT pre-professional degree programs. That student will be enrolled

in a CEAT pre-professional degree program when he/she has met the following performance requirements:

1. passed all prerequisite MATH courses needed to enroll in Calculus I or Technology Calculus I, and
2. has an OSU Cumulative GPA of at least 2.5.

Transfer students can enroll directly into a CEAT pre-professional degree program if they satisfy all OSU resident transfer student requirements, have a GPA of at least 2.5, and are qualified to enroll in Calculus I or higher in the MATH sequence. Other transfer students may enroll in University College in the Pre-CEAT program until they meet the qualifications for enrolling in a CEAT pre-professional program.

Students transferring to CEAT pre-professional school from another major at OSU must meet the same requirements for admission as a student transferring from another college or university.

International student applications must be received by June 15, November 1 or April 1 for the fall, spring and summer terms, respectively, to be considered for admission to pre-professional school.

## Special College Programs

**CEAT Living/ Learning Program.** CEAT residential floors have been established in Parker Hall and Allen Hall for both male and female CEAT students. Parker Hall is reserved for CEAT Freshman and Allen Hall is reserved for CEAT sophomores and upperclassmen. Living/ Learning Programs provide an atmosphere that is conducive to study. The students experience a community where they can work together, have access to tutoring and other services, and serve as role models for other students. Special activities are planned for the floors, including events with faculty and other leaders. They are highly recommended for student success in CEAT.

**CEAT Summer Bridge** is a two-week residential, on campus, preparatory program for incoming freshmen students who have been accepted to Oklahoma State University and who plan to study a major in CEAT. This program is designed to guide students as they transition from high school to the academic rigors of CEAT coursework through academic review, mock exams, orientation seminars and engineering design projects. In addition, the students will build relationships with peers, faculty and staff, and start the process of building strong study habits with the assistance of CEAT upperclassmen as mentors. <https://studentservices.okstate.edu/summer-bridge-program>.

The **Discover Architecture Program** introduces high school students to Architecture, Architectural Engineering, Landscape Architecture, and Construction Science and Management. This week-long summer program has academic projects that are designed to stimulate creativity and be fun! Participants live in campus housing, and complete projects that include the application of sketching and designing in model, using computer presentation tools, and several hands-on building projects to help students understand if a career in the building arts might be right for them. The program is offered by Oklahoma State University faculty, at the Stillwater campus, for students who are at least 16 years of age. <http://arch-ceat.okstate.edu/discover-architecture>.

The **Pre-CEAT Program** is housed within University College but located in CEAT. This program provides a focused advisor, tutoring, and other activities to help students get academically ready for success in CEAT.

**CEAT Scholars Program** provides educational experiences for a select group of gifted students to develop and enhance their technical

competence, world view, professional and public responsibility, and leadership skills. Based on demonstrated academic and leadership potential, approximately 25 freshmen are selected each year, by application and interview, to enter this four-year program. Students participate in special lectures, regional tours, residence hall programs, seminars, personal development activities, faculty mentoring, and summer tours in the U.S. and abroad. <https://ceat.okstate.edu/ceat-scholars-program>

**CEAT Freshman Research Scholars Program** provides opportunities for accelerated intellectual development of a select group of students. Each student is assigned a research faculty mentor and participates in a research program. The initial assignment is for one year and it may be extended based on student interest, research project continuation and mentor availability. <https://scholardevelopment.okstate.edu/freshman-research-scholars/prospective-freshman-researchers>.

**WW Allen Scholars Program** is designed for top academic students, who also show significant promise in leadership and career ambition. The program is highlighted by the opportunity to pursue a master's degree at the University of Cambridge in the UK following graduation from OSU. Details at <http://ceat.okstate.edu/w-w-allen-scholars-program>.

**Phillips 66 SHIELD Scholars Program** provides scholarships and professional and personal development through enrichment activities, seminars and community service. The program is for current students enrolled full-time in chemical engineering, civil engineering, computer engineering, electrical engineering, fire protection safety technology, industrial engineering, mechanical engineering or materials engineering. <http://ceat.okstate.edu/scholarships>.

**CEAT Grand Challenge Scholars Programs** focus on preparing students to be the generation that solves the grand challenges facing society in this century with emphasis on integrative research, interdisciplinary curriculums, entrepreneurship, global understanding and service learning. <https://ceat.okstate.edu/gcsp>

**CEAT Diversity Programs (CDP)** provide services to support, retain and graduate all CEAT students which includes underrepresented populations such as Native Americans, African Americans, Hispanic/Latino Americans, Women, First-Generation, Non-Traditional, Disabled, Veterans, and LGBTQ. All students are welcome to participate, learn and celebrate the value of a diverse CEAT community. <https://studentservices.okstate.edu/diversity>.

**CEAT Career Services** is dedicated to helping students reach their career goals by providing individualized career assistance, specialized workshops, and resources on a variety of topics including: career exploration, job search strategies, resume and job search correspondence preparation, interviewing skills, and salary negotiation. The office also supports the Cooperative Education Program (Co-op) and provides individual career assessments for undergraduate students. As part of the OSU Career Services system, CEAT Career Services works in close partnership with CEAT Student Academic Services to link academic and career success <http://studentservices.okstate.edu/career> (<http://studentservices.okstate.edu/career>).

**CEAT Cooperative Education Program (Co-op)** provides an avenue for undergraduate students to complete a year of full-time work experience directly related to their academic studies. Co-op students alternate terms of major-related employment with terms of full-time course work to achieve a quality education and industry experience. In addition to professional development, participation in the Co-op program earns academic credit and maintains full-time enrollment status for students

during the work experience terms. <http://studentservices.okstate.edu/cs/co-op>.

**CEAT Study Abroad Programs** offer students the opportunity to expand their education by traveling and studying outside the United States. Opportunities range from shorter faculty-led programs to semester exchange opportunities.

## Departmental Clubs and Honor Societies

Alpha Epsilon (Biosystems and Agricultural Engineering Honor Society)  
Alpha Omega Epsilon (Professional and Social Sorority for Women in Engineering)

Alpha Pi Mu (Industrial Engineering and Management Honor Society)

Alpha Rho Chi (Architecture Honor Society)

Amateur Radio Club - W5YJ

American Association of Drilling Engineers

American Indian Science and Engineering Society

American Institute of Architecture Students

American Institute of Aeronautics & Astronautics

American Institute of Chemical Engineers

American Production and Inventory Control Society

American Society for Quality

American Society of Agricultural and Biological Engineers

American Society of Civil Engineers

American Society of Heating, Refrigeration and Air Conditioning Engineers

American Society of Mechanical Engineers

American Society of Safety Engineers

Architectural Engineering Institute

Architecture Students Teaching Elementary Kids (ASTEK)

CEAT Student Council

CHEM Kidz

Chi Epsilon (Civil and Architectural Engineering Honor Society)

Construction Management Society

Construction Specifications Institute

Cowboy Motorsports Quarter Scale Tractor Team

Engineers Without Borders

Eta Kappa Nu (Electrical and Computer Engineering Honor Society)

Fire Protection Society

Institute for Operations Research and the Management Sciences

Institute of Electrical and Electronics Engineers (two student branches)

Institute of Industrial and Systems Engineers

Institute of Transportation Engineers

International Fluid Power Society

International Society for Automation

Omega Chi Epsilon (Chemical Engineering Honor Society)

Pi Tau Sigma (Honorary Mechanical Engineering Society)

Sigma Gamma Tau (Honorary Aerospace Engineering Society)

Sigma Lambda Chi (Construction Management Technology Honor Society)

Society of Automotive Engineers

Society of Automotive Engineers Formula Racing Team

Society of Automotive Engineers Mini-Baja Team

Society of Black Engineers, Technologists & Architects

Society of Fire Protection Engineers

Society of Hispanic Professional Engineers

Society of Petroleum Engineers

Society of Manufacturing Engineers

Society of Women Engineers

Student Association of Fire Investigators

Student Firefighter Combat Challenge Team

Tau Alpha Pi (Technology Student's Honor Society)

Tau Beta Pi (Engineering Student's Honor Society)

## CEAT Honors Program

The OSU Honors College provides challenges for undergraduate students of unusually high ability, motivation and initiative. Honors classes, seminars and independent study courses are designed to align students and instructors in a manner that encourages discussion and provides a mature approach to learning.

Each honors course completed with an "A" or "B" grade is identified on the student's transcript as such. A special bachelor's degree honors diploma is conferred upon graduation for successful completion of all OSU Honors College requirements.

Information regarding The Honors College at OSU, and Scholar Development/Leadership Programs can be found on the Honors College tab in the left menu.

## Scholarships

Numerous CEAT scholarships are funded through the generosity of alumni, private, and corporate donations. Awards are available for undergraduate students at all levels, and are granted on the basis of academic achievement, campus involvement and leadership potential, as well as financial need. Freshmen and undergraduate transfer students are automatically considered for most CEAT scholarships, based off of the student's eligibility through their application and acceptance to OSU and CEAT, accepted by February 1st for priority scholarship consideration, students should apply and be accepted to CEAT by November 1st. All CEAT scholarships are awarded on a competitive basis. Some scholarships require additional applications. Details can be found at <http://ceat.okstate.edu/scholarships>. Current undergraduate (continuing) students should submit applications for general CEAT scholarships online at <http://ceat.okstate.edu/scholarships>. Students should also check with their individual departments for information regarding scholarships specific to their majors.

### Computing Requirements

For students in Engineering, Architecture and Technology, the college requires that all students have several basic tools. Students in the College must have a scientific calculator and a laptop computer. The scientific calculator should be capable of computing trigonometric functions, logarithmic and natural logarithmic functions, basic statistical analysis, and all algebraic functions. The laptop requirements are published at <http://ceat-its.okstate.edu>.

### Academic Advising

The College's Office of Student Academic Services (<http://studentservices.okstate.edu/>) provides advisement for all CEAT freshman students except for BAE students who are advised in their academic department. Other CEAT students will transfer to advisement within their academic unit prior to or at admission to Professional School.

University College provides advisement for OSU students who do not meet the qualifications for enrollment in CEAT but wish to become qualified to enroll in a CEAT degree program in the future. Each student is personally advised in the planning and scheduling of his or her course work, assisted with the selection of a major, and is counseled and advised individually on matters of career choice, activities at OSU, and on other academic matters.

Each CEAT student, and his or her adviser, carefully selects general education, core engineering or architecture, and elective courses to meet

the curriculum objectives and accreditation criteria. To assist students in planning and mapping their academic success, an electronic account is created for each student at the time of initial enrollment. Students have access to their personal account, via the STAR System, where they can review their advising materials, degree sheet, flowchart and other documents. The adviser assists the student with academic decisions and works to ensure accuracy and compliance; however, the ultimate responsibility for meeting degree requirements rests with the student.

## The College of Engineering, Architecture, and Technology Professional School Concept

**Pre-Professional School.** In each CEAT pre-professional degree program, lower-division course work is devoted to preparing the student for professional school. The content of the pre-professional school program is similar for most engineering degree programs and includes English composition and technical course work devoted to mathematics through calculus and differential equations, general chemistry, general physics, engineering and engineering sciences. Requirements vary for Architecture, and Technology degree programs.

Once a student is admitted into the pre-professional school program, he/she will complete course work that is typically taken during the first two years of an engineering, architecture, or technology curriculum. Near the completion of this course work, the student is considered for admission to one of the professional schools of the College to continue in the upper-division program. After satisfying admission standards, the student is then permitted to pursue a curriculum leading to the designated undergraduate degree in his/ her discipline.

**Professional School.** Upon formal admission to the professional school of his or her choice, the student proceeds through the junior and senior years of the degree program, fulfilling "Major Requirements" as listed in the right column on the degree requirement sheet. Degree requirement sheets can be found in the university's publication of *Undergraduate Programs and Requirements*, available online.

## Engineering Professional School Admission Requirements

All undergraduate CEAT students must follow the curriculum and requirements for their chosen major, as prescribed in the university's publication of *Undergraduate Programs and Requirements*, for their matriculation date, or upon their election, a later annual version of that publication. Students are encouraged to carefully read the program requirements for their chosen major and matriculation date.

To be admitted to one of the professional schools of engineering, the student must:

1. Complete a minimum of 60 credit hours of courses listed on the degree requirement sheet from an accredited institution of higher learning.
2. Complete all required courses noted on the degree requirement sheet.
3. Earn a grade of "C" or better in technical courses required for the degree and taken prior to admission to professional school. In these courses, meet or exceed the **Technical GPA** requirement listed in the *Departmental GPA Requirements* section below (when applicable).  
Note: Technical courses include astronomy, biology, biochemistry, chemistry, geology, engineering (BAE, CHE, CIVE, IEM, ECEN, ENGR,

ENSC, MAE), math, physics, statistics, zoology, and any additional science courses listed on the degree requirement sheet.

4. Complete a minimum of 12 credit hours of courses at OSU, required for the degree. In these courses, meet or exceed the **OSU GPA** requirement listed in the *Departmental GPA Requirements* section below (when applicable).
5. Complete a minimum of 9 credit hours of technical courses at OSU, required for the degree. In these courses, meet or exceed the **OSU Technical GPA** (all technical courses required for the degree taken at OSU) listed in the *Departmental GPA Requirements* section below (when applicable).
6. Earn a final grade of "C" or better in all courses submitted to satisfy the University's English requirement.
7. Meet any additional requirements for the selected major, as specified below.
8. Demonstrate an acceptable level of academic competence in subject material comparable to that covered in pre-professional school as defined by the selected professional school below. Such demonstration may be by completion of course work or by examination with not more than half the requirements satisfied by examination.
9. Demonstrate an acceptable level of professional potential, including academic integrity and ethical behavior, as determined by the department head.

## Departmental GPA Requirements

All specified GPAs are calculated based on the last grade earned in repeated courses. The minimum GPA requirements by school, and any additional requirements, are as follows:

1. School of Biosystems and Agricultural Engineering:  
GPA Requirements for Professional School: Technical GPA-2.70, OSU GPA-2.70, OSU Technical GPA-2.70 and a grade of "C" or better in each course that is a prerequisite for a major course.
2. School of Chemical Engineering:  
GPA Requirements for Professional School: Technical GPA-2.70, OSU GPA-2.50, OSU Technical GPA-2.70. A final grade of "C" or better must be achieved in the required pre-professional courses (noted on the degree requirement sheet). If a "C" is obtained in ENGL 1113 Composition I or ENGL 1313 Critical Analysis and Writing I, ENGL 1213 Composition II or ENGL 1413 Critical Analysis and Writing II is also required.
3. School of Civil and Environmental Engineering:  
GPA Requirements for Professional School: Technical GPA-2.70, OSU GPA-2.50, OSU Technical GPA-2.70, and a grade of "C" or better in each course that is a prerequisite for a CIVE course and in all required technical pre-professional courses (noted on the degree requirement sheet) whether taken prior to professional school or not. Students may enroll in no more than nine hours of professional school major requirements prior to admission to professional school unless they secure permission from the head of the school. However, enrollment preference in such courses will be given to students admitted to the professional school.
4. School of Electrical and Computer Engineering:  
GPA Requirements for Professional School: Technical GPA-2.70, OSU GPA-2.60, OSU Technical GPA-2.70.
5. School of Industrial Engineering and Management: GPA Requirements for Professional School: Technical GPA-2.50, and a grade of "C" or better in each course that is a prerequisite for an IEM course and in all technical pre-professional courses (noted on the

degree requirement sheet) whether taken prior to professional school or not.

6. School of Mechanical and Aerospace Engineering: GPA Admission Requirements for Professional School: Technical GPA 3.0, OSU GPA 3.0, OSU Technical GPA-3.0.  
Admission and degree requirements: a grade of "C" or better in each course that is a prerequisite for an MAE course and in all technical pre-professional courses (noted on the degree requirement sheet) whether taken prior to professional school or not. Minimum GPA requirements for graduation: Overall GPA 2.50 GPA for MAE prefix courses-2.5 GPA for MAE 4000 level courses-2.5. Students may enroll in no more than nine hours of upper-division major requirements prior to admission to professional school unless they secure permission from the head of the school. However, enrollment preference in such courses will be given to students admitted to the professional school.

To be admitted to a degree program in the School of Architecture or Division of Technology:

see the requirements under School of Architecture or Division of Engineering Technology in the Department Areas above.

## Academic Areas

- Biosystems and Agricultural Engineering (p. 1440)
- Chemical Engineering (p. 1450)
- Civil and Environmental Engineering (p. 1459)
- Construction Management Technology (p. 1465)
- Division of Engineering Technology (p. 1471)
- Electrical and Computer Engineering (p. 1472)
- Electrical Engineering Technology (p. 1479)
- Engineering Dean's office and CEAT Distance Education (p. 1483)
- Fire Protection and Safety Engineering Technology (p. 1485)
- Industrial Engineering and Management (p. 1492)
- Materials Science and Engineering (p. 1496)
- Mechanical and Aerospace Engineering (p. 1497)
- Mechanical Engineering Technology (p. 1506)
- School of Architecture (p. 1510)

## Undergraduate Programs

- Aerospace Engineering, BSAE (p. 1500)
- Architectural Engineering: Construction Project Management, BEN (p. 1515)
- Architectural Engineering: Mechanical, Electrical and Plumbing, BEN (p. 1517)
- Architecture Engineering: Structures, BEN (p. 1521)
- Architecture, BAR (p. 1523)
- Biosystems Engineering: Bioprocessing & Food Processing, BSBE (p. 1442)
- Biosystems Engineering: Environmental and Natural Resources, BSBE (p. 1444)
- Biosystems Engineering: Machine Systems & Agricultural Engineering, BSBE (p. 1446)
- Biosystems Engineering: Pre-Medical, BSBE (p. 1448)
- Chemical Engineering, BSCH (p. 1452)
- Chemical Engineering: Biomedical/Biochemical, BS (p. 1454)
- Chemical Engineering: Pre-Medical, BSCH (p. 1456)

- Civil Engineering, BSCV (p. 1461)
- Civil Engineering: Environmental, BSCV (p. 1463)
- Computer Engineering, BSCP (p. 1475)
- Construction Management Technology: Building, BSET (p. 1467)
- Construction Management Technology: Heavy, BSET (p. 1469)
- Electrical Engineering Technology, BSET (p. 1481)
- Electrical Engineering Technology: Computer, BSET (p. 1482)
- Electrical Engineering, BSEE (p. 1477)
- Fire Protection and Safety Engineering Technology, BSET (p. 1487)
- Industrial Engineering and Management, BSIE (p. 1494)
- Mechanical Engineering Technology, BSET (p. 1508)
- Mechanical Engineering, BSME (p. 1502)
- Mechanical Engineering: Pre-Medical, BSME (p. 1504)
- Unmanned Aerial Systems, MS/PhD (p. 1498)
- Petroleum Engineering, MS (p. 1434)

## Minors

### Undergraduate Minors

Contact the following individuals for information on areas of concentration:

#### Engineering

**Professor Randy Seitsinger**, randy.seitsinger@okstate.edu, 201 ATRC, 744-5140

#### Architecture

**Professor Suzanne Bilbeisi**, suzanne.bilbeisi@okstate.edu, 101AK Donald W Reynolds Bldg, 744-9051

#### Fire Protection & Safety Technology

**Dr. Qingsheng Wang**, qingsheng.wang@okstate.edu, 499 Cordell South, 744-2673

- Architectural Studies: Architecture and Entrepreneurship (ASAE), Minor (p. 1519)
- Architectural Studies: History and Theory (ASHT), Minor (p. 1520)
- Fire Suppression and Emergency Operations (FSEO), Minor (p. 1489)
- Homeland Security Science and Technology (HSST), Minor (p. 1490)
- Nuclear Engineering (NENG), Minor (p. 1484)
- Petroleum Engineering (PETE), Minor (p. 1458)
- Safety and Exposure Sciences (SAES), Minor (p. 1491)

## Graduate Programs

- Biosystems Engineering, MS/PhD (p. 1440)
- Chemical Engineering, MS/PhD (p. 1451)
- Civil Engineering, MS/PhD (p. 1459)
- Electrical Engineering, MS/PhD (p. 1473)
- Control Systems, MS (p. 1473)
- Optics and Photonics, MS (p. 1473)
- Engineering and Technology Management, MS (p. 1473)
- Fire Safety and Explosion Protection, MS (p. 1485)
- Environmental Engineering, MS (p. 1459)
- Industrial Engineering and Management, MS/PhD (p. 1493)
- Materials Science and Engineering, MS/PhD (p. 1496)
- Mechanical and Aerospace Engineering, MS/PhD (p. 1498)

## Biosystems and Agricultural Engineering

The School of Biosystems and Agricultural Engineering is administered jointly by the College of Agricultural Sciences and Natural Resources and the College of Engineering, Architecture and Technology.

Biosystems engineers are professionals who create and adapt engineering knowledge and technologies for the efficient and effective production, processing, storage, handling and distribution of food, feed, fiber and other biological products, while at the same time providing for a quality environment and preserving and protecting natural resources. Biosystems engineers directly address problems and opportunities related to food, water, energy, and the environment – all of which are critical to the quality of life in our society. Subject-matter specialization is provided through the following three undergraduate option areas: bioprocessing and food processing, environment and natural resources and biomechanical.

Biosystems engineering courses integrate engineering sciences, physical sciences, and biological sciences, and teach students to address real-world challenges. With the guidance of experienced faculty, students work both as individuals and in teams to design creative solutions to complex problems.

The overall objective of the undergraduate biosystems engineering degree program is to provide the comprehensive education necessary to prepare students for successful, productive and rewarding careers in engineering for agricultural, food and biological systems.

Within a few years of graduation, Biosystems Engineering program graduates will become top professionals, managers or leaders in a wide variety of industries and organizations involved with biosystems engineering, where they apply discovery, problem solving, and leadership skills for the benefit of their organization and the society at large.

The undergraduate educational program is divided into two components –pre-professional and professional. In the pre-professional portion of the biosystems engineering program (usually equivalent to two years of study) the focus is on the underlying biological, physical, chemical and mathematical principles of engineering, supplemented by appropriate general education courses in English, social sciences and humanities.

Students who demonstrate proficiency in this portion of the program are eligible for admission to the professional school in biosystems engineering.

The professional school portion of the biosystems engineering curriculum (typically two years) builds systematically upon the scientific knowledge acquired in the pre-professional curriculum. In professional school, students have the opportunity to focus on the option areas listed above. The degree is accredited by the Engineering Accreditation Commission of ABET (see [www.abet.org](http://www.abet.org) (<http://www.abet.org>)) under criteria for biological engineering and similarly named programs.

Each professional school course builds upon preceding engineering courses to develop in the student the ability to identify and solve meaningful engineering problems. The course work is specifically sequenced and interrelated to provide design experience at each level, leading to progressively more complex, open-ended problems. The course work incorporates the social and economic aspects of technical problems, and stresses the responsibilities of engineering professionals to behave ethically and promote occupational and public safety. The

program culminates in senior year design courses in which students integrate the analysis, synthesis and other abilities they have developed throughout the earlier portions of their study into a capstone experience. At this point, students are able to design components, systems and processes that meet specific requirements, including such pertinent societal considerations as ethics, safety, environmental impact and aesthetics. The students have also developed and displayed the ability to conduct experiments essential to specific studies and to analyze the experimental results that lead to meaningful conclusions.

The biosystems engineering program verifies that our students possess core engineering knowledge and capability by requiring students to take the Fundamentals of Engineering exam, which is an important step toward becoming a professional engineer. All candidates for the BS degree in biosystems engineering must take the Fundamentals of Engineering exam prior to receiving their degree.

An integral part of this education continuum, from basic science through comprehensive engineering design, are learning experiences that facilitate the students' abilities to function effectively in both individual and team environments. To achieve this, the program provides every graduate with adequate learning experiences to develop effective written and oral communication skills. State-of-the-art computational tools are introduced and utilized as a part of their problem-solving experiences. Finally, the students' experience in solving ever-more-challenging problems enables them to continue to learn independently throughout their professional careers.

A wide variety of employment opportunities are available for biosystems engineers in industry, public service and education. Some of these opportunities include positions in governmental agencies, consulting engineering firms, and agricultural and food equipment industries. Biosystems engineers are employed throughout the U.S. as well as internationally.

Students interested in a degree in biosystems engineering may initially enroll in the College of Engineering, Architecture and Technology or the College of Agricultural Sciences and Natural Resources. Through either college, they will be assigned a Biosystems engineering advisor.

### Undergraduate Programs

- Biosystems Engineering: Bioprocessing & Food Processing, BSBE (p. 1442)
- Biosystems Engineering: Environmental and Natural Resources, BSBE (p. 1444)
- Biosystems Engineering: Machine Systems & Agricultural Engineering, BSBE (p. 1446)
- Biosystems Engineering: Pre-Medical, BSBE (p. 1448)

### Graduate Programs

The Department of Biosystems and Agricultural Engineering offers programs leading to the Master of Science and Doctor of Philosophy degrees in biosystems engineering. These degrees emphasize research and development.

Excellent laboratory and computer facilities are available for students to explore research and design in such areas as bioprocessing, food engineering, sensor and control technology, waste management and utilization, hydrology, water quality, porous media flow, and intelligent systems for agricultural machine design and production.

Research projects are supported by the Oklahoma Agricultural Experiment Station and by state, federal and private grants and contracts. Well-trained faculty members, many of whom are registered professional engineers with research, consulting and design experience, guide the graduate students' activities and plan programs to meet students' needs. Graduate students design experiments and special equipment to conduct their work. They are expected to demonstrate, by supporting research or by designs, the ability to identify a problem, define alternatives, propose a solution, organize a design or an experimental investigation, manage the project to completion, and report the results through peer-reviewed papers and professional presentations.

## Admission Requirements

Admission to either the Master of Science or Doctor of Philosophy degree program requires graduation from an engineering curriculum accredited by the Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<http://www.abet.org>)). Students without accredited degrees may be admitted provisionally and may be required to take additional courses.

A student must be accepted by an adviser in the department prior to official admission to the graduate program.

## Degree Requirements

A candidate for either of the graduate degrees listed above follows an approved plan of study which must satisfy at least the minimum University requirements for that particular degree.

## Faculty

John N. Veenstra, PhD, PE, BCEE—Professor and Interim Head

**Professor and Decker Dawson Chair:** John N. Veenstra, PhD, PE, BCEE

**Regents Professor:** Glenn O. Brown, PhD, PE

**Professor and Orville L. and Helen Buchanan Endowed Chair:** Carol Jones, PhD, PE

**Professor and Biobased Products and Energy Center Director:** Raymond L. Huhnke, PhD, PE

**Professor, Sarkeys Chair, and Assistant Director Natural Resources, Oklahoma Cooperative Extension Service:**

Randal K. Taylor, PhD, PE

**Director, Capital Projects for DASNR and Assistant Director, Oklahoma Agricultural Experiment Station:**

Randy L. Raper, PhD, PE

**Professors:** Danielle D. Bellmer, PhD; Timothy J. Bowser, PhD, PE; Michael Buser, PhD; Nurhan Dunford, PhD, PE; Daniel E. Storm, PhD; Dan Thomas, PhD, PE; Ning Wang, PhD, PE; Paul R. Weckler, PhD, PE

**Professors Emeriti:** Billy J. Barfield, PhD, PE; Ronald L. Elliott, PhD, PE; Michael D. Smolen, PhD; John Solie, PhD

**Associate Professors:** Hasan Atiyeh, PhD, PE; Robert Scott Frazier, PhD, PE; Douglas W. Hamilton, PhD, PE; PE; Ajay Kumar, PhD, PE; Yu Mao, PhD

**Adjunct Associate Professor:** Derek Whitelock, PhD

**Assistant Professors:** John Long, PhD; Saleh Taghvaeian, PhD

**Adjunct Assistant Professor:** Sherry L. Hunt, PhD

**Associate Researchers:** J. D. Carlson, PhD; Ron Miller, PhD

**Assistant Extension Specialist:** Albert J. Sutherland, MS

**Teaching Associates:** Ryan Clarke, Brent Haken

## Other Requirements

- Admission to Professional School is required. Refer to the OSU Catalog corresponding to your matriculation date for detailed admission requirements.
- A minimum grade of 'C' is required in each course that is a prerequisite for a major course.
- Students are required to complete the Fundamentals of Engineering (FE) exam prior to graduation.
- A minimum of 40 semester credit hours and 100 grade points must be earned in courses numbered 3000 or above.
- A 2.00 GPA or higher in upper-division hours.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Chemical Engineering

Chemical engineers use knowledge of how nature works (science) and the language of science (mathematics) to create value and solve difficult problems for the benefit of society. The key skill that differentiates chemical engineering from other disciplines is the ability to understand, design and operate transformation (physical or chemical) processes. Chemical engineers literally change (transform) the world. Many in the public assume chemical engineers work only in chemical plants and petroleum refineries. The reality is that chemical engineers work in a broad range of industries including pharmaceuticals, biochemicals, semiconductor materials, foods, plastics, paper, steel, consumer goods, automotive, specialty materials, oil & gas production, renewable energy, engineering services, and the list goes on. Key to providing a benefit to society, chemical engineers are responsible for resource conservation, minimizing pollution, minimizing costs, and maximizing quality and safety of processes that make the products.

The emphasis on the molecular or chemical nature of everything people use is what makes chemical engineers different from other engineers. The emphasis on the processes that make the products is what makes chemical engineers different from chemists.

Chemical engineers often find themselves defining a problem or product, developing a process to do what is needed, and then designing the equipment to carry out the process. After the installation, chemical engineers commonly manage operations, oversee equipment maintenance, and supervise control of product quality. They troubleshoot problems that hinder smooth operations, and they plan for future expansions or improvements. Their training and knowledge make them well qualified to market products and processing equipment. The varied background and experience of chemical engineers make them ideally suited for advancement into top-level managerial and executive positions. An advanced degree in chemical engineering is not required.

Many who aspire to careers in medicine or law first obtain BS degrees in chemical engineering. The rigor of the program and the emphasis on critical thinking and analytical reasoning are highly valued by professional school admission committees. A career as a research scientist or academic typically requires a PhD degree.

## Program Educational Objectives

The School has three broad objectives. Within the first few years after graduation, our BS graduates will have demonstrated:

1. Competencies – skill in tools and techniques that are fundamental to the job - many of which need to be learned after graduation.
2. Professionalism – partnership in the mission and within the human context of the enterprise - ethics, effectiveness, and awareness of the broad context of the detailed work.
3. Balance – a wise self-direction to life, community, health, and self-view that finds the right balance between personal choices, which energizes self and others and enables effectiveness in relationships with others.

The goal of the BS degree program is to produce graduates who possess broad-based knowledge, skills and judgment that prepares them to succeed in the profession of engineering or in further studies at the graduate level, including medical school. To achieve this goal, the program is designed to progressively develop both technical and human skills.

In the pre-professional portion of the chemical engineering program (usually equivalent to two years of study), the focus is on the underlying scientific and mathematical principles of engineering, supplemented by appropriate general education courses in English, social sciences and humanities. Students who demonstrate proficiency in this portion of the program are eligible for admission to the professional school.

The curriculum in the professional school (typically the last two years) builds systematically upon the scientific knowledge acquired in the pre-professional curriculum. In professional school, students have the opportunity to focus in one of three emphasis areas:

1. the regular course prepares a graduate for a wide range of employment opportunities;
2. the pre-medical option is for those who wish preparation for medical school; and
3. the biomedical/biochemical option is for those who seek employment in bio-related professions.

Each emphasis area is accredited under the basic level EAC-ABET criteria for chemical engineering programs and each prepares a student for success in both employment and graduate study at OSU or other universities. A more complete description of exact degree requirements for the bachelor's-level curricula is given in the publication Undergraduate Programs and Requirements at OSU.

Each professional school course builds upon the preceding chemical engineering courses to develop the ability to identify and solve meaningful engineering problems. The course work is specifically sequenced and interrelated to provide design experience at each level, leading to progressively more complex, open-ended problems. The course work includes sensitizing students to socially-related technical problems and their responsibilities as engineering professionals to behave ethically and protect occupational and public safety. The program culminates in the senior-year design courses in which the students integrate the analysis, synthesis and other abilities they have developed throughout the earlier portions of their study into a capstone experience. At this point, students will be able to design components, systems and processes that meet specific requirements, including such pertinent societal considerations as ethics, safety, environmental impact and aesthetics. The students will have developed and displayed the ability to design and conduct experiments essential to specific studies, and to analyze the experimental results and draw meaningful conclusions within an enterprise context.

Integral parts of this educational continuum from basic science through comprehensive engineering design are learning experiences that facilitate the students' abilities to function effectively in both individual and collaborative environments. To achieve this, the program provides every student with adequate learning experiences to develop effective written and oral communication skills. State-of-the-art computational tools are introduced and utilized as a part of their problem-solving experiences. Finally, the students' experience in solving ever-more-challenging problems gives them the ability to continue to learn independently throughout their professional careers.

## Undergraduate Programs

- Chemical Engineering, BSCH (p. 1452)
- Chemical Engineering: Biomedical/Biochemical, BS (p. 1454)
- Chemical Engineering: Pre-Medical, BSCH (p. 1456)
- Petroleum Engineering (PETE), Minor (p. 1458)

## Graduate Programs

The School of Chemical Engineering offers programs leading to the Master of Science and Doctor of Philosophy. A program of independent study and research on a project under the direction of a member of the Graduate Faculty will be satisfactorily completed by all graduate students. For the Master of Science candidate, the project may result in a thesis. For the Doctor of Philosophy candidate, the project will result in his or her dissertation.

## Admission Requirements

Admission to either the Master of Science or Doctor of Philosophy degree program requires graduation from a chemical engineering curriculum approved by the ABET or a recognized equivalent from any international program.

Students with related undergraduate degrees, such as chemistry, automation engineering, etc. can be admitted conditionally, subject to completing prescribed undergraduate Chemical Engineering program courses. Admission is competitive based on undergraduate GPA, GRE and TOEFL (for international students), statement of interests, experience and recommendations.

## The Master of Science Degree

Two options are offered for this degree, Research-Oriented and Practice-Oriented options. General requirements for the Research-Oriented MS degree in chemical engineering are 30 credit hours of work beyond the BS degree and an acceptable thesis. At least 18 hours must be in class work and a minimum of six hours of credit is required for thesis research. The general requirements for the Practice-Oriented MS degree are 32 credit hours of work beyond the BS, including two hours of credit assigned to an acceptable technical report. For both options, the courses taken must include:

Code	Title	Hours
CHE 5123	Advanced Chemical Reaction Engineering	3
CHE 5213	Selected Diffusional Unit Operations	3
CHE 5743	Chemical Engineering Process Modeling	3
CHE 5843	Principles of Chemical Engineering Thermodynamics	3

## The Doctor of Philosophy Degree

The general credit requirement is a minimum of 90 credit hours beyond the BS degree, including at least 36 hours of credit for research and at least 30 hours of class work. The courses must include:

Code	Title	Hours
CHE 5123	Advanced Chemical Reaction Engineering	3
CHE 5213	Selected Diffusional Unit Operations	3
CHE 5743	Chemical Engineering Process Modeling	3
CHE 5843	Principles of Chemical Engineering Thermodynamics	3
CHE 6703	Research Methods in Chemical Engineering	3

Each student is responsible for consultation with his or her advisory committee in preparing the study plan.

## Faculty

James R. (Rob) Whiteley, PhD, PE—Professor and Head

**Professor and Edward Bartlett Chair:** James R. (Rob) Whiteley, PhD, PE

**Professor and Continental Resources Chair:** Geir Hareland, PhD

**Professor and BP (Amoco) Chair:** Sundar V. Madihally, PhD

**Professor:** D. Alan Tree, PhD

**Associate Professor, Harold Courson Chair and Petroleum Engineering Program Director:** Runar Nygaard, PhD

**Associate Professor and Robert N. Maddox Fellow :** Heather D.N.

Fahlenkamp, PhD

**Associate Professor and Anadarko Petroleum Faculty Fellow:** Joshua D. Ramsey, PhD, PE

**Assistant Professor and Harold Courson Faculty Fellow:** Clint P. Aichele, PhD

**Assistant Professors:** Marimuthu Andiappan, PhD; Prem L. Bikkina, PhD; Yu Feng, PhD; Seok-Jhin Kim, PhD; Jindal K. Shah, PhD; Ashlee Ford Versypt, PhD

**Research Assistant Professor:** Sayeed Mohammad, PhD

**Clinical Assistant Professor:** Brad Rowland, PhD

**Lecturers:** Kenneth B. Dickson, Michael R. Resetarits

## Chemical Engineering, BSCH

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Minimum Overall Grade Point Average: 2.00**

**Total Hours: 130**

#### Restricted Electives

Select 6 hours of upper-level course credit meeting School objectives<sup>3</sup> 6

**Hours Subtotal** 9

**Total Hours** 130

<sup>1</sup> Courses that must be completed prior to admission to professional school.

<sup>2</sup> Cannot use both ANSI 3423 Animal Genetics & BIOL 3023 General Genetics or BIOC 3653 Survey of Biochemistry & BIOC 3713 Biochemistry I.

<sup>3</sup> See School policy. CHE advisor must approve.

## Other Requirements

### Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

### Graduation Requirements

- A minimum GPA of 2.00 is required in all CHE, CHEM, ENGR, and ENSC coursework.
- The major engineering design experience, capstone course, is satisfied by CHE 4124 Chemical Engineering Design I and CHE 4224 Chemical Engineering Design II.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

- Degrees that follow this plan must be completed by the end of Summer 2023.

## Petroleum Engineering (PETE), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Runar Nygaard**, runar.nygaard@okstate.edu, 420 Engineering North  
405-744-5280

**Minimum Overall Grade Point Average:** 2.50

**Total Hours:** 18 hours

Code	Title	Hours
<b>Minor Requirements</b>		
GEOL 3413	Petroleum Geology for Engineers	3
GEOL 4323	Applied Well Log Analysis for Engineers	3
PETE 4303	Petroleum Rock and Fluids	3
PETE 4313	Drilling and Well Completions	3
PETE 4333	Production Operations	3
PETE 4343	Reservoir Engineering and Well Testing	3

GEOL 3413 Petroleum Geology for Engineers is a prerequisite for all other courses. PETE 4303 Petroleum Rock and Fluids is a prerequisite for PETE 4313 Drilling and Well Completions, PETE 4333 Production Operations and PETE 4343 Reservoir Engineering and Well Testing.

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Civil and Environmental Engineering

Civil engineers build the future. The exceptional diversity of professional practice in civil and environmental engineering presents many career opportunities for students.

The concern of civil engineers is infrastructure - the design, construction, management, alteration and utilization, which allows society to function. Civil engineers plan, design and construct, highways, waterway and railway systems, harbors and shipping facilities, systems for the treatment and distribution of water and for the collection and treatment of municipal and industrial waste, dams and hydroelectric works, airports and terminals, structures of every kind including buildings, bridges, towers, industrial plants, tunnels and subway systems, processes for the control of water and air pollution, and many other works of general benefit to society.

The professional curriculum in civil engineering is based on the pre-professional courses in mathematics, physical sciences and engineering sciences. On this foundation, required courses equip the student with the basic skills needed for the professional practice of civil engineering and provide the tools for more advanced study. Engineering theory and principles are developed in a way that will encourage their application to the practical solution of problems.

### Educational Objectives

The Bachelor of Science in Civil Engineering degree program educates and prepares engineers who a few years after graduation will be:

1. Contributing to society through the practice of civil engineering in a variety of contexts, including the protection of public health and safety and the development of sustainable engineering solutions;
2. Effectively applying the technical knowledge, engineering principles, communication skills and personal attributes necessary to be adaptable and successful in the civil engineering profession;
3. Advancing within their profession, including attaining professional licensure and positions of leadership; and
4. Exhibiting life-long learning, including the pursuit of advanced degrees.

The curriculum is designed to enable students to satisfy the educational objectives in conjunction with the student outcomes. These outcomes state that graduates of the program will have:

- a. an ability to apply knowledge of mathematics, science, and engineering,
- b. an ability to design and conduct experiments, as well as to analyze and interpret data,
- c. an ability to design systems, components, or processes to meet desired needs within realistic constraints (such as economic, environmental, social, political, ethical, health, safety, and sustainability),
- d. an ability to function on multi-disciplinary teams,
- e. an ability to identify, formulate, and solve engineering problems,
- f. an understanding of professional and ethical responsibility,
- g. an ability to communicate effectively,
- h. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context,

- i. a recognition of the need for, and an ability to engage in life-long learning, including an understanding of the importance of professional licensure,
- j. a knowledge of contemporary issues, and
- k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The School provides a curriculum that is effective and balanced among the major areas of civil engineering practice. Design capabilities are developed throughout the curriculum, culminating in a comprehensive senior design experience, incorporating much of the previous course work. Some degree of specialization is provided through the choice of elective courses in structures, engineering mechanics, transportation engineering, soil mechanics and foundations, construction engineering and management, environmental engineering and water resources. There is a designated option for those students wishing to concentrate more heavily in the environmental area of practice. Program curricula requirements are outlined in the publication Undergraduate Program and Requirements. The general civil option and the environmental option are accredited together by the Engineering Accreditation Commission of the ABET under the criteria for civil and similarly named engineering programs.

### Southern Plains Transportation Center

Oklahoma State University, and seven other universities are members of the Southern Plains Transportation Center (SPTC). The regional transportation center is a US DOT designated Region 6 University Transportation Center (UTC) and cooperative venture with the Oklahoma Department of Transportation (ODOT), and other transportation agencies, operators and suppliers. The mission of the Center is to develop and transmit knowledge through research, training, technical assistance, and technology transfer; and to enhance the transportation systems that touch the lives of the people of Oklahoma and the region.

### Undergraduate Programs

- Civil Engineering, BSCV (p. 1461)
- Civil Engineering: Environmental, BSCV (p. 1463)

### Graduate Programs

The School of Civil and Environmental Engineering offers three programs leading to post-baccalaureate degrees— the Master of Science degree in civil engineering, the Master of Science degree in environmental engineering, and the Doctor of Philosophy degree. The Master of Science degree is characterized by a technical specialization in a particular area of study. The Doctor of Philosophy degree is designed to prepare students for research and for the teaching profession in engineering.

Major areas of study in the School are applied mechanics, structural analysis, design, transportation, materials, construction engineering and management, geotechnical engineering, water resources, and environmental engineering. Research in all major fields is continuously pursued. Master of Science in Civil Engineering candidates may choose either to specialize or to engage in a broadly based program of study, in accordance with an approved and purposeful plan of study.

### Admission Requirements

Candidates for the Master of Science or Doctor of Philosophy degree should have graduated from a civil engineering curriculum accredited by ABET. Graduates from other curricula and schools should submit transcripts to the head of the School of Civil and Environmental

Engineering for evaluation. Admission to the Master of Science in environmental engineering degree program is permitted for students who meet the minimum prerequisites as established by the School of Civil and Environmental Engineering.

## Degree Requirements

All degree programs follow an approved plan of study that must be submitted at a designated time. All programs are characterized by the flexibility available in a study plan that is designed to satisfy the particular needs of the student, while conforming to the general requirements implied by the title of the degree and specified by the University.

The Master of Science degree in either civil or environmental engineering requires the completion of at least 30 credit hours beyond the bachelor's degree, including a research thesis for which no more than six credit hours may be granted. The non-thesis option (32 credit hours) described in the Graduate College section may be permitted at the discretion of the student's advisory committee.

The Doctor of Philosophy degree requires the completion of at least 90 credit hours of course work beyond the bachelor's degree, including not more than 30 credit hours for the research thesis. In addition, the candidate must meet the equivalency of the language requirement (six hours) in selected areas at the discretion of his or her committee to facilitate his or her research. Generally, official admission as a candidate for the Doctor of Philosophy degree in any program offered by the School will not be granted until a member of the Graduate Faculty in the School agrees to serve as major (or thesis) adviser for the prospective candidate.

## Faculty

Norbert (Norb) Delatte, PhD —Professor and Head

**Professor and M. R. Lohmann Chair:** Norbert (Norb) Delatte, PhD

**Dean, College of Engineering, Architecture and Technology, Professor and Donald & Cathey Humphreys Chair:** Paul J. Tikalsky, PhD

**Professor and Williams Foundation Professorship:** Tyler Ley, PhD, PE

**Professor and Gilbert, Cooper, W&W Steel Chair:** C. (Kelvin) Wang, PhD, PE

**Professor and Decker Dawson Chair:** John N. Veenstra, PhD, PE

**Professors:** S.A. Ahmed, PhD, PE; Gouranga Banik, PhD, PE, F.ASCE;

Stephen A. Cross, PhD, PE;

John N. Veenstra, PhD, PE; Avdhesh Tyagi, PhD, PE

**Associate Professors:** Rifat Bulut, PhD; Robert Emerson, PhD, PE; Bruce

Russell, PhD, PE; Gregory G. Wilber, PhD, PE

**Assistant Professors:** Julie Hartell, PhD; Mark Krzmarzick, PhD, PE; David

Lampert, PhD, PE; Qiang Li, PhD; Yong Wei Shan, PhD, PE; Mohamad

Soliman, PhD; Xiaoming Yang, PhD, PE

**Adjunct Professors:** Garry Gregory, PhD, PE; Boris Dan Hernandez, PhD;

Enos Stover, PhD, PE;

Brian Wintle, PhD, PE

**Lecturer:** Joe Echelle

<sup>1</sup> Complete courses prior to admission to Professional School.

## Other Requirements

### Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

### Graduation Requirements

- A minimum GPA of 2.00 is required in Professional School coursework (right hand column).
- A 'C' or better is required in each course that is a prerequisite for a CIVE course.
- The major engineering design experience, capstone course, is satisfied by CIVE 4043 Senior Design. If "B" or higher is not earned in

ENGL 1113 Composition I, then ENGL 1213 Composition II must be completed.

## **Additional State/OSU Requirements**

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

- Degrees that follow this plan must be completed by the end of Summer 2023.

## Construction Management Technology

The construction industry is the largest industry in the world. Leadership in this field requires a broad knowledge of labor, materials and equipment, capital and construction procedures. The interdisciplinary approach of the construction management technology program offers the student specialized course work in all phases of construction, designed to prepare him or her for responsible positions in industry.

The primary goal of the Department of Construction Management Technology (CMT) is to enhance the quality of the instructional program through effective management of the curriculum, teaching assignments and fiscal and physical resources. This goal includes providing instructional facilities, equipment and support services for faculty and students which maintain an excellent learning environment.

### Program Educational Objectives

OSU Construction Management Technology graduates a few years after graduation will:

1. Solve problems typically found in the construction industry in construction engineering design, estimating, planning, scheduling and project management using mathematical, analytical, and scientific skills of engineering technology.
2. Successfully work in teams and communicate effectively in written, oral and graphical forms.
3. Continue life-long career and professional growth by actively interacting with local industries and participating in appropriate professional societies.
4. Continue life-long personal growth in sensitivity to ethical responsibilities, global environments, and associated social issues.

Construction Management Technology graduates can expect to obtain these student outcomes upon graduation:

1. An ability to select and apply the knowledge, techniques, skills and modern tools of the discipline to broadly-defined engineering technology activities;
2. An ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;
3. An ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;
4. An ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
5. An ability to function effectively as a member or leader on a technical team;
6. An ability to identify, analyze, and solve broadly-defined engineering technology problems;
7. An ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature;
8. An understanding of the need for and an ability to engage in self-directed continuing professional development;

9. An understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity;
10. A knowledge of the impact of engineering technology solutions in a societal and global context; and
11. A commitment to quality, timeliness, and continuous improvement.

Faculty with excellent credentials, including a balance of formal education, teaching ability and appropriate industry experience, are recruited nationwide and are provided opportunities for individual professional development and regular contact with the industry. Faculty members are encouraged to become involved in extension and research programs relating to the department's areas of strength or growth and to serve the needs for continuing education within the industry, particularly in the southwestern construction community.

These needs and opportunities for service are assessed regularly through close cooperation with local and regional construction professionals and industry associations. An active Construction Management Advisory Board, representing a broad cross-section of the industry, meets regularly to offer support and guidance necessary to preserve uncompromising excellence.

The Construction Management Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>. The educational objectives of the Department of Construction Management Technology are consistent with those required by ETAC of ABET and are listed under "Division of Engineering Technology" in the Catalog.

### Undergraduate Admission

Students who satisfy the CEAT admission requirements are eligible to enroll for the first two years of the program in the lower division of the curriculum for construction management technology. In order to balance the number of students in the CMT upper division with available CMT resources, advancement to the CMT upper division is by application. Applications are due to the CMT Department no later than the last working day of April each year. To be eligible for program advancement, lower division students must have:

1. Completed 60 credit hours of course work counting toward the CMT degree.
2. Completed all of the required (shaded) courses on the Degree Requirement Sheet (these courses are also listed on the Calculation Work Sheet of the Application to Upper Division form)
3. Achieved a grade of 'C' or better in the following courses:

Code	Title	Hours
CMT 1213	Introduction to Construction	3
CMT 2253	Construction Drawings	3
CMT 2263	Estimating I	3
ACCT 2103	Financial Accounting	3
PHYS 1214	General Physics (LN)	4
GENT 2323	Statics	3
MATH 2123	Calculus for Technology Programs I (A)	3
CMT 2343	Concrete Technology	3

A substitution for any of these courses must meet the same 'C' requirement.

4. Achieved a minimum Selection GPA (SGPA) of 3.05.

Annually, students who meet these criteria for program advancement and have made a timely application for admission to the upper division will be admitted to the upper division of the CMT curriculum. The Selection Grade Point Average (SGPA) is a weighted GPA based upon specified lower division courses which have proven to be good indicators of student success in the program. For consideration of admission to the upper division of the Construction Management Technology program, the following courses and multipliers will be used in calculating SPGA's: CMT 2343 Concrete Technology (x3 multiplier), CMT 2263 Estimating I (x3 multiplier), GENT 2323 Statics (x3 multiplier), CMT 2253 Construction Drawings (x2 multiplier), CMT 1213 Introduction to Construction (x2 multiplier), MATH 2123 Calculus for Technology Programs I (A) (x2 multiplier), PHYS 1114 General Physics (LN) (x2 multiplier), SPCH 2713 Introduction to Speech Communication (S) (x2 multiplier), ENGL 1113 Composition I (x2 multiplier), PHYS 1214 General Physics (LN) (x1 multiplier), MATH 2133 Calculus for Technology Programs II (A) (x1 multiplier), EET 1003 Introduction to Microcomputer Programming (x1 multiplier) and ACCT 2103 Financial Accounting (x1 multiplier). Additional detailed information concerning admission to the upper division may be obtained directly from the CMT department.

Transfer students are required to furnish transcripts and course descriptions for previous classroom courses, as well as examples of previous academic work. Evaluation and enrollment by the CMT department is on a course-by-course basis for all transfer students.

The modern constructor must have a great deal of technical knowledge to keep abreast of rapidly changing equipment, materials and methods of construction. Specialized courses in estimating, surveying, structures, construction planning and scheduling, construction law and insurance, field and office management and construction procedures provide students with the background necessary for today's construction industry. These specialized courses, in addition to a blend of the basic sciences, business, and general studies, produce a well-balanced curriculum for students in construction management technology. Special attention is given to computer applications in construction estimating, and the development of graphic, written and oral communication skills is emphasized throughout the curriculum.

Students with an interest in building structures may select courses in the "building" option of the construction management technology curriculum, which provides them with knowledge of working drawings, mechanical and electrical equipment of buildings, and other course work for a career in building construction.

Students with an interest in civil engineering structures may select courses in the "heavy" option of the construction management technology curriculum, which provides them with knowledge of highways, soils, foundations and other course work for a career in the heavy and industrial construction industry.

The department attempts to identify and recruit highly qualified students who will benefit from the instructional program, and faculty members promote retention and ultimate graduation of construction management technology students through effective instruction and advisement. An active program of outcome assessment among graduates and their employers assures that the program continues to provide the academic training required for success.

Graduates of construction management technology have shown the curriculum to be successful in their development as productive members of the construction industry, holding responsible positions as project

managers, estimators, material and equipment salespersons, and construction managers at all levels.

<sup>1</sup> Complete all required courses prior to admission to Upper Division. (These courses are also listed on the *Calculation Work Sheet of the CMT Application to Upper Division form*.)

<sup>2</sup> Achieve a grade of 'C' or better.

## Other Requirements

### Admission to Upper Division (required)

1. Refer to the OSU Catalog corresponding to your matriculation date and the *Policy for Admission to the Upper Division of the Curriculum for CMT* for detailed admissions requirements.
2. Complete a minimum of 60 credit hours (from the degree plan) prior to admission to Upper Division.
3. Achieve a minimum Selection GPA (SGPA) of 3.05 (from the *Calculation Work Sheet of the CMT Application to Upper Division form*).

### Graduation Requirements

1. A minimum overall GPA of 2.30 is required in all courses with engineering and engineering technology prefixes.
2. A grade of 'C' or better is required in each course that is a prerequisite to a required course that has an engineering or engineering technology prefix.
3. Each student is required to sit for the American Institute of Constructors Level 1 – Associate Constructors Certification Exam.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Division of Engineering Technology

Engineering technology education is concerned with the real-world application of engineering achievement with emphasis on the end product rather than the conceptual process. Whereas the development of new methods is the mark of the engineer, effective use of established methods is the mark of the engineering technologist. Often the technologist will be expected to implement what the engineer conceives.

### Curricula

Engineering technology curricula at OSU are four-year programs which lead to the Bachelor of Science in Engineering Technology. Graduates of the program are known as “technologists and/or applied engineers” and are trained either to assist engineers or to provide independent support for engineering activities. The graduate receives an intensive education in his or her technical specialty and great depth in mathematics and technical sciences. The program provides breadth in related technical, communication and socio-humanistic studies. A “master of detail,” he or she is capable of independent action in performance of technical activities and is frequently involved as a coordinator, expeditor or supervisor of other technical personnel. His or her capability in technical sales and other public-contact positions is enhanced by his or her background in selected liberal studies.

The engineering technology graduate is qualified to select from a broad array of engineering-related positions. Job titles of engineering technology graduates include field engineer, test engineer, associate engineer, product engineer, sales engineer, tool designer, production engineer, engineering technologist, estimator, scheduler, and project engineer.

Those less intrigued with theoretical concepts but who have the interest and aptitude toward applications are likely engineering technology majors. These students particularly appreciate the engagement of technical specialty courses beginning with the first semester and continuing throughout the course of study. The relevance of the technical science and related technical courses adds further satisfaction.

The Division of Engineering Technology is offering opportunities for its students to minor in entrepreneurship. Usually, students will take two or three additional classes to get a minor in addition to his/her degree.

The Bachelor of Science in Engineering Technology program is composed of the following curricular subdivisions:

Mathematics and science—algebra, trigonometry, applied calculus, general physics, and chemistry or other science.

Technical specialty—technical science and related technical courses.

Communication—English composition, and written and oral technical communication.

Social sciences and humanities—history, government, religion, literature, art, music.

Electives—controlled and general.

### Bachelor of Science in Engineering Technology Degree Programs

Construction Management Technology, 124 hours

Electrical Engineering Technology, 130 hours

Fire Protection and Safety Engineering Technology, 125 hours

Mechanical Engineering Technology, 121 hours

### Master of Science in Engineering Technology Degree Programs

Fire Safety and Explosion Protection, 30 or 32 hours

### Accreditation

Each Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

### CO-OP Program

The College of Engineering, Architecture and Technology offers an experience-based program, Cooperative Education (Co-op). Co-op allows engineering technology students to achieve a balanced education through the combination of theoretical and practical knowledge during their early years of professional development. The student's education is a cooperative effort between the University and industry. Students alternate semesters on campus with work semesters in industry during their junior and senior years. The periods of employment constitute an essential element in the educational process. Students gain practical knowledge which is carried back to the classroom, giving academic programs a sense of reality. By the time they receive their degrees, students have accumulated the equivalent of a year-and-a-half of progressively challenging work experience.

Participation in Co-op is voluntary; transfer students must successfully complete at least one semester at OSU prior to their first placement.

Students may obtain further information about the program from the coordinator, 101A Engineering North.

### Transfer Students

An important, contemporary educational development is the “two-plus-two” bachelor's program. Those completing an associate degree in technology-oriented curricula at other institutions are generally admissible to the junior year with a minimum loss of academic time. The “two-plus-two” concept provides the attractive feature for students to obtain a four year undergraduate degree in engineering technology.

Required course work in mathematics and basic science is utilized to meet up to 18 semester hours of General Education requirements also. The Scientific Investigation requirement is met as a part of the course work meeting professional requirements for basic science.

### Academic Areas

Construction Management Technology (p. 1465)

Electrical Engineering Technology (p. 1479)

Fire Protection and Safety Engineering Technology (p. 1485)

Mechanical Engineering Technology (p. 1506)

### Faculty

Young Chang, PhD, PE, CFPS – Professor and Interim Head

## Electrical and Computer Engineering

The School of Electrical and Computer Engineering is highly recognized throughout the nation for its student-centered, laboratory intensive curriculum, and is a partner of choice for employers seeking well educated, highly motivated, and uniquely creative college graduates dedicated to life-long learning. The School has devoted professors from prestigious universities who serve, instruct, and mentor undergraduate and graduate students pursuing B.S., M.S., or Ph.D. degrees in electrical engineering or a B.S. degree in computer engineering. Both the undergraduate Electrical Engineering and Computer Engineering Programs are accredited by ABET- the leading accreditor of engineering programs- to assure students, parents, industry partners, and other stakeholders that our programs are of the highest quality.

Electrical engineers and computer engineers have been at the center of the technological revolution that has occurred over the past 100 years. Marvels such as the transistor, radio, telephone, television, internet, microprocessor, computer, radar system, motor, wind generator, GPS, smart wireless device, laser, microwave oven, electric car, pace maker, and the flat panel display, to name only a handful, have resulted from the hard work and creative talents of electrical engineers and computer engineers. And since electricity and computers are essential in a modern society, the electrical engineer and the computer engineer will always be in high demand.

Electrical engineering encompasses many exciting subdisciplines including energy systems, machines, power electronics, analog electronics, digital electronics, mixed-signal electronics, VLSI chips, instrumentation, sensors, signal processing, machine vision, communications, control systems, robotics, wireless devices, electromagnetic fields, photonics, embedded controllers, networking, software development, biomedical devices, and computer architecture. The School encompasses all of these subdisciplines in its curriculum or research activities.

Computer Engineering is a relatively young engineering discipline that combines a strong foundation in electrical engineering with elements of computer science, including hardware and software integration, and design. Computer engineering includes digital logic design, computer architecture, digital data communications, computer and sensor interfacing, microprocessors, digital control, VLSI circuits and systems, operating and software systems, and computer arithmetic.

The School of Electrical and Computer Engineering (ECE) offers a full range of undergraduate and graduate program choices that allow students to excel in their careers. Moreover, a degree in electrical engineering or computer engineering is an excellent foundation for other professional fields such as medicine and law. Many graduates also pursue advanced programs in business and management after earning a degree in engineering.

Beyond creating technology, electrical and computer engineers of tomorrow must be aware of the social, economic, ethical and environmental impact of their respective technologies. They must also communicate effectively, possess excellent teamwork skills, and understand, perform, and complete the process of engineering design. The undergraduate programs in electrical engineering and computer engineering at Oklahoma State University equip graduates with these critical skills.

## Program Educational Objectives

The Program Educational Objectives reflect the aspirational expectations for our electrical engineering and computer engineering graduates after they enter their professional careers. Specifically:

- Our Graduates will be widely employed across the range of subdisciplines within electrical engineering and computer engineering, and will be highly sought after by industrial, academic, non-profit, and governmental organizations.
- Our Graduates will compete in a technologically changing world, collaborate in a diverse workforce, and communicate effectively their knowledge and ideas to colleagues, employers, customers, and stakeholders.
- Our Graduates will be recognized leaders, team players, problem solvers, innovators, and entrepreneurs in their profession.
- Our Graduates will identify and contribute to solving grand-challenge problems that improve the lives of people in Oklahoma, the United States, and around the world, serving their communities and their profession to produce a lasting, significant, and positive impact.
- Our Graduates will abide by the highest ethical standards of professional practice in a technologically changing, professional environment.
- Our Graduates will continue to develop professionally throughout their lives by being adaptive learners with a never ending desire to assimilate new knowledge and embrace new technologies.
- Our Graduates will have the knowledge to earn professional registration or certification in their field or earn an advanced post-graduate or professional degree should they choose.
- Our Graduates will make a positive difference in the world.

## Student Learning Outcomes

To support these Program Educational Objectives, the School has established Student Learning Outcomes that are regularly assessed and expected of all students upon completion of their chosen program in Electrical Engineering or Computer Engineering. These include:

- a. an ability to apply knowledge of mathematics, science, and engineering
- b. an ability to design and conduct experiments, as well as to analyze and interpret data
- c. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- d. an ability to function on multidisciplinary teams
- e. an ability to identify, formulate, and solve engineering problems
- f. an understanding of professional and ethical responsibility
- g. an ability to communicate effectively
- h. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- i. a recognition of the need for, and an ability to engage in life-long learning
- j. a knowledge of contemporary issues
- k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The undergraduate electrical engineering and computer engineering programs at Oklahoma State University prepare each graduate for a life-long professional career. During the first two years of study, students enter into Pre-Professional School and complete a carefully designed program consisting of mathematics, physics, chemistry, statics, introductory electrical and computer engineering courses, computer science, and selected courses in the humanities and social sciences. After successfully completing Pre-Professional school, students are admitted into Professional School and enroll in specific electrical engineering and/or computer engineering courses.

Electrical engineering and computer engineering students in Professional School obtain fundamental knowledge and technical skills needed by tomorrow's professionals. For electrical engineering students, these skills are learned in one of five areas of specialization that enable students to customize course choices to gain both a breadth of knowledge and a depth of understanding in a specific chosen area. These specializations areas include a) control systems, digital signal processing, and communication systems, b) energy and power, c) computer systems and digital electronics, d) analog electronics, and e) electromagnetics and optical science. Computer engineering students learn these skills by focusing on their own challenging specialized curriculum, which is also designed to provide breadth and depth within the discipline. Specialized computer engineering topics include microcontrollers, embedded controllers, computer architecture, computer mathematics, digital logic design, networking, cybersecurity, mobile computing, and digital electronics.

By tailoring the program to align student interests with faculty strengths, the School enhances faculty-student interactions to ensure academic excellence. All electrical engineering and computer engineering students receive multiple engineering design experiences throughout Professional School. Instructional laboratories are a central part of the curriculum to grant opportunities for hands-on experience in areas such as microcomputers, digital logic design, electronics, networks, instrumentation, optics, real-time digital signal processing, and electromagnetics.

Engineering design laboratories require students to solve open-ended problems in a manner that demonstrate the students' ability to apply fundamental concepts, creativity, and imagination, and to solve realistic problems of practical importance. These problems have several possible solutions; students must choose an acceptable approach and demonstrate that the desired outcomes have been met.

The capstone design experience is a two-course sequence typically taken during the student's last two semesters of the program that gives our students an opportunity to apply and demonstrate the skills that have developed throughout the program. These courses integrate theory analysis, simulation, design, and experimental skills the students have developed during their course of study. Teamwork, communication skills, and the complete engineering design process, from problem definition to prototype that includes both presentation and documentation, are emphasized.

Student teams receive individual project mentoring from an appropriate faculty member who provides project management and supervision. The capstone experience concludes with a formal public design demonstration, oral presentation, and written report. The new ECE Design Commons, an advanced design laboratory available to all students in electrical engineering and computer engineering, provides state-of-the-art

capabilities for design, prototyping, testing and diagnostics of advanced hardware and software systems.

## Undergraduate Programs

- Computer Engineering, BSCP (p. 1475)
- Electrical Engineering, BSEE (p. 1477)

## Graduate Programs

The School of Electrical and Computer Engineering offers two graduate degrees, both in electrical engineering: Master of Science and Doctor of Philosophy. Specialized MS degree options in

1. control systems and
2. optics and photonics are also available, as are interdisciplinary graduate degrees in several specialties.

These graduate degree programs are flexible in course selection and emphasis.

The Master of Science degree emphasizes advanced mathematics, theory, design, and research. It is intended for students interested in cutting-edge careers or who want to prepare for advanced study associated with the PhD program. This degree combines course work with research that allows students to expand their knowledge in an in-depth area of electrical engineering or computer engineering.

The Doctor of Philosophy degree is designed to prepare students for high-level research and development positions in academia, industry and government and for the teaching profession in engineering. This degree is distinguished by an emphasis on research as documented in the doctoral dissertation.

Students typically select course work and participate in research and design projects in the following areas:

- Communication systems, cybersecurity, and networks
- Control systems, robotics, and mechatronics
- Analog, mixed-signal, and RF electronics
- Computer architecture, VLSI digital circuits, and arithmetic
- Electromagnetics and THz sciences
- Microcontrollers and embedded control
- Photonics and electro-optics
- Digital signal, image, and video processing
- Energy and power
- Bioengineering

Students may also select a multidisciplinary program that crosses departmental lines and emphasizes the application of electrical and computer engineering to complex problems. These applications serve to promote the interaction of engineering systems and technology with social, economic and environmental processes. Multidisciplinary opportunities exist in control systems and biomedical engineering.

## Admission Requirements

Admission to the Graduate College, as described under "General Regulations" in the "Graduate College" section of the University Catalog is required. Graduation with high scholastic performance from an electrical engineering or computer engineering curriculum accredited by the ABET qualifies the student for admission to the School of Electrical and

Computer Engineering. A recent GRE score is also required as part of the application.

Graduates from non-engineering fields such as mathematics, physics and computer science are also admitted to the School of Electrical and Computer Engineering MS and PhD graduate programs if an evaluation of the applicant's official transcript indicates that the applicant is prepared to succeed in graduate-level course work in electrical and computer engineering, or can be expected to do so after a reasonable amount of remedial course work. This condition also applies to graduates of unaccredited engineering programs and engineering technology programs.

## Degree Requirements

The Master of Science degree in Electrical Engineering (MSEE) is awarded to those students who successfully complete an approved plan of study. The degree requires 24 credit hours of course work plus 6 credit hours for the thesis. In addition to the thesis requirement, the plan of study requires, at a minimum, 18 hours of 5000-level courses in electrical and computer engineering. Most plans of study include additional 5000-level courses, depending upon the background and particular educational goals of the student. Each student is encouraged to include courses in supporting disciplines such as mathematics, physics, computer science, or other engineering fields. Additional remedial work in undergraduate electrical and computer engineering courses may be required for students who do not have a sufficient background in electrical engineering.

Students who wish to pursue a non-research, master's degree are encouraged to contact the Graduate Coordinator of the School of Electrical and Computer Engineering for more information.

The Doctor of Philosophy degree is granted to recognize high achievement in course work selected from the broad field of electrical and computer engineering. The degree is conferred on those who demonstrate the ability to perform independent research in a chosen field of specialization that generates new knowledge, as presented in a dissertation. For this degree the Graduate College requires a minimum of 90 credit hours for acceptable academic work beyond the bachelor's degree, including credit for the dissertation.

The School of Electrical and Computer Engineering also participates in several interdisciplinary degree programs. (See "Graduate Programs" under "Industrial Engineering and Management," and "Telecommunications Management" the "Graduate College" section of the Catalog.)

## Master of Science in Engineering Technology Management

Tim Hardin, PhD—Director  
Brenda L. Johnson, MS—Assistant Director

OSU's Master of Science in Engineering Technology Management is a rigorous degree program designed specifically for experienced engineers and scientists who are interested in accelerating their management careers. The curriculum combines academic coursework with the latest business practices and can be tailored to meet an individual student's needs. Managing today's global organizations requires a complex set of knowledge and skills. Effective planning, selection, implementation and management of technology, and the teams involved, is essential to the success of any business in today's time-critical, global markets. OSU-MSETM students learn to apply proven evaluation concepts and

implementation strategies to fast moving, technical management decisions that make the difference in both career and business success. The MSETM program specifically addresses the real needs identified by industry leaders. The MSETM curriculum permits you to build a strong degree that directly addresses your needs and prepares you for the future. The degree consists of 32 credit hours. The MSETM program is provided by the OSU colleges of Engineering, Architecture and Technology; Arts and Sciences; and the Spears School of Business.

## Admission Requirements

The guidelines for admission to the MSETM program are a bachelor's or higher degree, in engineering or the physical/mathematical sciences, with a 3.00 GPA, and at least four years' employment in a technical field since graduation with a bachelor's degree. Applicants not meeting these standards may be granted provisional admission based upon their overall academic and professional practice history and accomplishments. Since many course assignments are integrated into current issues in the work environment, students must be managing or employed in a technical organization in order to be successful in the program. For this reason, the program is not appropriate for full-time on-campus students. The MSETM student body is made up entirely of full-time employed, technical professionals who receive the courses through distance education technologies. An applicant must submit the following documents to the MSETM office:

1. an official OSU Application for Graduate Admission,
2. an official transcript of all academic work and degrees received,
3. an application fee (\$40 domestic, \$75 international),
4. MSETM program application,
5. a professional resume,
6. A statement of goals and objectives.

International applicants must also submit official results of the TOEFL with a minimum score of 89 IBT Application instructions can be found online at <http://etm.okstate.edu>.

<sup>1</sup> If a "B" or higher is not earned in ENGL 1113 Composition I, ENGL 1213 Composition II or ENGL 1413 Critical Analysis and Writing II is also required (per Academic Regulation 3.5 (p. 781)).

<sup>2</sup> Courses that must be completed prior to admission to professional school.

<sup>3</sup> A minimum GPA of 2.20 is required in all courses applied to Major Requirements indicated.

## Other Requirements

### Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

### Graduation Requirements

1. A minimum GPA of 2.00 is required in all courses applied to Major Requirements including ENGL 3323 Technical Writing, 3 hours of (S), and 6 hours of (H).
2. The major engineering design experience, capstone course, is satisfied by ECEN 4013 Design of Engineering Systems and ECEN 4024 Capstone Design.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Electrical Engineering Technology

The electrical engineering technology (EET) curriculum provides preparation for outstanding career opportunities not only in the electronics industry itself, but also in many other areas in modern industry that depend upon electronics for control, communications or computation. Outstanding opportunities exist for graduates to work in diverse areas of electronics and computers.

The work of an electrical engineering technology graduate may range from assisting in the design and development of new equipment in the laboratory, applying modern microprocessors in the field, to the operation or supervision of production operations or field representatives.

The program offers the Bachelor of Science in Engineering Technology degree with a major in Electrical Engineering Technology. An option in computers is also available. To meet diverse needs, the program is laboratory-oriented and provides a strong foundation of specialized mathematics and science courses in applied electrical engineering and related technical areas, as well as courses in the area of communications, humanities, and the social sciences.

### Program Educational Objectives

OSU Electrical Engineering Technology graduates a few years after graduation will:

- Be employed in a technical or management position where the skills and knowledge of applied electrical engineering are utilized.
- Continue life-long learning and professional growth through participation and membership in professional organizations and/or through the continuation of professional studies.
- Work proactively and productively in teams and communicate effectively in written, oral and graphical forms.
- Successfully apply mathematical, analytical and technical expertise to industrial problems

Electrical Engineering Technology graduates can expect to obtain these student outcomes upon graduation:

- (a) an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities;
- (b) an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;
- (c) an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;
- (d) an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
- (e) an ability to function effectively as a member or leader on a technical team;
- (f) an ability to identify, analyze, and solve broadly-defined engineering technology problems;

(g) an ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature;

(h) an understanding of the need for and an ability to engage in self-directed continuing professional development;

(i) an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity;

(j) a knowledge of the impact of engineering technology solutions in a societal and global context;

(k) a commitment to quality, timeliness, and continuous improvement;

(l) should have knowledge and hands-on competence in the application of circuit analysis and design, computer programming, associated software, analog and digital electronics, and microcomputers, and engineering standards to the building, testing, operation, and maintenance of electrical/electronic(s) systems;

(m) the applications of physics or chemistry to electrical/electronic(s) circuits in a rigorous mathematical environment at or above the level of algebra and trigonometry;

(n) the ability to analyze, design, and implement control systems, instrumentation systems, communications systems, computer systems, or power systems;

(o) the ability to apply project management techniques to electrical/electronic(s) systems, and

(p) the ability to utilize statistics/probability, transform methods, discrete mathematics, or applied differential equations in support of electrical/electronic(s) systems.

The Electrical Engineering Technology major provides graduates the ability to enter the many dynamic fields of the electrical engineering world. The demand for graduates having electronic and electrical engineering design and application skills remains important and relevant. Graduates of this program will be prepared for a wide range of opportunities for employment in an industry that requires considerable knowledge of the electrical engineering profession.

The Electrical Engineering Technology–Computer option curriculum provides the preparation for graduates to enter the growing field of computer hardware and software engineering. The demand for graduates having both computer hardware and software skills is quickly developing as the importance of automation, robotics, and artificial intelligence is recognized. Graduates of this program will be prepared for these opportunities in industry that require considerable knowledge of both computer hardware and software engineering skills.

The Electrical Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of the ABET, <http://www.abet.org>.

ENGR 4243	Radiation Protection and Shielding	
ENGR 4263	Nuclear Reactor Theory	
ENGR 4253	Nuclear Reactor Analysis	

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been

established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Fire Protection and Safety Engineering Technology

The fire protection and safety engineering technology (FPST) curriculum provides preparation for assessing and reducing the loss potential with respect to fire, safety, industrial hygiene, and hazardous material incidents. With respect to fire, reducing the loss potential might involve setting design criteria with a special emphasis on life safety or fire resistivity or specifying automatic detection or extinguishing systems. When considering safety, reducing accidents may require special protective equipment or clothing, or the redesign of machinery or processes. Reducing losses caused by environmental problems may require sampling air for contaminants, such as asbestos or toxic chemicals, or monitoring noise levels, and the development of procedures to address practical approaches to compliance with state and federal regulations. Addressing the problems of handling and disposing of hazardous chemicals, such as spill control, is often required. Managing risk and compliance with federal laws and regulations relative to occupational safety and health and hazardous materials is an increasingly important job activity.

The fire protection and safety engineering technology program began at Oklahoma State University in 1937 - which is the oldest fire related program in North America. The demand by business and industry for loss control specialists has resulted in the evolution of the program into one that now places emphasis on fire protection, safety, and occupational/environmental health. The FPST program prepares graduates for careers in loss control. The loss control profession is segmented into three major areas: loss from fire, loss from physical accidents, and loss from environmental exposure.

The curriculum is designed to immediately introduce the student to studies in fire protection and safety. Therefore, students are able to measure their interest in a fire protection and safety career early in their academic program. The curriculum is rigorous in the areas of mathematics and the physical sciences. Two semesters of calculus are required as well as two semesters of chemistry and one semester of physics. Computer usage is an essential component of most fire protection and safety courses. Interested high school students should design their high school programs to prepare themselves for college level mathematics and science classes.

The program concludes with the Bachelor of Science in Engineering Technology degree in Fire Protection and Safety Engineering Technology.

### Program Educational Objectives

OSU Fire Protection and Safety graduates a few years after graduation will be:

1. Earning and pursuing personal, technical and professional advancement through their employment.
2. Continuing the pursuit of life-long learning through membership and participation in professional organizations.
3. Developing business expertise within their selected employment organization.
4. Successfully applying mathematical, analytical, and technical skills to solve complex problems in the selected field.
5. Meeting the highest standards of ethical practice in their profession.

Fire Protection and Safety Technology degree graduates can expect to obtain these student outcomes upon graduation:

1. an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities;
2. an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;
3. an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;
4. an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
5. an ability to function effectively as a member or leader on a technical team;
6. an ability to identify, analyze, and solve broadly-defined engineering technology problems;
7. an ability to apply written, oral, and graphical communication in both technical and nontechnical environments; and an ability to identify and use appropriate technical literature;
8. an understanding of the need for and an ability to engage in self-directed continuing professional development;
9. an understanding of and a commitment to address professional and ethical responsibilities including a respect for diversity;
10. a knowledge of the impact of engineering technology solutions in a societal and global context;
11. and a commitment to quality, timeliness, and continuous improvement.

The graduates of the fire protection and safety engineering technology program at Oklahoma State University are consistently recruited by the major businesses and industries of the United States. Graduate placement, salary offers, and advancement into managerial positions have been excellent due to the uniqueness and high technical quality of the OSU fire protection and safety engineering technology program.

The Fire Protection and Safety Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

- Homeland Security Science and Technology (HSST), Minor (p. 1490)
- Safety and Exposure Sciences (SAES), Minor (p. 1491)

### Graduate Programs

The Fire Protection and Safety Engineering Technology (FPST) program offers a graduate program leading to the Master of Science in Engineering Technology with an option in Fire Safety and Explosion Protection (FSEP). The program extends the FPST undergraduate program into graduate research, scholarship, and creative activities. The FSEP program is designed to prepare students for professional practice that may include research or consulting components, with major emphasis in fields of interest such as fire protection engineering, explosion protection, fire and explosion hazards, and process safety. This

is the nation's only master's degree program that is dedicated to both fire and explosion protection and related to safety. The program is geared toward recent graduates and professionals in a variety of industries, including insurance companies, the oil & gas industry, fire protection engineering companies. The graduates of this program will have the deeper knowledge base that is needed to safeguard people in Oklahoma, the nation, and world. The FSEP program is intended to be especially attractive to engineering and engineering technology graduates from any disciplines, and many science majors. The program is interdisciplinary in nature and hence students with undergraduate degrees in fire and safety related fields or other STEM disciplines are invited to apply for admission. Students can complete degree requirements either online as distance students or as a resident on campus.

**Admission Requirements.** Admission to the Master of Science degree program requires a B.S. degree in engineering or engineering technology from an ABET accredited (or equivalent) program. Alternately, B.S. students from other related disciplines may also be considered. Admission is competitive based on undergraduate GPA and TOEFL (for international students), statement of interests, experience and recommendations.

**Degree Requirements.** A candidate for the graduate degree must satisfy at least the minimum University requirements for that particular degree. The program consists of 30 hours of course work with a thesis option or 32 hours of course work with a non-thesis option. For both options, the courses taken must include GENT 5013, 5023, 5033 and FSEP 5113, 5133, 5143.

## Graduation Requirements

1. A grade of 'C' or better is required in each course that is a prerequisite to a required course that has an engineering or engineering technology prefix.
2. A minimum overall GPA of 2.5 is required in all courses that are used in this degree plan with engineering or engineering technology prefixes.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Fire Suppression and Emergency Operations (FSEO), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Qingsheng Wang**, qingsheng.wang@okstate.edu, 499 Cordell South, 405-744-5721

**Total Hours:** 21 hours

Code	Title	Hours

NREM 3713	Wildland Fire Ecology and Management	3

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Homeland Security Science and Technology (HSST), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Qingsheng Wang**, qingsheng.wang@okstate.edu, 499 Cordell South, 405-744-5721

**Total Hours:** 22 hours

- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

## Industrial Engineering and Management

Industrial engineering and management focuses on production systems that produce goods or provide services for customers. Industrial engineers define, design, build, operate, and improve production processes that convert resources to high quality products or services effectively, efficiently, and safely.

People are the fundamental component of production systems. People provide the creativity and leadership essential to make things happen. Hence, industrial engineering is the most people-oriented discipline within the engineering family. Industrial engineers are trained to think in both broad and specific terms. Practicing industrial engineers understand business parameters as well as physical and social parameters within production systems. This breadth allows industrial engineers to function effectively in a wide spectrum of activities ranging from strategic business planning to detailed task design. The wide-angle vision of industrial engineering provides career flexibility, leading to high-level leadership or specialized technical responsibilities.

Industrial engineers are found in manufacturing organizations (e.g., automotive, electronics, medical, and food manufacturers), service enterprises (e.g., hospitals, banks, airlines, and consulting groups), and governmental organizations (e.g., public service and regulatory organizations).

### Vision

IEM's vision is to place industrial engineers in a wide variety of industries including manufacturing, service, energy, healthcare, humanitarian, and others, so that our society at large can benefit from systems that efficiently produce goods or provide services, effectively use an optimal set of resources, and enrich the quality of life for all.

### Mission

The School of Industrial Engineering and Management's mission is to develop professionals and leaders in industrial engineering and management by being a leader in education, research, and outreach.

### Core Values

Faculty, students, and staff work together to build and maintain a learning/mentoring environment where:

- Innovative practices are developed, tested, and validated.
- Knowledge and practices are shared.
- Each individual develops to his/her full potential.
- Professional ethics are practiced at all times.

### Educational Objectives and Outcomes

Within a few years after graduation, Industrial Engineering program graduates will become professionals, managers or leaders in a wide variety of industries and apply discovery, problem solving, leadership, and management skills for the benefit of their organization and society at large.

### Student Learning Outcomes

Graduating baccalaureate students possess an understanding of fundamental industrial engineering and management concepts, methodologies and technologies as demonstrated by:

- an ability to apply knowledge of mathematics, probability and statistics, science, engineering.
- an ability to design and conduct experiments involving risk and uncertainty, as well as to analyze and interpret data.
- an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- an ability to function on multi-disciplinary teams.
- an ability to identify, formulate and solve engineering problems.
- an understanding of professional and ethical responsibility.
- an ability to communicate effectively.
- the broad education necessary to understand the impact of engineering solutions in a global economic, environmental and societal context.
- a recognition of the need for, and an ability to engage in, life-long learning.
- a knowledge of contemporary issues.
- an ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

The curriculum consists of three primary parts:

1. general studies,
2. core engineering, and
3. professional school topics.

General studies consist of courses such as mathematics, statistics, chemistry, physics, English, behavioral science, history, humanities, and arts. Core engineering courses consist of engineering sciences such as materials, statics, electrical circuits, fluid mechanics, and thermodynamics. Professional school courses consist of topics such as systems thinking and analysis in engineering, economic analysis, manufacturing processes, computer-aided modeling, work analysis, operations research, quality control, experimental design, facility location and layout, management and leadership, production control, system simulation modeling, information systems, ergonomics and human factors, and energy and water management. A capstone design experience, working with a real-world organization, integrates classroom and lab work together in the senior year. Details regarding degree requirements are available in the Undergraduate Programs and Requirements publication.

The IEM program is accredited by the Engineering Accreditation Commission of the ABET under the industrial engineering criteria.

Each IEM student, along with the faculty adviser, develops an individual plan of study that guides the student through the curriculum. Course work is sequenced and interrelated to provide theoretical and applied knowledge, along with hands-on laboratory and project experience. Students work as individuals and as teams to integrate and apply mathematical, scientific, and engineering knowledge and concepts in order to address both traditional academic questions as well as open-ended design and analysis challenges. Instruction in experimental methods is integrated in the curriculum through the design, execution, analysis and interpretation of experiments. Project work is used to develop both technical and communications skills. Technical skills are used to identify, formulate and address engineering problems, both simple and complex. Communications skills are developed and practiced in written, oral and team interaction formats.

The means to define and design detailed solutions to address customer needs from a system-wide perspective is introduced in the sophomore year, and reinforced through the capstone senior design project. Additionally, global perspectives or production systems are introduced and emphasized in the sophomore year so that students understand the nature of global customer bases as well as global competition early in their studies. The curriculum is continually updated to assure that contemporary issues, thinking, and tools are integrated in course content as well as instructional delivery. Professional responsibility and ethical behavior are introduced and reinforced throughout the curriculum. Additionally, the need for life-long learning after graduation is stressed.

Students are offered opportunities to enhance their classroom and laboratory experiences through student organizations such as the student chapter of the Institute of Industrial and Systems Engineers, the Institute for Operation Research and the Management Sciences, and the American Society for Quality. Outstanding scholars are recognized by Alpha Pi Mu, the national honor society for industrial engineering students. Additionally, opportunities for internship and co-op experiences are offered to IEM students so that they can gain professional experience during their collegiate program. Please visit our Internet site <http://iem.okstate.edu> for more information.

## Undergraduate Programs

- Industrial Engineering and Management, BSIE (p. 1494)

## Graduate Programs

The School of Industrial Engineering and Management offers graduate programs leading to the Master of Science Industrial Engineering and Management degree and the Doctor of Philosophy degree.

The Master of Science degree is characterized by a higher degree of technical specialization in a particular field of study (beyond a BS degree). This degree program is designed to prepare students for professional practice that may include research or consulting components. The Master of Science degree is especially attractive to industrial engineering graduates, engineering graduates from other disciplines, and many science majors. The MS degree includes a strong technical component and an orientation to business and engineering management that is complementary to a technical background.

The Doctor of Philosophy degree is designed to position the student on the leading edge of knowledge in the profession of industrial engineering and engineering management. It is intended to prepare students for highly specialized positions, such as research and consulting in industry, government and service organizations, and for teaching or research positions in colleges and universities.

The basic consideration in graduate education in industrial engineering and management is effective and efficient utilization of human, physical, and economic resources. Instruction in management embraces both qualitative and quantitative concepts, including analytical methodologies and social considerations pertinent to organizations.

Advanced degree programs are designed with major emphasis in fields of interest such as engineering management, manufacturing systems, operations research, quality and reliability, facilities and energy-management, and enterprise systems and supply chains. Students may complement industrial engineering and management courses with work in other branches of engineering, as well as economics, business

administration, computer science, statistics, mathematics, psychology, and sociology.

## Admission Requirements

Admission to the Graduate College is required of all students pursuing the MS or PhD degree. Graduation from an industrial engineering curriculum with scholastic performance distinctly above average qualifies the student for admission to the School of Industrial Engineering and Management as a candidate for the master's and doctorate degrees. Graduates from related disciplines may be admitted if an evaluation of their transcripts and other supporting materials by the School of Industrial Engineering and Management indicates that they are prepared to take graduate-level course work in industrial engineering, or can be expected to do so after a reasonable amount of prerequisite work.

All applicants must submit GRE scores (minimum 145 in Verbal Reasoning and 158 in Quantitative Reasoning). In addition, the Graduate College may require certain international applicants to submit TOEFL scores.

## Degree Requirements

The Master of Science degree in industrial engineering and management requires the completion of at least 30 credit hours beyond the bachelor's degree, including a research thesis of six credit hours. A 33 semester-credit-hour option is also permitted and must include a three credit-hour creative component. The creative component requirement can be met by completing a three credit-hour independent study project or a three credit-hour course approved by the student's committee.

The Doctor of Philosophy degree requires the completion of at least 90 credit hours beyond the bachelor's degree or 60 credit hours beyond the master's degree; including a minimum of 18 credit hours of dissertation research and a minimum of 30 credit hours of course work beyond the master's degree.

The School of Industrial Engineering and Management also participates in the Master of Science in Engineering and Technology Management program. Current IE&M program information can be found on the School website <http://iem.okstate.edu>.

IEM 4103	Introduction to Quality Control	3
IEM 4113	Industrial Experimentation	3
IEM 4203	Facilities and Material Handling System Design	3
IEM 4413	Industrial Organization Management	3
IEM 4613	Production Planning and Control Systems	3
IEM 4713	Introduction to Systems Simulation Modeling	3
IEM 4723	Information Systems Design and Development	3
IEM 4913	Senior Design Projects	3
Select 3 hours of the following:		
3		
IEM 4163	Service Systems and Processes	
IEM 4623	Introduction to Supply Chain Management	
IEM 4953	Industrial Assessment and Improvement	
IEM 4990	Selected Topics in Industrial Engineering and Management (3)	
<b>Hours Subtotal</b>		<b>54</b>
<b>Electives</b>		

Select 3 hours of a 3000 or 4000 level ACCT, BADM, CS, ECON, EEE, Engineering, FIN, LSB, MATH, MGMT, MKTG, MSIS, or STAT selected in consultation with an advisor. Required courses in IEM curriculum are excluded.

<b>Hours Subtotal</b>	<b>3</b>
Total Hours	126

<sup>1</sup> If a "B" or higher is not earned in ENGL 1113 Composition I, ENGL 1213 Composition II or ENGL 1413 Critical Analysis and Writing II is also required (per Academic Regulation 3.5 (p. 781)).

<sup>2</sup> Courses that must be completed prior to admission to professional school.

## Other Requirements

### Admission to Professional School (required)

Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

### Graduation Requirements

1. A minimum GPA of 2.00 is required in all courses applied to Professional School coursework.
2. A 'C' or better is required in each course that is a prerequisite for an IEM course and in technical courses listed, whether taken prior to admission to Professional School or not.
3. The major engineering design experience is satisfied by IEM 4913 Senior Design Projects.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Materials Science and Engineering

The field of materials science and engineering is expanding into a period of unprecedented intellectual challenges, opportunities and growth. Products created using materials science and engineering research contribute to the economic strength and security of not only the state, but also the country.

The School of Materials Science and Engineering is located at OSU-Tulsa's Helmerich Research Center, a premier facility which places the College of Engineering, Architecture and Technology in a unique position to conduct world-class education, research and technology development and transfer in advanced materials of strategic importance to our nation. Current research programs focus on materials for energy technologies, bio-materials for medical technologies, advanced materials for aerospace and defense, and materials for electronics and control technologies.

### Program Educational Objectives

OSU is currently offering only a graduate program in Materials Science and Engineering.

### Graduate Programs

The School of Materials Science and Engineering offers programs leading to the Master of Science and Doctor of Philosophy. A program of independent study and research on a project under the direction of a member of the Graduate Faculty will be satisfactorily completed by all graduate students. For the Master of Science candidate, the project may result in a thesis. For the Doctor of Philosophy candidate, the project results in a dissertation.

Four research areas of strategic importance have been identified at the Helmerich Advanced Technology Research Center (HRC) at OSU by industry leaders in and around Tulsa. These include: Materials for Energy Technologies, Bio-Materials for Medical Technologies, Advanced Materials for Aerospace, and Materials for Electronics and Control Technologies. All areas fall under the broad umbrella of the School of Materials Science and Engineering.

### Admission Requirements

Admission to either the Master of Science or Doctor of Philosophy degree program requires graduation from a materials science and engineering or related curriculum approved by the ABET or a recognized equivalent from any international program.

Students with related undergraduate degrees, such as chemistry, physics, engineering physics, applied physics, etc. can be admitted conditionally, subject to completing prescribed Materials Science and Engineering program core courses. Admission is competitive based on undergraduate GPA, GRE and TOEFL (for international students), statement of interests, experience and recommendations.

### The Master of Science Degree

The M.S. degree in MSE has both thesis and creative component (non-thesis) options. The thesis option requires a total of 30 credit hours, which includes 24 hours of formal coursework (regularly scheduled classes, not independent study) and 6 hours of a thesis. The non-thesis option or creative component requires a total of 35 credit hours, which includes 33 hours of formal coursework (regularly scheduled classes, not independent study) and 2 hours of a creative component or project. The main difference between the two options is that in the thesis option, students conduct independent research while in the creative component

option, students conduct critical review of the literature on an advanced topic of interest to the MSE program. Both options require a professional report or thesis and an oral presentation. Student take 15 hours of core courses (required) with the remainder of the hours being MSE elective courses or their equivalent (to be approved by MSE graduate coordinator and the thesis advisor or has been considered as an equivalent MSE course). Students must complete no less than 21 hours of MSE 5000- and 6000-level courses through Oklahoma State University. For both options the courses taken must include:

Code	Title	Hours
MSE 5013	Advanced Thermodynamics of Materials	3
MSE 5023	Diffusion and Kinetics	3
MSE 5033	Composite Materials	3
MSE 5043	Advanced Materials Characterization	3
MSE 5083	Advanced Ceramics Processing	3

### The Doctor of Philosophy Degree

The general credit requirement is a minimum of 90 credit hours beyond the BS degree, including at least 36 hours of credit for research and at least 30 hours of class work. It is expected that the courses must include:

Code	Title	Hours
MSE 5013	Advanced Thermodynamics of Materials	3
MSE 5023	Diffusion and Kinetics	3
MSE 5033	Composite Materials	3
MSE 5043	Advanced Materials Characterization	3
MSE 5083	Advanced Ceramics Processing	3
MSE 5693	Phase Transformations in Materials	3
MSE 5113	Diffraction in Materials	3

Students are responsible for consultation with their doctoral advisory committee in preparing the plan of study. Furthermore, students have to pass the PhD qualifying exam and the dissertation proposal defense to become eligible for candidacy for the PhD Degree, successfully conduct independent research for the dissertation, and pass the final dissertation defense in order to qualify for the PhD degree. More details can be found in the MSE Graduate Student Handbook.

### Faculty

Raman P. Singh, PhD—Associate Dean and Head  
**Helmerich Family Endowed Chair and Director, Helmerich Research Center and Professor:**

Raman P. Singh, PhD

**Williams Companies Distinguished Chair and Regents Professor:** Raj N. Singh, ScD

**Professor and Varnadow Endowed Professor:** Ranji Vaidyanathan, PhD, PE

**Associate Professor:** James Smay, PhD

**Assistant Professors:** Pankaj Sarin, PhD; Do Young Kim, PhD

**Assistant Research Professor:** Nirmal Govindaraju, PhD

## Mechanical and Aerospace Engineering

No other profession unleashes the spirit of innovation like Mechanical Engineering and Aerospace Engineering. From research to real-world applications, mechanical and aerospace engineers discover how to improve lives by creating bold new solutions that connect science to life in unexpected, forward thinking ways. Few have such a direct and positive effect on everyday lives and we count on mechanical and aerospace engineers, and their imaginations, to help us meet the needs of the 21st century.

Mechanical and aerospace engineers know that life takes engineering, and that their disciplines provide freedom to explore, shape the future, encompass an enterprising spirit, and call for limitless imagination.

Engineering makes a world of difference and is essential to our health, happiness, and safety. Creative problem solving, while turning dreams into reality, is the core of Mechanical and Aerospace Engineering. These professional disciplines involve the invention, design, and manufacture of devices, machines and systems that serve the ever-changing needs of modern society.

Mechanical engineering is an exceedingly diverse field that spans an exceptionally wide range of systems, devices and vehicles. Mechanical engineers are vitally concerned with all forms of energy production, utilization and conservation. They are the key professionals in bringing about the green revolution, finding ways to reduce or eliminate pollution, minimize waste, reduce energy usage, and re-use waste, scrap, and recycled goods. They deal with everything mechanical and energy-consuming, whether small or large, simple or complex—from fuel cells to nuclear power plants, gas turbine engines to interplanetary space vehicles, artificial limbs to life support systems, robotic manipulators to complex automatic packaging machines, precision instruments to construction machinery, household appliances to mass transit systems, heating and air-conditioning systems to off-shore drilling platforms, and powered home and garden appliances to vehicles of all types. In virtually every organization where engineers are employed, mechanical engineers will be found.

The BS degree program in mechanical engineering, together with the premedical option in mechanical engineering, is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) under the criteria for mechanical and similarly named engineering programs.

Aerospace engineering is concerned with the science and technology of flight, and the design of air, land and sea vehicles for transportation and exploration. This exciting field has led people to the moon and continues to lead in the expansion of frontiers deeper into space and into the ocean's depths. Because of their unique backgrounds in aerodynamics and lightweight structures, aerospace engineers are becoming increasingly involved in solving some of society's most pressing and complex problems, such as high-speed ground transportation and pollution of the environment.

The BS degree program in aerospace engineering is accredited by the Engineering Accreditation Commission of the ABET under the criteria for aerospace and similarly named engineering programs.

### MAE Mission

The mission of the School of Mechanical and Aerospace Engineering is to create a vibrant and stimulating learning and research environment

and to instruct and encourage our students to reach their full potential in technical expertise, innovative expression, intellectual curiosity, and collaborative design.

### MAE Mission for Undergraduate Instruction

The School of Mechanical and Aerospace Engineering will support the MAE and CEAT missions and the mission for instruction of Oklahoma State University by providing a first class education to students that is grounded in engineering fundamentals. The Faculty of MAE are committed to preparing engineers who are:

- Competitive nation-wide and internationally for employment opportunities and who will become respected achievers within their discipline.
- Well prepared for the pursuit of advanced studies at any university.
- Prepared for a lifetime of continuing development, which is demanded by disciplines involved with rapidly progressing technology.

### Rigor

The GPA requirements for MAE professional school admission and the degree requirements for graduation are the highest in CEAT (see Departmental GPA Requirements, item f). This is essential to fulfill the MAE Mission for Undergraduate Instruction.

### Program Educational Objectives

Program educational objectives are statements that describe the expected accomplishments and professional status of mechanical and aerospace engineering graduates three to five years beyond the baccalaureate degree. The School of Mechanical and Aerospace Engineering at Oklahoma State University is dedicated to graduating mechanical and aerospace engineers who:

1. Develop exemplary careers and become leaders to the greater benefit of society.
2. Earn a reputation as responsible and ethical professionals.
3. Develop innovative technologies and adapt to changing professional and societal norms with wisdom and integrity.

### Student Outcomes and Specific Program Criteria

The student outcomes for students graduating from the mechanical and aerospace engineering BS programs are:

- a. an ability to apply knowledge of mathematics, science, and engineering;
- b. an ability to design and conduct experiments, as well as to analyze and interpret data;
- c. an ability to design a system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
- d. an ability to function on multidisciplinary teams;
- e. an ability to identify, formulate and solve engineering problems;
- f. an understanding of professional and ethical responsibility;
- g. an ability to communicate effectively;

- h. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- i. a recognition of the need for, and an ability to engage in, life-long learning;
- j. a knowledge of contemporary issues;
- k. an ability to use the techniques, skills and modern engineering tools necessary for engineering practice.

ABET requires specific program criteria which must be supported by the curricula and are unique to engineering disciplines. For the BSME Program, the specific ME program criteria are broken into three elements. The ME curriculum prepares graduates to:

1. ME1- demonstrate an ability to apply principles of engineering, basic science and mathematics (including multivariate calculus and differential equations);
2. ME2- demonstrate an ability to model, analyze, design, and realize physical systems, components or processes; and
3. ME3 – be prepared to work professionally in either thermal or mechanical systems areas while taking courses in each area.

For the BSAE Program, the specific AE program criteria are also broken into three elements. The AE curriculum prepares graduates with:

1. AE1 – knowledge of the following aeronautical topics: aerodynamics, aerospace materials, structures, propulsion, flight mechanics, and stability and control;
2. AE2 – knowledge of some of the following astronautical topics: orbital mechanics, space environment, attitude determination and control, telecommunications, space structures, and rocket propulsion; and
3. AE3 – graduates must have design competence which includes integration of aeronautical or astronautical topics.

Because mechanical engineering is perhaps the broadest of all engineering disciplines, the program provides not only excellent grounding in all engineering fundamentals, but also allows some flexibility in selecting controlled technical electives to suit the student's interests. In this selection, no one area may be unduly emphasized at the expense of another. For the aerospace engineering, biomedical engineering, and premedical programs, prescribed course work provides students with more focused development. Graduates are fully competent as mechanical or aerospace engineers, with abilities in design, and in-depth knowledge in their areas of concentration.

As a fundamental component of all BS programs, engineering design is strongly emphasized in the junior and senior years but is integrated throughout the curriculum. Most MAE courses at the 3000 and 4000 levels include some design content, ranging from a minimum of one-half to a maximum of four credit hours of design content. Each professional school course builds upon the preceding mechanical and aerospace engineering courses to develop in the student the ability to identify and solve meaningful engineering problems. The course work is specifically sequenced and interrelated to provide design experience at each level, leading to progressively more complex, open-ended problems. The course work includes sensitizing students to socially-related technical problems and their responsibilities as engineering professionals to behave ethically and protect occupational and public safety. The program culminates in a senior-year design course in which students integrate analysis, synthesis, and other abilities they have developed throughout the earlier portions of their study into a capstone experience. The design

experiences include the fundamental elements and features of design with realistic constraints such as economics, safety, reliability, social and environmental impact, and other factors. At this point, students are able to design components, systems and processes that meet specific requirements, including such pertinent societal considerations as ethics, safety, environmental impact and aesthetics. Students develop and display the ability to design and conduct experiments essential to specific studies and to analyze experimental results to draw meaningful conclusions.

An integral part of this educational continuum, from basic science through comprehensive engineering design, are learning experiences that facilitate the students' abilities to function effectively in both individual and team environments. The program also provides every graduate with adequate learning experiences to develop effective written and oral communication skills. State-of-the-art computational tools are introduced and used as a part of their problem-solving experiences. Finally, the students' experience in solving ever-more-challenging problems gives them the ability to continue to learn independently throughout their professional careers.

The broad background and problem-solving ability of mechanical and aerospace engineers make them suited to engage in one or more of the following activities: research, development, design, production, operation, management, technical sales and private consulting. Versatility is their trademark. A bachelor's degree in mechanical or aerospace engineering is also an excellent background for entering other professional schools such as medicine, dentistry, law or business (MBA). The premedical option in mechanical engineering is available for students wishing to enroll in medical school.

In the professional school, (essentially the junior and senior years of the program) mechanical and aerospace engineering students extend their study of the engineering sciences and consider applications of fundamental principles and analysis tools to the solution of real technological problems of society. Some design courses involve students in the solution of authentic, current and significant engineering problems provided by industrial firms. Students may also help smaller firms that need assistance with the development of new products.

The student designs, with the guidance of an adviser, an individualized program of study consistent with his or her interests and career plans. Some students terminate their studies with a bachelor's degree, while others receive one of several graduate degrees.

## Undergraduate Programs

- Aerospace Engineering, BSAE (p. 1500)
- Mechanical Engineering, BSME (p. 1502)
- Mechanical Engineering: Pre-Medical, BSME (p. 1504)

## Graduate Programs

The School of Mechanical and Aerospace Engineering offers programs leading to the degree of Master of Science in Mechanical and Aerospace Engineering, and the degree of Doctor of Philosophy in Mechanical and Aerospace Engineering. Both of these degrees offer an option in Unmanned Aerial Systems and prepare the graduate for research and development positions in industry and government, or for the teaching profession in engineering. They are distinguished by the incorporation of a research component.

Students may select course work and participate in research or design projects in the following areas: aerodynamics, aeroelasticity, biomedical

engineering, design, computational mechanics, heat transfer dynamic systems and controls, fluid mechanics, materials, manufacturing processes, refrigeration, solid mechanics thermal and HVAC systems, unmanned aerial systems, and web handling systems. Students are encouraged to take courses in mathematics and science and in other fields of engineering which fit into their programs.

## Admission Requirements

Admission to the Graduate College is required of all students pursuing the MS or PhD degree. Graduation from a mechanical or aerospace engineering curriculum accredited by the ABET, with scholastic performance distinctly above average, qualifies the student for admission to the School of Mechanical and Aerospace Engineering as a candidate for the MS and PhD degrees. Graduates from disciplines other than mechanical or aerospace engineering may be admitted if an evaluation of their transcripts by the School of Mechanical and Aerospace Engineering indicates they are prepared to take graduate-level course work in mechanical or aerospace engineering, or can be expected to do so after a reasonable amount of prerequisite work.

## Degree Requirements

All degree programs follow an approved plan of study designed to satisfy the individual goals of the student, while conforming to the general requirements of the School of Mechanical and Aerospace Engineering and the Graduate College.

The Master of Science degree program with the thesis option requires 24 credit hours of approved graduate-level course work, and a suitable research thesis of six credit hours. The non-thesis option requires 35 credit hours of which two must be for an acceptable, directed research activity that results in a written and oral report to the faculty.

The Doctor of Philosophy degree requires a minimum of 60 credit hours beyond the master's degree, including a dissertation for which no more than 30 credit hours may be awarded.

## Faculty

Daniel E. Fisher, PhD, PE – Professor and Head

**Professor and Albert H. Nelson, Jr. Endowed Chair:** Daniel E. Fisher, PhD, PE

**Associate Head and Noble Foundation Chair in Web Handling and Director, Web Handling Research Center and Professor:** James K. Good, PhD, PE

**Regents Service Professor:** Karl N. Reid, ScD

<sup>1</sup> Courses that must be completed prior to admission to professional school.

## Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

## Graduation Requirements

1. A minimum GPA of 2.50 is required in all MAE prefix Courses.
2. A minimum overall GPA of 2.50 is required in 4000-level MAE prefix courses.
3. A 'C' or better is required in each course that is a prerequisite for a major course taken.
4. The major engineering design experience, capstone course, is satisfied by MAE 4344 Design Projects or MAE 4354 Aerospace Systems Design for Mechanical Engineers.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

# Mechanical Engineering: Pre-Medical, BSME

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

CHEM 3112	Organic Chemistry Lab	2
CHEM 3153	Organic Chemistry	3
IEM 3503	Engineering Economic Analysis	3
MICR 3033	Cell and Molecular Biology	3

Select 13 hours of the following 4 categories, selecting one course from each category so that all 4 categories are represented:

### Category I (Thermal Systems Realization):

MAE 4243	Aerospace Propulsion and Power	
MAE 4263	Energy Conversion Systems	
MAE 4703	Design of Indoor Environmental Systems	
MAE 4713	Thermal Systems Design, Simulation and Optimization	

### Category II (Mechanical Systems Realization):

MAE 4353	Mechanical Design II	
MAE 4363	Advanced Methods in Design	
MAE 4513	Aerospace Structures I	
MAE 4623	Biomechanics	

### Category III (Laboratory):

MAE 4273	Experimental Fluid Dynamics	
MAE 4333	Mechanical Metallurgy	
MAE 4733	Mechatronics Design	

### Category IV (Capstone Design):

MAE 4344	Design Projects	
MAE 4354	Aerospace Systems Design for Mechanical Engineers	

Select 6 hours to be selected from the following list, or from courses in the 4 categories listed above, but not used to satisfy the category requirement:

**6**

MAE 3033	Design of Machines and Mechanisms
MAE 3123	Manufacturing Processes
MAE 3253	Applied Aerodynamics and Performance
MAE 3293	Compressible Fluid Flow
MAE 4053	Automatic Control Systems
MAE 4063	Mechanical Vibrations
MAE 4313	Advanced Processing of Engineered Materials

The following are suggested, but not required:

BIOC 3653	Survey of Biochemistry
BIOL 3023	General Genetics
BIOL 3204	Physiology
BIOL 4134	Embryology

CHEM 1314 is recommended with CHEM 1515 to meet the Oklahoma medical schools' requirement for 9 hours of inorganic chemistry

<b>Hours Subtotal</b>	<b>57</b>
Total Hours	138

- Degrees that follow this plan must be completed by the end of Summer 2023.

<sup>1</sup> Courses that must be completed prior to admission to professional school.

<sup>2</sup> Denotes medical school requirements. PSYC 1113 Introductory Psychology (S) is recommended to satisfy (3) hours of (S) requirement. PHIL 3833 Biomedical Ethics (H) is recommended to satisfy (3) hours of (H) requirement.

Note: The entrance requirements of medical schools of choice should be reviewed to ensure an application is competitive.

## Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

## Graduation Requirements

1. A minimum GPA of 2.50 is required in all MAE prefix Courses.
2. A minimum overall GPA of 2.50 is required in 4000-level MAE prefix courses.
3. A 'C' or better is required in each course that is a prerequisite for a major course taken.
4. The major engineering design experience, capstone course, is satisfied by MAE 4344 Design Projects or MAE 4354 Aerospace Systems Design for Mechanical Engineers.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.

## Mechanical Engineering Technology

Mechanical engineering technology (MET) is the component of engineering that specializes in design and application. MET includes the broad areas of mechanical design, mechanical power and manufacturing. Mechanical engineering technology is applied in mechatronics, robotics, automotive manufacturing, computer-aided drafting and design, computer-aided manufacturing, agricultural machinery and processing, mining, shipbuilding, spacecraft, electronics manufacturing, food processing, aircraft metals and plastics production—nearly the entire spectrum of the industry. In the power areas, MET graduates are involved in vapor power cycles, gas power cycles, air conditioning, fluid power and power transmission. Manufacturing areas involving MET graduates include tool design, cost evaluation and control, plant operations, production planning and manufacturing methods.

An important element in MET is the use of laboratory experience as a teaching tool. The MET program has laboratories in fluid power, materials, fluid mechanics and applied thermal sciences, basic instrumentation, computer-aided design (CAD), and manufacturing (CAM). A senior capstone design course, composed of student teams, integrates the knowledge and skills learned during their course of study. Laboratories are equipped with the latest computer software that supports the design function. Where appropriate, laboratories with modern computer data acquisition systems and on-screen displays are available.

In addition to the required mechanical engineering technology courses, students are provided a solid foundation in algebra, trigonometry and calculus, physics, chemistry, statics, dynamics, instrumentation, thermodynamics, computer science, and entrepreneurship (as a minor).

## Program Educational Objectives

A few years after graduation, OSU Mechanical Engineering Technology graduates will:

1. Be employed in a technical or management position where the skills and knowledge of mechanical engineering technology are utilized.
2. Successfully apply mathematical, analytical, and technical skills to industrial problems, which may include the areas of design, manufacturing, graphical communications, and fluid power.
3. Within your employment environment, work proactively and productively as both members and leaders of teams.
4. Within your employment organization, communicate effectively in written, oral and graphical form.
5. Continue life-long learning by bringing new technology into their workplace, through participation and membership in professional organizations and/or through the continuation of professional studies.

**Student Outcomes.** Students graduating from the MET program are expected to achieve the following student outcomes (a-k):

- a. an ability to select and apply the knowledge, techniques, skills, and modern tools of the discipline to broadly-defined engineering technology activities;
- b. an ability to select and apply a knowledge of mathematics, science, engineering, and technology to engineering technology problems that require the application of principles and applied procedures or methodologies;

- c. an ability to conduct standard tests and measurements; to conduct, analyze, and interpret experiments; and to apply experimental results to improve processes;
- d. an ability to design systems, components, or processes for broadly-defined engineering technology problems appropriate to program educational objectives;
- e. an ability to function effectively as a member or leader on a technical team;
- f. an ability to identify, analyze and solve broadly-defined engineering technology problems;
- g. an ability to apply written, oral, and graphical communication in both technical and non-technical environments; and an ability to identify and use appropriate technical literature;
- h. an understanding of the need for an ability to engage in self-directed continuing professional development;
- i. an understanding of and a commitment to address professional and ethical responsibilities including respect for diversity;
- j. a knowledge of the impact of engineering technology solutions in a societal and global context; and
- k. a commitment to quality, timeliness, and continuous improvement.

Furthermore, the MET program has the following program specific outcomes (l to o):

Graduating MET students can proficiently apply

- l. Computer aided drafting/design, manufacturing
- m. Experimental techniques/procedure, analysis of engineering data
- n. Machine/mechanical design/analysis
- o. Fluid power, thermal/fluids system design

Preparation for a specific industrial function is accomplished by selecting courses that emphasize a given design area, such as fluid power, mechanical design, computer-aided design (CAD) power generation, and air conditioning and heating. Because the program focuses on the application of engineering principles to the pragmatic solution of problems, graduates are immediately productive with minimal on-the-job training, thus increasing their value to industry. Graduates of the MET program are prepared to function in the areas of product design, testing and evaluation; product application and maintenance field engineering; and technical sales and liaison. Industries employing MET graduates include manufacturing companies of all types (aircraft, automobile, compressor and turbine, fluid power manufacturers and others); energy companies (such as natural gas, electrical power generation, and the oil and gas industries); and service companies (transportation industry, architecture and professional engineering firms, and those supporting the oil and gas industry).

Companies utilizing the talents of MET graduates are diversified in their products, as well as geographical location, thus providing a variety of choices in respect to both type of work and place of residence and in diverse industrial, governmental and educational institutions.

The Mechanical Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org>.

<sup>1</sup> If B or higher is not earned in ENGL 1113 Composition I or ENGL 1313  
 Critical Analysis and Writing I, ENGL 1213 Composition II or  
 ENGL 1413 Critical Analysis and Writing II is also required (per  
 Academic Regulation 3.5 (p. 781)).

## Graduation Requirements

1. A minimum average GPA of 2.00 is required in all courses with an engineering or engineering technology prefix.
2. A grade of C or better is required in a 1000-3000-level GENT or MET course in order to advance to a course for which the GENT or MET course is prerequisite.
3. Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made so long as the changes do not delay graduation or result in semester hours being added.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## School of Architecture

The School of Architecture, founded in 1909, offers professional degree programs in both architecture and architectural engineering. The integration of these programs through shared faculty, facilities and course work is a major strength of the School. It is one of the few such integrated programs in the United States, and as such produces graduates who are particularly prepared for the integrated team processes used in professional practice. The School of Architecture is a primary unit in the College of Engineering, Architecture and Technology, and therefore benefits from excellent state-of-the-art resources which significantly enhance the School's professional programs. The program moved into a brand new facility, the Donald W. Reynolds School of Architecture Building in 2009, and at the same time celebrated its centennial as a School of Architecture.

The School of Architecture is dedicated to providing a high quality and focused professional education to students whose career goals are to enter the practice of architecture or architectural engineering.

Professional and liberal study electives provide opportunities for educational breadth or depth and a possible double degree in both architecture and architectural engineering and a minor in Architectural History/Theory, Architecture and Entrepreneurship, or minors available across OSU.

Oklahoma State University graduates are recruited by the leading architectural and architectural engineering firms both in Oklahoma and nationally. The Oklahoma State University School of Architecture is particularly proud of having among its alumni many of the leaders of the best firms in the country, an AIA Gold Medalist (the highest award given to an architect), and presidents of the American Institute of Architects (AIA) and the National Architectural Accreditation Board (NAAB).

## Mission and Goals

Architecture is the difficult and complex art and science of designing and building a setting for human life. It is unique among today's professions in that its successful practice requires a blend, in roughly equal shares, of traits normally considered less than compatible: human empathy, artistic creativity, technological competence, and organizational and economic acumen. In contrast to other fine arts, architecture is rarely self-generated; it is rather a creative response to a stated or perceived human need. It must, therefore, be more user-oriented than fine art alone and more humane than pure science. Its design solutions must avoid the total subjectivity and detachment of other arts while striving to be functionally, technically and economically objective and sound. Yet, in a seemingly insoluble contradiction, the keenest technological and economic functionality will fall far short of becoming architecture unless it also strongly appeals to human spiritual and emotional values. When one thinks of the environment, one cannot help but see or recall architectural images: pyramids in Egypt, Greek and Roman temples, gothic cathedrals, medieval castles, industrial cities, modern skyscrapers and dwellings or entire cities which significantly express the culture and values of the people who live or lived there.

The mission of the School of Architecture is to prepare future architects and architectural engineers to make vital contributions to humanity through the creation of architecture. The vision of the school is to be nationally recognized for outstanding professionally focused programs in architecture and architectural engineering with strengths in design and the collaboration between architecture and architectural engineering.

The School of Architecture endeavors to instill in each individual sensitivity to human needs, a genuine concern for quality, integrity and high ideals, a positive attitude for life-long learning, and an appreciation for one's own self-esteem.

The School's primary goal is to provide excellence in professional education for students preparing to enter the private practice of architecture or architectural engineering. This professional focus is to educate not only qualified candidates for the degree, but graduates who, during their careers, will be licensed professionals and will assume positions of leadership within the profession and society.

## Accreditation

The School of Architecture offers two separately accredited professional degree programs. The Bachelor of Architecture degree, BArch, is accredited by the NAAB. The Bachelor of Architectural Engineering degree, BArchE, is accredited by the Accreditation Board for Engineering and Technology (ABET <http://www.abet.org>) as an engineering program. Both programs require a minimum of five years of study to complete. In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB) which is the sole agency authorized to accredit U.S. professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may require a preprofessional undergraduate degree in architecture for admission. However, the preprofessional degree is not, by itself, recognized as an accredited degree. The Oklahoma State University School of Architecture offers the following NAAB-accredited degree programs; B.Arch. (154 undergraduate credits).

The next accreditation visit will occur in 2017.

## Architecture

Architecture is the complex synthesis of creatively solving problems involving both art and science through the disciplined orchestration of image making, activity organization, technological applications, legal constraints, and budgetary parameters which together express culture, enhance quality of life and contribute to the environment.

Education in architecture consists of campus-oriented classroom and studio courses, as well as off-campus studies. It is conducted in an intellectual climate which stimulates inquiry, introduces principles and values, and teaches the disciplines necessary to work in collaboration with others. The goal of the program is the education of future leaders within the architecture profession.

In the pre-professional portion of the architectural program (approximately two years of study), the focus is on the fundamental principles of design and technology supplemented by appropriate general education courses in English, social sciences and humanities. These courses allow students to assimilate a beginning knowledge base in architecture along with a broader liberal based component to their education.

Students who demonstrate proficiency in this portion of the program by meeting a specific set of admission criteria are eligible for admission to the professional program in architecture.

The professional program in architecture (typically three years) builds systematically upon the knowledge acquired in the pre-professional curriculum. Students expand their design and problem-solving abilities through a sequential series of design studios informed by sequences of courses dealing with structure, systems and materials, building technology, the history and theory of architecture, and business and project management principles. In addition students fully utilize the computer as a design and communication tool in the problem-solving process.

The design studio is the center of the School's educational program. It is the setting where students and faculty work most closely together, and where all specialized study and knowledge comes together and is synthesized in design. The record of OSU students' achievements in the design studios is evidenced by the success in national and international architectural design competitions. In addition to a student's design studio education, he or she is required to complete sequential courses in structures, architectural history/theory, technology, and management that work in correlation with the design studio sequence.

The program has long been known as one of the strongest professional programs in the United States. OSU graduates are consistently offered employment opportunities in many of the best architectural offices in Oklahoma and throughout the United States. The program is fully accredited by the National Architectural Accreditation Board.

## Architectural Engineering

Architectural engineering is a profession that combines the art and science known as architecture with a detailed background in fundamental and applied engineering principles. In its broadest sense, it involves the creative application of science and technology to the design of structures meant for human occupancy. Architectural engineering differs from architecture in its focus upon the design of elements, systems and procedures for buildings, rather than the design of buildings themselves. Architectural engineers practice in a wide variety of professional engineering settings such as consulting firms, architectural firms, industrial or commercial organizations and governmental agencies.

The objective of the Bachelor of Architectural Engineering program is to provide basic and professional education to engineering students in building-related structural engineering. OSU graduates possess broad-based knowledge, skills, and judgment that prepare them to succeed in the profession of architectural engineering or in further studies at the graduate level. The program is designed to prepare students to contribute to society as professional engineers dealing with analysis, design and related activities within the construction industry. The program utilizes the broad resources of the University to exploit a close relationship with the architectural program and to provide in-depth understanding of the professional field and sensitivity to other less technical concerns related to the building environment faced by architectural engineers.

The primary focus of the architectural engineering program at OSU is the safe and economical design of structural systems used in buildings. These structural systems must withstand the various forces of nature such as gravity, winds and earthquakes, as well as the forces of man. These systems require a working knowledge of the mechanics of those materials commonly used for building structures such as steel, timber and reinforced concrete. Two new options are available for consideration

in the architectural engineering program: Mechanical Electrical and Plumbing, and Construction Project Management.

The study of architectural engineering is an integrated mix of liberal studies, design and technical education. Architectural engineers need to be able to conceptualize aesthetic issues and design complex technical systems.

In the pre-professional portion of the architectural engineering program (approximately two years of study), the focus is on the underlying scientific and mathematical principles of engineering and the basic design principles of architecture supplemented by appropriate general education courses in English, social sciences and humanities. These courses allow students to assimilate a beginning knowledge base in architecture and engineering along with a broader liberal based component to their education. Students who demonstrate proficiency in this portion of the program by meeting a specific set of admission criteria are eligible for admission to the professional program in architectural engineering.

The professional program in architectural engineering (typically three years) builds systematically upon the scientific and architectural knowledge acquired in the pre-professional curriculum. Students acquire detailed technical and architectural knowledge and problem-solving abilities through a series of progressively more detailed and comprehensive courses and studios.

Each architectural engineering course builds upon the preceding architectural engineering courses to develop in the student the ability to identify and solve meaningful architectural engineering problems. The course work is specifically sequenced and interrelated to provide design experience at each level, leading to progressively more complex, open-ended problems. This course work includes sensitizing students to socially-related technical problems and their responsibilities as engineering professionals to behave ethically and protect public safety. The program culminates in a fifth year course in which the students integrate analysis, synthesis and other abilities they have developed throughout the earlier portions of their study into a capstone experience.

An integral part of this educational continuum from basic knowledge through comprehensive architectural engineering design are learning experiences that facilitate the students' abilities to function effectively in both individual and team environments. Students are exposed to a wide variety of problems dealing with contemporary issues in an international context. Moreover, the program provides every graduate with adequate learning experiences to develop effective written and oral communication skills. State-of-the-art computational and CAD tools are introduced and used as a part of the students' problem-solving experiences. Finally, the students' experience in solving ever-more-challenging problems gives them the ability to continue to learn independently throughout their professional careers

**Architectural Engineering Educational Objectives.** The educational objectives expected of program graduates a few years after graduation are as follows. These graduates:

- Will utilize their education in architectural engineering to contribute to society as licensed professional engineers.
- Will excel in their careers, displaying leadership, initiative, and broad-based knowledge and skills.
- Will have displayed a sensitivity to human needs and other less technical concerns related to the building environment.

- Will have utilized the close relationship with the architecture program to develop a special ability to collaborate with and relate to architects.
- Will have a positive attitude for life-long learning.

The architectural engineering program has adopted the following program outcomes:

- an ability to apply knowledge of mathematics, science, and engineering.
- an ability to design and conduct experiments, as well as to analyze and interpret data.
- an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- an ability to function on multidisciplinary teams.
- an ability to identify, formulate, and solve engineering problems.
- an understanding of professional and ethical responsibility.
- an ability to communicate effectively.
- the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- a recognition of the need for, and an ability to engage in life-long learning.
- a knowledge of contemporary issues.
- an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The program outcomes were adopted with the concept that they would provide students with the educational experience necessary to successfully achieve the longer term program educational objectives.

## Undergraduate Curriculum

The programs in architecture and architectural engineering are five years long and offer the professional degrees of Bachelor of Architecture and Bachelor of Architectural Engineering.

## Undergraduate Admission

Students who satisfy the University admission requirements are eligible to enroll for the first two years of the program (pre-architecture). Upon completion of these two years, the best qualified students are selected, upon application, by the School for admission to the upper division (professional program). Admission is based upon academic achievement and professional potential. Admission criteria are subject to annual review by the School and may be obtained directly from the School.

Transfer students are required to furnish transcripts and course descriptions for previous classroom courses, as well as examples of previous studio work. Evaluation and enrollment by the School is on a course-by-course basis for all transfer students.

## General Education

At least 12 semester hours of basic science and mathematics can be counted toward General Education requirements, and some required course work in History and Theory of Architecture can be used for General Education credit.

## Electives

Electives should be selected to comply with the appropriate undergraduate degree requirements for the program. (See 3.2 "Changes in Degree Requirements" in the "University Academic Regulations (p. 781)" section of the Catalog.) These requirements assure compliance with institutional and accreditation criteria.

## Study Abroad

The School of Architecture is committed to preparing its graduates for the professional opportunities presented by the expanding global economy. As part of this preparation, the School offers a nine-week Summer European Study Program based in Rome, Italy. This program has been designed to supplement the required curriculum. Students study, in an organized and disciplined fashion, major examples of modern and historic European architecture, including urban issues. Both analytic and artistic sketching skills are the main tools developed in this course of study.

Experience has shown that the Summer European Study Program significantly increases a student's level of maturity, independent thinking, and cultural and social awareness of others. Knowing the values and accomplishments of other cultures not only deepens and broadens knowledge and abilities; it also makes a student a better and more responsible citizen of his or her own country. Starting for freshman matriculating in the fall of 2016, the BArch curriculum will require a longer-term study abroad experience as a condition for graduation..

## Faculty and Facilities

In keeping with the professional orientation of the School, the faculty have extensive experience as successful practicing architects and architectural engineers, as well as outstanding scholastic records. The diversity of the faculty is a strength.

The school moved into a new facility in 2009, the Donald W. Reynolds School of Architecture Building, which includes spacious design studios, a greatly expanded architectural library, day lighting lab, computer lab, classroom facilities and many other amenities. The Donald W. Reynolds School of Architecture received an AIA Oklahoma Honor Award recognizing its outstanding design in 2011.

## Computers

All School of Architecture students enrolled in either the architecture or architectural engineering programs will be required to purchase a laptop computer as they enter the Professional Program (third year of the curriculum). Updated specifications for the computer and software will be provided each year.

## Student Work

Projects submitted for regular class assignments may be retained by the School. All projects not retained will be available to the student.

## Student Body

With the curriculum based upon extensive and personalized student-faculty interaction, the student-faculty ratio in studio courses is set at approximately 15 to one. Annual student enrollment is approximately 300 students.

## Academic Advising

The College's Office of Student Academic Services provides initial advisement for all pre-professional architecture students. Prior to application to the Professional School, advisement is provided by the School of Architecture.

Each student is personally advised in the planning and scheduling of his or her course work and is counseled and advised individually on matters of career choice, his or her activities at OSU, and on other academic matters. An academic file is created for each student at the time of initial enrollment.

## Admission to Professional School

Students applying for admission to the Professional School must first meet the required criteria established for each program. Applicants will be selected based upon their performance in the First and Second Year Architecture and Architectural Engineering curricula. Particular courses in the curricula, which have proven to be good indicators of success in the two programs, will be factored with a multiplier to increase their influence in the selection procedure. To be considered for either program, applicants must:

1. Complete a minimum of 55 credit hours of coursework (applicable to the degree plan) prior to admission to professional school.
2. Complete the following required first and second year courses with a grade of 'C' or better.

For the Architecture program:

Code	Title	Hours
ARCH 1112	Introduction to Architecture	2
ARCH 2003	Architecture and Society (HI)	3
ARCH 1216	Architectural Design Studio I	6
ARCH 2116	Architectural Design Studio II	6
ARCH 2216	Architectural Design Studio III	6
ARCH 2263	Building Systems	3
MATH 2144	Calculus I (A)	4
PHYS 2014	General Physics (LN)	4
ENSC 2113	Statics	3
ENGL 1113	Composition I	3

For the Architectural Engineering program:

Code	Title	Hours
ARCH 1112	Introduction to Architecture	2
ARCH 1216	Architectural Design Studio I	6
ARCH 2116	Architectural Design Studio II	6
ARCH 2216	Architectural Design Studio III	6
ARCH 2263	Building Systems	3
MATH 2144	Calculus I (A)	4
PHYS 2014	General Physics (LN)	4
ENSC 2113	Statics	3
ENSC 2143	Strength of Materials	3
ENGL 1113	Composition I	3

3.

Achieve a grade of "C" or better in all required ARCH prefix courses, substitutes for ARCH prefix courses, and prerequisites for ARCH prefix courses.

4. Achieve a minimum Selection Grade Point Average (SGPA) of 2.80.

The Selection Grade Point Average (SGPA) will be calculated for each applicant by multiplying course credit hours by the multiplier, multiplying by the numerical course grade and dividing by the total factored hours.

For consideration of admission to the Architecture program, the following courses and multipliers will be used in calculating SGPA: ARCH 1112 Introduction to Architecture (x1 multiplier), ARCH 2003 Architecture and Society (HI) (x1 multiplier), ARCH 1216 Architectural Design Studio I (x2 multiplier), ARCH 2116 Architectural Design Studio II (x2 multiplier), ARCH 2216 Architectural Design Studio III (x3 multiplier) ARCH 2263 Building Systems (x1 multiplier), MATH 2144 Calculus I (A) (x1 multiplier), PHYS 2014 General Physics (LN) (x1 multiplier), ENSC 2113 Statics (x1 multiplier), ENGL 1113 Composition I (x1 multiplier).

For the Architectural Engineering program the following courses are used in the SGPA calculation: ARCH 1112 Introduction to Architecture (x1 multiplier), ARCH 1216 Architectural Design Studio I (x1 multiplier), ARCH 2216 Architectural Design Studio III (x2 multiplier), ARCH 2263 Building Systems (x1 multiplier), MATH 2144 Calculus I (A) (x2 multiplier), PHYS 2014 General Physics (LN) (x2 multiplier), ENSC 2113 Statics (x3 multiplier), ENSC 2143 Strength of Materials (x2 multiplier), ENGL 1113 Composition I (x1 multiplier).

## Double Degree

Applicants wishing to enter into the Professional School in both the B.ARCH and B.ARCH ENG. degree programs must apply for both programs and be accepted to each, independent of the other.

## Change of Program

Changing programs, Architecture to Architectural Engineering or vice versa, typically occurs via formal application and admission to the other program through the Professional School application and admission process.

## Taking ARCH Prefix Courses When Not Admitted to Professional School

Students not admitted to the Professional Schools may not enroll in any 3000 level or higher ARCH prefix course or ARCH 2203 History and Theory of Architecture Since 1900 without prior permission of the instructor and Academic Advisor.

## Transfer Students

Students wishing to transfer into the Professional School of the OSU School of Architecture must apply for admission to the Professional School in the same manner as OSU students.

## Completion of Required Pre-Professional School Courses

All students applying for admission to Professional School must satisfactorily complete all required courses for consideration by the end of the spring semester of the year of application.

## Application and Notification Dates

Application for admission, readmission or transfer to the Professional School of Architecture and Architectural Engineering must be made by the last working day of April of the year of intended admission.

Notification of selection decisions will normally be made soon after June 1st but not before a two week period after Grade Reports have been received by the School – if there should be ANY problem with a grade that may impact acceptance to the Professional Schools the student should contact the School immediately. Selected applicants must confirm acceptance of the offer of a position in the Professional School by the date indicated in the letter of offer.

## Reapplication

Applicants not admitted may reapply for admission to the Professional School the following year; such applicants do not carry any priority or disadvantage but are included in the full application pool.

## Undergraduate Programs

- Architectural Engineering: Construction Project Management, BEN (p. 1515)
- Architectural Engineering: Mechanical, Electrical and Plumbing, BEN (p. 1517)
- Architectural Studies: Architecture and Entrepreneurship (ASAE), Minor (p. 1519)
- Architectural Studies: History and Theory (ASHT), Minor (p. 1520)
- Architecture Engineering: Structures, BEN (p. 1521)
- Architecture, BAR (p. 1523)

## Faculty

Suzanne D. Bilbeisi, MArch, AIA – Professor and Head

**Professor and Centennial Professor:** Suzanne D. Bilbeisi, MArch, AIA

**AT&T Professor and Associate Dean, CEAT Academic Affairs:** Randy Seitsinger, MArch, FAIA

**Professors:** Mohammed Bilbeisi, MArch, RA; Nigel R. Jones, MArch, RIBA, RA; Steve E. O'Hara, MArchEngr, PE; Khaled Mansy, PhD; Tom Spector, PhD, AIA

**Associate Professors:** Jeanne Homer, MArch, AIA; John Phillips, MArchEngr, PE; Seung Ra, MArch, AIA; Michael Rabens, PhD; Carisa Ramming, MArchEngr, PE; Nathan Richardson, MArch, AIA; Awilda C. Rodriguez, MArch, RA; Paulo Sanza, MArch, RA; Jerry L. Stivers, MArch, AIA

**Assistant Professors:** Stan Carroll, MArch, AIA

## Admission to Professional School (required)

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

## Graduation Requirements

1. A final grade of 'C' or better in all ARCH prefix courses, substitutions for ARCH prefix courses, and all non-ARCH prefix courses that are a prerequisite to an ARCH prefix course.
2. The capstone course for Architectural Engineering majors is ARCH 5226 Architectural Engineering Comprehensive Design Studio.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Architectural Studies: History and Theory (ASHT), Minor

<sup>1</sup> Courses that must be completed prior to admission to professional school.

## **Admission to Professional School (required)**

- Refer to the OSU Catalog corresponding to your matriculation date for detailed admissions requirements.

## **Graduation Requirements**

1. A final grade of 'C' or better in all ARCH prefix courses, substitutions for ARCH prefix courses, and all non-ARCH prefix courses that are a prerequisite to an ARCH prefix course.
2. The capstone course for Architectural Engineering majors is ARCH 5226 Architectural Engineering Comprehensive Design Studio.

## **Additional State/OSU Requirements**

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

# COLLEGE OF HUMAN SCIENCES

## College Administration

Stephan M. Wilson, PhD, CFLE—Dean

Jorge Atiles, PhD—Associate Dean for Extension and Engagement

Christine Johnson, PhD—Associate Dean for Research and Graduate Studies

Shiretta Ownbey, PhD—Associate Dean for Academic Programs and Services

Ben Goh, EdD—Assistant Dean and Director, School of Hospitality and Tourism Management

## Campus Address and Phone

**Address:** 101 Human Sciences, Stillwater, OK 74078

**Phone:** 405-744-5053

**Website:** [humansciences.okstate.edu](http://humansciences.okstate.edu) (<http://humansciences.okstate.edu>)

## Mission

The College of Human Sciences advances and applies knowledge while developing effective professionals, engaged citizens and visionary leaders who promote the physical, social and economic well-being of people.

## Vision

The College of Human Sciences will be a world leader in the discovery and application of knowledge, preparing the next and upcoming generations of professionals who advance the quality of life.

The College of Human Sciences (COHS) is composed of three departments—Design, Housing and Merchandising; Human Development and Family Science; and Nutritional Sciences—and the School of Hospitality and Tourism Management. Each science-based program focuses on the reciprocal relationship between people and their natural, constructed or social environments. Graduates pursue professional careers in business, health, communications, design, education, international service, research, social welfare and a variety of agencies, organizations and institutions. Pre-professional options and advisement are offered for students interested in pursuing graduate education in law, medicine and allied health fields, as well as within their major fields of study.

## Core Values

**Excellence** - We are committed to excellence and continuous improvement in all our endeavors.

**Integrity** - We are committed to the principles of truth and honesty; we will be equitable, ethical and professional.

**Service** - We believe that serving others is a noble and worthy endeavor.

**Intellectual Freedom** - We believe in ethical and scholarly questioning in an environment that respects the rights of all to freely pursue knowledge.

**Diversity** - We respect others and value diversity of opinion, freedom of expression, and other ethnic and cultural backgrounds.

**Stewardship of Resources** - We are dedicated to the efficient and effective use of resources. We accept responsibility of the public's trust and are accountable for our actions.

**Creativity** - We foster creativity and innovation utilizing world-class facilities and leading technologies to attract and support prestigious faculty and competitive graduates.

Further information may be found at [humansciences.okstate.edu](http://humansciences.okstate.edu) (<http://humansciences.okstate.edu>).

## Accreditation

The Council for Interior Design Accreditation (CIDA) has accredited the undergraduate interior design program. The preproduction and the production management apparel curricula is endorsed by the American Apparel and Footwear Association (AAFA) Education Foundation, making it one of only 13 approved programs in North America. The Child Development Laboratory is licensed by the Oklahoma Department of Human Services (DHS) and has received a Three Star Differential Quality Certification. The Child Development Laboratory is also accredited by the National Association for the Education of Young Children (NAEYC). Program approval has been granted to the Early Childhood Education Teacher Preparation program by the Oklahoma State Board of Education. In addition, the Early Childhood Education program is accredited by the Council for Accreditation of Educator Preparation (CAEP). The Family and Consumer Sciences Education program has been accredited by the Oklahoma Commission for Teacher Preparation in cooperation with the Council for Accreditation of Educator Preparation (CAEP). The Marriage and Family Therapy program is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE). The Didactic Program in Dietetics and the Dietetic Internship at OSU are both currently granted continuing accreditation by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, ph. 312.899.0040 ext 5400.

## The Patricia Kain Knaub Center for Student Success

The Patricia Kain Knaub Center for Student Success is located in 101 Human Sciences on the south wing of the Human Sciences building. This location is the destination of every student and accompanying family arriving in the College. The Center provides a welcoming entry point and a continuing resource for a wealth of integrated academic programming and student services. A student interested in learning about the College of Human Sciences and its academic programs may schedule an appointment with the Coordinator for Prospective Student Services for information and a tour of the College facilities. Upon admission to the College of Human Sciences, students receive an array of services within the Center.

The Center for Student Success serves as a leader within the OSU system and to human sciences academic units nationally to elevate academic advising, the first-year experience, leadership development, and career development through highly engaging, purposeful and integrated programming that educates students to become intentional learners.

The Center offers the following comprehensive and integrated services to undergraduate students in the College of Human Sciences:

- Services to prospective students and their families that clearly articulate College of Human Sciences academic programs.
- Developmental academic advising, emphasizing a student-centered, holistic approach.
- A foundational first-year experience to facilitate transition of students to a large university.

- Strong leadership development experiences through the first-year experience courses, Freshman Scholar Leaders, Student Council, Ambassadors, and other student leadership organizations.
- Career development opportunities to effectively link educational experiences with career goals and career destinations.

The Career Consultant within the Center for Student Success is a certified Global Career Development Facilitator (GCDF) and provides services designed specifically for College of Human Sciences students. The College of Human Sciences Career Services offers students opportunities to explore traditional and nontraditional careers, complete career-related assessments, and enhance their professional presence in writing, in person and online.

Career development projects are integrated into the first-year experience courses required of all freshmen and transfer students. Outside of the classroom, students are provided opportunities to refine their job search materials, interview with practicing professionals who represent Human Sciences fields of study, participate in career empowerment workshops, learn of part-time job opportunities related to Human Sciences areas of study and identify internship experiences. The College of Human Sciences Career Services provides a link to OSU Career Services, making students aware of resources available throughout campus, including career fairs, career and skill assessments, on-campus interviews and an array of other valuable opportunities. The College of Human Sciences Career Services has an online presence via our website and through participation in several major-specific LinkedIn groups. In addition, we utilize Twitter to share information about upcoming events and opportunities.

## Human Sciences Outreach

The College of Human Sciences Outreach office performs a vital role in the academic programs and services mission within the College, providing support services for courses using a variety of delivery methods to serve diverse student needs. Various types of international study programs are offered to engage students in international opportunities and education. In addition, courses that take students to various locations to experience hands-on education are offered through Outreach. Web-based courses and other distance delivery methods serve students who are unable to access traditional educational offerings. As a member of the Great Plains Interactive Distance Education Alliance, the College of Human Sciences Outreach office provides support services for online master's programs in family financial planning, family and community, gerontology, retail merchandising leadership and dietetics. Consistent with the missions of OSU and the College of Human Sciences, Outreach serves state, national and international audiences.

## Honors

Outstanding students in the College of Human Sciences who meet the requirements of The Honors College may earn the Honors College Degree while completing their undergraduate degree in this college.

College honors are earned at the upper division (3000- and 4000-level classes) in the student's major and are one of the requirements for receiving a bachelor's degree with honors. College honors requires nine hours of upper-division honors credit in the department and three hours of honors thesis or creative component. For further information on the Honors College, refer to <https://honors.okstate.edu/content/awards> or visit the Honors College in 101 Old Central.

## Scholarships

Oklahoma State University has a scholarship program for entering freshmen and first-year transfer students. College of Human Sciences scholarship applications are typically due for continuing students in December and scholarship awards are announced in April for the coming academic year. Freshmen and first-year transfer student scholarships are awarded during the fall and spring semester to students entering Human Sciences in the following fall semester. Criteria for and the amount of the scholarship awards vary.

## Academic Programs

### Undergraduate Programs

The Bachelor of Science degrees within the College of Human Sciences are offered by three departments and one school. The majors are:

- Design, Housing and Merchandising (DHM), with options in fashion (apparel design and production), interior design and fashion merchandising.
- Human Development and Family Science (HDFS), with options in early childhood education, child and family services, and family and consumer sciences education.
- Hospitality and Tourism Management (HRAD).
- Nutritional Sciences (NSCI), with options in allied health, community nutrition, dietetics, and human nutrition/premedical sciences.

Subject-focused minors are available through three departments within the College of Human Sciences. Details regarding these minors may be obtained by contacting the appropriate programs.

### Transfer Student Admission Requirements

Students transferring into the College of Human Sciences from another institution or another college at OSU must have a minimum retention GPA as determined by the academic unit. See DHM, HDFS and NSCI transfer admission requirements on degree requirement sheets for details.

## Departmental Clubs and Honor Societies

American Association of Textile Chemists and Colorists  
 American Hotel and Lodging Association (student chapter)  
 American Society of Interior Designers Student Chapter  
 Club Manager's Association of America  
 Early Childhood Education Club  
 Eta Sigma Delta (hotel and restaurant administration honor society)  
 Graduate Students in Human Sciences Association  
 Graduate Students in Nutritional Sciences  
 Hospitality Administration Graduate Student Association  
 Human Development and Family Science Club  
 Human Sciences Ambassadors  
 Human Sciences Scholar Leaders  
 Human Sciences Student Council  
 International Facility Management Association Student Chapter  
 International Interior Design Association Student Chapter  
 Meeting Professionals International  
 Merchandising and Apparel Design Association  
 National Society of Minorities in Hospitality  
 Nutritional Sciences Club  
 OSU Student Restaurant Association  
 Phi Upsilon Omicron (scholarship and leadership honor society)  
 Sigma Phi Omega (gerontology honor society)

Student Restaurant Association  
U.S. Green Building Council

## Academic Areas

- Design, Housing and Merchandising (p. 1529)
- Hospitality and Tourism Management (p. 1540)
- Human Development and Family Science (p. 1543)
- Nutritional Sciences (p. 1557)

## Undergraduate Programs

- Design, Housing & Merchandising: Apparel Design & Production, BSHS (p. 1532)
- Design, Housing & Merchandising: Interior Design, BSHS (p. 1534)
- Design, Housing & Merchandising: Merchandising, BSHS (p. 1536)
- Hotel and Restaurant Administration, BSHS (p. 1541)
- Human Development and Family Science: Child and Family Services, BSHS (p. 1549)
- Human Development and Family Science: Early Childhood Education, BSHS (p. 1552)
- Human Development and Family Science: Family & Consumer Sciences Education, BSHS (p. 1554)
- Nutritional Sciences: Allied Health, BSHS (p. 1560)
- Nutritional Sciences: Community Nutrition, BSHS (p. 1562)
- Nutritional Sciences: Dietetics, BSHS (p. 1564)
- Nutritional Sciences: Human Nutrition/Pre-medical Sciences, BSHS (p. 1566)

## Minors

- Apparel Design and Production (ADP), Minor (p. 1531)
- Child Development (CHDV), Minor (p. 1547)
- Gerontology (GERO), Minor (p. 1548)
- Human Services (HSVC), Minor (p. 1556)
- Merchandising (MERC), Minor (p. 1538)
- Nutritional Sciences (NSCI), Minor (p. 1559)
- Sustainable Design (SD), Minor (p. 1539)

## Graduate Programs

### Master's Programs

The Master of Science degree is available in design, housing and merchandising; hospitality administration; human development and family science and nutritional sciences.

Students seeking admission to a master's degree program in any of the departments/school must be qualified graduates of colleges and universities of recognized standing. In addition, those seeking admission must have completed 30 semester credit hours in human sciences or closely related subject matter. A student with background deficiencies must compensate for such deficiencies before admission to the master's program. Graduate Record Examination (GRE) scores are required by master's programs within the DHM, HDFS and NSCI departments with the exception of online master's programs offered by these departments. The School of HTM require submission of GRE/GMAT scores for admission consideration. The plan of study for a master's degree student is individually planned to develop academic excellence specific to the student's career goals. Refer to descriptions of specific

master's degree programs for each department or school. The selection and organization of courses are made in consultation with the adviser and the student's advisory committee. At least 21 semester credit hours must be completed in courses numbered 5000 or above.

### Online Master's Programs

The Master of Science degree in family financial planning (FFP) is offered collaboratively online through the Great Plains Interactive Distance Education Alliance (Great Plains IDEA), of which OSU is a member. The FFP master's curriculum is a board registered program through the Certified Financial Planner Board of Standards and requires 36 credit hours, and the graduate certificate requires 18 credit hours, meeting the educational requirements to take the Certified Financial Planner™ (CFP®) examination.

The Department of Design, Housing and Merchandising offers an online Retail Merchandising Leadership online master's program through the Great Plains Interactive Distance Education Alliance and requires 36 credit hours. The program helps strengthen emerging needs in the retail industry for consumer research skills and analytics driven problem solving.

The Human Development and Family Science master's program, with options in family and community services and gerontology, is offered through the College of Human Sciences in collaboration with the Great Plains Interactive Distance Education Alliance. The online version of the gerontology program requires 36 credit hours, as does the family and community services program.

An online master's program in dietetics is offered through the Department of Nutritional Sciences and the Great Plains IDEA. Students admitted to this program must hold the Registered Dietitian (RD) credential or must have met both the academic and supervised practice requirements of the Academy of Nutrition and Dietetics and be ready to sit for the national credentialing exam to become a Registered Dietitian. The program requires 36 credit hours.

### Doctoral Program

The Doctor of Philosophy degree is a multidisciplinary degree program through the College in conjunction with the departments of Design, Housing and Merchandising, Human Development and Family Science, and the School of Hospitality and Tourism Management. There is a separate PhD degree program in Nutritional Sciences. Individualized programs lead to an area of specialization in any one of the departments/school. Admission to the programs is based upon evidence that the applicant meets general requirements of the Graduate College, has demonstrated academic and professional achievements, and can successfully complete a doctoral program, as evidenced by prior academic work, minimum 3.25 GPA in graduate level course work, letters of recommendation, a statement of purpose and goals, and GRE or GMAT scores. Applications are reviewed by a graduate faculty committee in each department or school. These programs offer a combination of courses and research experiences. The programs include a strong emphasis on research and application of statistical procedures, as well as having students gain experience in resource generation, knowledge sharing and community engagement.

A minimum of 60 semester credit hours beyond the master's degree is required for the PhD degrees. The PhD degrees prepare individuals to be researchers and educators for research positions in universities,

business and industry, for university teaching and for administrative or management level positions.

Human Development and Family Science and Nutritional Sciences additionally offer a 90 semester credit hour PhD program which incorporates the requirements to achieve both a Master of Science degree and a Doctor of Philosophy degree. Students accepted into the 90-hour PhD option will complete requirements in the first 30 credit hours for either a MS degree in Human Development and Family Science (Developmental and Family Sciences option) or in Nutritional Sciences (thesis option).

- Apparel Design and Production, MS (p. 1529)
- Interior Design, MS (p. 1529)
- Merchandising, MS (p. 1529)
- Retail Merchandising Leadership, MS (p. 1529)
- Family Financial Planning , MS (p. 1527)
- Hospitality Administration , MS (p. 1540)
- Applied Human Services, MS (p. 1543)
- Developmental and Family Science, MS (p. 1543)
- Early Childhood Education, MS (p. 1543)
- Family and Community Services, MS (p. 1543)
- Gerontology (on-campus program), MS (p. 1543)
- Marriage and Family Therapy, MS (p. 1543)
- Design, Housing and Merchandising, PhD (p. 1529)
- Human Development and Family Science, PhD (p. 1543)
- Nutritional Sciences, PhD (p. 1557)
- Dietetics, MS (p. 1557)
- Nutrition, MS (p. 1557)

## Design, Housing and Merchandising

The mission of the Department of Design, Housing and Merchandising (DHM) is to be recognized leaders in Technology and Sustainable Design in partnership with industry and community. Three undergraduate options are available: fashion (apparel) design and production, interior design, and fashion merchandising each requiring a summer internship between the junior and senior years.

Students in apparel design and production are preparing for careers in the apparel and sewn products industries. The program emphasizes the integration of design principles, construction methods, consumer preferences and mass production strategies. Course work includes principles of design, anthropometrics and pattern grading, apparel assembly and production, draping techniques, methods of mass production, quality assurance, properties and performance evaluation of textiles, patternmaking, computer-aided design and technology, entrepreneurship, and a required internship to acquire apparel design industry experience. The American Apparel and Footwear Association (AAFA) Education Foundation has endorsed the undergraduate curricula, making OSU one of only 13 schools in North America recognized with an AAFA-approved apparel program. Career opportunities include apparel designer, technical designer, product development manager, accessory designer, patternmaker, textile designer, sourcing manager, quality assurance manager, production manager and apparel engineer.

Students in interior design are preparing for careers as professionals who assist businesses and families in planning and solving problems relative to the function and quality of interior living and working environments. Course work includes fundamentals of design, design analysis, ergonomics, concept development, space planning and programming, universal design principles, computer-aided design (CAD) and related aspects of environmental design. Students must pass the Proficiency Review Process at the end of their freshman year to be accepted into the professional level interior design program. Upon acceptance, students are expected to have their own laptop computer with sufficient capacity for graphics software used in the profession. Career opportunities include professional practice in interior design and architectural firms, lighting, design, facility management, historic restoration and preservation and product design and sales management. The undergraduate interior design program is accredited by the Council for Interior Design Accreditation (CIDA) and the program has achieved national ranking by the publication Design Intelligence.

The merchandising program prepares students for careers at every level of the fashion industry: trend forecasting, textile sales, wholesaling product lines to retailers, retail buyers, managers, visual merchandisers as well as auxiliary industries including fashion journalism, event planning, and logistics. Course work includes retailing, merchandise planning and analysis, sustainable design, profitable merchandising analysis, visual merchandising and communication, market analysis, quality assurance, retail technology and global sourcing. Merchandising graduates are in high demand among retailers, manufacturers, product developers, supply chain and sourcing managers and designers.

Students in all three options will develop business management, communication, creative problem solving and administrative skills. Minors are available in both merchandising and apparel design and production.

## Admission Requirements

Transfer students must meet the following minimum retention GPA requirements in order to be admitted to the DHM undergraduate program:

Total Hours Attempted	Minimum GPA required
Less than 31 hours	2.00
31-45 hours	2.25
Over 45 hours	2.50

## Undergraduate Programs

- Apparel Design and Production (ADP), Minor (p. 1531)
- Design, Housing & Merchandising: Apparel Design & Production, BSHS (p. 1532)
- Design, Housing & Merchandising: Interior Design, BSHS (p. 1534)
- Design, Housing & Merchandising: Merchandising, BSHS (p. 1536)
- Merchandising (MERC), Minor (p. 1538)
- Sustainable Design (SD), Minor (p. 1539)

## Graduate Programs

The Department of Design, Housing and Merchandising offers graduate work leading to the Master of Science in Design, Housing and Merchandising and the Doctor of Philosophy in Human Sciences with an option in design, housing and merchandising. The programs are scientifically based research and/or design oriented. Graduate degrees in the department are tailored to departmental areas of expertise, professional goals of the candidate and College of Human Sciences and Graduate College requirements. Graduate programs may focus on either merchandising or design. Students may investigate design and merchandising from the following perspectives: product development and evaluation, consumer and supplier behavior, business development and management, and constructed environmental and individual interrelationships.

## The Master of Science Degree

The Master of Science degree is awarded in four options – Apparel Design and Production, Interior Design, Merchandising, and Retail Merchandising Leadership (offered online through the Great Plains Interactive Distance Education Alliance) – and is designed to prepare individuals for careers in business, industry, extension and post-secondary or college teaching. The thesis plan (research or design) is available for students in apparel design and interior design. For merchandising master students, research thesis and non-thesis options are available. For retail merchandising leadership master students a non-thesis plan is required. Programs of study are built around the academic background, experience, needs, special interests and professional goals of the student. The selection of courses that meet departmental requirements is made in consultation with the advisory committee. A minimum of 21 credit hours must be taken in the department. Additional courses may be selected from other areas of human sciences or from supporting areas such as marketing, sociology, history, and physiology. If the undergraduate degree is not in the area of specialization, specific undergraduate courses in design, housing and merchandising will be required as prerequisites.

## The Doctor of Philosophy Degree

The PhD prepares individuals for research positions in universities, business and industry, for university teaching and for administrative or management level positions. The student will be expected to have

a master's degree or equivalent in design, housing and merchandising or in a closely-related area from a college or university of recognized standing. A student may be required to demonstrate competence in the area of specialization and in related areas, and further course work may be required before admission will be granted.

The plan of study is individually determined for the student in cooperation with an advisory committee. Each plan of study will be an integrated combination of courses and research providing for specialization within an area of design and merchandising, including synthesis of knowledge drawn from departments within and outside of human sciences. Emphasis is on attainment of competencies rather than on the completion of specific numbers of credits; however, a minimum of 60 credit hours beyond the master's degree must be completed. Each student will develop competence in the area of specialization which includes courses in the major and the support area. International and management dimensions are included.

The program includes a strong emphasis on research and application of statistical procedures, as well as having students gain experience in resource generation, knowledge sharing, and community engagement.

More detailed information on graduate study in the Department of Design, Housing and Merchandising can be obtained from the department website [humansciences.okstate.edu/dhm](http://humansciences.okstate.edu/dhm) (<http://humansciences.okstate.edu/dhm>) or by writing the head of the department.

## Faculty

Jane Swinney, PhD—Associate Professor and Head

**Professors:** Jorge Atiles, PhD; Paulette Hebert, PhD; Mihyun Kang, PhD; Shiretta Ownbey, PhD

**Associate Professors:** Cosette Armstrong, PhD; Gina Peek, PhD; Semra Peksoz, PhD; Adriana Petrova, PhD

**Assistant Professors:** Tilanka Chandrasekera, PhD; Greg Clare, PhD; Aditya Jayadas, PhD; June Park, PhD; Alana Pulay, PhD; Emily Roberts, PhD

**Teaching Instructor:** Diane Limbaugh, MS

## Apparel Design and Production (ADP), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

Department of Design, Housing and Merchandising, 431 HSCI,  
405-744-5035

**Minimum Overall Grade Point Average:** 2.50

**Total Hours:** 25 hours

Code	Title	Hours
<b>Minor Requirements</b>		
DHM 1003	Design Theory and Processes for Design and Merchandising	3
DHM 1103	Basic Apparel Assembly	3
DHM 1433	Introduction to Apparel Merchandising	3
DHM 1993	Communications and Presentation Techniques for Apparel Design	3
DHM 2203	Intermediate Apparel Assembly	3
DHM 2444	Draping	4
DHM 2573	Textiles (LN)	3
DHM 3013	Flat Pattern Design	3

### Other Requirements

- Merchandising option must complete 19 credit hours in addition to the requirements for their option.
- Acceptance to the minor based upon an overall GPA of 2.0 if less than 31 hours completed; 2.25 if 31-45 hours completed; 2.50 if over 45 hours completed; Minimum of "C" required in all minor courses.

### Additional OSU Requirements

#### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Professional Areas

### Design Area

Code	Title	Hours
DHM 3533	Textile Surface Design	3
DHM 4403	Advanced Apparel Design	3

#### *Controlled electives*

Select 3 hours of the following: 3

DHM 4453	Product Development Processes	
DHM 4893	Fundamentals of Medical Smart Garment Engineering	
ART 1103	Drawing I	
ART 2243	Jewelry and Metals I	
EEE 3033	Women and Minority Entrepreneurship (D)	
EEE 3023	Introduction to Entrepreneurial Thinking and Behavior	
TH 4673	Advanced Costume Construction	
MGMT 3123	Managing Behavior and Organizations	

3 hours foreign language may be used

### Production Area

Code	Title	Hours
DHM 3103	Anthropometry and Ergonomics in Design	3
DHM 4893	Fundamentals of Medical Smart Garment Engineering	3

#### *Controlled electives*

Select 3 hours of the following: 3

EEE 3033	Women and Minority Entrepreneurship (D)	
MGMT 3313	Human Resource Management	
MGMT 4213	Managing Diversity in the Workplace (D)	
MGMT 4031	Leading Organizational Change	
MGMT 4613	International Management (I)	

## Other Requirements

- 40 upper-division hours required.
- A 2.50 Major GPA is required. This includes all courses in College and Major Requirements.
- A 2.50 Major GPA is required for full admission to the Internship Program.
- Proficiency review required to take upper-level DHM Apparel Design courses.
- **Transfer Admission Requirements:** 2.00 for less than 31 hours; 2.25 for 31-45 hours; 2.50 for more than 45 hours.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.

- Degrees that follow this plan must be completed by the end of Summer 2023.

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for

## Hospitality and Tourism Management

The mission of the School of Hospitality and Tourism Management (HTM) is to be a world leader in hospitality education through purposeful research, superior teaching and innovative experiential learning to enhance the lives of those we serve.

Our focus:

- High quality academic foundation centered on a focused and relevant curriculum with the integration of research and engagement
- Diverse experiential learning labs that are operated professionally and ethically using sound business principles
- Student organizations which actively partner with national and international hospitality professional associations
- Signature events that provide experiential learning for students and bring together individuals and communities while supporting the land grant university mission

A new educational facility opened fall 2016 which unites technology with state-of-the-art laboratories, classrooms, exhibit areas and faculty offices. Specific accommodations include: quantity food preparation areas with commercial equipment, dining room management and table service laboratory, quick service restaurant, basic food preparation laboratory, demonstration classroom and the Hirst Center for Beverage Education. The Hirst Center for Beverage Education promotes a curriculum at the fore-front of beverage education featuring a variety of formats including coffees, teas and other beverages.

Career opportunities include lodging and resort management, food and beverage management, conference and event planning management, club management and tourism development. Other opportunities include revenue management, hospitality training and development and hospitality related entrepreneurial endeavors. Students have the opportunity to gain hands on experience volunteering with student-led and other events such as: the Wine Forum of Oklahoma, the Distinguished Chef Scholarship Benefit Series, Craft Beer Forum, Hospitality Days Career Fair, Hospitality Legal Summit, and the Hotel Investment Conference.

To meet the needs of the industry and provide sound academic preparation at the undergraduate level, the curriculum emphasizes professional and general education. The professional area includes courses in accounting, law, cost controls, revenue management, and economics. Courses in service management, food and beverage production, purchasing and control, facility management and design, sales and marketing, front office management, and advanced hotel and restaurant management are also included in the specialized area. The BS degree with a major in hotel and restaurant administration may be earned by completing a minimum of 120 semester hours and achieving a "C" grade in courses required in the major area and professional electives.

Successful completion of 480 hours of industry work experience and a management internship of 320 hours are required. Internship placement in hotels, restaurants, private clubs and tourism-related establishments is arranged globally in cooperation with industry executives and the OSU faculty. Study abroad programs and international internships are available.

Further information may be found at [humansciences.okstate.edu/hrad](http://humansciences.okstate.edu/hrad) (<http://humansciences.okstate.edu/hrad>).

## Undergraduate Programs

- Hotel and Restaurant Administration, BSBS (p. 1541)

## Graduate Programs

### The Master of Science Degree

Admission to the graduate program in Hospitality Administration is selective and is based on a variety of factors including undergraduate grade-point average, industry work experience, GRE/GMAT score, letters of recommendation and goals of the applicant. Prerequisite courses may be required for students with undergraduate degrees in areas other than hospitality or tourism administration. The master's degree requires a minimum of 32 credit hours for the thesis plan or 32 credit hours for the professionally focused non-thesis plan.

### The Doctor of Philosophy Degree

The PhD is awarded in Human Sciences with an option in Hospitality Administration. This program focuses on research and prepares researchers, educators and practitioners to make contributions to hospitality higher education and the literature in the hospitality field. The doctoral program requires a minimum of 60 hours beyond the master's degree or 63 hours if a thesis was not completed in the master's program. The program includes a strong emphasis on research and application of statistical procedures, as well as having students gain experience in resource generation, knowledge sharing and community engagement.

A customized part-time doctoral degree program is also available for those students, especially educators, who would prefer to pursue their degree without maintaining a full-time enrollment on campus.

Competitive graduate teaching and research assistantships, graduate fellowships and tuition waivers are available to qualified applicants.

More detailed information on graduate study in the School of Hospitality and Tourism Management can be obtained by visiting our website at [humansciences.okstate.edu/hrad](http://humansciences.okstate.edu/hrad) (<http://humansciences.okstate.edu/hrad>).

<b>Hours Subtotal</b>	12
<b>Total Hours</b>	120

- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Other Requirements

- 40 hours must be upper-division.
- Hospitality work experience of 480 hours required for no grade prior to internship.
- **Transfer Admission Requirement:** 2.00 GPA

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.

## Human Development and Family Science

The Department of Human Development and Family Science (HDFS) is a premier academic program dedicated to the discovery, integration and application of knowledge to enhance the resilience of diverse individuals and relationships. The department prepares students to work with individuals, couples, and families. The department's primary focus is on integrative approaches to developing and maintaining individual and family resilience. The distinguishing feature of HDFS is the interdisciplinary and multidisciplinary integration of instruction, research and application between and among human development, family science, gerontology, early childhood education and marriage and family therapy.

Committed to enhancing the quality of life of individuals and families by maximizing resilience and reducing risk, the Department of Human Development and Family Science provides a dynamic environment for life-long learners through engagement in:

- instruction that fosters creative and critical thinking for individuals in their professional and personal lives;
- research that contributes to the discovery of knowledge and understanding of human development and family relationships; and
- application of knowledge that is responsive to and informed by constituents' needs.

The department offers undergraduate students options in early childhood education (ECE), child and family services, and family and consumer sciences education. Each of these options emphasizes integration of theory, research, policy, and practice.

Criteria for undergraduate students wishing to transfer into HDFS include a required minimum retention grade-point average.

Hours Completed	Minimum GPA Requirement
Less than 31 hours	2.00
31-45 hours	2.25
Over 45 hours	2.50

The early childhood education (ECE) teacher certification option provides professional preparation for individuals to teach infants through third grade. This option provides a foundation in child development to prepare students to design, implement and evaluate developmentally appropriate curricula for young children.

An early childhood education (ECE) certificate is required to teach prekindergarten through third grade in Oklahoma public schools. All students completing the early childhood education option must meet Oklahoma State University and Oklahoma professional education requirements.

The child and family services (CFS) option prepares individuals for careers in providing services and leadership to children, youth, adults and their families. The course content focuses on individual development, family dynamics, family life education, policy, management, and professional skills in the context of the community. Career opportunities are in public and private social services agencies, policy and advocacy centers, and in business and industry.

The CFS option also provides education for individuals planning to continue their education in graduate programs, medical school, law school, or other specialized graduate programs. The curriculum

focuses on developing skills in critical thinking, scientific investigation, and written and oral communication. Students are prepared for advanced education in such areas as family therapy, child life, medicine, physical therapy, law, and psychology. This option provides flexibility to accommodate the student's particular area of interest or to meet prerequisites for a professional school.

The family and consumer sciences education (FACSED) option prepares individuals to provide comprehensive knowledge and skills that will help individuals, families, and communities make informed, healthy, research-based, and practical decisions to improve their well-being, society, and the economy. Two paths are available for career preparation: one for Cooperative Extension Services and one for secondary school instruction. In both, FACSED students take specialized coursework in apparel design and production, family science, hospitality management, housing and interior design, human (including child) development, nutritional sciences, parenting, resource management, textiles, and educator preparation so they are equipped to work in educational settings where they will have a significant impact on the lives of others. A semester-long internship or student teaching experience during the senior year in an outstanding program completes the undergraduate university preparation. Upon graduation, students meet the employment requirements for the Oklahoma Cooperative Extension Service and/or the certification requirements for the Oklahoma State Department of Education, depending on which option was chosen. The job market remains strong for both careers in Oklahoma and throughout the nation.

The BS degree requires a minimum of 124 semester credit hours. Minors in child development, gerontology, and human services are also available in the department; information on requirements may be obtained from the HDFS department office or the Patricia Kain Knaub Center for Student Success. Articulation agreements between Oklahoma State University and Tulsa Community College and between Oklahoma State University and Northern Oklahoma College provide for a transition toward a baccalaureate degree in human development and family science

Further information may be found at [humansciences.okstate.edu/hdfs](http://humansciences.okstate.edu/hdfs) (<http://humansciences.okstate.edu/hdfs>).

## Undergraduate Programs

- Child Development (CHDV), Minor (p. 1547)
- Gerontology (GERO), Minor (p. 1548)
- Human Development and Family Science: Child and Family Services, BSHS (p. 1549)
- Human Development and Family Science: Early Childhood Education, BSHS (p. 1552)
- Human Development and Family Science: Family & Consumer Sciences Education, BSHS (p. 1554)
- Human Services (HSVC), Minor (p. 1556)

## Graduate Programs

Graduate study in the Department of Human Development and Family Science (HDFS) is designed to prepare students in the creation, dissemination, and application of knowledge focused on reducing risk and enhancing resilience within individuals and among families. HDFS offers graduate study leading to the Master of Science degree and Doctor of Philosophy degree. Graduate study in HDFS emphasizes the integration of theory, research and application to address key issues in risk and resilience. The MS options include Applied Human Services, Developmental and Family Sciences, Early Childhood Education, Family

and Community Services, Marriage and Family Therapy, and Gerontology. The PhD is offered in Human Sciences with an option in Human Development and Family Science. Students work with their advisers and advisory committees to develop flexible yet rigorous programs that meet degree requirements and professional competencies in the area of the specialization. Graduate programs in HDFS are central to departmental research. Faculty and students engage in the integration of theory and research to advance the development and application of knowledge to reduce risk and enhance resilience for individuals and families across cultures and generations.

HDFS has provided high quality graduate education programs for decades and has graduates in leadership positions across the state and nation in all areas of specialization. The department includes four centers/institutes that enhance student experiences in graduate study:

- a. the Child Development Laboratory/Rise Program, licensed by the state of Oklahoma and the National Association for the Education of Young Children
- b. the Center for Family Services, offering high quality marriage and family therapy to the public and a training environment for master's degree students who choose the Marriage and Family Therapy option;
- c. the Gerontology Institute, focused on advancing the quality of life for aging populations through interdisciplinary programs of instruction, research, and public service; and
- d. the Center for Family Resilience focused on the promotion of resilience and reduction of risk among individuals, couples, and families across the lifespan in rural and urban areas of Oklahoma through multidisciplinary research, education, and outreach.

## The Master of Science Degree

The MS degree in Human Development and Family Science is awarded in six options. Applicants specify the option in which they are seeking the MS degree as part of the application process: Applied Human Services (available on both the Stillwater and Tulsa campuses), Developmental and Family Sciences (available on both the Stillwater and Tulsa campuses), Early Childhood Education (available on the Stillwater campus), Marriage and Family Therapy (COAMFTE Accredited; available on the Stillwater campus), Gerontology (offered on the Stillwater campus and online through the Great Plains Interactive Distance Education Alliance), or Family and Community Services (offered online through the Great Plains Interactive Distance Education Alliance).

Admission to the MS program is selective and requires the completion of a bachelor's degree in Human Development, Family Science, Child and Family Services, Early Childhood Education, or a related area. Admission decisions are based on a variety of criteria, including grade-point average (3.0 minimum grade-point average in undergraduate work), GRE scores (minimum scores of 150 for the verbal section, 147 for the quantitative section, and 3.5 for the analytical writing section are preferred for admission), TOEFL scores (required for students for whom English is a second language, 79 minimum), three letters of recommendation, statement of student goals, and a résumé or vita. Admission is available only for the fall semester in the Marriage and Family Therapy option. Applications are reviewed for the fall and spring (on a space available basis) in the other five options.

Students in each option take a minimum of 18 credit hours of department core courses designed to prepare them to integrate theory, research, and application focused on reducing risk and enhancing resilience within individuals and among families across cultures and generations. Additional course work (ranging from a minimum of 12 semester hours to

a maximum of 44) in each option, approved by the adviser and student's advisory committee, is focused on integrating theory, research and application within the option. Three options (Early Childhood Education, Marriage and Family Therapy, and Gerontology) offer both a thesis and non-thesis option. The Developmental and Family Sciences option requires a thesis. The minimum number of semester hours required for each option is: Applied Human Services (33 semester hours for non-thesis plan), Early Childhood Education (30 semester hours for thesis plan or 32 for non-thesis plan), Developmental and Family Sciences (30 semester hours for thesis plan), Marriage and Family Therapy (63 semester hours), and Gerontology (39 semester hours for thesis plan; 36 semester hours for the non-thesis plan; and 36 semester hours for the online program through the Great Plains Interactive Distance Education Alliance). The Family and Community Services option offered online through the Great Plains Interactive Distance Education Alliance requires 36 hours in a non-thesis format.

Graduates of the Applied Human Services option provide leadership in diverse human services careers. Graduates (a) demonstrate an ability to describe, discuss, and integrate theory, research, and application to address key issues related to individual and family risk and resilience; (b) establish a solid theoretical foundation in Human Development and Family Science, and (c) gain experiences and establish competence related to professional issues in human services. Students select a specialization area based on career goals and interests.

The Early Childhood Education BS/MS option emphasizes child development as a foundation for the study and practice of professional education of children from birth through age eight. This program was designed for HDFS undergraduate students seeking both the BS and MS specializing in Early Childhood Education prior to entering the profession. The integrated program is designed to be completed in five years, including two summers, but the MS option is also open to graduates from other departments or universities. To help students gain a strong understanding of how theory and research inform classroom and professional practice, students take courses in history and theory, curriculum, issues, and observation and assessment. Students also complete a field experience in early childhood education as part of the degree program.

This degree program prepares graduates for careers including: early childhood teacher educator; staff training and development; administration and evaluation; child, family and educational advocate; early childhood consultant; early childhood classroom teacher (requires teacher certification prior to the MS program). The Early Childhood Education dual BS/MS option is available only on the OSU-Stillwater campus.

The Developmental and Family Sciences option prepares students to describe, discuss, and integrate theory, research, and application focused on reducing risk and enhancing resilience. In consultation with their major advisers and advisory committees, students identify courses and experiences that focus on preparing for research-related careers and/or doctoral study. Course work focuses on the integration of theory and research in human development and family science, research methods, and statistics. Students complete a thesis and get practical research experience. The Developmental and Family Sciences option is available on both the OSU-Stillwater and OSU-Tulsa campuses.

The Marriage and Family Therapy option is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy. The Marriage and Family Therapy option provides students with basic

knowledge, clinical skills and a professional identity essential for entry level practice of marriage and family therapy. Students specializing in marriage and family therapy operate the Center for Family Services, an on-campus family therapy clinic. The MFT curriculum takes at least two and one half years (including summers) to complete. The academic course work includes courses in systems theory, marriage and family therapy techniques, ethics and professionalism, and research. Course work provides a framework for the application of marriage and family therapy theory and research in clinical practice. In addition, all students are required to take at least 18 months of clinical practice. Graduation requirements include the completion of required course work, a minimum of 500 client contact hours, and the completion of either a thesis or non-thesis plan. The Marriage and Family Therapy option is only available on the OSU-Stillwater campus.

The Gerontology option engages students in an in-depth study of adulthood, the aging process, needs of aging individuals and family care providers, and services for aging populations. Students may complete the on-campus program (thesis or non-thesis) or the online master's program, a collaborative program of the Great Plains Interactive Distance Education Alliance (Great Plains IDEA).

The Family and Community Services option focuses on the development and implementation of public, private, and voluntary support services for individuals, families, and communities. This program prepares individuals to function in a variety of occupations promoting family life, and family/community well-being and is a collaborative program of the Great Plains Interactive Distance Education Alliance and is offered in an online format.

More information on HDFS MS programs may be obtained from the HDFS department, on the web [humansciences.okstate.edu/hdfs](http://humansciences.okstate.edu/hdfs) (<http://humansciences.okstate.edu/hdfs>) or by e-mail [hdfs@okstate.edu](mailto:hdfs@okstate.edu) ([humansciences.hdfs@okstate.edu](mailto:humansciences.hdfs@okstate.edu)). For additional information on the online master's programs in Gerontology and Family and Community Services, visit the website at [gpidea.okstate.edu](http://gpidea.okstate.edu) (<http://gpidea.okstate.edu>).

## The Doctor of Philosophy Degree

The PhD in Human Sciences with option in human development and family science (HDFS) is a research doctoral program designed to promote breadth, depth and integration of knowledge in HDFS through research collaborations. Doctoral students collaborate with faculty and other graduate students on research projects which integrate the theoretical and empirical knowledge base in HDFS and investigate key processes associated with risk and resilience. Upon graduation, doctoral students have the knowledge and experience to develop into leading scholars able to conduct high quality basic and applied research, to provide relevant instruction, develop effective interventions, and contribute to the development of informed public policy that reduces risk and enhances resilience within individuals and among families across cultures and generations.

The PhD option in HDFS provides students with the opportunity to concentrate on one of the following disciplines: Human Development or Family Science. Students are admitted to the program to focus in a primary discipline in the department (human development or family science) and to take additional course work in a secondary discipline (human development is the secondary discipline for family science students and family science is the secondary discipline for students in human development).

PhD graduates are prepared to apply knowledge in human development and family science in a collaborative manner in diverse settings. To

accomplish this goal, the program is designed around four primary themes: breadth (knowledge of substantive content across the two disciplines of human development and family science), depth (knowledge of substantive content within one discipline, either human development or family science), integration (knowledge synthesized to capitalize on the strengths of the disciplines of human development and family science), and experience (knowledge through involvement in research, instruction, and a variety of applications associated with reducing risk and enhancing resilience of individuals and families).

To achieve breadth, depth, and experience in the primary emphasis area and in the integration between human development and family science, students take courses and participate in individualized experiences, approved by their major adviser and doctoral advisory committee, that guide the student in mastering the forms (teaching, research, and service) and functions (discovery of knowledge, integration of knowledge, application of knowledge, and transmission of knowledge) of scholarship expected of doctoral graduates in HDFS.

Two options are available: 90-hour program for BS graduates and 60-hour program for MS graduates (with additional coursework possible for students with BS and MS degrees in other fields). Doctoral training includes participation in research throughout the doctoral program, a qualifying examination in statistics, and completion of portfolio documents designed to integrate knowledge from course work and experiences and demonstrate attainment of doctoral competencies. Course work includes a minimum of 15 semester hours in human development and family science content classes. 15 hours in human development and family science methods classes and research practica, 12 semester hours in research and statistics classes, three semester hours in human sciences, and 15 hours of dissertation research. Students who did not complete a thesis for the master's degree are required to complete a thesis equivalent project (beyond the 60 semester hour requirement).

Admission to the PhD program is selective and requires the completion of an MS in human development, family science, or related field. Admission decisions are based on a variety of criteria including grade-point average (3.0 grade-point average in undergraduate work and 3.5 in previous graduate study preferred; 3.25 in previous graduate study required), GRE scores (minimum scores of 150 for the verbal section, 147 for the quantitative section, and 4.0 for the analytical writing section are preferred for admission), TOEFL scores (required for students for whom English is a second language, minimum score of 79 on the internet-based TOEFL), three letters of recommendation, a statement of student goals and a résumé.

More information on the PhD option in HDFS may be obtained from the HDFS department at [humansciences.okstate.edu/hdfs](http://humansciences.okstate.edu/hdfs) (<http://humansciences.okstate.edu/hdfs>) or by e-mail: [hdfs@okstate.edu](mailto:hdfs@okstate.edu) ([human\\_sciences.hdfs@okstate.edu](mailto:human_sciences.hdfs@okstate.edu)).

### Other Requirements

- 15 hours upper division with a 2.50 GPA.

### Additional OSU Requirements

#### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Gerontology (GERO), Minor

Select a track (p. 1550) 21

**Hours Subtotal** 21

**Total Hours** 122

<sup>1</sup> Meets Certified Family Life Education national requirements.

## Other Requirements

- 40 hours must be upper-division.
- A 2.50 Major GPA is required for graduation. This includes all courses in College/Departmental, Professional Track and Major Requirements.
- **Transfer Admission Requirements:** 2.00 GPA for less than 31 hours; 2.25 GPA for 31-45 hours; 2.50 GPA for more than 45 hours.

## Professional Track Requirements

### Aging Services (AGES)

Merit-based state/federal certification/licensing eligible.

Code	Title	Hours
HDFS 4543	Intergenerational Relationships (S)	3
HDFS 4813	Dying, Death and Bereavement	3
HDFS 4823	Aging Concepts and Controversies	3
Select 12 hours of controlled electives		12

### Child & Parenting Practitioner (CPP)

OFRC certification-eligible.

Code	Title	Hours
HDFS 2453	Management of Human Service Programs	3
HDFS 2233	Development of Creative Expression, Play and Motor Skills in Early Childhood	3
SPED 3202	Educating Exceptional Learners (D)	2
Select 13 hours of controlled electives		13

### Early Childhood & Infant Mental Health (IMH)

OK-AIMH endorsement-eligible.

Code	Title	Hours
HDFS 2211	Early Childhood Field Experience I	1
HDFS 2233	Development of Creative Expression, Play and Motor Skills in Early Childhood	3
HDFS 2243	Infant-Toddler Programming	3
HDFS 2453	Management of Human Service Programs	3
HDFS 4373	Early Childhood Health & Well-Being	3
Select 8 hours of controlled electives		8

### Health & Wellbeing (HWB)

Students must declare a minor in HEPR.

Code	Title	Hours
HLTH 2213	Principles in Health Education and Promotion	3
HLTH 2603	Total Wellness (S)	3
HLTH 3613	Community Health	3
HLTH 3643	Health Behavior Theory	3
HLTH 4973	Program Design in Health Education and Promotion	3
HHP 2654	Applied Anatomy	4
HHP 3114	Physiology of Exercise	4

### Health Professions (HP)

Pre-Professional/Pre-Health controlled electives. Check specific admission requirements at university/professional school of choice.

### Individualized Plan (IP)

21 hours with a clearly articulated emphasis approved in writing by the HDFS department head or an OSU minor that supports the HDFS major and student's career goals, as approved by an adviser. Note: a course required elsewhere on this degree sheet cannot be counted towards two requirements. With approval from adviser and department head, a maximum of 30 hours from an accredited doctoral law or health

program may be used for up to 21 hours of electives. Up to 9 hours may be substituted for HDFS 2433 Relationship Development and Marriage (S), HDFS 4433 Family Life Education, and HDFS 4473 Policy, Law and Advocacy.

### International Human Services (INTL)

Code	Title	Hours
HDFS 2453	Management of Human Service Programs	3
Select 6 hours of the following:		6
HDFS 3203	Children's Play: A World Perspective (I)	
HDFS 4793	The Family: A World Perspective (IS)	
HDFS 4813	Dying, Death and Bereavement	
Select 12 hours of controlled electives that meet International Dimension (I) designation or are Foreign Language courses		12

### Policy & Law (LAW)

Code	Title	Hours
HDFS 2453	Management of Human Service Programs	3
POLS 2013	Introduction to World Politics (S)	3
POLS 2023	The Individual And The Law	3
POLS 2033	Introduction to Public Administration	3
Select 9 hours of controlled electives		9

### Pre-Marriage & Family Therapy (MFT)

Code	Title	Hours
HDFS 2453	Management of Human Service Programs	3
HDFS 4573	Introduction to Marriage and Family Therapy	3
HDFS 4813	Dying, Death and Bereavement	3
Select 3 hours of the following:		3
HDFS 4750	Topics In HDFS	
HDFS 4850	Special Courses in Human Development and Family Science	
HDFS 4950	Research Practicum in HDFS	
PSYC 3443	Abnormal Psychology (S)	3
Select 6 hours of controlled electives		6

### Research/Graduate Studies (RES)

Code	Title	Hours
Select 6 hours of the following:		6
HDFS 4750	Topics In HDFS	
HDFS 4850	Special Courses in Human Development and Family Science	
HDFS 4950	Research Practicum in HDFS	
Select 15 hours of controlled electives		15

### Social Work/Social Welfare (SWSW)

Code	Title	Hours
HDFS 2453	Management of Human Service Programs	3
HDFS 4813	Dying, Death and Bereavement	3
SOC 2123	Social Problems (DS)	3
SOC 3223	Social Psychology (S)	3
Select 9 hours of controlled electives		9

## Youth & Family Ministry/Outreach (MIN)

Code	Title	Hours
Select 3 hours of the following:		3
HDFS 2453	Management of Human Service Programs	
HDFS 4793	The Family: A World Perspective (IS)	
HDFS 4813	Dying, Death and Bereavement	
RMRT 3313	Camp Operations and Programs	
Select one of the following:		6
REL 1103 & REL 2013	Introduction to World Religions (HI) and Hebrew Scriptures (H)	
REL 2023 & HIST 2343	The New Testament and Its Study (H) and Religion in America (H)	
Select 12 hours of controlled electives		12

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Other Requirements

- 40 hours must be upper-division.
- Required for graduation:
  - a. 2.50 overall GPA (cumulative) and
  - b. 2.75 GPA in combination of Program Specialization Requirements, Professional Education Requirements, and College/Departmental Requirements.
- Required for recommendation for Licensure/Standard Certification:
  - a. 2.50 overall GPA (cumulative);
  - b. 2.75 GPA in Program Specialization Courses and Professional Education Requirements;
  - c. No grades lower than "C" in all College/Departmental Requirements, Major Requirements and Professional Education Requirements; and
  - d. Grade of "P" in all pass/fail courses.
- For licensure/standard certification, the student must demonstrate conversational skills in a foreign language at a novice high level, as defined by the American Council on the Teaching of Foreign Languages.
- For licensure/standard certification, the student must successfully complete the OGET, OSAT, and OPTE exams and a minimum of three portfolio submissions.
- Transfer Admission Requirements: 2.00 GPA for less than 31 hours; 2.25 GPA for 31-45 hours; 2.50 GPA for more than 45 hours.
- HDFS 1112 Introduction to Human Development and Family Science and HDFS 4521 HDFS Child and Family Services: Pre-Internship must be completed prior to enrolling in internship courses for the FCS Cooperative Extension Service Professional Area.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Human Services (HSVC), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

Department of Human Development and Family Science, 233 HSCI,  
405-744-5057

**Minimum Overall Grade Point Average:** 2.50

**Total Hours:** 21 hours

Code	Title	Hours
<b>Minor Requirements</b>		
HDFS 2113	Lifespan Human Development (S)	3
HDFS 2433	Relationship Development and Marriage (S)	3
HDFS 2453	Management of Human Service Programs	3
HDFS 2523	Professional Skills in Human Services	3
HDFS 3123	Parenting (S)	3
HDFS 3443	Family Dynamics	3
HDFS 4423	Family Risk and Resilience	3

### Other Requirements

- 9 hours upper-division with 2.50 GPA.

### Additional OSU Requirements

#### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Nutritional Sciences

The Department of Nutritional Sciences advances health and quality of life of individuals and communities and prepares professionals through discovery, education, and application of scientific knowledge.

Graduates are prepared to apply nutrition knowledge in dietetic internships, healthcare professional schools, graduate programs, and food and nutrition-related professions. Four degree options and a minor are offered through the department.

The human nutrition/premedical sciences option is ideal for students desiring greater depth in the physiological and biochemical sciences in preparation for medical and other professional schools, graduate study and research in human nutrition. It includes the prerequisites for admission to most medical, dental, optometry and pharmacy schools. The allied health option provides required course work for most nursing schools, physician assistant programs, schools of physical and occupational therapy, dental hygiene and other health professions. The community nutrition option offers coursework for positions in nutrition education, wellness, school food service management and other areas as well as the prerequisites for the MS in Athletic Training. The dietetics option provides the coursework required to become a Registered Dietitian (see OSU Didactic Program in Dietetics below).

The mission of the OSU Didactic Program in Dietetics is to promote human health and quality of life by preparing students for future roles in dietetics and dietetics-related professions. The dietetics profession is diverse and dynamic, integrating human nutrition, food service administration, food science, chemistry, physiology, management and interpersonal skills. The dietetics option is the only option that includes the Didactic Program in Dietetics (DPD) coursework required to apply for competitive dietetic internships (DI). When students successfully complete the academic requirements (DPD) and supervised practice component (DI), they are eligible for the national Registration Examination for Dietitians administered by the Commission on Dietetic Registration (CDR) of the Academy of Nutrition and Dietetics (the Academy). Individuals who successfully complete the examination become Registered Dietitians/Nutritionists and are entitled to use the initials "RD" or "RDN" to signify professional competence. Many states, including Oklahoma, also require a license to practice dietetics in the state. Each state law varies in its scope. Didactic Program in Dietetics information and the DPD Student Handbook are found at [humansciences.okstate.edu/dpd](https://humansciences.okstate.edu/dpd) (<https://humansciences.okstate.edu/nsci/undergraduate-students/dietetics-program-osu.html>).

The Didactic Program in Dietetics is currently granted continuing accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, Illinois 60606-6995, 312.899.0040 ext. 5400.

Nutrition professionals work in a wide range of settings, in both the public and private sectors and assume an array of challenging responsibilities. Career opportunities for a registered/licensed dietitian include: health care dietitian and administrator, nutrition researcher, fitness/wellness consultant, public health nutritionist, school nutrition director, Cooperative Extension educator, entrepreneur in dietetic programs and services, and corporate dietitian/nutritionist. DPD Graduates who do not enter dietetic internships may work in related fields which do not require the RD credential such as school food service, Cooperative Extension, pharmaceutical or food sales, food service management and government programs; take the certified dietary manager (CDM) exam; or enter

related graduate programs such as Master of Science in Public Health. Upon earning the DPD "verification statement," students may take the CDR exam to become dietetic technicians, registered (DTR). University teaching and research in the field of nutrition and some specialized careers require advanced degrees or additional course work.

## Admission Requirements

Transfer students must have earned a 2.5 retention GPA in order to be admitted to the NSCI undergraduate program.

Further information may be found at [humansciences.okstate.edu/nsci](https://humansciences.okstate.edu/nsci) (<http://humansciences.okstate.edu/nsci>).

## Dietetic Internship

The dietetic internship (DI) at Oklahoma State University requires a bachelor's degree and prior completion of the DPD requirements for admission and meets the Academy's 1200 hour supervised practice requirement for registration eligibility. Its mission is to advance health and quality of life of individuals and communities by preparing dietetic professionals for competent practice through education, discovery and application of scientific knowledge. The internship provides experience in clinical, management, and community practice settings where interns develop entry-level practice competence. Entry into the dietetic internship is competitive, requiring an application to the OSU DI and NSCI Master's Degree and participation in the Academy of Nutrition and Dietetics computer matching or pre-selection process. All students admitted to the Dietetic Internship must earn the departmental Master of Science in nutritional sciences (nutrition option) or enter with at least an MS which is essentially equivalent to the NSCI MS (nutrition option).

The Dietetic Internship at OSU is currently granted continuing accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, Illinois 60606-6995, 312.899.0040 ext. 5400

Dietetic Internship information is found at <https://humansciences.okstate.edu/nsci/graduate-students/dietetic-internship.html>.

## Undergraduate Programs

- Nutritional Sciences (NSCI), Minor (p. 1559)
- Nutritional Sciences: Allied Health, BSHS (p. 1560)
- Nutritional Sciences: Community Nutrition, BSHS (p. 1562)
- Nutritional Sciences: Dietetics, BSHS (p. 1564)
- Nutritional Sciences: Human Nutrition/Pre-medical Sciences, BSHS (p. 1566)

## Graduate Programs

The Department of Nutritional Sciences offers graduate study leading to a Master of Science degree in nutritional sciences and a Doctor of Philosophy degree in nutritional sciences. Graduate study in NSCI emphasizes the conduct and application of research to the field of human nutrition. Graduate students work with an adviser and advisory committee to develop flexible, yet rigorous programs of study and research that meet the degree requirements and each student's professional goals within an area of specialization in the field.

## The Master of Science Degree

The MS degree program is designed to develop research skills, stimulate independent thought and critical thinking, and provide up-to-date knowledge in a variety of areas of human nutrition. Admission to the MS graduate program is selective and is based on a variety of factors including the student's grade-point average (overall and science GPA), Graduate Record Examination (GRE) scores, letters of recommendation and goal statement. The prerequisite for the MS program is a BS in nutritional sciences. Students with a BS degree in a subject area other than nutrition are required to have a minimum of 30 credit hours of undergraduate/graduate course work related to nutritional sciences, including at least one course in biochemistry, one course in physiology and one upper-level nutrition course prior to full admission. Applicants who do not meet these requirements may be considered for conditional acceptance and required to take prerequisite courses and/or demonstrate academic ability.

Students in the MS program-nutrition option can choose one of two tracks: thesis or non-thesis. The MS degree with thesis requires a minimum of 30 credit hours, including six credit hours for thesis research (NSCI 5000 Master's Thesis). Thesis research is conducted within the adviser's area of interest and is approved by an advisory committee. The non-thesis MS degree requires a minimum of 34 credit hours with three credit hours of NSCI 5843 Non-Thesis Creative Component, including a comprehensive examination, a written research paper, and an oral presentation. The student's plan of study and research is determined in consultation with his/her adviser and advisory committee.

An online Master of Science degree in nutritional sciences with an option in dietetics is also offered to Registered Dietitians (RD) or individuals who are RD eligible. OSU offers this degree program as a member of the Great Plains Interactive Distance Education Alliance (Great Plains IDEA) which provides the opportunity for Registered Dietitians to study with faculty from eight universities in the Alliance via Internet-based courses. The MS in Dietetics requires completion of 36 credit hours, including nine core credits, six OSU Nutritional Sciences Core credits, 18 elective credits and NSCI 5843 Non-Thesis Creative Component. A faculty adviser and the graduate committee from the Nutritional Sciences department must approve a student's program of study. More detailed information can be found at: [gpidea.okstate.edu](http://gpidea.okstate.edu) (<http://gpidea.okstate.edu>).

## The Doctor of Philosophy Degree

The PhD degree is awarded in nutritional sciences. Two programs are available: a 60 hour program for MS graduates and a 90 hour program for BS graduates. The focus of the program is to prepare individuals for careers in a variety of areas including higher education, industry, healthcare and governmental programs. Admission to the program is competitive, and applicants are expected to provide evidence of exceptional academic ability and preparation, a statement of goals and letters of recommendation. Grade-point average in previous undergraduate, professional school and graduate course work and Graduate Record Examination (GRE) scores are considered in the evaluation of the applicant. If a thesis was not required as a component of the applicant's MS program, a thesis or equivalent must be completed in addition to the requirements for the doctoral degree. Prerequisite course work for full admittance to the PhD program includes at least one graduate or undergraduate course in biochemistry and physiology, six credit hours at the graduate level in nutrition and three credit hours of statistics. Students with MS degrees in a subject area other than nutrition will also be required to have a minimum of 30 credit hours of undergraduate/graduate course work related to nutritional sciences,

including the prerequisite courses listed above. Applicants who do not meet these requirements may be considered for conditional acceptance and required to take additional prerequisite courses.

The PhD program includes a strong emphasis on research in areas ranging from basic molecular and cellular sciences to clinical and community applications. Students also gain experience in resource generation, knowledge sharing and community engagement. Each program of study is designed by the student under direction of his/her faculty adviser and advisory committee to develop the student's competence in an area of specialization and research methodologies. Doctoral training includes 15-30 hours of dissertation research, a qualifying examination covering core nutrition knowledge, a comprehensive examination focused on the area of specialization and participation in research throughout the program

More detailed information on graduate study in the Department of Nutritional Sciences can be obtained by writing the graduate coordinator, or accessing the website at [humansciences.okstate.edu/nsci](http://humansciences.okstate.edu/nsci) (<http://humansciences.okstate.edu/nsci>).

## Faculty

Stephen Clarke, PhD, RD—Professor and Interim Department Head  
**Regents Professor and Marilyn Thoma Chair:** Barbara J. Stoecker, PhD, RD/LD, FAND

**Regents Professor and John and Sue Taylor Endowed Professor and Associate Dean Graduate College:** Brenda Smith, PhD

**Professor and Graduate Coordinator:** Gail Gates, PhD, RD, FAND

**Professor and Jim and Lynne Williams Endowed Professor:** Edralin Lucas, PhD

**Professor:** Janice Hermann, PhD, RD/LD

**Associate Professor and Associate Department Head:** Deana Hildebrand, PhD, RD/LD

**Associate Professors:** Barbara Brown, PhD, RD/LD; Tay Kennedy, PhD, RD/LD;

**Assistant Professors:** Winyoo Chohanadisai, PhD; Sam Emerson, PhD; Dingbo (Daniel) Lin, PhD; McKale Montgomery, PhD, RD

**Teaching Assistant Professor:** Lauren Amaya, PhD, RD/LD

**Teaching Instructor:** Michael Rhone, MS, RD

**Teaching Assistant Professor and Director of Dietetic Internship:** Gena Wollenberg, PhD, RD/LD

**Director of Didactic Program in Dietetics and Assistant Director of Dietetic**

**Internship:** Carol Beier, MS, RD/LD

**Instructors:** Shannon Campbell, MS, RD; Embrey Pollet, MS, RD

**Associate Extension Specialist and CNEP Coordinator:** Debra Garrard Foster, MS

**Assistant State Specialists and CNEP Nutritionist:** Diana Romano, MS, RD/LD

**Visiting Assistant Professor:** Shirley Evans, PhD, PA, RD/LD

## Nutritional Sciences (NSCI), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

Department of Nutritional Sciences, 301 HSCI, 405-744-5040

**Minimum Overall Grade Point Average:** 2.50

**Total Hours:** 20 hours

Code	Title	Hours
<b>Minor Requirements</b>		
NSCI 2114	Principles of Human Nutrition (N)	4
NSCI 3011	Nutrition and Evidence-based Practice I	1
NSCI 3223	Nutrition Across the Life Span	3
NSCI 3543	Food and the Human Environment (IS)	3
NSCI 4023	Nutrition in the Pathophysiology of Chronic Disease	3
NSCI 4123	Human Nutrition and Metabolism I	3
NSCI 4143	Human Nutrition and Metabolism II	3

### Other Requirements

- Acceptance to the minor based upon cumulative graduation/retention GPA of 2.50.
- Minimum of "C" required in all minor courses.

### Additional OSU Requirements

#### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

19-22 hours of controlled electives to total 72 hours of major requirements		22
<b>Hours Subtotal</b>		<b>69</b>
<b>Total Hours</b>		<b>120</b>

<sup>1</sup> If a student takes CHEM 1215 General Chemistry (LN), one hour will count as a controlled elective. If student completes CHEM 3015 The Chemistry of Organic Compounds, he/she must take 22 hours of controlled electives. If student completes CHEM 3053 Organic Chemistry, CHEM 3112 Organic Chemistry Lab and CHEM 3153 Organic Chemistry, he/she must take 19 hours of controlled electives.

Consult admissions requirements for specific professional programs.

Ensure that enough upper-division controlled electives are taken to meet the 40 hour upper-division Regents requirement.

This degree program does not meet all the Didactic Program in Dietetics academic course requirements. See the NSCI Major/Dietetics Option sheet for courses to be added.

## Other Requirements

- 40 upper-division hours required.
- A 2.50 Major GPA is required. This includes all courses in College/Departmental and Major Requirements.
- A grade of "C" or better is required in all NSCI 3000 and 4000-level courses.
- Transfer Admission Requirement: 2.50 GPA

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

<b>Hours Subtotal</b>		<b>70</b>
<b>Total Hours</b>		<b>121</b>

This degree program meets the Didactic Program in Dietetics requirements for the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, 312/899-0040, Ext. 5400.

## Other Requirements

- 40 upper-division hours required.
- A 2.50 Major GPA is required. This includes all courses in College/Departmental and Major Requirements.
- A grade of "C" or better is required in all NSCI 3000 and 4000-level courses.

- Transfer Admission Requirement: 2.50 GPA.

## **Additional State/OSU Requirements**

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

# Nutritional Sciences: Human Nutrition/Pre-medical Sciences, BSHS

Students with AP or CLEP credit must talk to advisors.

One writing-intensive English course is recommended for medical school admission. Students are encouraged to select a course with (D,H) designation such as ENGL 2413 Introduction to Literature (DH).

This degree program meets pre-med requirements for Oklahoma medical schools. Consult the admissions requirements for medical schools of choice for additional prerequisites, such as calculus.

This degree program does not meet all the Didactic Program in Dietetics academic course requirements. See the NSCI Major/Dietetics Option sheet for courses to be added.

## Other Requirements

- 40 upper-division hours required.
- A 2.50 Major GPA is required. This includes all courses in College/Departmental and Major Requirements.
- A grade of "C" or better is required in all NSCI 3000- and 4000-level courses.
- This degree sheet includes requirements for pre-medical, pre-dental and pre-optometry.
- Transfer Admission Requirement: 2.50 GPA.

## Additional State/OSU Requirements

- At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU.
- Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

# SPEARS SCHOOL OF BUSINESS

## College Administration

Ken Eastman, PhD—Dean  
 Carol Johnson, PhD—Associate Dean  
 Marlys Mason, PhD—Associate Dean  
 Ramesh Sharda, PhD—Vice Dean

## Campus Address and Phone

**Address:** 201 Business Building, Stillwater, OK 74078  
**Phone:** 405-744-5064  
**Website:** [spears.okstate.edu](http://spears.okstate.edu) (<http://spears.okstate.edu>).

The Spears School of Business focuses on preparing students to make a difference in the world by teaching essential interpersonal skills alongside a high-quality business education backed by impactful research and outreach.

We live in a deeply interconnected world where business is personal while simultaneously more distant. In this world, companies rise and fall based on the strength and success of the relationships they forge.

Spears Business prepares our students for this world by having them live and learn in an environment where personal connections are paramount and academic excellence is strengthened by interpersonal prowess. We take soft skills seriously. We study business collaboratively. We use technology to include and never to exclude. Community isn't just a byproduct of what we do. At Spears, we empower students to follow their own dreams, not the dream we have for them—because the purpose of business isn't just individual gain, but a gain for every individual.

With an emphasis on people and community, we ensure our students are just as real as they are ready. In a rapidly changing world, the only constant is people. This is why students choose Spears, why employers choose our graduates, and why we make business personal.

## Accreditation

The Spears School of Business ([spears.okstate.edu](http://spears.okstate.edu) (<http://spears.okstate.edu>)) at Oklahoma State University is accredited by The Association to Advance Collegiate Schools of Business (AACSB International). All Spears programs are AACSB accredited with the exception of the M.S. in Economics and the PhD in Economics which do not come under the AACSB's scope of review.

## High School Preparation

Although a sound high school program is adequate preparation, prospective business students will benefit from a strong background in English and mathematics. Also, course work in history and government, science, geography, computer science, foreign language and public speaking will be quite valuable.

## Scholarships

Oklahoma State University has an extensive scholarship program which includes entering freshmen. For full consideration as a prospective student, applications should be sent to the OSU Office of Scholarships and Financial Aid by November 1 during one's senior year in high school. Spears School of Business scholarships are primarily designated

for sophomores, juniors and seniors. Scholarship awards are based on academic performance, participation, leadership and need, and applications must be received by mid January.

## Academic Advisement and Enrollment Procedure

The Business Student Success Center believes in a holistic approach to advising, beginning with prospective students that are interested in programs through Spears Business. After admission to OSU, each undergraduate student is assigned an academic counselor who is eager to help students create an academic plan of action, guide them toward university resources, and serve as a mentor. The professional academic counselors are invested in each student's collegiate life, as well as their success at OSU and beyond. The Business Student Success Center provides a link between the Spears Business and other university resources that are available to facilitate student success.

## Academic Programs Undergraduate Programs

The Bachelor of Science in Business Administration degree is offered by four departments and three schools. Departmental majors are listed below.

- Accounting, with a major in accounting.
- Economics and Legal Studies in Business, with majors in economics (with options in business economics and quantitative studies and pre-law) and general business (with an option in pre-law).
- Entrepreneurship, with a major in entrepreneurship.
- Finance, with a major in finance and an option in commercial bank management.
- Management, with a major in management and options in business sustainability, human resource management, non-profit management and sports management.
- Management Science and Information Systems, with a major in management information systems and options in data science and information assurance.
- Marketing and International Business, with majors in marketing and international business.

Additional information about the undergraduate programs in the Spears School of Business can be found on the Internet at [spears.okstate.edu/future/undergraduate](http://spears.okstate.edu/future/undergraduate) (<http://spears.okstate.edu/future/undergraduate>).

Outstanding students in the Spears School of Business who meet the requirements of the Honors College may earn various honors designations while completing their undergraduate degree in this School. For more information, please refer to the Honors College information in the Catalog.

## Master's Degree Programs

Two types of master's degrees are available to students desiring to undertake advanced work in the business area, specialized master's of science degrees and the interdisciplinary Master of Business Administration degree. Students enrolled in these programs will be charged a \$250 fee to support Career Services and Professional Development activities.

The Master of Business Administration degree allows concentrations in Energy Business, Entrepreneurship, Global Marketing, Human Resource Management, Data Science, Marketing Analytics, Business Sustainability

and Non-profit Management. The following identifies where additional information about this degree can be found in the Catalog:

The Master of Business Administration degree (see "Business Administration (p. 1572)")

The Master of Science degree requires completion of a graduate major in accounting, economics, entrepreneurship, management information systems, quantitative financial economics or information assurance. The MBA also allows more in-depth study in the areas of accounting, marketing analytics, risk management, information assurance and network security, information systems, information assurance, entrepreneurship and economics. The following identifies where additional information about these degrees can be found in the Catalog:

Master of Science in Accounting degree.  
See "School of Accounting (p. 1621)."

Master of Science in Business Analytics degree.  
See "School of Marketing and International Business (p. 1631)."

Master of Science in Economics degree.<sup>1</sup>  
See "Department of Economics and Legal Studies in Business (p. 1573)."

Master of Science in Entrepreneurship degree.  
See "School of Entrepreneurship (p. 1625)."

The Master of Science in Management Information Systems (MIS) degree.  
See "Department of Management Science and Information Systems (p. 1610)."

Master of Science in Quantitative Financial Economics degree.  
See "Department of Finance (p. 1587)."

Master of Science in Information Assurance degree.  
See "Department of Management Science and Information Systems (p. 1610)."

<sup>1</sup> The Master of Science in Economics is not subject to AACSB accreditation.

## Doctor of Philosophy Degree Programs

Graduate work toward the Doctor of Philosophy degree with a major in economics is offered in the Department of Economics and Legal Studies in Business<sup>1</sup>. Graduate work toward the Doctor of Philosophy degree with a major in business administration is offered in the departments of Finance, Management, Management Science and Information Systems, the School of Accounting, the School of Entrepreneurship, and the School of Marketing and International Business. The Spears School also offers a PhD in Business Administration that is tailored for executives.

Additional information about PhD programs can be found in the "Business Administration" section as well as in the various departmental sections.

<sup>1</sup> The PhD in Economics is not subject to AACSB accreditation.

## The Eastin Center for Career Readiness

The Eastin Center for Career Readiness provides students with resources to build interpersonal skills and professionalism and ensure graduates are job ready. The center unites career readiness, career services and corporate engagement. Programs begin with the first year experience

by integrating career development projects and extend through the student's time at OSU. The career consultants within Spears Business are certified Global Career Development Facilitator's. The center also provides students with a direct link to OSU Career Services and showcases numerous resources across campus.

## General Education Requirements

The minimum general education requirements are summarized as follows: not less than 40 semester hours, including six hours of English composition and 31 hours in the breadth areas. These include: six hours in American history and government, three hours in social and behavioral sciences, six hours in humanities, three hours in analytical and quantitative thought and seven hours in the area of natural sciences, with one of the hours in scientific investigation.

Students are also required to take a "diversity" (D) designated course. This may be met in any part of the student's program, and thus does not necessarily add to the number of hours required. Diversity courses provide an understanding of the cultural context of relationships, issues and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical characteristics, education, family values, religious and spiritual values, socioeconomic status and unique characteristics of individuals, couples, families, ethnic groups, and communities.

An additional requirement is an "international dimension" (I). This also may be met in any part of the student's program, and thus does not necessarily add to the number of hours required. The international dimension simply requires each student to learn about cultures and societies outside the United States. The scientific investigation requirement involves some kind of laboratory experience with student involvement. More details concerning these and other requirements can be found in the next section, "Lower-division Requirements."

## Lower-Division Requirement

Work in the freshman and sophomore years is planned in such a way as to give the student basic information in the general areas of the following:

1. behavioral and social sciences,
2. communications,
3. humanities and fine arts,
4. natural science and mathematics and
5. business foundation courses.

The student may also select additional hours from courses in these areas, with the opportunity of achieving either further breadth or a certain degree of depth by concentrating these hours in a particular area of interest. As part of the student's general education, one course must be selected that is identified as satisfying the international dimension (I) requirement and one must be selected to satisfy the diversity (D) requirement.

During the freshman and sophomore years, the student will complete courses in each of the following areas:

- Behavioral and social sciences: American history, three semester credit hours; American government, three hours; and three hours elected from courses identified by the University as satisfying social science (S) credit. MGMT 3013 and MKTG 3213, which are required courses for all business majors also carry a social science (S) designation.

- Humanities and fine arts: Six semester credit hours elected from courses identified by the University as satisfying humanities (H) credit.
- Natural science and mathematics: A minimum of 10-13 semester credit hours with the specific number of required hours in mathematics and natural science varying with the major chosen. Specific requirements for each major are published by the University in the book Undergraduate Programs and Requirements.
- Communications: English composition, six semester credit hours. For non-business students, the University prerequisite for upper-division courses applies. (See "Academic Regulations" elsewhere in the Catalog.)
- General electives: In addition, the student may elect courses from any area except lower-division aerospace studies and military science and LEIS and HHP activity courses to complete degree requirements.

Credits earned during the freshman and sophomore years at a two-year college may not be substituted for junior and senior course requirements in majors in the Spears School of Business.

- Knowledge Management Systems, MS (p. 1610)
- Information Assurance and Security, MS (p. 1610)
- Quantitative Financial Economics, MS (p. 1610)

## Business Administration

### Graduate Programs

## The Master of Business Administration Degree

The Master of Business Administration program provides graduate professional education for individuals preparing for administrative careers in either the private or public sectors. It is a comprehensive yet flexible program providing the knowledge and analytical tools to cope with the complexities of management within diverse environments. There are a number of delivery options for the MBA: full-time, part-time, and distance.

### Full-Time MBA

The full-time MBA is a 45-credit-hour semi-lock step program designed for individuals who want a cohort-based experience. Applicants must have earned a four-year undergraduate degree or equivalent from an accredited university and have competitive GPA and GMAT scores. Full-time students may choose between a general MBA and an in-depth specialization. Students choosing a general MBA are free to select 12 hours of electives in functional areas of business such as marketing, finance or management. Students seeking a more in-depth area of study may select from the following twelve options: Accounting, Business Sustainability, Data Science, Economics, Energy Business, Entrepreneurship, Global Marketing, Human Resource Management, Information Assurance, Marketing Analytics, Non-profit Management and Risk Management.

### Part-Time MBA

The part-time MBA is a 42-credit-hour program designed for individuals who wish to enroll on a part-time basis. The self-paced program allows students to take classes as their schedules permit. Applicants must have earned a four-year undergraduate degree or equivalent from an accredited university and have competitive GPA and GMAT scores.

### Distance Learning

The MBA part-time program can be completed through a distance learning format. Distance learning is an ideal educational format for individuals seeking an alternative to the traditional on-campus classroom experience. Classes are delivered via video streaming on the Internet. Interaction with faculty and other students occurs through a web-based environment.

Regardless of the delivery option, admission is granted to those students whose potential for successful graduate study is clearly indicated by the undergraduate grade-point average, the score on the Graduate Management Admissions Test, letters of recommendation from three sources, past work experience, extracurricular and community activities and stated career goals.

## The Doctor of Philosophy Degree

The PhD in business administration is an interdepartmental program in the Spears School of Business, including accounting, entrepreneurship, finance, management, management science and information systems and marketing. The degree emphasizes flexibility to meet the particular needs and objectives of individual candidates. The program is designed to provide the highest degree of preparation for the individual student,

enabling him or her to make significant professional contributions in research, teaching or business or governmental positions.

### Requirements

Students select one major area of study from either accounting, entrepreneurship, finance, management, management information systems/management science or marketing, and two minor areas. The dissertation is usually written in the student's major area. One of the minor areas must be taken in the Spears School of Business. The second minor may be taken from another department within the Spears School of Business or from a department outside the Spears School.

All candidates for the PhD degree in business administration are expected to have a basic competence in all the major functional areas of business administration—accounting, economics, finance, management, management information systems/management science and marketing. In addition, basic competence is expected in finite mathematics, calculus and statistics. Students who possess a recent master's degree in business from a program accredited by the Association to Advance Collegiate Schools of Business (AACSB International) will generally have satisfied most of the basic competence requirements in these areas.

### Administration

The program is administered by the dean of the Graduate College and the department in which the student enrolls with the assistance of a faculty advisory committee.

### Major and Minor Areas

The candidate's advisory committee is responsible for assisting in the development of a plan of study that assures competence in the major and minor areas and in economics and quantitative analysis. All PhD students in residence are required to do teaching or research on a half-time basis while earning the degree.

For additional information about the PhD see the respective departments.

## Economics and Legal Studies in Business

Economics is a social science concerned with behavior of individuals, governments, firms, and nations when confronted with scarcity imposed on mankind by the physical world. The discipline is based on a simple set of principles that are used to model decision-making in a wide variety of other fields of study. Economic principles are used to analyze and predict the both intended and unintended consequences of human action. Economics provides a comprehensive view of how a society is organized to transform the limited resources available into want-satisfying goods and services. It investigates the principles underlying the operation of the economic system and seeks to determine its weaknesses and to prescribe policy measures that will improve its operation. In the process, it ranges over a host of the most important problems confronting contemporary society—the causes of and remedies for economic depression and inflation, the determinants of and methods for improving income distribution, poverty problems and welfare measures, the role of the government in economic activity, the requisites for economic growth and development, pollution and congestion and their control.

The primary objectives sought in the undergraduate curriculum are to develop a broad understanding and perspective of the economic aspects of people's activities coupled with thorough training in the fundamental tools of economic analyses. Toward these ends, the development of elementary mathematical and statistical skills is highly desirable, as is complementary study in the social and behavioral sciences, accounting and business administration.

A major in economics prepares students for positions with business firms, non-profit private organizations and national or international government agencies. A degree option in business economics and quantitative studies is offered to provide additional training in analytical methods and communication skills for both public- and private-sector occupations. The undergraduate degree in economics also provides an excellent background for studying law or international relations and, to this end, there is a pre-law option and an international economic relations option. A student interested in pursuing graduate studies in economics should include a wide range of math courses in their undergraduate curriculum.

### General Business

The general business program gives students a broad, comprehensive type of business education preparing them to enter employment in a wide range of administrative positions in private business, government or non-profit organizations. The scope of their educational experience enables these graduates to assume management positions in organizations of varying sizes and ranges of operations.

Students majoring in general business will take general education or foundation course work in behavioral and social sciences, communications, humanities and fine arts, natural science, mathematics and statistics, as well as business foundation courses in accounting, business communications, business law, economics, finance, management information systems, management and marketing.

This major, which provides for a high degree of individual student choice, includes required upper-division course work beyond the business core in each of the business disciplines as well as substantial work in business or business-related courses, selected by the student in consultation with his or her major adviser. A pre-law option is offered.

## Undergraduate Programs

- Economics (ECBU), Minor (p. 1575)
- Economics, BSBA (p. 1576)
- Economics: Business Economics and Quantitative Studies, BSBA (p. 1578)
- Economics: Pre-Law, BSBA (p. 1580)
- General Business (GNBU), Minor (p. 1582)
- General Business, BSBA (p. 1583)
- General Business: Pre-Law, BSBA (p. 1585)

## Graduate Programs

The department offers work leading to the Master of Science degree and the Doctor of Philosophy degree. The graduate program in economics prepares economists for academic careers as well as research and administrative positions in business and government agencies.

Graduate fields of specialization include regional and urban economics, international economics and economic development. In addition, graduate courses are offered in energy economics and econometrics.

The initial admission to a graduate program is determined by the graduate studies committee on the basis of the applicant's previous academic record; verbal, quantitative and analytical scores of the Graduate Record Examination and three letters of recommendation.

### The Master of Science Degree <sup>1</sup>

Admission to the master's program in economics is granted to college graduates with superior academic records. Students must have an undergraduate economics degree, be well grounded in economic theory, and have an excellent mathematical background. A total of 30-33 graduate credit hours are required to earn an MS in economics.

Each graduate student is guided in the preparation of a plan of study by the graduate adviser. At the master's level, there are two options. One provides the student with a well-rounded program that does not specialize in a particular area of economics. The second option is applied economics, which stresses communication skills, quantitative analysis and course work from other disciplines related to a career objective. The candidate for the master's degree is required to show competence in basic economic theory and statistical methods, together with an understanding of the fundamental institutional operations of the United States economy.

A research report or thesis is required of all students who take only the MS degree. A foreign language is not required.

<sup>1</sup> Our MS in Economics is not subject to AACSB accreditation because Economics program are often taught in either business colleges or arts and sciences colleges.

### The Doctor of Philosophy Degree <sup>1</sup>

Admission to the doctoral program in economics is granted to college graduates who have superior academic records. A total of 64 graduate credit hours are required to earn a PhD in economics.

The PhD program stresses balanced preparation in economic theory, mathematics and statistics, as well as competence in subject-area fields of specialization. The student is required to pass qualifying examinations in the theory core and in one field of specialization. (The theory core is not considered a field of specialization.) Competence must

be demonstrated in a second field of specialization through course work. The graduate adviser helps the student develop a plan of study to achieve these objectives. A foreign language is not required.

A dissertation based upon original research is required of the candidate for a PhD degree in economics. The final oral examination is the dissertation defense.

<sup>1</sup> Our PhD in Economics is not subject to AACSB accreditation because many Economics programs reside and are administered in colleges of arts and sciences.

## Faculty

Lee C. Adkins, PhD—Professor and Head

**Regents Professor:** Dan S. Rickman, PhD

**Professors:** Orley M. Amos, Jr., PhD; Kevin Currier, PhD; Jim Fain, PhD; Jaebeom Kim, PhD

**Associate Professors:** Mary N. Gade, PhD; Harounan Kazianga, PhD; Bidisha Lahiri, PhD; Laurie A. Lucas, JD;

Geoffrey P.G. Pivateau, JD; John Winters, PhD

**Assistant Professors:** Mehtabul Azam, PhD; Gregory Day, JD; Karen Maguire, PhD; Michael Schuster, JD;

Wenyi Shen, PhD; Jack Wroldsen, JD

**Clinical Faculty:** Michael D. Morris, PhD

**Other Faculty:** Bill McLean, PhD; Tara Urich, JD

## Economics (ECBU), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Business Student Services**, 103 Business, 405-744-2772

**Minimum Overall Grade Point Average:** 2.00

**Total Hours:** 27 hours

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

Code	Title	Hours
<b>Minor Requirements</b>		
ECON 2103 or ECON 2003	Introduction to Microeconomics (S) Introduction to Economics	3
ECON 2203	Introduction to Macroeconomics	3
Select 9 hours of upper-division economics		9
ACCT 2103 or ACCT 2003	Financial Accounting Fundamentals of Accounting	3
Select 9 hours of the following:		9
LSB 3213	Legal and Regulatory Environment of Business	
FIN 3113	Finance	
MGMT 3013	Fundamentals of Management (S)	
MKTG 3213	Marketing (S)	

## Other Requirements

- Must have a 2.0 in the 15 hours of required economics courses.

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## 3+3 Law Program

With approval from the advisor and department head, a maximum of 30 hours from an accredited doctoral law program may be substituted for the following classes:

Code	Title	Hours
Select 6 hours of electives		6
LSB 3213	Legal and Regulatory Environment of Business	3
Select 3 hours of BCOM		3
Select 3 hours of LSB from the 18 hour list		3
Select 9 hours from LSB/POLS list		9
Select 6 hours of upper division business		6
Total Hours		30

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Finance

Financial executives are of central importance to the overall planning, control and success of an organization. There are financial implications in virtually all organizational decisions, whether the organization is a business firm, a non-profit organization or a government. With each new innovation in the field of finance the importance of finance for all organizations has grown. Every decision maker must have sufficient knowledge of finance to determine the financial implications of their decisions.

Finance has evolved from a descriptive discipline in the early 1900s to the analytical discipline we find today. Finance theoreticians use fundamental economic theory to develop valuation models and the tools of financial analysis and risk management that are used by finance practitioners to make financial decisions. Finance consists of three interrelated core areas: financial markets and institutions, investments and portfolio theory, and managerial (business) finance. Subsets of these core areas include personal finance, real estate finance, international finance, the management of financial institutions, insurance, entrepreneurial finance, and derivative securities and risk management.

The primary objective of the undergraduate finance curriculum is to produce graduates who have a broad understanding of the financial aspects of their decisions and actions and who are capable of utilizing the fundamental tools of financial analysis. Toward these ends, the development of elementary mathematical and statistical skills and the study of economics, accounting and business administration are needed to accomplish the objective. The major in finance prepares students for positions that require special understanding of financial analysis, financial management and financial systems in a wide variety of organizations.

A career in financial management can begin in one of several positions that may lead to a major executive position, including chief executive officer. Initial positions in the managerial finance area include capital budgeting analyst, cash manager, credit analyst, financial analyst (who works closely with accountants), and risk manager. Alternatively, finance majors may choose to enter the financial services industries. Finance majors could enter the workforce in the banking industry as a loan officer, or as a member of the trust department; in the securities industry as a securities analyst, as an investment banker, as a stockbroker or account executive, or as a financial planner; and in the insurance industry as an agent or underwriter.

### Undergraduate Programs

- Energy Finance (EFIN), Minor (p. 1589)
- Finance (FIN), Minor (p. 1590)
- Finance: Two Options, BSBA (p. 1591)

### Graduate Programs

Concentrations in finance are offered through the Master of Business Administration, Master of Science in Quantitative Financial Economics and Doctor of Philosophy degrees.

## The Master of Business Administration (MBA) Degree

(See "Business Administration (p. 1572).")

The Master of Science in Quantitative Financial Economics Degree. The discipline of quantitative finance has evolved tremendously in recent years, spurred by business and financial institution demand for quantitative skills. Oklahoma State University offers a Master of Science Degree in Quantitative Financial Economics (MSQFE) to meet this demand. The objective of the MSQFE is to produce graduates with mathematical, statistical and financial modeling skills necessary to support advanced financial and economic decision making.

The MSQFE is a Spears School of Business degree program that draws on the combined expertise of five OSU departments—Finance, Economics, Mathematics, Statistics and Agricultural Economics. The program is designed to produce graduates with the skills necessary to participate in critical decision making processes at all levels of the organization. The program focuses on the analytical methods necessary for effective participation in the fields of investment management, risk management, and financial engineering. Significant course work is devoted to the development of mathematical and statistical skills. These skills are necessary to evaluate the uncertain outcomes found in financial decision making. The program provides students the opportunity to apply their knowledge and skills to projects that utilize quantitative financial tools and techniques. The MSQFE program seeks to develop student competencies in risk evaluation methods, empirical estimation techniques, valuation theory and techniques, mathematical solution methods, capital budgeting, demand analysis and risk management.

The MSQFE is a 33 credit hour program. The core 24 hours consists of classes required of all students in the program. Students may elect to complete a master's thesis. This option would reduce the number of elective hours from nine to three.

The admission requirements include an earned undergraduate degree from a college or university of recognized standards. In addition to the Oklahoma State University Graduate College's standard requirements, the program's Curriculum Committee will consider the applicant's letters of recommendation, GMAT or GRE score, previous academic performance and financial/statistical modeling experience. The background necessary to complete the program with only 33 hours of course work includes ten hours of calculus, differential equations, statistical methods, intermediate microeconomics and principles of finance.

Additional information about the program is available on the Internet at <http://watson.okstate.edu/msqfe/>.

## The Doctor of Philosophy Degree

A PhD in business administration with concentration in finance prepares the student for careers in academia, business or government.

The program is designed to meet the needs and objectives of individual students but all students will seek an in-depth understanding of the theoretical foundations of financial economics, and develop research competency and teaching skills. The small class size provides a supportive environment conducive to the exchange of ideas and the development of new insights by both faculty and students.

Students will select finance as their major area of study. Two areas of concentration are also to be selected. As support for the major field of study, each student is required to attain graduate-level competence in economic theory and quantitative methods.

Prerequisites for admission to the program are appropriate basic courses in accounting, calculus, statistics, and econometrics.

Competence in planning and executing research is demonstrated by a dissertation. In addition, each candidate must pass comprehensive qualifying examinations and a final oral examination on the dissertation itself.

Outstanding students with degrees in any field of study may apply. Applications for admission are evaluated on the basis of the following:

1. undergraduate and graduate grade-point averages,
2. score on the Graduate Management Admissions Test (GMAT),
3. a two- or three-page statement describing goals and academic interests,
4. at least three letters of recommendation,
5. evidence of research potential and
6. a personal interview when feasible.

It is the applicant's responsibility to see that all materials related to these criteria are received by the Department of Finance. Additional information about the program is available on the internet at [Watson.okstate.edu/financephd/](http://Watson.okstate.edu/financephd/) (<http://Watson.okstate.edu/financephd/>).

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Management

The purpose of organizations is to channel the efforts of individuals to accomplish goals working together in a meaningful way to realize success in business or in solving pressing social problems requiring skilled managers.

The field of management is concerned with applying social, psychological and economic theories of human behavior to the real-world problems of designing organizations leading and motivating employees, planning effective courses of action and efficiently allocating resources. Since the field of management deals with real-world problems, students should have an interest in acquiring a deep understanding of human behavior and applying this knowledge in a variety of different contexts to create value for themselves and others.

The Department of Management offers an undergraduate major in management with options in human resource management (HRM), sports management and business sustainability. The department also offers graduate studies leading to an MBA degree or a PhD degree. The disciplines spanned by these degrees offer dynamic, exciting career possibilities to students at all levels.

## Management

Undergraduate students should look forward to both intellectual growth and the development of management skills that are in high demand in today's competitive business world.

The Management major, as well as the three optional specializations, are concerned with the analytical process and the application of decision tools and relevant theory to creative problem solving. While the topics vary from one option to another, the common thread running through the Management major is the rational process of managing organizations, solving problems and accomplishing goals.

The major in management offers dynamic, exciting possibilities for study and employment by preparing students for leadership positions in all types of organizations. Some examples of topics include leadership, strategic management, planning courses of action, organizational behavior, resource allocation and administration. Students with degrees in management are employed by organizations of all types and sizes as managers or staff specialists. The major has flexibility so that the student may include coursework from any of the other business disciplines. The management major is a good choice for those interested in for profit leadership roles in business, non-profit and public sector organizations.

## Option in Human Resource Management

Students in the human resource management option study topics pertaining to the management and well-being of an organization's workforce, including compensation administration, forecasting demand for personnel, labor relations and collective bargaining, recruitment and selection, and training and development. This option is designed to prepare students for careers in human resource management or for careers that facilitate the attainment of a competitive advantage through human capital. A career as an HRM professional offers many opportunities, such as developing and implementing innovative HR policies and assisting employees with career challenges and opportunities.

## Option in Sports Management

Sports enterprises are becoming increasingly concerned with their "bottom line," and they need employees who have business skills as well as expertise in the sports industry. The sports industry includes amateur, college, minor league and professional level sports organizations and is an industry that is growing in importance in our economy and society. Our sports management program is one of the few in the country that is housed within a business management department, so we offer our students the opportunity to gain important business management skills while learning about the unique nature of sports organizations.

## Option in Business Sustainability

A sustainable enterprise is built around the triple bottom line imperative of protecting and enhancing the current and long-term future of the organization, the quality of life of the people impacted by the organization, and the health of the natural environment. There is a growing need for individuals with training in sustainable enterprise, and the job opportunities for well-trained undergraduates are increasing. The Business Sustainability option prepares students for this growing and exciting field with extra class work in business ethics, corporate social responsibility, and sustainable business practices.

## Undergraduate Programs

- Business Sustainability (BUSS), Minor (p. 1595)
- Human Resource Management (HRM), Minor (p. 1596)
- Management (MGMT), Minor (p. 1597)
- Management, BSBA (p. 1598)
- Management: Business Sustainability, BSBA (p. 1600)
- Management: Human Resource Management, BSBA (p. 1602)
- Management: Non-Profit Management, BSBA (p. 1604)
- Management: Sports Management, BSBA (p. 1606)
- Nonprofit Management (NPM), Minor (p. 1608)
- Sports Management (SPMG), Minor (p. 1609)

## Graduate Programs

The Department of Management offers work leading to the Master of Business Administration and the Doctor of Philosophy in business administration degrees.

## The Master of Business Administration (MBA) Degree

(See "Business Administration (p. 1572).")

## Graduate Certificates

### Certificate in Nonprofit Management

A growing number of executives in non-profits are recognizing the need to incorporate contemporary management skills into their organizations. This certificate is designed to highlight management practices used in traditional businesses that can also be applied in the nonprofit context and explore the important interface between for-profit businesses and nonprofit organizations.

This certificate is aimed at working professionals who typically join organizations at entry to mid-level management positions without prior business management education. The certificate offers a range of courses that will examine how to apply business practices in nonprofit

organizations. Those seeking the graduate certificate will complete 6 hours of required coursework and select another 6 hours of coursework that best fits their situation.

### Certificate in Sustainable Business

A sustainable enterprise is built around the triple bottom line imperative of protecting and enhancing the current and long term future of the organization, the quality of life of the people impacted by the organization, and the health of the planet. A combination of factors has made a focus on sustainability no longer an option for organizations—whether public, private, or governmental. First, from a cost perspective, managers must recognize that their actions (whether proactive or inactive) that negatively impact people (e.g., its shareholders, employees, customers, communities) can lead to lawsuits. Similarly, by reducing the waste that harms the planet, organizations can minimize costs. Second, from a revenue perspective, the development of green products can provide a competitive advantage in the marketplace. Third, from an ethical perspective, it is simply the right thing to do to protect the planet as well as present and future generations of people from the negative externalities of an organization's actions. We are building these ideas into both our undergraduate and graduate management programs.

This certificate is aimed at working professionals and offers a range of courses that will examine how to apply business practices to sustainability practices in business. Those seeking the graduate certificate will complete 6 hours of required coursework and select another 6 hours of coursework that best fits their situation.

### The Doctor of Philosophy Degree

The PhD in business administration program administered through the Department of Management prepares students for a career in university research and teaching.

The program is flexible and individually structured to meet the needs and objectives of the candidate. Emphasis is placed on understanding the psychological, social and economic foundations of business administration and developing the analytical skills to publish research in the management specialties of organizational behavior, human resources and strategic management.

PhD students in management concentrate in either organizational behavior or strategic management and pursue two minors. At least one of the minor areas must be taken in the Spears School of Business. As support for the major and minor fields of study, each student is required to attain graduate-level competence in quantitative research methods.

As prerequisites to the program, all candidates must have completed appropriate basic courses in calculus and statistics. In addition, candidates are expected to have a basic competence in the major functional areas of business—accounting, finance, management, management information systems, management science and marketing. Competence in the functional areas is usually demonstrated through the completion of appropriate graduate courses in each area through a program accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

Competence in planning and executing research must be demonstrated in a dissertation. In addition, each candidate must pass a series of comprehensive qualifying examinations, both written and oral, and a separate, final oral examination of the dissertation itself. To enhance teaching skills, all PhD students in residence are required to teach on a

quarter-time or half-time basis for at least one semester while earning the degree.

Outstanding students with master's degrees in any field of study are encouraged to apply. The application for admission to the program is evaluated on the basis of the following:

1. undergraduate and graduate grade-point averages,
2. the score on the Graduate Management Admissions Test,
3. a two- or three-page statement describing research interests,
4. three letters of recommendation,
5. evidence of research potential and
6. a personal interview when feasible.

It is the responsibility of each applicant to ensure that all material related to the above criteria is received by the department.

### Faculty

James M. Pappas, PhD—Associate Professor and Head

**Professors:** Federico Aime, PhD; Thomas H. Stone, PhD

**Associate Professors:** Raj Basu, PhD; W. Matthew Bowler, PhD; Bryan Edwards, PhD; Rebecca Greenbaum, PhD;

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Human Resource Management (HRM), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Business Student Services**, 103 Business, 405-744-2772

**Minimum Overall Grade Point Average:** 2.00

**Total Hours:** 16 hours

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

### Management Major Requirements

A GPA of 2.00 is required in these 34 hours of Management Major Requirements

17 of these 34 hours must be in residence at OSU

MGMT 3011	Business, Government and Society	1
MGMT 3123	Managing Behavior and Organizations	3
MGMT 3313	Human Resource Management	3
MGMT 4073	Management and Ethical Leadership	3
or MGMT 4083	Corporate and Social Responsibility	

Select 12 hours Upper-division MGMT courses 12

Select one of the following: 3

BCOM 3113	Written Communication	
BCOM 3443	Business Communication for International Students	

ENGL 3323 Technical Writing

BCOM 3223 Oral Communication 3

or SPCH 3723 Business and Professional Communication

Select 6 hours from upper-division business courses 6

**Hours Subtotal** 61

**Electives**

Select 16 hours 16

May be selected from any upper- or lower-division area except activity courses in LEIS and PE and lower-division AERO and MLSC. Twelve credit hours earned in advanced AERO and MLSC, exclusive of credit earned for summer camp, may be included in the 120 hours.

**Hours Subtotal** 16

**Total Hours** 120

<sup>1</sup> Courses also meet College and Departmental Requirements and cannot be waived with an Associate's degree.

<sup>2</sup> MGMT 3013 Fundamentals of Management (S) and MKTG 3213 Marketing (S) are common body requirements, but are counted in general education requirements.

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.

- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

<b>Electives</b>		
Select 13 hours		13
May be selected from any upper- or lower-division area except activity courses in LEIS and PE and lower-division AERO and MLSC. Twelve credit hours earned in advanced AERO and MLSC, exclusive of credit earned for summer camp, may be included in the 120 hours.		
<b>Hours Subtotal</b>		<b>13</b>
<b>Total Hours</b>		<b>120</b>

<sup>1</sup> Courses also meet College and Departmental Requirements and cannot be waived with an Associate's degree.

- <sup>2</sup> MGMT 3013 Fundamentals of Management (S) and MKTG 3213 Marketing (S) are common body requirements, but are counted in general education requirements.

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## Nonprofit Management (NPM), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Business Student Services**, 103 Business, 405-744-2772

**Minimum Overall Grade Point Average:** 2.00

**Total Hours:** 16 hours

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

MKTG 3213	Marketing (S)	
RMRT 4943	Grant Writing and Nonprofit Management	

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## Sports Management (SPMG), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

## Management Science and Information Systems

Emerging technologies continue to dramatically alter the way business and life is conducted. Those who wish to have a leading role in developing and implementing next generation information systems should consider a career in management information systems, including the sub-fields of data science and information assurance/cybersecurity. The need for knowledgeable workers with expertise in these information systems driven areas will continue to increase at substantial rates for the foreseeable future.

The Department of Management Science and Information Systems offers an undergraduate major in management information systems (MIS) with possible options of data science and information assurance (IA). It also offers graduate studies leading to master's degrees in information assurance (MSIA) and management information systems (MIS). Also, PhD degrees in business administration with an option in MIS, information assurance, management science and operations management can be earned.

Undergraduate degrees in MIS require a common foundation of work in disciplines such as mathematics, statistics, behavioral sciences and communications. A second tier of required work consists of the courses required for all Spears School of Business students such as economics, marketing, accounting and management. The third tier of classes are core MIS courses that develop information technology, data science and cybersecurity expertise in students.

### Management Information Systems (MIS)

The MIS degree focuses on the business applications of information technology. This includes emphasizing necessary skills required in the analysis, development, evaluation and implementation of various information and communication technologies critical for today's global organizations. The integration of information technology throughout all aspects of business coupled with the critical need for responsive information systems has created a strong demand for graduates with expertise in information systems and business administration.

Once MIS students satisfy the first two tiers of requirements mentioned above, they will focus on specialized courses in areas such as systems analysis and design, web and mobile app development, database design and management, data science techniques and applications, data communications and cybersecurity, among other relevant areas.

### Data Science

The data science option allows developing aptitudes in quantitative tools that are especially critical in today's data-driven organization. Additional course work in statistics, and descriptive, predictive and prescriptive analytics is possible with a Data Science option.

### Information Assurance

The Information Assurance option uses the expertise in the department that led OSU to be named a National Center of Academic Excellence in Information Assurance Education and Research by the NSA and the Department of Homeland Security. This option provides students with in-depth study and hands-on analysis of critical organizational issues in information assurance and cybersecurity.

## Undergraduate Programs

- Data Science (DS), Minor (p. 1612)
- Information Assurance (IA), Minor (p. 1613)
- Management Information Systems (MIS), Minor (p. 1614)
- Management Information Systems, BSBA (p. 1615)
- Management Information Systems: Data Science, BSBA (p. 1617)
- Management Information Systems: Information Assurance, BSBA (p. 1619)

## Graduate Programs

The Department of Management Science and Information Systems offers courses that lead to the completion of the Master of Business Administration (MBA), the Master of Science in information assurance (MSIA), the Master of Science in management information systems (MIS) and the Doctor of Philosophy in business administration (PhD).

### The Master of Business Administration (MBA) Degree

(See "Business Administration (p. 1572).")

### The Master of Science in Information Assurance (MSIA) Degree

In response to industry's need for skilled and knowledgeable cyber security graduates, Oklahoma State University offers a Master of Science degree in information assurance. This program is offered not only through traditional means to on-campus students but also via distance learning technologies to students at remote locations.

This program prepares graduates for managing the security aspects of today's global firms, developing policies, procedures, and technical expertise to protect their data assets. The graduates of this program are likely to be employed by providers or users of information assurance.

### Information Assurance Curriculum

The program curriculum consists of 32-33 credit hours, including eight core courses and three electives. Students may choose either a part-time or full-time sequence. Full-time students can complete the program in one and one-half years while part-time students may complete it in two years.

MSIA degree candidates have the opportunity to develop broad knowledge in specific elective areas chosen to best fit their career aspirations.

### Admission Requirements

Qualified graduates of colleges and universities of recognized standards are eligible to seek admission to the OSU Graduate College. Applicants must submit the completed application form to the Graduate College with official transcripts of all academic work and degrees received.

In addition to the OSU Graduate College's standard requirements, the information assurance program admissions committee will consider students' letters of recommendation, GMAT or GRE scores, previous academic performance and telecommunications experience.

Information about the program is available on the Internet at <https://watson.okstate.edu/msia/>

## The Master of Science in Management Information Systems (MIS) Degree

This degree program combines strong theoretical concepts with intense hands-on instruction, helping graduates not only to understand business processes and the concepts behind the information systems they work with, but also develop, modify, use and protect these rapidly-changing computing systems through their technical expertise.

The MS in MIS is a 33-34 hour program featuring a core of 25 hours (24 for part time), including a business practicum, plus two options to highlight different interest areas: data science and application development. These options afford the student opportunities to focus on descriptive, predictive and prescriptive analytics as well as software design and implementation.

Admission requirements for the MS in MIS are similar to the admission requirements for the other master's programs in the Spears School of Business. Information about the program is available on the Internet at <http://mis-analytics.okstate.edu>.

## Certificate in Health Analytics

There is a dire need for professionals with practical knowledge and skills in health analytics—ones who can convert large data repositories into actionable insight for better decisions to enhance effectiveness and efficiency in the ever more complex and highly competitive health care domain. OSU's internationally ranked MS in MIS program has collaborated with the Center of Health Sciences' MS in Health Care Administration (HCA) program and the Center of Health Systems Integration (CHSI) research center focused on the intersection of health, healthcare, informatics, and analytics/data sciences to create a new, unique interdisciplinary program – a Certificate in Health Analytics.

The program requires taking four courses (each three credit hours, totaling 12 credit hours) of coursework. This certificate program allows for the courses to double-count towards a master's degree and this certificate degree

## The Doctor of Philosophy (PhD) Degree

The PhD in business administration program administered through the Department of Management Science and Information Systems provides intensive study in management information systems, management science, operations management and telecommunications management. It prepares the student for significant professional contributions in university teaching and research.

The program is flexible and individually structured to meet the needs and objectives of the candidate. Emphasis is placed on understanding the analytical and theoretical foundations of business administration, applications in the depth area of specialization and development of research capabilities in the discipline.

As prerequisites to the program, all candidates are to have completed appropriate basic courses in calculus and statistics. Likewise, candidates are expected to have a basic competence in the major functional areas of business— accounting, finance, management, management information systems, management science and marketing. Competence in the functional areas is usually attained by documenting that the student has recently completed the appropriate graduate courses in each area through a program accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

Competence in planning and executing research must be demonstrated in a dissertation. In addition, each candidate must pass a series of comprehensive qualifying examinations, written and oral, and a separate, final oral examination of the dissertation. To enhance teaching skills, all PhD students in residence are required to teach on a quarter-time or half-time basis for at least one semester while earning the degree.

Outstanding students with master's degrees in any field of study may apply. The application for admission to the program is evaluated on the basis of the following:

1. undergraduate and graduate grade-point averages,
2. the score on the Graduate Management Admissions Test,
3. a two- or three-page statement describing goals and academic interests,
4. three letters of recommendation,
5. evidence of research potential and
6. a personal interview when feasible.

It is the responsibility of each applicant to ensure that all material related to the above criteria is received by the department.

## Faculty

Rick L. Wilson, PhD—Professor and Head

**Regents Professors:** Dursen Delen, PhD; Ramesh Sharda, PhD

**Professors:** Ali Amiri, PhD; Nik Dalal, PhD; Jeretta H. Nord, EdD; Rathindra Sarathy, PhD; Mark Weiser, PhD

**Associate Professors:** David P. Biro, PhD; Jin Kyu Lee, PhD

**Assistant Professors:** Corey Baham, PhD; Bryan I. Hammer, PhD; Taha Havakhor, PhD; Andy Luse, PhD; Jason Nichols, PhD;

**Clinical Faculty:** James Burkman, PhD; Fletcher Glancy, PhD

- Degrees that follow this plan must be completed by the end of Summer 2023.

## School of Accounting

The School of Accounting offers three degree programs in accounting:

1. BS in Business Administration with a major in accounting,
2. MS in accounting and
3. PhD in business administration with emphasis in accounting.

The common objective of the BS and MS in accounting programs is to educate students to commence and continue to develop in a wide range of professional accounting careers. The specific objective of the BS in accounting program is to provide basic conceptual and business knowledge as a foundation for accounting career development; the objective of the MS in accounting is to provide candidates with a greater breadth and depth in accounting than is possible in the BS program, in order to prepare graduates for careers as professional accountants in financial institutions, industry, non-business organizations and public practice.

Students who are considering a professional accounting career should have above-average aptitudes in mathematics and English, disciplined work habits, an interest in working with people and an attitude of service.

Students who have the objective of sitting for the CPA exam in Oklahoma must have a BS degree and are required to complete 150 semester hours consisting of 76 upper-division hours, 30 hours of accounting above introductory accounting (including 3 hours of external auditing), and nine upper-division hours from other business related areas. The Professional Program in Accounting (PPA) is especially designed to enable students to become CPA eligible. The PPA allows students to complete the requirement of 150 hours of education and receive a BS and MS in accounting. The MS in accounting earned at Oklahoma State University satisfies educational requirements for CPA candidates in all jurisdictions of the United States.

### Accreditation

The School of Accounting is separately and fully accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

### Undergraduate Programs

- Accounting (ACCT), Minor (p. 1622)
- Accounting, BSBA (p. 1623)

### Graduate Programs

#### The Master of Science in Accounting Degree

The specific objective of the MS in accounting is to provide candidates with a greater breadth and depth than is possible in the BS program, in order to prepare graduates for careers as professional accountants in financial institutions, industry, non-business organizations and public practice and to develop judgmental ability in accounting and related areas. Advanced courses provide a theoretical base for insight into significant problems confronting the accounting profession. In addition, a specialty in financial reporting, taxation, management information systems, finance or entrepreneurship is available for interested candidates. The candidate receives assistance from the

faculty in selecting a pattern of courses designed to prepare the student according to the chosen professional goals.

Graduates of recognized colleges and universities whose records indicate adequate intellectual capacity and desirable personal characteristics may qualify for admission. Minimum admission standards are a GMAT score of 550, an undergraduate grade-point average in accounting of 3.25, and an overall grade-point average of 3.0.

### Prerequisites

The following courses are required before beginning the MS program: 27 hours of accounting courses and 21 hours of other specified business courses.

### The Doctor of Philosophy Degree

The PhD in the Spears School of Business with a major in accounting emphasizes flexibility to meet the particular needs and objectives of individual candidates. The program is designed to provide the highest degree of preparation for the individual student, enabling the student to make significant professional contributions in research, teaching or business or government positions.

Graduates of recognized colleges and universities whose records indicate adequate intellectual capacity and desirable personal characteristics may qualify if they have a good academic record and achieve satisfactory scores on the GMAT. Admission is very competitive.

The PhD program is designed so that a candidate may, at his or her option, specialize in one of the following accounting areas: auditing, managerial accounting, financial accounting systems or taxation. All candidates are required to take a series of seminars that provide an overview of relevant academic literature. These seminars are restricted to PhD candidates. Two minor areas, one of which may be outside the Spears School of Business, are required, in addition to competence in economics and quantitative analysis. The candidate's advisory committee is responsible for assisting in the development of a plan of study encompassing the above areas. Students in residence are required to do teaching or research on a half-time basis while earning the degree.

### Faculty

George Krull, PhD, —Professor and Interim Head

**Associate Professors:** Don Herrmann, PhD; Carol B. Johnson, PhD, CFE; Sandeep Nabar, PhD; William C. Schwartz, PhD, CPA; Angela Spencer, PhD  
**Assistant Professors:** Matthew Bjornsen, PhD; Brad Lawson, PhD, CPA; Leah Muriel, PhD, CPA; Jaclyn Prentice, PhD; CPA; Scott White, PhD, CPA  
**Clinical Faculty:** Rachel Cox, MS, CPA; Rachel Domnick, MS, CPA; Melanie Harvey, MS, CPA; Sarah Johnson, MS, CPA;  
 Alyssa Vowell, MBA, CPA

## Accounting (ACCT), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Business Student Services**, 103 Business, 405-744-2772

**Minimum Overall Grade Point Average:** 2.00

**Total Hours:** 27 hours

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

Code	Title	Hours
<b>Minor Requirements</b>		
ACCT 2103	Financial Accounting	3
ACCT 2203	Managerial Accounting	3
ACCT 3103	Intermediate Accounting I	3
Select six hours of upper-division accounting		6
ECON 2103	Introduction to Microeconomics (S)	3
or ECON 2203	Introduction to Macroeconomics	
Select three of the following:		9
LSB 3213	Legal and Regulatory Environment of Business	
FIN 3113	Finance	
MGMT 3013	Fundamentals of Management (S)	
MKTG 3213	Marketing (S)	

## Other Requirements

- C or better in each accounting course, 9 of the 15 required accounting hours must be completed at OSU.

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

- Degrees that follow this plan must be completed by the end of Summer 2023.

## School of Entrepreneurship

The 21st century is the age of entrepreneurship. It is a time of dynamic change where organizations must be faster, more adaptable and flexible, more aggressive, and more innovative in order to survive. The program in entrepreneurship helps prepare students for the entrepreneurial age. Students are encouraged to recognize and develop their innate entrepreneurial potential, and to apply an entrepreneurial mindset to both their professional and personal lives. The program emphasizes the role of entrepreneurial attitudes and behaviors in a wide variety of contexts, including new start-up ventures, growth-oriented small firms, family firms, non-profit entities, and public sector organizations. Students are further encouraged to apply entrepreneurial thinking and acting within other disciplines, from architecture and engineering to social work and theatre.

Entrepreneurship is approached as opportunity-driven behavior. It is a process where individuals put resources together in new and novel ways to create value. The value created can be for customers in conventional markets, or it can be social value created for the community. The program centers on helping students develop competencies that will enable them to be more entrepreneurial in a wide variety of contexts. Eleven core competencies are emphasized, including recognizing opportunity, assessing opportunity, mastering your creativity, leveraging resources, guerrilla skills, mitigating and managing risk, planning when nothing exists, innovation-developing ideas that work, building and managing social networks, the ability to maintain focus yet adapt, and implementation of something novel or new. A leading-edge entrepreneurship curriculum is built around these competencies.

As a field of study, entrepreneurship helps students see themselves as agents of change, and better equips them to implement creative solutions to emerging opportunities in literally any organizational context. To foster these abilities, the program places considerable emphasis on experiential learning. Innovative experiential opportunities are built into each of the entrepreneurship courses at the undergraduate and master's levels. In addition, the School manages an incubator, where students can start ventures, a campus-wide business Pitch & Poster Competition, and other student engagement initiatives.

In addition to graduate offerings, the program offers an undergraduate major and minor in entrepreneurship as well as a cross-campus program involving the integration of entrepreneurship into other disciplines (e.g., engineering, art, psychology). More information about entrepreneurship at OSU can be found at [entrepreneurship.okstate.edu](http://entrepreneurship.okstate.edu) (<http://entrepreneurship.okstate.edu>).

## Undergraduate Programs

- Creativity Studies (CRST), Minor (p. 1627)
- Entrepreneurship (EEE), Minor (p. 1628)
- Entrepreneurship, BSBA (p. 1629)

## Graduate Programs

The School of Entrepreneurship offers work leading to the Master of Science in Entrepreneurship degree, including both a residency and online program. In addition, concentration in Entrepreneurship is offered as part of the Master of Business Administration. A PhD in business administration with concentration in entrepreneurship is available to prepare students for careers in academia.

## The Master of Business Administration (MBA) Degree with Entrepreneurship Concentration

(See "Business Administration (p. 1572)")

### Master's in Entrepreneurship

The Master's in Entrepreneurship (MSE) provides a rigorous immersion into the nature of entrepreneurship and the entrepreneurial process. Core content is coupled with a strong commitment to experiential learning. Students are provided the opportunity to start a venture while in the program. The program is a component of the university-wide entrepreneurship emphasis at Oklahoma State University. It is targeted to students with a passion for entrepreneurship in for-profit, non-profit, and public sector contexts.

The master's program consists of 33 credit hours of coursework and can be completed in one calendar year. The application for admission to the program requires:

1. Bachelor's degree,
2. Proposal for a venture,
3. GMAT,
4. Entrepreneurial and other work experience (recommended but not required),
5. three letters of recommendation.

Based on this review, a personal interview is arranged with selected candidates, and then a final acceptance decision is made. Applicants are responsible for ensuring all relevant materials are submitted to the School prior to deadlines. An online version of the program is also available.

## The Doctor of Philosophy Degree

The PhD in business administration with concentration in entrepreneurship is primarily focused on producing scholars who will be thought leaders in the discipline of entrepreneurship. The program prepares students primarily for careers in academia. Coordinated by the School of Entrepreneurship, students are given an intense exposure to theory and research methods.

The doctoral program involves sixty credit hours beyond the master's degree, of which approximately forty-two hours are course work, depending upon the student's background, the remaining hours are associated with dissertation work. It is a four-year program, with two years devoted to course work, followed by comprehensive exams and a dissertation proposal, and then the writing and defending of the dissertation. Students complete fifteen hours of core doctoral seminars in entrepreneurship and management, twelve hours of statistics and research methods courses, nine hours of doctoral or equivalent hours in a minor field, and six hours of approved doctoral-level or equivalent electives. Students typically minor in such fields as psychology, sociology, anthropology, public policy, or finance.

Doctoral students are expected to publish while in the program, and also to teach entrepreneurship courses. Faculty mentors work closely with students on research projects while they are in the program, initially involving the student in ongoing research projects, and ultimately working on projects initiated by the student. Students are expected to develop and refine their research interests over the first two years of the program, culminating in the identification of a dissertation topic. The

School of Entrepreneurship, with a world-class cadre of entrepreneurship researchers, is well-positioned to support a wide range of topical areas that fit the student's interests.

Outstanding individuals with master's degrees in any field of study may apply. The application for admission to the program is evaluated based on the following:

1. undergraduate and graduate grade point averages,
2. the student's score on the Graduate Management Admission Test (GMAT),
3. a two- to three-page statement describing career goals, academic interests and research questions that intrigue the applicant,
4. three letters of recommendation, and
5. evidence of research potential.

Based on this review, a personal interview is arranged with selected candidates, and then a final acceptance decision is made. Applicants are responsible for ensuring all relevant materials are submitted to the School prior to deadlines.

## Faculty

Bruce Barringer, PhD—Professor and Head

**Regent Professor:** Robert A. Baron, PhD

**Associate Professors:** Matthew Rutherford, PhD

**Assistant Professor:** Per Bylund, PhD

**Clinical Faculty:** Jonathan Butler, PhD; Richard Gajan, MBA, David Thomison, MBA; Craig Watters, PhD

**Other Faculty:** Kyle Eastham, MS; Tom Westbrook, PhD

## Creativity Studies (CRST), Minor

**Requirements for Students Matriculating in or before Academic Year 2017-2018.** Learn more about University Academic Regulation 3.1 (p. 783).

**Business Student Services**, 103 Business, 405-744-2772

**Minimum Overall Grade Point Average:** 2.50 with no grade below "C."

**Total Hours:** 18 hours

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

HDFS 2233	Development of Creative Expression, Play and Motor Skills in Early Childhood	
EEE 1010	Creativity, Innovation and Entrepreneurship	
EEE 1020	Creativity, Innovation and Entrepreneurship II	
EEE 4010	Special Topics in Entrepreneurship	
PHIL 4113	Philosophy and the Arts (H)	

## Additional OSU Requirements Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

- <sup>1</sup> Courses also meet College and Departmental Requirements and cannot be waived with an Associate's degree.
- <sup>2</sup> MGMT 3013 Fundamentals of Management (S) and MKTG 3213 Marketing (S) are common body requirements, but are counted in general education requirements.

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
- Degrees that follow this plan must be completed by the end of Summer 2023.

## School of Marketing and International Business

The School of Marketing and International Business provides two quite significant majors within the Spears School of Business. One of these is marketing. This is an exciting field of study leading to a variety of job opportunities both in the private sector and in not-for-profit organizations. Also, it provides an excellent career path to top management within an organization.

The second major provided by the department is international business. Almost every business has international operations or is affected by events, competitors and conditions in the global economy. This opens career opportunities in the field and prepares one for successful management within the domestic economy.

### Marketing

Marketing is concerned with the identification of wants and needs by buyers and the development of products, distribution channels, price and communication methods to satisfy those wants and needs. The buyers may be individuals or organizations, and their buying may include products or services. Since the economic system is dependent on the ability of organizations to match resources with marketplace needs, marketing is gaining in prominence every year.

A marketing graduate will likely be involved in performance and management of many traditional areas of decision-making—sales, advertising, logistics and marketing research. In addition, one frequently assists in product planning, developing marketing information systems and general management. Since these tasks are necessary for all types of organizations, employers of marketing graduates include manufacturers, banks, hospitals, retailers and not-for-profit organizations.

The effective marketing manager must possess a perspective and capability that reflect a three-dimensional program of study:

1. a liberal education in the sciences, humanities, behavioral and social sciences, mathematics and communications;
2. an adequate knowledge of the major functional areas of business and
3. a high-level competency in marketing.

One's liberal education is emphasized during the freshman and sophomore years. The study of the functional areas of business begins in the sophomore year and continues into the junior year. During the junior and senior years, the focus is on marketing. In addition to the introductory course that provides an overview of the field of marketing, the student takes courses in areas such as consumer behavior, promotion, sales management, services marketing, electronic commerce, marketing research, channels and international marketing. While studying marketing, one typically selects courses in other fields such as international business, management, information systems, finance, advertising and public relations to support a particular career choice within the marketing field.

### Certificate in Customer – Employee Interaction

Interactions between frontline employees and their customers form the building blocks from which businesses are made. Many undergraduate students join organizations at entry-level positions where the focus is on customer-related activities, including sales, retail, and customer

service. Such training will benefit not only students who upon graduation begin careers in retailing, sales or customer service, but also those who will eventually practice law, medicine, or own their own business where successfully managing customer interactions forms the foundation for success.

The certificate offers a range of courses to give specialized training on effective customer interaction. All required coursework fits within the structure of the marketing undergraduate degree program. Those seeking the certificate will complete 9 hours of required coursework and select another 6 hours of coursework that best fit their particular interests.

### International Business

The international business degree is a cross-disciplinary program of study that provides a solid, broad-based foundation of business coupled with the flexibility to tailor the program to the individual students' specific interests. International business majors can choose to focus on specific areas or regions of the world by including geography, history, or political science courses complemented by study of a foreign language important in that region. International Business majors can also increase their knowledge and abilities of a specific business discipline by adding a business minor. For international business students, the world truly is their oyster.

Many international business majors are interested in taking advantage of the opportunities afforded by Oklahoma State University to either study abroad or take an international internship. The Cagle Center is the Spear's School of Business' launching pad for taking short-term, faculty led study abroad trips to exciting locations such as China, England, France, Greece and many other locales. OSU's study abroad office, located in the Union, is a great place to get information about all of the long-term study opportunities available. What will surprise you is the amount of financial assistance for which you can apply. When you stop by the Cagle Center or the OSU study abroad office, make sure to ask about scholarship and grant programs that can make your dreams come true.

To earn an international business degree, you will complete 120 hours of undergraduate coursework. In addition to foundational coursework in accounting, economics, finance, management, management information systems and marketing, you will have the opportunity to take 15 hours of upper division, internationally-focused business courses. See the degree requirements for the international business major for more information.

### Undergraduate Programs

- International Business (INBU), Minor (p. 1634)
- International Business, BSBA (p. 1635)
- Marketing (MKTG), Minor (p. 1637)
- Marketing, BSBA (p. 1638)

### Graduate Programs

The School of Marketing and International Business offers work leading to the Master of Business Administration, the Master of Business Analytics and the Doctor of Philosophy in business administration degrees. In addition, the School of Marketing and International Business offers work leading to Graduate Certificate in Business Data Mining and Graduate Certificate in Marketing Analytics.

## The Master of Business Administration (MBA) Degree

See "Business Administration (p. 1572)."

## The Master of Science in Business Analytics Degree

This is an interdisciplinary program that offers hands-on application of data analysis along with a unique blend of coursework in Analytics, Marketing, Statistics, Business, MIS and Industrial Engineering. The structure of the curriculum has been carefully designed in consultation with our advisory board companies to balance the need of understanding quantitative approaches, statistical modeling and machine learning algorithms along with data visualization and exploration, interpretation of results and the ability to apply these results for solving business problems.

The MS in Business Analytics is a 37 hour program featuring a core of 25 hours (18 for part time), including a business practicum. The 12 hours of electives allow students to specialize in areas such as business, statistics, information science or industrial engineering. In addition to the MS in Business Analytics degree, students in this program may also receive the following three certificates depending on elective courses taken, credentials achieved and so on: SAS® and OSU Data Mining Certificate (core level), SAS® and OSU Predictive Analytics Certificate (advanced level) and SAS® and OSU Marketing Data Science Certificate (expert level).

Admission requirements for the MS in Business Analytics are similar to the admission requirements for the other master's programs in the Spears School of Business. Information about the program is available on the Internet at <http://analytics.okstate.edu/msba/>.

## The Doctor of Philosophy Degree

The PhD in business administration program through the School of Marketing and International Business provides intensive study in marketing. It prepares the student for significant professional contributions in university teaching and research or staff positions in business or government.

The program is quite flexible and individually structured to meet the needs and objectives of each candidate. The program is designed to create scholars and researchers in the field of marketing. Highly student oriented, the program focuses on training individuals in current marketing theory and research techniques. Collaboration between students and faculty is strongly encouraged.

### Program Content

The student will take 15 hours of PhD seminars in marketing. The student must also complete a nine-hour minor in another discipline such as economics, management, sociology or psychology. As support for the major and minor fields of study, extensive course work (normally 18 credit hours) in the area of quantitative/research methodology is required.

As prerequisites to the program, all candidates are to have completed appropriate basic courses in calculus and statistics. Likewise, candidates are expected to have a basic competence in the major functional areas of business— accounting, finance, operations management, organizational theory, economics and marketing. Competence in the functional areas is usually assumed for candidates having recently completed an

appropriate graduate course in each area in an MBA program accredited by the Association to Advance Collegiate Schools of Business (AACSB).

### Application Procedure

Outstanding undergraduate or graduate students from any field of study may apply. For those with an MBA, the program will normally consist of two years of course work and two years of dissertation work. For those without a master's degree, the plan of study for the PhD degree will typically allow for the granting of an MBA prior to completion of the PhD degree. Applications for admission to the program are evaluated on the basis of the following:

1. undergraduate and graduate grade-point averages,
2. the score on the Graduate Management Admissions Test or Graduate Record Examination,
3. a two- or three-page statement describing goals and academic interests,
4. three letters of recommendation,
5. evidence of research potential and
6. a personal interview when feasible.

It is the responsibility of each applicant to ensure that all materials related to the above criteria are received by the School of Marketing and International Business. Application forms and detailed explanation of the PhD degree in business administration with an emphasis in marketing are available through the department.

## Graduate Certificate in Business Data Mining

This certificate program is designed to help working professionals with technical background who do not want to pursue a full master's degree yet want to acquire data mining or predictive analytics skills by taking a series of courses online. Working professionals admitted in this program can complete coursework in 12-24 months by taking courses online. Those enrolled in the graduate certificate in business data mining may be able transfer the credit hours to the MS in Business Analytics if they choose to apply for admission into the MS degree at a later date. Along with the graduate certificate in business data mining, students in this program may also receive all of the following three certificates (depending on courses taken, credentials achieved, etc.): SAS and OSU Data Mining Certificate (core level), SAS and OSU Predictive Analytics Certificate (advanced level) and SAS and OSU Marketing Data Science Certificate (expert level).

More details about this program (including procedure and admission requirements) are on the website: <http://watson.okstate.edu/datamining/>.

Select an additional 15 hours of upper-division business courses from any field in the Spears School		15
A minor in a selected business field is highly recommended.		
<b>Hours Subtotal</b>		<b>66</b>
<b>Electives</b>		
Select 11 hours		11
May be selected from any upper- or lower-division area except activity courses in LEIS and PE and lower-division AERO and MLSC. 12 credit hours earned in advanced AERO and MLSC, exclusive of credit earned for summer camp, may be included in the 120 hours.		
<b>Hours Subtotal</b>		<b>11</b>
<b>Total Hours</b>		<b>120</b>

- <sup>1</sup> Courses also meet College and Departmental Requirements and cannot be waived with an Associate's degree.
- <sup>2</sup> MGMT 3013 Fundamentals of Management (S) and MKTG 3213 Marketing (S) are common body requirements, but are counted in general education requirements.
- <sup>3</sup> Requirement may only be met by taking MKTG 4550 Problems In Marketing.

## Other Requirements

1. A minimum of 50 percent of the business hours required for a degree must be in residence at OSU.
2. Forty-five hours of upper division courses required.
3. The student must indicate language proficiency as evidenced by:
  - a. 9 hours of study of a single modern foreign language with a minimum grade of "C" or,
  - b. study in a foreign country approved by the department head and 6 hours of study of a single modern foreign language with a minimum grade of "C" or
  - c. three hours of intermediate or advanced modern foreign language courses with a minimum grade of "C", or
  - d. passing an approved Oklahoma State University examination.

## Additional State/OSU Requirements

- **At least:** 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 and 50% of the upper-division hours in the major field completed at OSU.
- **Limit of:** one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours.
- Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as

these changes do not result in semester credit hours being added or do not delay graduation.

- Degrees that follow this plan must be completed by the end of Summer 2023.

## Marketing (MKTG), Minor

### Requirements for Students Matriculating in or before Academic Year

2017-2018. Learn more about University Academic Regulation 3.1 (p. 783).

Business Student Services, 103 Business, 405-744-2772

Minimum Overall Grade Point Average: 2.00

Total Hours: 15

For minors requiring 27 hours, 18 of the 27 hours must be taken in residence at OSU, and 6 of the 9 hours for the Specific Minor Area must be taken in residence at OSU. Students with majors outside of the SSB may find that some courses will have additional prerequisites. For minors with various required hours, please see specific minor.

<b>Minor Requirements</b>		
MKTG 3213	Marketing (S)	3
Select 12 hours of any upper division marketing classes		12

## Other Requirements

- 12 of the 15 hours must be taken in residence at OSU.

## Additional OSU Requirements

### Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive, of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following minor requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://stw.sp.okstate.edu/policies/Shared%20Documents/Requirements%20for%20Undergraduate%20and%20Graduate%20Minors.pdf>).

## THE HONORS COLLEGE

---

Keith Garbutt, PhD—Dean  
Richard Frohock, PhD—Associate Dean  
Ebonie Hill-Williamson—Program Coordinator  
Shelly Schauer—Administrative Assistant  
Amanda Booth—Honors Academic Counselor  
O'donna Dean—Honors Academic Counselor  
Cynthia Lane—Honors Academic Counselor

Oklahoma State University is an active member of the National Collegiate Honors Council and the Great Plains Honors Council. The Honors College Degree is composed of a university-wide General Honors component and specialized upper-division components at the departmental or college levels. The Honors College provides academically talented students with the opportunity to study, conduct research, and exchange ideas in an exciting and supportive academic environment. Honors sections are offered in many general education courses, and special honors seminars, add-ons, and interdisciplinary honors courses also are available. Honors classes are taught by outstanding faculty members and the classes are small in size to facilitate active student involvement.

Completion of the requirements for the General Honors Award leads to special designation on the student's OSU transcript, as does completion of the requirements for the Departmental or College Honors Award in the student's academic major. Students who earn a minimum of 36 honors credit hours and complete the Departmental or College Honors Award, as well as the General Honors Award, with a 3.50 cumulative grade-point average at graduation, receive the Honors College Degree, including a special entry on their transcripts and special honors diplomas.

Additional advantages for active participants in The Honors College (minimum of three honors credit hours per semester and nine honors credit hours for each two consecutive semesters for freshmen and sophomores and three honors credit hours per semester for juniors and seniors) include use of The Honors College Study Lounge in Old Central (with a computer lab), extended check-out privileges for library materials, priority enrollment for the following semester, and an honors housing option in Stout Hall or Bennett Hall (on a rooms-available basis).

Admission of new freshmen to The Honors College is based on an ACT composite score of 27 or higher (or comparable SAT score) with a high school weighted or unweighted grade-point average of 3.75 or higher. Application forms are included in the OSU Application for Admission. Entering freshmen who fall just short of these criteria may request a petition form from The Honors College. Students other than new freshmen may be admitted to The Honors College on the basis of their graduation/retention grade-point average (7-59 hours earned: 3.30; 60-93 hours earned: 3.40; 94 or more hours earned: 3.50). Transfer freshmen must have completed at least seven college credit hours (not including concurrent enrollment while in high school) to be eligible on the basis of college performance if they do not have the required high school grade-point average and ACT score. There is a February 1 deadline for regular acceptance based on the criteria outlined above. Applications submitted after February 1 will be considered on a space-available basis.

For additional information about The Honors College, interested students should consult the Dean or Program Coordinator of The Honors College, 101 Old Central or visit <http://honors.okstate.edu>.

**E-mail:** [gradi@okstate.edu](mailto:gradi@okstate.edu)

Graduate education at Oklahoma State University (OSU) is organized around the scholarly pursuit of new knowledge, both through didactic instruction and through independent and group research conducted utilizing the facilities and resources of a major research university. OSU's national and international reputation is grounded in the scholarly research and creative work performed by faculty and students under the auspices of OSU's graduate programs.

The first graduate degree was conferred by OSU in 1912, and the Graduate School was organized in 1929. OSU offers more than 200 graduate degree programs, including several interdisciplinary and joint-degree programs.

## 1.0 Overview

### 1.1 Graduate Students.

Over 4,400 graduate students currently study at OSU. Part of OSU's mission as a Land Grant University is to serve the people of the region, the state, the nation, and the world by making a first-class education available to all. In response to the growing diversity and demographic changes in the state and in the nation, OSU is committed to preparing graduates to live and work in a culturally pluralistic world. The Graduate College is proud of the diversity of its graduate student population and of their contributions to both the generation and dissemination of new knowledge through their involvement in the University's research and instructional programs. Numerous multicultural student organizations on campus provide information and support to international and diverse students to assist in the successful completion of their graduate studies.

### 1.2 The Graduate College.

The Graduate College supervises all graduate work offered by OSU, including graduate degree programs at OSU – Stillwater, OSU – Tulsa, the Center for Health Sciences in Tulsa and the Center for Veterinary Health Sciences in Stillwater. Professional degrees are offered through the Center for Veterinary Health Sciences and the Center for Health Sciences in Tulsa. The Graduate College sets standards for admission to graduate standing and recommends to the Board of Regents for degrees those students who have completed work required for graduation.

In addition, the Graduate College offers a number of student services and professional preparation opportunities specifically designed for graduate student success while at OSU as well as after graduation. These activities include graduate teaching assistant orientation programs, three minute oral communication competitions and thesis/dissertation writing workshops.

### 1.3 Graduate College Memberships.

The Graduate College is a member of the Council of Graduate Schools (CGS), the Conference of Southern Graduate Schools (CSGS), and the Midwestern Association of Graduate Schools (MAGS).

### 1.4 Organization of the Graduate College.

Consistent with its objective of maintaining the highest standards in graduate education, the Graduate College administers the policies and procedures specified and established by the Graduate Faculty, Board of Regents for the Oklahoma Agricultural and Mechanical Colleges and the Oklahoma State Regents for Higher Education. The dean of the Graduate College is the senior administrator of the College as well as the dean for graduate students. The Graduate Council is the executive committee of the Graduate Faculty; it is elected by the Graduate Faculty to work with the dean of the Graduate College in the development and administration of applicable policy. The Graduate Council formulates and reviews policies concerning the conduct of graduate study at OSU, and it participates in the periodic review of graduate programs. All proposed policies and requests related to the initiation and development of graduate curricular offerings and programs are referred to the Graduate Council for review, comment, and approval.

### 1.5 Accreditation.

OSU is accredited by the Higher Learning Commission, (HLC) of the North Central Association of Colleges and Schools. (HLC, 30 N. LaSalle Street, Suite 2400, Chicago, IL 60602-2504; ph 1-800-621-7440; [www.hlcommission.org](http://www.hlcommission.org) (<http://www.hlcommission.org>)). Several programs within the disciplinary colleges are also accredited by other agencies; see "Accreditation (p. 10)" in "The University (p. 10)" section of the Catalog.

### 1.6 General Regulation.

Full authority on all academic decisions within the Graduate College rests with the dean of the Graduate College. The Graduate College policies and procedures described in the Catalog are for informational purposes. They are subject to regular review and may be revised at any time by the dean of the Graduate College in consultation with the Graduate Council.

### 1.7 Responsibilities.

All graduate students are expected to read and to comply with the written regulations of their graduate programs and disciplinary college as well as the Graduate College and University. The regulations presented in the Catalog may be supplemented by written departmental or program requirements available at departmental offices and/or websites. Admission to a specific graduate program obligates the student to understand and adhere to the policies of that program.

General regulations in the following sections relate to requirements for admission, enrollment and academic standing. Subsequent sections outline requirements for the following credentials: Graduate Certificate, Master's, Specialist in Education, Doctor of Education, and Doctor of Philosophy degrees. Particular attention should be given to timing and substantive requirements for matriculation, especially admission, the Plan of Study, residency, language proficiency, research, dissertation/thesis/creative component/report, and graduation. The regulations are prescribed by the Graduate Council with the intent of assuring high-quality graduate programs and effective interaction of Graduate Faculty members and graduate students.

## 1.8 Email as Official Correspondence.

OSU uses the institutional O-Key email address as an official means of communication with OSU faculty, staff, administrators, and students. All students have an official OSU email address that is activated when they set up their O-Key account. Students are expected to activate and check their OSU email on a frequent and consistent basis to remain informed of their official University business and are expected to ensure that adequate email space is available to receive messages.

## 1.9 Tuition and Fees.

Refer to the "Tuition, Fees and Cost Estimates (p. 65)" section of the Catalog.

## 1.10 Exception Request.

Any request for a waiver of, exception to, or deviation from, any requirement set forth in the "Graduate College" section of the Catalog must be in the form of a written petition to the dean of the Graduate College. Such petitions should include a supporting letter from the graduate faculty advisor or graduate program coordinator.

# 2.0 Services for Graduate Students

For a complete list of University services, please visit the "Current Student Resources" link on the Graduate College website (<http://gradcollege.okstate.edu>) or the "Student Life" link on the OSU website (<http://go.okstate.edu>).

## 2.1 Graduate and Professional Student Government Association.

The Graduate and Professional Student Government Association (GPSGA) is an official advisory body to the University President and dean of the Graduate College and serves as the representative voice for graduate and professional students at OSU. Its mission is to improve all aspects of post-graduate education and student life at OSU.

The Association provides for representation from each graduate and professional degree program. Representatives are nominated by the graduate programs with membership conferred by the GPSGA president. Each representative is appointed for a term of one year; a representative must be in good academic standing and enrolled in at least two graduate credit hours.

The GPSGA provides funds for graduate and professional student organizations and travel grants to help students defray costs incurred by attending and presenting at professional meetings. For more information consult [gpsga.okstate.edu](http://gpsga.okstate.edu) (<http://gpsga.okstate.edu>).

# 3.0 Funding Your Graduate Education

## 3.1 General Financial Aid.

One of the most common sources of funding for graduate students is graduate assistantships. Graduate teaching and research assistantships (GTAs/GRAs) support OSU's instructional and scholarly activities. Most academic programs routinely evaluate graduate admission applications not only for admission consideration but also for the possibility of assistantship offers. The graduate program will contact newly admitted students to inform them if a funding offer is available. These awards assist students in paying for their graduate education and also offer opportunities to gain valuable skills and experience in their discipline and as a professional.

## 3.2 Federal Financial Aid.

All domestic students who want to qualify for federal financial aid should complete the Free Application for Federal Student Aid (FAFSA). Students are encouraged to complete the FAFSA annually as soon after January 1 as possible to receive aid for the subsequent academic year. The FAFSA is available at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) (<http://www.fafsa.ed.gov>).

## 3.3 OSU Short-Term Emergency Loans.

In addition to potential federal loans that may be awarded based, OSU assists students in need of immediate funds through the Short-Term Emergency Loan Program. This program is designed to help OSU students who are currently enrolled and attending classes to meet educationally-related off-campus unexpected expenses. The program is not designed to pay a debt owed to OSU. Qualified students may borrow up to \$500 less a \$10 service charge one time per semester. Additional information about the Short-Term Emergency Loan Program can be found at <https://financialaid.okstate.edu/aid/loans/stl>.

## 3.4 Graduate Assistantships.

OSU recognizes two types of graduate assistants for students enrolled in master's, specialist and doctoral degree programs. Students in graduate certificates and non-degree seeking students are not eligible for GTA or GRA positions or associated benefits.

A Graduate Teaching Assistant (GTA) must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled, and be under the supervision of an appropriate graduate faculty member. In consultation with the supervisor, the GTA works to gain instructional skills and an increased understanding of the discipline. The GTA is provided a stipend and their primary responsibilities are to support the University's instructional mission. Services provided by a GTA may include: classroom or laboratory teaching; advising and mentoring of students; proctoring examinations; grading papers, homework, and/or projects; accompanying/coaching musical or vocal performances, providing artistic instruction or assisting with preparation and management of materials and programs that are utilized in imparting knowledge or in the instructional process; or providing other general assistance in the instruction process. A GTA may be assigned primary responsibilities in an extension, outreach, or service role for which those responsibilities support the instructional mission of the University. GTAs may not be given duties to support faculty research or those primarily clerical in nature.

A Graduate Research Assistant (GRA) must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled, and be under the supervision of an appropriate graduate faculty member. A GRA is provided a stipend and their primary responsibilities are to provide general support to the University's research mission. These responsibilities may or may not relate directly to the student's thesis or dissertation. Duties of the GRA primarily involve applying and mastering research concepts, practices, or methods of scholarship. Services provided by a GRA may include: assisting faculty members in a research or creative activity; perform degree-related professional or administrative services that supports research, instruction, professional development, or outreach missions of the University; developing and evaluating instructional materials or curricula; or assuming responsibility for designated scholarly endeavors.

"Perform degree-related professional or administrative services" does not include jobs that are outside the student's field of study.

Assistantship inquiries should be addressed to the unit head or graduate program coordinator of the unit/department/school/program in which the appointment is desired. The service expected is governed by the terms of the appointment.

### 3.5 Graduate Assistantship Responsibilities.

An offer of an assistantship is a commitment by a unit/department/school/program to provide financial support to admitted graduate students. Assistantships are an investment made by a unit/department/school/program and are granted primarily to enable the student to pursue an advanced degree and gain valuable experience. Accepting an assistantship brings with it a professional obligation to fulfill all of the responsibilities associated with the assistantship assignment. Included in this professional obligation is the expectation that students who have accepted an assistantship will diligently pursue their degree to completion. In recognition of this commitment and to provide adequate time for students holding assistantships to devote to study, employment as a graduate assistant is limited to a total, from all University sources (including external grants and contracts), of 0.50 FTE (an average of 20 hours per week) in the Fall and Spring semesters, and 0.75 FTE (an average of 30 hours per week) between the end of the Spring semester and the beginning of the Fall semester. Exceptions to this limitation may be requested by the employing unit or graduate program to the dean of the Graduate College.

A student with an 0.50 FTE assistantship is expected to devote, on average, 20 hours per week to their duties as a graduate teaching or research assistant; the remainder of academic effort is devoted to his/her own studies and research. The time devoted to the assistantship may vary from day to day and week to week as long as it does not exceed the average given above.

As part of a graduate student's educational experience, OSU makes a number of GRAs available on a routine basis. Graduate students on a GRA are expected to devote full-time effort to their graduate programs. While the GRA appointment provides a modest stipend for an average of 10 or 20 hours per week for a 0.25 or a 0.50 FTE assignment, respectively, in recognition of contributions to the OSU research enterprise, it does not indicate that no additional time and effort may be required of the graduate student who is actively pursuing a graduate research degree. Depending on the stage of the research project and the graduate student's advancement in the program, the student may be enrolled in research credit hours for academic credit or only enrolled in formal coursework. Irrespective of that enrollment, it is expected that the graduate student is working full-time toward completion of the advanced degree. OSU, like most institutions nationwide, does not define the research credit hour as equating to a specific amount of time and effort, as the nature of research is highly dependent on the individual's progress on the project. For instance, general OSU policy only requires a minimum enrollment in two credit hours when a graduate student is working on a research project and using OSU resources unless they are employed as a GTA/GRA.

In addition, all students holding a graduate assistantship are required to be full-time students - see "Enrollment Requirements" below. For fall and spring semesters, students employed 0.50 FTE must be enrolled in at least six credit hours to be considered full-time, while students employed less than 0.50 FTE must be enrolled in at least nine credit hours to be considered full-time. However, full-time enrollment for students admitted to doctoral candidacy is two credit hours. For the summer term, students employed at any level must be enrolled in at least two credit hours during any summer session to be considered full-time.

International students who are dependent upon an assistantship for their financial guarantee must remember that forfeiture of that assistantship may require the re-submission of a newly revised financial guarantee to the Office of International Students and Scholars. Students who forfeit their graduate assistantships risk rescission of tuition waivers, as well as any health insurance coverage for graduate assistants provided by the University.

Note that all graduate student benefit programs, such as tuition waivers, are only available to individuals with a primary classification as a graduate student enrolled in a degree program, which does not include certificate-seeking or non-degree seeking graduate students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot selectively opt-out of certain benefits to seek eligibility for other benefits. Please contact the Graduate College or Human Resources if you have questions.

### 3.6 Graduate Assistant General Benefits.

Graduate Teaching or Research Assistants employed at least 0.50 FTE in the fall/spring semester (average of 20 hours per week) are enrolled in a minimum of six (or two for doctoral candidates) eligible graduate hours will receive a tuition waiver (hours of enrollment must be required per the graduate degree program). Summer tuition waivers for the same GTA or GRA for spring semester will apply during the summer regardless of summer employment. Tuition waivers cannot be applied to independent study, leveling, undergraduate or outreach type courses. Granting of these tuition waivers is also contingent upon the student submitting an electronic GTA/GRA (GSSI) tuition waiver agreement through the Graduate College website (<http://gradcollege.okstate.edu/FormsPage>), by the first day of the semester, in which they acknowledge their employment, enrollment and good academic standing responsibilities. Once enrolled, good academic standing (i.e., not on academic probation – beyond probationary admission) is a requirement for OSU tuition waiver eligibility. Once matriculated, a graduate student going on probation is not eligible for tuition waiver benefits. This does not preclude a GTA/GRA appointment(s). Graduate programs can request a one-time exception for exceptional circumstances from the graduate dean. For more information regarding tuition waiver benefits or academic standing, please visit the Graduate College website ([gradcollege.okstate.edu](http://gradcollege.okstate.edu)) (<http://gradcollege.okstate.edu>).

Any graduate student employed as a GTA and/or a GRA less than 0.50 FTE total per week will not be eligible for any type of tuition waiver benefit.

#### 3.6.1 Health Insurance Benefits.

Graduate Teaching or Research Assistants employed in a 0.25 FTE GTA/GRA position during the fall or spring semesters and who are enrolled in at least nine graduate credit hours throughout that entire semester are eligible for single-person-coverage health insurance through OSU for the fall (or spring) semester. Note: Spring semester eligibility coverage continues through the following summer regardless of employment or enrollment status.

Graduate Teaching or Research Assistants who are not eligible for health insurance coverage during the summer session by virtue of their eligibility during the previous spring semester but who are employed in a 0.25 FTE GTA/GRA position during the eight-week summer session and enrolled in at least two graduate credit hours are eligible for single-person-coverage health insurance through OSU for the summer term.

The University subsidizes the student's coverage on a semester-by-semester basis. Students receiving the GTA/GRA insurance are required to pay the semester health fee. Coverage is through United Healthcare. Information on the policy is available at <https://www.uhcsr.com/okstate> and OSU Human Resources <http://hr.okstate.edu/student-health-plan>.

Eligible graduate students are automatically enrolled for the insurance coverage if they meet eligibility requirements. If students have other insurance coverage or choose not to be enrolled in the student health plan, they may complete a declination form to opt out. A declination form can be found at the following site <http://hr.okstate.edu/student-health-plan>. The form will need to be submitted to OSU Human Resources, Benefits Office 106J Whitehurst.

### 3.7 Health Insurance for International Students.

The Oklahoma State University Board of Regents requires that all visa-holding (i.e. non-immigrant) students at OSU be covered by health insurance. The OSU Student Insurance Policy is the recommended health insurance and will be billed to all non-immigrant student accounts automatically. Payment for the student insurance is included in the costs listed on the financial affidavit that international students are required to submit to receive a F-1 or J-1 visa.

The insurance premium can be waived for non-immigrant students sponsored by the United States Government, a foreign government recognized by the United States of America, or certain international, government sponsored or non-governmental organizations. Such waivers will be based on the government or organization guaranteeing payment of all health care expenses including evacuation and repatriation.

The insurance premium will also be waived for students who provide documented evidence of health insurance coverage by an employer. Non-immigrant students employed by OSU and eligible for both employer-provided insurance and international student health insurance may select between the two, as long as the insurance selected includes evacuation and repatriation coverage.

Students covered by a private medical insurance plan with benefits comparable to or better than the OSU plan, may request a waiver from OSU's international student health insurance requirement. Coverage must be in effect from the first day of their first semester classes for a 12-month period.

To use alternate insurance, students must complete and submit a waiver request no later than the fifth day of classes. Waiver forms can be found on the International Students and Scholars (ISS) website at <http://iss.okstate.edu>.

If a student holds an appointment as at least a 0.25 FTE OSU GTA or GRA position, OSU provides the student health insurance policy.

### 3.8 McNair Graduate Fellowships for former McNair Scholars.

Entering graduate students who are graduates of a McNair Scholar Program as undergraduates may be eligible to become McNair Graduate Fellows. McNair Graduate Fellows receive a tuition waiver for all degree-eligible courses up to the number of hours in their degree program, irrespective of a qualifying assistantship. Such tuition waivers cannot apply to independent study, leveling, or outreach-type courses. The McNair Graduate Fellow Tuition Waiver Program is competitive and is not guaranteed, irrespective of the application waiver received. Please contact the Graduate College ([gradi@okstate.edu](mailto:gradi@okstate.edu)) for more information as restrictions apply. Also, note that all graduate student

benefit programs, such as the McNair Graduate Fellow Tuition Waiver Program, are only available to individuals with a primary classification as graduate students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot opt-out of certain benefits in an a-la-carte manner to seek eligibility for other benefits. Please contact the Graduate College or Human Resources if you have any additional questions. McNair Graduate Fellows are required to submit the necessary contract to the Graduate College each year and restrictions apply.

### 3.9 City Year National Service Scholars.

Oklahoma State University is proud to partner with City Year through our shared visions and values of integrating the power of knowledge and service in addressing social problems. The OSU Graduate College City Year National Service Scholars Program provides City Year Alumni an application fee waiver and a tuition waiver for all degree-eligible courses up to the number of hours in their degree program; however, acceptance as an OSU Graduate College City Year National Service Scholar is competitive and is not guaranteed. The following are program requirements:

1. Must be completing your year of service or be a senior AmeriCorps member, alumni or staff;
2. Must provide a letter of program completion from your Director of City Year Alumni and Career Services;
3. Only applies to residential graduate programs on Stillwater, Tulsa, or Center for Health Sciences campuses – no distance learning or outreach formats;
4. Graduate certificate programs are not eligible for this or other tuition benefit programs;
5. Cannot be used to earn a second graduate degree;
6. Cannot accept or have access to other tuition waiver programs, including faculty/staff programs;
7. Must participate in OSU City Year National Service Scholars Program activities;
8. OSU City Year National Service Scholars fellowship and subsequent tuition waiver is applicable to one OSU graduate degree;
9. Renewal of the OSU City Year National Service Scholars fellowship is contingent upon satisfactory progress each term;
10. See the OSU City Year National Service Scholars Fellowship Tuition Waiver Agreement for additional provisions.

### 3.10 Spouse Tuition Waivers.

A spouse of a graduate teaching or research assistant who is receiving a tuition waiver that is associated with an eligible assistantship is eligible to apply for a waiver of the non-resident portion of tuition for all graduate level/eligible courses taken. Tuition waivers cannot apply to independent study, leveling or outreach-type courses. Contact the Graduate College for details.

### 3.11 Student Employment.

Career Services provides assistance to OSU students seeking part-time employment or work study programs. Students are informed of job opportunities on campus and in the Stillwater community. Applications are available in room 360 Student Union. Jobs on campus usually offer 12 to 20 hours of work per week in clerical, technical, food service or general labor positions. Rate of pay and work schedules vary.

Individual job search assistance is available with the graduate career consultant in the Student Union Career Services Office or with any of the

college career consultants located in the respective disciplinary colleges. Services include resume and curriculum vitae development, written correspondence assistance, mock interviews and interview preparation, academic and non-academic job search assistance, workshops and career fairs. More information may be found online at HireOSUgrads.com (<http://HireOSUgrads.com>).

## 4.0 Admission to the Graduate College

Holders of baccalaureate or first professional degrees from colleges and universities of recognized standing (including U.S. institutions accredited by agencies recognized by the U.S. Department of Education) are eligible to seek admission to the Graduate College. In some cases the Graduate College, in consultation with the graduate program, may require certain prerequisite courses to bring the applicant's credentials from international institutions to the equivalent of a U.S. bachelor's degree. These "bridge" courses must be completed within a designated period of time and/or prior to enrollment beyond a prescribed number of hours of graduate coursework. Applicants must complete the web-based application and submit official transcripts of all academic work and degrees received including any previous graduate coursework and degrees. No application for admission will be reviewed until the application fee is paid.

The prospective student should obtain transcripts for bachelor's degree(s) conferred or pending as well as for any graduate or professional coursework and upload these transcripts as part of their application (some programs may require applicants to upload transcripts from all institutions previously attended). If an applicant is offered admission to graduate studies, then the applicant will be required to have the institution that granted their bachelor's degree to send one official transcript to the Graduate College, 202 Whitehurst, Stillwater, OK 74078.

To be official, the transcript must be issued from the school and must show the complete scholastic record, bear the official seal of the institution, be signed by the issuing officer, and be in a sealed envelope or electronically delivered directly from the issuing institution.

To assure adequate time for review, completed applications and transcripts should be received at least 60-90 days prior to the graduate program application deadline or the beginning of the semester, whichever comes first. All transcripts become the property of OSU and are not released or returned.

When the applicant's file is complete, the faculty in the graduate program of the student's area of interest reviews the material and recommends an admission status to the dean of the Graduate College. The final decision for admission to the Graduate College is determined by the graduate dean on the basis of the graduate program's recommendations, prior academic performance of the applicant, and availability of space, facilities, and faculty mentors in the program.

### 4.1 OSU Faculty Members.

No member of the faculty, with the rank of associate professor or above or equivalent rank at the time of completing the requirements, may be granted a degree or graduate certificate from this institution. This regulation also applies to faculty members in the schools of engineering holding the rank of assistant professor or above.

### 4.2 Types of Admission.

Admission to a graduate program at OSU is based on an evaluation of an applicant's overall record, experience, personal qualifications, proposed area of study, and fit with the graduate program. For admission without

qualification, a GPA of at least 3.00 on a 4.00 scale or the equivalent is expected in undergraduate coursework or a 3.00 in any graduate or professional coursework already completed. Graduate programs are encouraged to evaluate applications holistically and may petition the Graduate College on behalf of an applicant for an exception to the cumulative GPA requirement. Academic programs may set more stringent admission requirements. Please check with the graduate program to which you are applying in order to determine any program specific requirements.

#### 4.2.1 Admission Without Qualification.

Students planning to work toward a graduate degree in a recognized graduate program may be admitted in good standing provided they meet all Graduate College and graduate program requirements.

#### 4.2.2 Provisional Admission.

A student can be admitted provisionally upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Admission with provisional status is granted to an applicant who does not meet one or more of the graduate program's admission requirements or when the applicant does not have the necessary academic background. In this case, the graduate program requires specific provisions be met for admission in good standing. For example, a graduate program may require additional leveling coursework or higher test scores. The first obligation of a student admitted provisionally is to successfully meet all of the provisions specified at the time of admission. Failure to meet these provisions could result in the dismissal from the program.

#### 4.2.3 Probation Admission.

A student can be admitted with probation status upon recommendation of the graduate program with concurrence by the dean of the Graduate College. Admission with probation status is granted to an applicant who has deficiencies in previous academic coursework. A student admitted on probation status must make at least a 3.00 GPA through the semester in which s/he completes nine hours of courses eligible for graduate credit. Upon successful fulfillment of these requirements the student will be granted good academic standing. Failure to meet the required level of academic performance while in a probationary status may result in dismissal from the Graduate College.

#### 4.2.4 Conditional Admission.

Several graduate programs at OSU will consider an applicant for conditional admission. An applicant can be admitted conditionally upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Conditional admission means that the applicant is academically qualified for admission to the graduate degree program but lacks a minimum TOEFL or IELTS score which satisfies the University's or graduate program's minimum (see "International Student Admission" for minimum requirements). Before the applicant will be allowed to matriculate in the graduate degree program, a sufficient TOEFL or IELTS score must be submitted. Failure to submit a sufficient TOEFL or IELTS score will result in the applicant not being allowed to enroll.

### 4.3 Non-Degree Seeking Student Status.

An applicant may be admitted to the Graduate College as a non-degree seeking student if he or she does not have immediate plans to become a degree candidate, but wants to take graduate courses, prerequisites, or other courses. Admission to the Graduate College as a non-degree seeking student means only that the student will be permitted to enroll in courses through the Graduate College. It does not imply that the student has been or will be admitted to a program leading to an advanced degree or that the student will be able to obtain a graduate degree from OSU.

Non-degree seeking students are not eligible for GTA or GRA positions or associated tuition waiver benefits.

#### 4.3.1 Non-Degree Seeking Student Status Requirements.

Non-degree seeking students are subject to the same admission standards as degree-seeking students, including English language proficiency. Applicants for non-degree seeking student status are not automatically admitted without due deliberation of their past academic performance. A non-degree seeking applicant can be considered for admission "Without Qualification" provided his/her overall GPA is 3.00 or higher for all courses on his/her bachelor's degree transcript and/or transcripts from his/her graduate or professional coursework. An applicant whose GPA does not meet these criteria can be considered for admission after consultation and recommendation of the Graduate College's non-degree seeking student advisor who may consider additional factors in making a decision, such as the following:

- length of time since last attendance at an institution of higher learning,
- a written appeal from the applicant explaining exceptional circumstances that warrant admission, and/or
- a letter of recommendation written by faculty who can speak to the applicant's potential for graduate work.

The prospective student is responsible for filing a new application for admission to the Graduate College should he or she wish to become a degree-seeking candidate. The new application will be evaluated by the graduate program and the dean of the Graduate College to ascertain admissibility to the degree program.

Given that non-degree seeking coursework is not guided by a Plan of Study or approved by an advisor, no more than nine semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study to meet requirements for a graduate degree or graduate certificate program. In addition, only three semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study toward an MBA degree. Non-degree seeking students may not enroll in more than nine hours of courses eligible for graduate credit without permission of the dean of the Graduate College, or their designee. To ensure that non-degree seeking students do not inadvertently exceed this limitation, an enrollment hold will be placed on each student in this status after the student has registered for six or more credit hours. This hold may be removed by the Graduate College (see below) once the student has formally re-acknowledged this nine-hour limitation.

Non-degree seeking students are subject to the same academic regulations as those graduate students admitted into degree programs. Such students are strongly encouraged to consult with the instructor of any course in which they intend to enroll in order to ensure that they are adequately prepared for that course.

Non-degree seeking students may not enroll in thesis (5000) or dissertation (6000) courses.

Generally, International students with an F-1 visa, except students on Optional Practical training (OPT) or Curricular Practical training (CPT), may not be admitted or enroll as non-degree seeking students.

Academic advising for non-degree seeking student is provided by an advisor in the Graduate College. Students should contact the Graduate College at 405-744-6368 or [gradi@okstate.edu](mailto:gradi@okstate.edu) for details.

## 4.4 International Student Admission.

International applicants are expected to submit applications, financial affidavits, transcripts and/or mark sheets, and, if required, official scores of the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) examinations. Applicants who present a TOEFL score of at least 79 iBT/550 PBT or an IELTS academic stream score of at least 6.5 satisfy the Graduate College's English proficiency requirements for admission to a graduate program. Note that some graduate programs require a TOEFL score above these levels, and applicants should contact the program for specific TOEFL or IELTS requirements. Completed applications are due no later than February 1 for fall enrollment and August 1 for spring enrollment. Applications that become complete after these deadline dates may be reviewed, but the Graduate College cannot guarantee an admissions decision will be made with sufficient time for the issuance of the I-20 form required to obtain an entry visa.

### 4.4.1 English Proficiency.

As a condition of admission to graduate study at OSU, all persons for whom English is a second language are required to present proof of English competency regardless of the number of semesters or terms completed at OSU or in other institutions of higher education. A waiver of this requirement can be obtained for students who have completed a baccalaureate or graduate degree from an accredited institution of higher learning, at which English is the primary language of instruction, located in a country in which English is a recognized primary language. Note, however, that proof of specific English proficiency through the submission of test scores, such as the Internet Based TOEFL (iBT) scores, or additional testing may be still necessary if employment as a graduate teaching assistant is desired. Graduate programs may have additional requirements.

Proof of English competency can be in the form of an official TOEFL or IELTS, (academic stream), score. Either examination must have been taken within the last two years. Applicants who present evidence of undue hardship or other extremely extenuating circumstances may be admitted without a TOEFL or IELTS score. However, such students will be required to take the Test of English Language Proficiency (TELP) immediately upon arrival at OSU, and to comply with the provisions associated with that test.

Applicants who present a TOEFL score of at least 61 iBT/500 PBT, but less than 79 iBT/550 PBT (or an IELTS academic stream score of 6.0) and who demonstrate unusual academic promise may be admitted to graduate study on conditional status upon petition to the Graduate College by the graduate program.

Applicants with a TOEFL score of at least 61 iBT/500 PBT, but less than 79 iBT/550 PBT (or an IELTS academic stream score of 6.0), must successfully complete a minimum of 12 weeks of study at an intensive English program (IEP) approved by the Oklahoma State Regents for Higher Education State Regents. At least two-thirds (eight weeks) of the 12 weeks must be instruction at an advanced level. A list of State Regents' approved IEPs can be found in the OSRHE Academic Affairs Procedures Handbook. The OSU intensive English program, known as the English Language Institute (ELI), is a state-approved IEP. More information on the OSU ELI program can be found here <https://eli.okstate.edu/>.

Applicants, who do not submit a TOEFL/IELTS score, can seek admission to the OSU English Language Institute (ELI) in their first semester. These students will be issued an I-20 by ELI. After achieving the required score (500) and immediately prior to admission, the applicant must

successfully complete a minimum of 12 weeks of study at an intensive English program (IEP) approved by the State Regents as described above. Upon successful completion of the ELI program students will be issued an I-20 by the Office of International Students and Scholars and will be admitted into their graduate degree program. Such students will be required to take the institutional TELP (see below) at the first opportunity thereafter and to comply with its provisions. Students must continue to enroll in ELI until their successful completion. Concurrent enrollment in graduate courses and ELI is not permitted.

Students who submit TOEFL scores from the iBT for reading, listening and writing shall also be evaluated to determine if additional coursework is needed.

Students who submit TOEFL scores and who score at least 42 on the combined reading and listening portions, with a score of at least 20 in each section, are not required to enroll in any English language proficiency courses. Students who score less than this on the reading and listening portions of the iBT (irrespective of the score on the written portion) are required to enroll in ENGL 0003 Academic English for Graduate Students during their first semester. ENGL 0003 Academic English for Graduate Students carries a grade of S/U and may not be used toward minimum degree requirements. Students must enroll in ENGL 0003 Academic English for Graduate Students each semester until a grade of S is earned. Students who complete ENGL 0003 Academic English for Graduate Students and who have a score less than 22 on the writing portion of the iBT are also encouraged to enroll in ENGL 4893 Research Writing for International Graduate Students<sup>1</sup>.

Students who score at or above the minimum score(s) on the reading and listening portion of the TOEFL, but less than 22 on the writing portion, are required to enroll in ENGL 4893 Research Writing for International Graduate Students at some point in their studies. ENGL 4893 Research Writing for International Graduate Students carries graduate credit and may be used toward minimum degree requirements; a grade of B or better in this course is required.

In situations when the student is required to take ENGL 0003 Academic English for Graduate Students or ENGL 4893 Research Writing for International Graduate Students, the appropriate course must be listed on the student's Plan of Study and becomes part of degree completion requirements.

#### 4.4.2 Test of English Language Proficiency.

Students for whom English is not their native language and who submit a PBT (paper-based test) version of the TOEFL, or who take the IELTS, must take the Test of English Language Proficiency (TELP) upon arrival at OSU and comply with the provisions associated with that test. The TELP is administered on the Stillwater and Tulsa campuses before each regular semester through University Testing and Assessment. A waiver of the TELP requirement will be granted to a student who has achieved the following:

- a score of 600 PBT or higher and a score of 5.0 or higher on the Test of Written English (TWE) or Essay; or
- an IELTS, (academic stream), overall band score of 6.5 or higher on each of the band scores for Listening, Reading and Writing.

A score of 70 on both portions of the TELP is considered passing. Students who score less than 70 on the Listening/Dictation portion of the TELP (irrespective of the score on the writing portion) are required to enroll in ENGL 0003 Academic English for Graduate Students during their first semester. ENGL 0003 Academic English for Graduate Students

carries a grade of S/U and may not be used toward minimum degree requirements. Students must enroll in ENGL 0003 Academic English for Graduate Students each semester until a grade of S is earned.

Students who score at least 70 on the Listening/Dictation portion of the TELP, but less than 70 on the Writing portion are required to enroll in ENGL 4893 Research Writing for International Graduate Students<sup>1</sup> at some point in their studies. ENGL 4893 Research Writing for International Graduate Students<sup>1</sup> carries graduate credit and may be used toward minimum degree requirements; a grade of "B" or better in this course is required. In situations when the student is required to take ENGL 0003 Academic English for Graduate Students or ENGL 4893 Research Writing for International Graduate Students<sup>1</sup>, the appropriate course must be listed on the student's Plan of Study and becomes part of degree completion requirements.

#### 4.4.3 Spoken English Proficiency for Employment.

OSU policy requires all persons for whom English is a second language to demonstrate an acceptable level of spoken English before being employed in an instructionally related capacity, including laboratory assignments. Graduate students who serve only as laboratory assistants (e.g., setting up and/or maintaining equipment) are not required to comply with these provisions. See <http://gradcollege.okstate.edu/ita> for specific policy requirements for the International Teaching Assistant Program. Any new international teaching assistant (ITA) is required to have a qualifying score of 26 or greater on the speaking portion of the iBT or to take the ITA test prior to being approved for instructional assignments. All new ITAs are also required to participate in the international teaching assistant orientation. See <http://gradcollege.okstate.edu/ita> for specific policy requirements.

## 5.0 Transfer of Graduate Credits

Transfer credit must be recommended by the graduate student's advisory committee through the submission of a Plan of Study that is approved by the dean of the Graduate College.

Transfer credit will only be considered if it was earned when the student was post-baccalaureate (i.e., after earning a bachelor's degree) at an accredited institution and the applicable course(s) was/were certified as graduate credit by that institution. All courses used as transfer credit must have a grade of "B" or better.

Transfer of credits from medical professional programs (e.g., DO, DVM and MD) to the Graduate College may also be considered when a student was admitted to a medical professional program at another accredited institution and the applicable courses were certified for enrollment restricted to professional-level study. All courses used as transfer credit must have a grade of "B" or better or a grade of "pass" for those institutions which only offer professional courses as a "pass/no pass" grading system.

Up to three hours of transfer credit may be used toward an OSU graduate certificate and up to nine credit hours of transfer credit may be used toward any OSU graduate degree. A doctoral student may transfer more than nine hours if the courses in question were housed in a department or program that offers an EdD or PhD (or equivalent) degree. Doctoral students must include a minimum of 30 hours of OSU credit on their Plan of Study.

## 6.0 Enrollment Policies

### 6.1 Initial and Continuous Enrollment Policy.

A prospective student must enroll for courses at OSU within the time specified in his or her admission letter to retain active status. A prospective student who does not conform to these conditions must reapply for admission.

Any student who interrupts enrollment for one year (i.e., a consecutive period of one fall semester plus one spring semester plus one summer term) must re-apply for admission, and will be subject to the regulations in effect at the time of reapplication. See section 6.6 below for additional doctoral candidacy enrollment requirements.

### 6.2 Full-Time Enrollment.

To be considered enrolled full time, a graduate student must be enrolled in at least nine hours in either fall or spring semester and at least four hours during the summer sessions. Full-time enrollment for Graduate Teaching/Research Associate/Assistants (GTAs/GRAs) with a 0.50 FTE appointment is at least six hours in either fall or spring semester and at least two hours during a summer session.

### 6.3 Minimum and Maximum Enrollment.

Students are required to be enrolled in at least two credit hours in each semester in which they are using physical or faculty resources of the University. Students holding graduate assistantships should note that additional requirements apply (see below). Regardless of the number of hours taken, a student may not enroll in more than 12 (16 for the Spears School of Business graduate programs) credit hours in the fall or spring semester without permission of the dean of the Graduate College. During the summer session, a student may not enroll in more than nine credit hours taken in any session during the eight-week summer period. No more than three credit hours can be taken during the first summer session (intersession). Summer intersession is defined as any course that begins after the end of the spring semester and ends prior to the beginning of the eight-week summer session. For any short course session less than eight weeks in length, enrollment shall not exceed one credit hour for each week.

International students on F-1 or J-1 visas must maintain full-time status (as defined above) during the first semester of enrollment, and during each fall and spring semester thereafter.

### 6.4 Graduating Semester Enrollment.

Each degree-seeking graduate student must be enrolled in at least two hours of courses eligible for graduate credit during their graduating semester (defined as the semester in which they satisfactorily complete all degree requirements). However, a student would not need to be enrolled during their graduating semester if they meet the following conditions:

1. has been assigned an "Incomplete" (grade of I) in a non-research or creative component course;
2. the course is required for graduation; and,
3. the course in which the incomplete was received is the only graduation requirement left to fulfill.

Students must enroll in research, thesis, or dissertation hours, as appropriate, during each semester in which they are involved in research leading to a thesis or dissertation, irrespective of the number of credit hours of such courses either required or permitted for the degree.

### 6.5 Master's Degree Enrollment Requirements.

Students with a fall (spring/summer) graduating semester who have research courses (i.e., courses numbered 5000) on their approved Plan of Study must satisfactorily complete no fewer than six hours of courses eligible for graduate credit during the calendar (academic) year which includes the graduating semester. As an example, a student wishing to graduate in a fall semester must be enrolled in a total of at least six hours for that fall semester plus the preceding spring semester and summer session. Doctoral students meet this requirement by virtue of the Doctoral Candidacy Enrollment Requirements noted below.

### 6.6 Doctoral Candidacy Enrollment Requirements.

Doctoral students who have completed the requirements for admission to doctoral candidacy and had their "Admission to Doctoral Candidacy" form approved by the dean of the Graduate College may enroll for a minimum of at least two credit hours during any term and be considered full-time. This post-candidacy reduced enrollment option applies to all qualified graduate students, including GTAs, GRAs, international students and veterans receiving VA benefits. A student is normally expected to enroll primarily in research hours or in program-approved courses after being admitted to doctoral candidacy.

Continuous enrollment post-candidacy is required of all students. Enrollment of a minimum of at least two credits per semester is required for every semester of a student's candidacy (summer session excluded) until graduation. It is ultimately the responsibility of each student to ensure that they meet this enrollment requirement. Students who are not able to maintain active status are strongly encouraged to consult with their program, advisor and the Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action.

#### 6.6.1 Reinstatement Fee.

Post-candidacy students who do not maintain continuous enrollment will be assessed a reinstatement fee based upon their residency status at the time of last enrollment as follows:

- Resident: \$750/semester (summer session excluded) of non-enrollment
- Nonresident: \$1,900/semester (summer session excluded) of non-enrollment

In addition to the reinstatement fee, students whose continuous enrollment disruption exceeds one academic year also must apply for readmission to the graduate program (see Enrollment).

During the readmission process, previous coursework will be evaluated for applicability in accordance with coursework (10 years) and time-to-degree (9 years) time limits (see Time to Degree Requirements).

Notification of the conditions of readmission and reinstatement will be provided if an acceptance occurs. New program requirements may apply based on the aforementioned enrollment policy. Please note that reinstatement and readmission are not guaranteed and significant challenges may occur that hinder a student's ability to complete a degree after a lapse in enrollment, such as the reapplication process (e.g., new letters of recommendation and unexpired standardized test scores); availability of the same graduate advisor, project and/or grant support; and new/revised program requirements and/or core courses for degree.

### 6.7 Enrollment and Financial Assistance.

For the purpose of receiving monetary assistance through the Office of Scholarships and Financial Aid, the amount of the award is related to the

total number of enrolled credit hours that apply toward the degree (for graduate students, such courses must be offered for graduate credit), including 3000\*, 4000\* (G sections only), 5000 and 6000 level courses. OSU graduate certificate and master's, specialist and, doctoral degree programs are federal aid-eligible programs, depending on a person's personal circumstances.

In general, a graduate student must be enrolled in four hours of courses eligible for graduate credit each fall and spring semester, and two hours of courses eligible for graduate credit in the summer term, to be eligible for federal financial aid. Some students may be required to enroll in more hours in the fall or spring or summer to receive the full amount of federal financial aid. Students should verify with their financial aid advisor in the OSU Office of Scholarship and Financial Aid about the number of hours they are required to take. Certifiable enrollment status, based upon a combination of enrollment and employment, only assists with the deferral of loan repayments, never qualification for aid, which is based solely on enrollment.

### **6.8 Enrollment as a Non-Degree Seeking or Degree-Seeking Graduate Student.**

Students with a bachelor's degree are expected to enroll in the Graduate College unless they want to obtain another bachelor's degree. If they enroll as an undergraduate student, the courses taken cannot be given graduate credit at a later date.

### **6.9 Graduate Student Enrollment in Undergraduate Courses.**

Students admitted to the Graduate College may enroll in, or audit, undergraduate courses or course sections that do not carry graduate credit if approved to do so by their graduate faculty advisor. Such courses cannot subsequently be used as part of a graduate Plan of Study and are not generally covered by graduate tuition waiver programs. Some 3000 and 4000-level courses are approved for both undergraduate and graduate credit; these courses are identified in the Course Catalog and are generally offered in separate undergraduate and graduate sections. Enrollment in such a course by a graduate student will normally be in the graduate section; additional assignments at an intellectual level commensurate with that of graduate work when compared to that required for undergraduate credit, is required to earn graduate credit. Some graduate students may, however, wish to enroll in the undergraduate sections for undergraduate credit only (e.g., to complete additional courses specified in the graduate admission provisions). They may do so by completing the "Graduate Students Seeking Undergraduate Credit for 3000/4000 Courses" form and submitting it to the Office of the Registrar by the end of the second week of the regular semester, or by the end of the first week of the summer session, in which the 3000\*/4000\* course is taken. Submission of this form implies that the student wishes to be graded using the same criteria and course completion requirements used for undergraduates in the course. Such courses may not subsequently be used as part of a graduate Plan of Study and are not generally covered by graduate tuition waiver programs.

### **6.10 Undergraduate Student Enrollment in Graduate Courses.**

An OSU undergraduate senior may take a limited number of courses for graduate credit toward an OSU degree program. The credits may not be utilized for both a baccalaureate degree and a graduate degree. The courses in question must be approved for graduate credit (denoted in the Course Catalog), and the student must enroll in the graduate section (if enrolling in a 3000 and 4000 level course). The applicability of such

graduate courses to a specific graduate program will be determined by the student's graduate advisory committee when the student enrolls in the Graduate College and submits a Plan of Study for an advanced degree.

To receive graduate credit, a Graduate Credit for Seniors form must be completed by the student to receive graduate credit for courses taken. This form must be submitted prior to the end of the second week of class instruction of a regular semester, or the first week of a regular summer session. The required form is available on the Graduate College's website or in the Graduate College.

Such credit may be earned only if the following conditions are satisfied at the time of application:

1. Students must have a minimum overall (cumulative graduation/retention) undergraduate GPA of 3.00.
2. The total semester enrollment must not exceed 18 credit hours for a regular semester or nine credit hours for a summer session.
3. The student must be within 12 semester credit hours of completing requirements for the baccalaureate degree at the beginning of the semester or summer session in which courses are taken for graduate credit.
4. Admission to courses taken for graduate credit must have approval of the course instructor, the dean of the disciplinary college associated with the student's major, and the dean of the Graduate College.

No more than 15 semester credit hours taken while a senior may be approved for graduate credit. The student must earn a grade of "B" or higher in those courses for which he or she seeks graduate credit. Students are cautioned that institutions other than OSU may or may not allow courses taken for graduate credit during the senior year to be transferred into one of their graduate degree programs.

## **7.0 Time to Degree**

Graduate College matriculation starts when a student first enrolls as an admitted, degree-seeking graduate student. This date will be used in calculating time limits for degree completion.

Students are expected to complete the requirements for a graduate certificate, master's, or specialist degree within seven years from first enrollment after admission to the graduate program. Students are expected to complete the requirements for a doctoral degree within nine years from first enrollment after admission to the graduate program. After that time a student must submit a written petition to the Graduate College requesting an extension of time-to-degree limits. Credit for all courses on a graduate Plan of Study must have been awarded within ten years of completion of all degree requirements. Any exception to these time limits must be approved by the dean of the Graduate College.

### **7.1 Leave of Absence.**

OSU graduate students are expected to maintain active status through continuous enrollment from the time they matriculate until they graduate. Students who are not able to maintain active status are strongly encouraged to consult with their program, advisor, and Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action. International students must consult with the International Students and Scholars (ISS) office to ensure compliance with Federal immigration policy. Example situations that may lead a student to explore a Leave of Absence request are medical, personal, employment, and military service. Students who do not have an approved leave of absence and are not continuously enrolled may experience

negative consequences related to academic, visa, financial aid, and other student issues – see University policies and guidelines for additional information. A student status of “good standing” (academic and conduct) is generally required for a leave of absence. Please see <http://gradcollege.okstate.edu/leave-of-absence-policy> for additional Leave of Absence information.

## 8.0 Enrollment Procedure

Students are strongly encouraged to review the course offerings for the upcoming semester prior to attempting to enroll. For more information about enrollment and classes go to <http://my.okstate.edu>.

First semester graduate students must first obtain their advisor's clearance prior to attempting to enroll.

Non-degree seeking students may be granted enrollment clearance through the Graduate College. Non-degree seeking students will be provided assistance with selecting coursework, issues surrounding the transferability of special student credits, applying to degree-seeking programs, and other academic topics.

If the student has not completed a Plan of Study or if this is the first semester as a graduate student, the student should consult with the graduate faculty advisor. The graduate faculty advisor can provide information about required courses, course sequencing, and other information in order to select appropriate courses. The advisor should give approval for course selections prior to enrollment. All graduate students must complete Responsible Conduct of Research (RCR) requirements prior to the submission of a Plan of Study. A student should consult with his or her graduate coordinator as to what these requirements are in his or her graduate program. A Plan of Study will not be approved by the Graduate College until the program has certified RCR completion.

If a Plan of Study has been completed, the student should verify that all planned courses are listed on the Plan of Study. Students should consult with their advisor any time they deviate from courses listed on the Plan of Study. The ultimate responsibility for completing degree requirements rests with the student.

Students who have active academic, financial or advising holds must clear these holds prior to attempting to enroll. Students can view any holds by logging into the Self Service portal at <http://my.okstate.edu>.

### 8.1 Last Day to Enroll.

Information regarding dates to enroll, when courses begin, and last days to drop are listed in the Class Schedule available at the Office of the Registrar's website at <http://registrar.okstate.edu>.

Generally, the sixth class day of a regular semester or the third class day of the eight-week summer session is the last day a course may be added (nonrestrictive) via the student enrollment system. A short course may be added no later than the first day of the short course.

### 8.2 Late Enrollment.

Graduate students should enroll prior to the end of the official enrollment deadline for the semester. If they do not, there are limited options to enroll in classes. The options available to the student depend on the number of weeks past the deadline and the student's current enrollment status.

During the second week of fall/spring or first week of the eight-week summer session:

- If a student wishes to add course hours or is not currently enrolled, they must submit a drop/add card or Trial Study signed by their advisor giving permission to enroll.
- If the student is adding a course they must have the instructor's signature on the add/drop card or Trial Study.
- If a student is non-degree seeking, they must have the signature of the dean of the Graduate College and the instructor of the course in which they wish to enroll.

After the second week of fall/spring or first week of the eight-week summer session graduate students may add any course which has not started.

### 8.3 Other Enrollment.

In order to enroll in a given semester, a student must have received grades for at least six semester credit hours (including "I" and "R" and excluding "W") in the 12 months prior to the beginning of that semester.

## 9.0 Courses Offered Through Outreach

Courses offered through Outreach are considered equivalent to courses offered through traditional formats. Any student wishing to enroll in a graduate credit course offered through outreach must make application for admission to the Graduate College at OSU.

## 10.0 Correspondence credit

OSU does not offer graduate-level courses by correspondence and does not accept credit taken by correspondence toward an advanced degree. Graduate students may enroll in correspondence courses; however, such courses will not be considered as part of minimum graduate degree or certificate requirements. Tuition waiver programs are not applicable to courses taken through correspondence study. Courses taken through correspondence do not count toward minimum enrollment requirements for any graduate student.

## 11.0 Academic Regulations

Refer also to "University Academic Regulations (p. 781)" section in the Catalog.

### 11.1 Graduate Credit Courses.

Courses numbered 5000 and above are for graduate students. Seniors who have obtained prior approval from the Graduate College may enroll in graduate level courses in accordance with the provisions of "Enrollment" stated earlier.

Courses numbered 3000 and 4000 that are identified by an asterisk in the "Course Descriptions" of the Catalog can be taken by graduate students and may be used to meet requirements for a graduate degree on the Plan of Study if approved by the student's advisory committee and the dean of the Graduate College. In order to receive graduate credit, students must enroll in the G section of the course. Graduate students enrolled in these courses will be considered as taking the courses for graduate credit (unless they pre-declare the course as taken for undergraduate credit; forms are available in the Graduate College) and will be expected to complete additional assignments at an intellectual level commensurate with graduate level work as proposed by the instructor. Courses that are not identified by an asterisk may not be used to fulfill requirements for a graduate degree.

## 11.2 Grades for Thesis (5000) and Dissertation (6000).

The grade of "SR," indicating satisfactory research progress, or "UR," indicating unsatisfactory progress, or "IUR," indicating an incomplete (see section 6.2 "Grade Interpretation" in the "University Academic Regulations" chapter of the Catalog) will be assigned to thesis (5000) and dissertation (6000) courses at the end of the semester in which the course is taken. These grades are permanent and have no impact on a student's grade point average, but affect the graduate student's academic standing. Only courses in which a grade of "SR" (or a previously-awarded grade of "R," "A," "B," or "C") is earned may be used toward minimum degree requirements.

## 11.3 Grades for Creative Component Courses.

The "R" grade can be assigned in a course identified as a creative component portion of a master's degree by a graduate program. The grade of "R" may be assigned if more than one semester is required to complete the creative component. Upon completion of the creative component, the advisor submits a Change of Grade form to have the final grade entered.

## 11.4 Pass-No Pass Grading System.

Graduate students may take a course utilizing the Pass-No Pass grading system with the consent of their faculty advisors, but courses taken under this system cannot be used on a Plan of Study to meet graduate degree requirements. A student who chooses the pass-no pass option must do so by the last date on which a course may be added. See section 6.6 "Grades and Grading" in the "University Academic Regulations (p. 781)" chapter of the Catalog.

## 11.5 Pass-Fail Grading System.

Graduate students may take courses utilizing the Pass-Fail grading system with the consent of their faculty advisors; however, only a limited number of these hours can be used on a Plan of Study to meet graduate degree requirements and these require advance permission of the dean of the Graduate College. Pass-Fail courses are typically internship, practicum, seminar, special problems and student teaching. See section 6.7 "Grades and Grading" in the "University Academic Regulations (p. 781)" chapter of the Catalog.

## 11.6 Minimum Grade Requirements.

A grade-point average of "B" (3.00) is required to maintain good standing as a graduate student and meet requirements for a degree. No course with a grade of "D" or "F" can be used on the Plan of Study to satisfy the degree course requirements. At the graduate level, a grade of a "D" or "F" is a failing grade that can result in dismissal by the dean of the Graduate College, regardless of academic standing. In determining whether a student has met minimum requirements for a degree, grades for courses on the Plan of Study are averaged separately from courses not on the Plan of Study. In order to continue enrollment in the Graduate College, a graduate student is expected to maintain a minimum graduate GPA of at least 3.00. In order to receive a degree, a student must have a minimum 3.00 GPA in the coursework listed on the Plan of Study.

No course with a grade below "C" can be used as part of the minimum number of semester credit hours required for the graduate degree.

Some programs have more stringent requirements. The graduate program should be consulted concerning minimum grade requirements.

## 11.7 Annual Review of Student Progress.

The graduate program in which a student is seeking a graduate degree will provide a mechanism for assessing the student's progress towards degree completion at least once annually. If the student is assessed not to be making adequate progress, then a specific plan to address and correct any inadequacies in progress will be prepared in a written document provided to the student and the dean of the Graduate College annually by June 30. Failure to correct these inadequacies may result in termination from the graduate program and/or Graduate College.

## 11.8 Academic Progress.

Each semester, the dean of the Graduate College reviews the academic progress of any graduate student who receives a grade of "C" or lower in a class or "UR" in research. Programs are notified which of their students have received a "C" or lower and of the dean of the Graduate College's academic progress decision. At the discretion of the dean of the Graduate College, one of four actions based on the student's current semester performance and past academic history will be taken as follows:

1. Program Notice. The graduate program is notified and is encouraged to review the student's performance to determine if any program intervention is needed.
2. Academic Probation. If a student's overall GPA drops below a 3.00, if a "UR" grade is earned, or if the dean of the Graduate College judges the student's overall academic performance so warrants then s/he is subject to being placed on academic probation. At the discretion of the dean of the Graduate College, probation may be removed at the end of the semester only after the student brings his or her cumulative GPA for courses eligible for graduate credit taken at OSU to 3.0 or greater, earns a SR grade, and/or completes all degree requirements, whichever comes first.
3. No Further Enrollment Without Program Consent (NFEWPC).
  - a. If the student was admitted on academic probation and did not meet the requirements of this admission, or
  - b. If they have received two consecutive grades of "UR", or
  - c. If the student was on academic probation the previous semester, or
  - d. If the dean of the Graduate College believes the student's overall academic performance warrants program intervention, then the student is not permitted to enroll further without the consent of the program. To continue in the program, the student must submit a written petition to the dean of the Graduate College requesting reinstatement and outlining a plan to remedy the academic situation. This petition must be accompanied by a letter of support from the unit head or graduate program coordinator. Failure to submit such a reinstatement petition could result in the canceling of any pre-enrollment for the upcoming semester.
4. No Further Enrollment (NFE). The student has consistently performed below the acceptable standards for graduate students. The student is not permitted to continue graduate study at OSU.

## 11.9 Course Grade Appeals.

A student may appeal a grade given by an instructor in a case in which he or she believes the grade awarded is inconsistent with the announced grading policy. The student should consult the "Student Rights and Responsibilities" or contact the Office of Academic Affairs for information regarding initiating the appeals process.

### 11.10 Appeals of Research Grades and Non-grade Issues.

A student wishing to appeal a “UR” grade issued for a research course (5000 or 6000), or an academic issue not involving a grade should contact the dean of the Graduate College about the appeals process available to graduate students (<http://gradcollege.okstate.edu/content/appeals-policy>).

### 11.11 Advisory Committee Decisions-Criteria for Passing.

In decisions resulting from a vote of a graduate student advisory committee (e.g., PhD candidacy exam, final thesis defense, or approving a dissertation), a pass requires that the thesis/dissertation advisor vote in the affirmative and that no more than one member of the committee dissent. Graduate programs may impose more stringent requirements.

### 11.12 Discontinuance from a Program.

In instances when a student reaches a situation when it is no longer possible to complete the intended degree (e.g., failure of all permitted attempts of the PhD qualifying exam, comprehensive exam or candidacy exam), and is still in good academic standing with the Graduate College, a domestic student may be considered for transfer to non-degree seeking student status and be subject to all non-degree seeking student rules (including maximum number of hours that can later be used toward a graduate degree or certificate program). If visa restrictions prohibit the student’s matriculation as a non-degree seeking student, the Graduate College will inform the Office of International Students and Scholars of the student’s impending dismissal from the program; the student will have until the end of the semester to be admitted into another graduate program. This change in status is initiated with a letter from the unit head or graduate program coordinator to the student, copied to the dean of the Graduate College, and should detail the reasons for the student’s potential dismissal from the program. In accordance with graduate program policies, students have a limited number of days from the intent to dismiss letter date to initiate the appeals process in the program. Graduate students should contact the dean of the Graduate College about the appeals process (<http://gradcollege.okstate.edu/content/appeals-policy>).

### 11.13 Second Graduate Degrees.

The Oklahoma State Regents for Higher Education do not allow students to obtain a second degree in the same “major” as the first degree, even if the options are different. For example, it is not possible to earn both an MS degree in Physics with an option in Medical Physics and an MS degree in Physics with an option in Optics and Photonics. Completion of requirements for more than one option may be noted on the official transcript, but a second degree will not be awarded. Additionally, because of the OSRHE requirement for a coursework common core within a master’s degree options, it should not be assumed that obtaining an additional option within the same degree program and level will be possible. Careful discussions and planning with the Graduate Program Coordinator prior to admission is imperative, if such study is desired.

## 12.0 Responsible Conduct of Research

All graduate students must complete Responsible Conduct of Research (RCR) training requirements prior to the submission of a Plan of Study. Students should consult with their graduate coordinators as to what these requirements are in their graduate programs. Graduate programs may impose more stringent requirements. A Plan of Study will not be approved by the dean of the Graduate College until the graduate program

has certified RCR completion. Information and University policies regarding RCR can be found at <http://compliance.okstate.edu/rcr/rcr-index>.

### 12.1 Research Involving Human Subjects.

If the thesis, dissertation, formal report or creative component involves the use of human subjects, the research project is governed by federal regulations that require review by the OSU Institutional Review Board (IRB). Approval to conduct the research must be obtained from the IRB before the research is started.

Failure to obtain IRB approval will result in the University’s rejection of the thesis, dissertation, or formal report. While the Graduate College does not monitor the process resulting in a creative component, this does not negate the student’s responsibility to obtain IRB approval if human subjects are involved in that creative activity.

This section is meant to be informational only and does not contain a complete description of the IRB review process. All of the forms and guidance for completing the application are available on the IRB Internet site <http://irb.okstate.edu/forms>.

## 13.0 Graduation Clearance Process

At the time of enrollment for the last semester or summer session of work toward a degree, graduate students must complete and submit a Graduation Clearance form to the Graduate College before they can submit an Application for Diploma with the Office of the Registrar. The Graduation Clearance form is completed in conjunction with the academic advisor and confirms that a student has met or will meet by the end of the semester in question, all program and Graduate College requirements to earn the degree s/he is seeking. If these requirements are not met, the student must complete a new Graduation Clearance Form and Application for Diploma for a future semester. In order to allow opportunity for any class schedule changes necessitated by the review of the Graduation Clearance Form, this form and the Application for Diploma, should be submitted as early as possible in the graduating semester but no later than the deadlines listed on the Graduate College website.

### 13.1 Graduate Commencement and Diplomas.

The University holds one Graduate Commencement Ceremony at the close of the fall and spring semesters. Students who plan to meet graduation requirements at the close of the summer session are invited and encouraged to participate in the Graduate Commencement Ceremony at the close of the previous spring semester. Although attendance is not compulsory, the University encourages all candidates for advanced degrees to participate in the Graduate Commencement Ceremony. Candidates should also notify the Office of the Registrar of the address to which the diploma should be mailed.

### 13.2 Records and Transcripts.

All permanent records are stored in the Office of the Registrar. Requests for grades, transcripts, diplomas, and degree-completion letters should be made to that office.

A graduate student who does not complete the requirements in time to receive the degree at the end of the semester may secure a statement from the Office of the Registrar when all requirements for the degree have been satisfied. Such a statement will not be issued until all grades for the semester have been recorded.

## 14.0 Graduate Programs Offered At OSU-Tulsa, Greenwood Campus

OSU offers several graduate degrees and courses in Tulsa. All courses offered by OSU-Tulsa are considered resident credit for degrees granted by OSU. Both current and prospective graduate students are encouraged to utilize the OSU-Tulsa Graduate Student Services Center (GSSC), located in Main Hall 1101. To schedule an appointment with a GSSC representative or to learn more about a graduate program in Tulsa, call 918-594-8445 or email [osutgssc@okstate.edu](mailto:osutgssc@okstate.edu). The graduate degree, graduate certificate and certification programs that OSU offers in Tulsa can be found at <http://www.osu-tulsa.okstate.edu>.

## 15.0 Graduate Programs Offered at the OSU Center for Health Sciences in Tulsa

OSU offers specialized graduate programs in athletic training (MAT), biomedical sciences (MS, PhD, and a dual degree tract DO/PhD) forensic sciences (MSFS), and health care administration (MS) through the OSU Center for Health Sciences (CHS).

### 15.1 Athletic Training.

The Master of Athletic Training (MAT) graduate program in the School of Allied Health at OSU Center for Health Sciences prepares individuals to become competent and independent clinicians who will enhance the quality of patient health care and advance the profession of athletic training through practice and research. The MAT program is currently accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Once accepted into the program, students supervised by a Board of Certification (BOC) Certified Athletic Trainer (AT) or other healthcare provider where they are responsible to provide for the overall health care of patients over the course of their respective seasons or occupation. Clinical instruction of students is achieved through direct supervision of a licensed healthcare provider.

The curriculum is based in the human sciences with anatomy, physiology, biomechanics, pathology, pharmacology, nutrition and psychology providing the theoretical foundation of student inquiry. Students learn how to apply these theoretical concepts while in the clinical setting learning under licensed physicians, athletic trainers, physical therapists and other allied health care professionals. This balance of theory and practical application prepares students to sit for the Board of Certification examination where upon successful completion, may earn the credentials ATC.

### 15.2 Biomedical Sciences.

The MS and PhD programs in biomedical sciences are interdisciplinary programs involving the basic biomedical science disciplines of anatomy, biochemistry, cell biology, microbiology, pathology, pharmacology and physiology. The programs consist of core basic sciences medical courses, additional basic sciences graduate courses, research, and thesis for the MS and a dissertation for the PhD. A non-thesis MS is also available.

### 15.3 Forensic Sciences.

The graduate program in forensic sciences is an interdisciplinary master's program that reflects a broad range of disciplines and offers specialization in both research and non-thesis tracks. All students must satisfactorily complete 39 credit hours to receive the Master of Science in Forensic Sciences.

Students working toward a degree requiring a thesis can specialize in one of four areas: forensic identification through DNA, forensic pathology, forensic psychology, or forensic toxicology. Successful presentation and defense of a thesis is required for a master's degree in these areas.

Non-thesis options include forensic science administration and forensic document examination, with courses in both options offered entirely online. Applicants to the administrative program must have professional experience in a related field, while those entering the document examiner program must be either in training/apprenticeship positions or under the guidance/supervision of a certified document examiner.

### 15.4 Health Care Administration.

The graduate program requires students to take core courses in health care administration and research methods along with a series of electives selected from applicable courses in business and social sciences. The multidisciplinary approach to the health care administration discipline provides students with a unique perspective on the complex issues facing the profession today.

## 16.0 . Interdisciplinary Graduate Programs Offered at OSU-Stillwater

OSU has a series of interdisciplinary graduate programs designed to provide students with a breadth of knowledge that is not ordinarily found in traditional programs. Descriptions are given below for the following interdisciplinary programs: Environmental Science (MS, PhD), Food Science (MS, PhD), Interdisciplinary Science (MS), International Studies (MS), Photonics (PhD), Plant Science (PhD), and Public Health (MPH).

### 16.1 Environmental Science

Scott Stoodley, PhD—Director  
Ken Ede, PhD—Associate Director, OSU-Tulsa  
Kerri Hoback—Program Coordinator

The Environmental Science Graduate Program (ESGP) is operated under the administration of the Graduate College at OSU. Due to its interdisciplinary nature, the ESGP attracts and produces students capable of thinking beyond a single discipline. Our unique approach to graduate education offers flexibility with locations in Stillwater and OSU-Tulsa. Our program is one of the oldest programs in the nation having been founded back in 1977. These ESGP graduates have gone on to be leaders in every facet of the environmental field.

Our students are housed in one of many departments including Agricultural Economics, Economics, Leisure Studies, Plant & Soil Sciences, Natural Resources Ecology & Management, Biosystems and Agricultural Engineering, Geology, Geography, Political Science, Educational and School Psychology, School of Teaching and Curriculum Leadership, Sociology, and Zoology. There are over 128 faculty affiliated with the ESGP at OSU and over 70 of these have served as faculty advisors.

We offer our graduate students either a Master of Science or PhD degree. Each student has a unique opportunity to develop a degree plan that specifically addresses their individual career goals. Degree integrity is ensured through the guidance of the student's graduate advisor and committee.

#### 16.1.1 Programs of Study.

The breadth of offerings at OSU affords flexibility to the student interested in specific environmental career tracks. A student can design a unique degree plan to target a particular focus area that meets his or

her professional goals or can follow structured plans recommended for specializations in:

- Environmental Management, Environmental Management-Professional Science Masters (PSM), Environmental Education, Environmental Policy and Conflict Management, Environmental Sustainability, Environmental Chemistry-Toxicology and Risk Assessment, and Water and Watershed Management.

The student's graduate advisory committee assists the student in preparing a Plan of Study to assure focus, breadth and quality.

### 16.1.2 Program Assessment Portfolio.

The ESGP assesses its curriculum each year to ensure that students are receiving the instruction needed to succeed in environmental careers. To accomplish this assessment, selected environmental faculty members review materials generated by students in the program. Each student must develop and maintain a collection of portfolio materials that demonstrate progress toward the degree. The portfolio must be submitted during the last semester of the student's enrollment.

### 16.1.3 Master of Science Degree.

To obtain an MS degree in environmental science, the student must complete a 36-credit hour course of study. This must include fifteen hours of core curriculum (ENVR 5303 Issues in Environmental Sustainability, ENVR 5123 Environmental Problem Analysis, three hours in research methods or statistics, three hours in social science and three hours in natural science). Each student must also either complete a six-hour research thesis, a three hour research report, or a creative component. The remaining credit hours can be taken as electives that focus on the student's area of particular interest. Students create their original Plans of Study with the assistance of their advisor and committee. It must be completed prior to the end of the second semester (excluding summer sessions) of enrollment.

For the MS degree with a specialization in Environmental Management, students must take 21 credit hours of science courses. In addition, they are required to take ENVR 5503 Environmental Management Practicum and ENVR 5510 Environmental Management Internship and Report. Students with this degree specialization are not required to meet the social science requirements.

### 16.1.4 Doctor of Philosophy Degree.

The Doctor of Philosophy degree requires a minimum of 60 credit hours beyond an MS degree. This includes a minimum of 36 to 45 hours of coursework consisting of six hours of a skill component, ENVR 5303 Issues in Environmental Sustainability, ENVR 5123 Environmental Problem Analysis, and ENVR 6011 Survey of Environmental Science. Course hours should reflect the biological, social, and physical aspects of the concentration area. Research and courses should reflect the student's professional goals. A dissertation (ENVR 6000 Doctoral Research for Dissertation) is required and consists of a minimum of 15 credit hours. At least 75 percent of the courses for the PhD degree must be at the 5000 level or above, including dissertation research hours. The student must successfully pass a written and oral qualifying exam after coursework is completed. Students create their original Plans of Study with the assistance of their advisor and committee. It must be completed prior to the end of the third semester (excluding summer sessions) of enrollment.

### 16.1.5 Admission.

Each student seeking admission to the Environmental Science Graduate Program must submit the following materials:

1. An official Graduate College application for admission and a nonrefundable fee,
2. Official transcripts for all college level courses,
3. A statement of career goals, including competencies to be gained during program enrollment,
4. Three letters of recommendation discussing the student's potential for graduate work, and
5. GRE test scores (use institution code 6546 and department code 0502).

International students must also earn a TOEFL score of at least 90iBT/577PBT and submit a financial affidavit for the amount required by OSU. To be admitted, applicants must have earned a college grade point average of 3.00 on a 4.00 scale. Students are required to have completed college-level courses that address the fundamentals and principles of chemistry, biology, ecology, and algebra prior to admission.

All applications to the ESGP should be submitted at least 60 days before the opening of the semester in which they wish to enroll. International students should supply all application materials by March 1st for summer enrollment, June 1st for fall enrollment, and October 15th for spring enrollment.

It is recommended that students identify an advisor prior to admission to the program. The ESGP Program Coordinator will assist the student with this process. If the student is unable to identify a permanent advisor, then a temporary advisor may be appointed. However, the student must identify a permanent advisor prior to completion of the ninth credit hour in order to be able to enroll in the following semester.

### 16.1.6 Financial Assistance.

Graduate research assistantships and other funding opportunities are often available through affiliated environmental science faculty members. The initial application should specify the student's interest in an assistantship.

Additional information about the environmental science graduate program can be found at [esgp.okstate.edu](http://esgp.okstate.edu) (<http://esgp.okstate.edu>).

## 16.2 Food Science.

William McGlynn, PhD—Program Coordinator

The following departments participate in the food science program: Agricultural Economics, Animal Science, Biochemistry and Molecular Biology, Biosystems and Agricultural Engineering, Entomology and Plant Pathology, Horticulture, Plant and Soil Science, and Nutritional Sciences.

Food science is an interdisciplinary graduate program designed to provide an opportunity for students to acquire basic knowledge of the food industry encompassing the biological and physical sciences. The increasing complexity of the problems involved in the safe and secure production, processing, and utilization of food requires us to expand our fundamental knowledge to solve these problems. There is a great demand for personnel with advanced training in the broad area of food science to staff research, production, food safety and quality assurance positions in industry, universities and government.

### 16.2.1 Program Assessment Portfolio.

Admission to either the Master of Science or Doctor of Philosophy degree program requires an undergraduate major in animal science, biochemistry, dairy science, food science, human nutrition, microbiology or poultry science. Students majoring in other curricula may qualify by remedying specific undergraduate deficiencies as recognized by the

student's graduate committee. A student enrolling in a degree program must have been accepted by an advisor prior to official admission.

The GRE is required for admission, no minimum score is required. Three letters of reference and a personal statement of purpose are also required.

### 16.3 International Studies.

Joel Jenswold, PhD—Director of Academic Programs  
Janet Herren—Graduate Coordinator

Leaders in today's global community require a broad international understanding as well as specific knowledge within a discipline. For this reason, the School of International Studies (SIS) offers multi-disciplinary graduate programs: the Master of Science in International Studies, the Master's International Program (MIP), and the graduate certificates in Global Issues and International Disaster and Emergency Management (IDEM). The MIP combines the MS in International Studies with service in the Peace Corps. For more information contact [i-study@okstate.edu](mailto:i-study@okstate.edu). ([i-study@okstate.edu](mailto:i-study@okstate.edu))

The SIS graduate programs enroll approximately 80 students from the U.S. and 20 different countries. This dynamic group is equally divided between men and women and between U.S. and international students. Graduates become part of a global network of friends and colleagues positioned to meet tomorrow's challenges.

#### 16.3.1 Master of Science in International Studies.

Students complete 33 credit hours, including four core courses, four - five courses in a designated focus area, and two - three elective courses. Students are encouraged to participate in an international internship or other international experience. MS students complete their degree with either a thesis or a creative component.

#### 16.3.2 Master's International Program (MIP).

This program provides the opportunity to incorporate Peace Corps service into the MS in International Studies degree plan. Candidates may receive up to nine credit hours in the SIS master's program in connection with their Peace Corps service.

#### 16.3.3 Certificate in Global Issues.

Taken on its own or in conjunction with another graduate program, students can receive a graduate certificate by taking 15 credit hours in International Studies. Three of the four core courses and two additional courses are selected from a focus area.

The more than 150 faculty members affiliated with the School of International Studies (SIS) come from every academic college at OSU. Students select courses from a rich variety of subjects taught by nationally and internationally recognized scholars. Besides the interdisciplinary core courses, students concentrate in one of five focus areas:

#### 16.3.4 Certificate in International Disaster and Emergency Management (IDEM).

Taken on its own or in conjunction with another graduate program, students can receive a graduate certificate by taking 18 credit hours in International Studies and Fire and Emergency Management Administration.

The International Studies core includes an international experience in either governmental or non-governmental organizations active in international disaster and emergency management. A study abroad component will be strongly encouraged for those students who do not

have significant international experience. In addition, students will be required to complete an individual study with an expert in the field.

The Fire and Emergency Management Administration core consists of two courses that, together, can be taken as the fundamentals of International Disaster and Emergency Management, consisting of POLS 5693 Emergency Management in the International Setting, which serves as the introduction to International Emergency Management and will introduce students to the basic concepts of emergency management administration, and POLS 6203 Comparative and International Dimensions of Fire and Emergency Management, which is focused more directly on the practical aspects of emergency management in an international setting.

The electives have been structured to allow students to meet their individual needs and professional interests, thus allowing for some specialization within the structure of the certificate program.

### 16.4 Interdisciplinary Science.

Jean Van Delinder, PhD—General Program Coordinator

The Master of Science in Interdisciplinary Sciences is for students who wish to increase their competence in a particular thematic area by taking a series of courses in several disciplines. This multidisciplinary approach provides educational opportunities leading to a variety of careers. Interdisciplinary sciences consist of no fewer than three separate fields of study with at least six hours in each field. No more than 15 hours may be taken in any one area. The advisory committee will assist the student in formulating the Plan of Study.

#### 16.4.1 Admission Requirements.

An undergraduate grade-point average of 3.00 is required for unqualified admission. Students with a grade-point average between 2.50 and 3.00 may be admitted on a probationary basis.

Applications to the program should include:

1. a cover letter indicating the personal goals and professional objectives to be obtained from the program;
2. transcripts from all schools previously attended;
3. three letters of recommendation from persons who can describe abilities, interest, and motivation as a student;
4. a proposed course of study with an endorsement from an OSU faculty advisor.

Particular courses are not specified for the degree; the advisory committee can assist in selecting appropriate courses. The course of study must include at least 21 credit hours at the graduate level (5000 or above). Up to nine graduate hours can be transferred from a regionally-accredited graduate program with consent of the advisory committee. The student chooses any of the three master's degree plans:

1. a 30-hour plan, including a six-hour research thesis;
2. a 34-hour plan, including a two-credit hour formal report; or
3. a 36-hour plan with a well-defined, creative and scholarly component.

### 16.5 Photonics.

Al Rosenberger, PhD—Program Coordinator  
Rama Ramakumar, PhD—Program Coordinator

OSU offers a multidisciplinary program leading to the PhD degree in photonics. The program draws on the faculties of the departments of Physics and Electrical and Computer Engineering. A student typically

chooses either of these as his or her "home department" on the basis of academic background and research interests. A multidisciplinary program of coursework is tailored to the goals of each individual student mentored by a chosen faculty member from the home department and guided by the advisory committee. The PhD program provides a biophotonics specialization with faculty from the departments of Chemistry or Microbiology and Molecular Chemistry, or the College of Veterinary Medicine serving as research advisors. For information regarding the Photonics option in either the MS in Physics or MS in Electrical and Computer Engineering, see the relevant departmental section of the Catalog.

### 16.5.1 Doctoral Program Requirements.

A total of 90 credit hours beyond the BS (60 beyond the MS) degree are required for the PhD in photonics. All students must form a preliminary advisory committee to guide them initially in the photonics PhD program. Eventually a student chooses a permanent research advisor who chairs the graduate research committee. Coursework is taken from the basic and advanced courses offered by the Departments of Physics and Electrical and Computer Engineering. Courses from other departments may also be recommended by the graduate research committee. In addition, students are required to take two or more photonics tutorials, offered by faculty in their research lab, emphasizing particular research problems and techniques. A preliminary exam is administered usually during the student's second year in the PhD program. Admission to PhD candidacy follows the successful completion of the qualifying exam. The focus of the PhD program is the completion of a faculty directed research project and the defense of the resulting dissertation. A detailed Plan of Study specific to the research specialization chosen is formulated by the student in consultation with the advisory committee.

### 16.5.2 Research Opportunities.

The faculty emphasizes both basic and applied interdisciplinary research. To accomplish this, in addition to a myriad of state-of-the-art laser systems and computational facilities, the OSU campus houses two molecular beam epitaxial (MBE) growth and analysis facilities and unique optoelectronics THz beam systems. Current research programs include quantum optics, quantum cryptography, "whispering gallery modes," experimental and calculational programs in nanostructured materials, optical fiber communications and optical circuits for computing as well as high speed optoelectronics applications to fundamental and applied problems in the THz frequency range. Other investigations center on the preparation and characterization of specialty-doped insulators and semiconductors for use as lasing materials, non-linear optical crystals for data storage and holographic applications, and photonic-based chemical, physical and biochemical environmental sensors. Research programs in the biomedical applications of lasers at both the basic research and clinical application levels seek to understand the interaction of light with biological materials at the tissue, cellular and molecular levels.

### 16.5.3 Admission Requirements.

Students with a BS degree in physics, electrical engineering, chemistry (or related fields) are welcome to apply to the PhD photonics program. No additional tests (such as the GRE) are required, but such scores may be submitted in support of an application. A TOEFL score of at least 600 is required of international students.

Applications should include:

1. a cover letter indicating the program of specialization and whether the student wishes to be considered by that program for a fellowship or teaching assistantship;

2. a personal statement of interests and goals, noting especially how they relate to the degree in photonics;
3. transcripts of all previous academic work (an unofficial transcript will suffice for the application; official transcripts are required by the Graduate College after admission.); and
4. the names and email addresses of three persons who have been requested to submit letters of reference.

### 16.5.4 Financial Aid.

Most students entering the photonics programs are offered a graduate teaching assistantship in their home department. A student pursuing an original research project may receive support as a graduate research assistant (RA) through grants and contracts to the individual faculty member who serves as the advisor.

## 16.6 Plant Science.

William Henley, PhD—Program Coordinator

Solutions to current problems in plant science often require integration of knowledge from a number of disciplines. The Plant Science program at OSU provides the opportunity for the exceptional PhD student to develop an academic and research program tailored to his or her individual interests and needs. Faculty participating in this program comes from the departments of Plant Biology, Ecology and Evolution, Biochemistry and Molecular Biology, Botany, Entomology and Plant Pathology, Forestry, Horticulture and Landscape Architecture, Microbiology and Molecular Genetics, and Plant and Soil Science. The multidisciplinary nature of this program allows students to experience many facets of plant science and affords them the flexibility to seek employment in a variety of settings in the plant sciences. Students, in consultation with their graduate committees, develop a program in one of three specialization areas (cellular and molecular, organismal or ecological), but are expected to develop a sound foundation across all disciplines of plant study.

### 16.6.1 Admission Requirements.

Application for admission includes a statement defining plant science interests, a resume, three letters of reference, an abstract of the Master of Science thesis (if applicable), GRE scores (the Advanced Biology GRE is also desirable), and a minimum TOEFL of 88iBT/570PBT. A student must be accepted by a faculty advisor prior to official admission.

### 16.6.2 Financial Assistance.

Students seeking financial assistance (teaching and/or research assistantships) should inquire directly to the participating department(s) and faculty of interest within the plant science program.

## 16.7 Public Health.

Julie Croff, MPH, PhD—Program Director

The Oklahoma State University Master of Public Health (MPH) program focuses on training public health professionals to improve health and wellbeing of rural and underserved populations. Students are encouraged to identify a rural community or underserved population as the focus of class projects. In doing so, students will have the opportunity to assess the needs of that community or population, and to thoughtfully create programs for preventing disease within that community or population. Prevention efforts often include a focus on lifestyle and health behaviors. Current students study health behaviors and health outcome areas that include: the use of alcohol, tobacco, other drugs, mental health, disabilities, zoonotic diseases, nutrition and food security, obesity, physical activity, maternal and child health, teen pregnancy and sexual health. These students are meaningfully engaged with rural communities throughout Oklahoma and underserved populations that

include indigenous populations, racial minorities, recent immigrants, and sexual minorities.

### 16.7.1 Admission Requirements.

Application for admission includes a statement of purpose defining professional goals and interest in public health, a resume, three letters of reference, GRE, MAT, GMAT or MCAT scores.

## 17.0 Graduate Certificate Programs Offerings

Graduate certificate programs offer students the opportunity for focused study of a body of knowledge at the graduate level, leading to the award of an academic transcribed academic credential that can be earned in a relatively short time. Graduate certificate programs can serve both as a stepping stone onto more advanced study leading to a master's or doctoral degree or as a stand alone educational achievement to assist an individual in their career. Many OSU graduate certificate programs are offered online or on the graduate-serving campuses (OSU-Stillwater, OSU-Tulsa and Center for Health Sciences in Tulsa). In addition, many graduate certificate programs allow students to enroll as either a certificate-seeking or a degree-seeking graduate student. Certificate-seeking students are not eligible for GTA or GRA positions or associated benefits, but may be eligible for federal financial aid. Below are the current graduate certificate offerings at OSU – please see the Graduate College website for additional information (<http://gradcollege.okstate.edu/content/graduate-certificates>).

Big Data Analytics  
 Bioenergy and Sustainable Technology  
 Bioinformatics  
 Business Data Mining  
 Business Sustainability  
 College Teaching  
 Developmental Disabilities  
 Engineering & Technology Management  
 Entrepreneurship  
 Family Financial Planning  
 Forensic Arson and Explosives Investigation  
 Gerontology  
 Global Issues  
 Grassland Management  
 Health Analytics  
 Human Resource Management  
 Infant Mental Health  
 Information Assurance  
 Integrative Design for Building Envelope  
 Interdisciplinary Toxicology  
 International Disaster and Emergency Management  
 Marketing Analytics  
 Non-Profit Management  
 Online Teaching  
 Public Health  
 Teaching English to Speakers of Other Languages

### 17.1 Admission to a Graduate Certificate Program.

Any student admitted to the Graduate College may apply for admission to a graduate certificate program. Some certificate programs may have additional requirements, such as official scores on a standardized test, letters of recommendation, etc. Contact the appropriate graduate program for specifics.

### 17.2 Basic Requirements.

A graduate certificate requires completion of a minimum of 12 credit hours of coursework eligible for graduate credit, of which at least two-thirds must be at the 5000 level or above. Specific certificate programs may have more stringent requirements.

### 17.3 Transfer of Courses.

With the approval of the graduate program and the Graduate College, up to three hours of graduate-level credit from another institution may be used toward certificate requirements. The GPA must be at least 3.0 on any transfer credit.

### 17.4 Academic Standing.

A grade-point average of "B" (3.0) is required on courses applicable to a graduate certificate. No grade lower than a "C" may be used as part of the minimum requirements for the certificate. Individual certificate programs may have more stringent requirements.

### 17.5 Plan of Study and Certificate Completion Procedures.

Upon application to a graduate certificate program, a student should complete a plan of study listing the courses intended to be used in earning the certificate. This plan must be approved by the graduate program and the Graduate College prior to recording the credential on the student's academic record. During the semester of anticipated certificate completion, the student must complete an Application for Certificate Completion, which is submitted to the Office of the Registrar. This action will cause the graduate certificate to be recorded on the official transcript and a certificate will be printed, provided all requirements have been met.

### 17.6 Special Program – Certificate Program in Education.

OSU offers Oklahoma State Department of Education-approved post-bachelor's certification programs for elementary school principals, school counselors, reading specialists, library/media specialists, and secondary school principals. Certification is also offered in speech and language pathology and in special education.

Master's degrees are available in most of these programs and doctorates are available in many.

Post-master's level certification programs are available for school superintendents and school psychologists.

Inquiries concerning any aspect of the Professional Education program should be addressed to the Office of Professional Education at 405-744-6252 or the head of the unit/department/school offering the program.

## 18.0 Graduate Minors

Graduate minors offer students the opportunity to pursue coursework outside, or ancillary to, the requirements for the degree earned. Minors may not be earned independently of a degree granted by OSU. OSU offers graduate minors in the following areas:

Agribusiness  
 Agricultural Economics  
 Entomology  
 Plant Pathology  
 Statistics

## 18.1 Basic Requirements.

A graduate minor must include between nine and eighteen hours, inclusive, of coursework eligible for graduate credit. At least two-thirds of the applicable coursework must be at the 5000-level or above.

Transfer of courses: No more than one-third of the credit for the minor may be earned through transfer credit of courses taken at other institutions, with the approval of the coordinator of the minor and the dean of the Graduate College. Transfer credit will only be considered if it was earned when the student was post-baccalaureate (i.e., after earning a bachelor's degree) at another accredited institution. All courses used as transfer credit must have a grade of "B" or better. Grades earned in courses transferred to Oklahoma State University will not be used in calculating the cumulative GPA.

## 18.2 Academic Standing.

A grade-point average of "B" (3.0) is required on courses applicable to a graduate minor. No grade lower than a "C" may be used as part of the minimum requirements for the minor. Individual minors may have more stringent requirements.

## 18.3 Plan of Study and Minor Completion Procedures.

Graduate students can declare a minor by entering it in the appropriate section of an original or revised Plan of Study submitted to the Graduate College prior to conferral of the degree. The pursuit of graduate minors is not denoted on the academic transcript while in progress. Graduate students can file for minor completion in the semester that the required courses for that minor will be finished. At that time, the graduate student should ask the coordinator for that minor area to submit a memorandum to the Graduate College certifying the completion of the minor requirements and listing the courses required for the minor. A notation of the minor will be added to the student's transcript after the conferral of a degree. The courses required for a graduate minor may be included on a Plan of Study for any graduate degree or they may be in addition to the degree requirements, depending on the overlap between the minor and the degree Plan of Study. However, the graduate minor must be earned in an academic field other than the student's graduate program or degree option (for example, a graduate student who is majoring in economics could not receive a graduate minor in economics).

## 18.4 Time Limits.

Requirements for the graduate minor must be completed at the time of conferral of the primary degree. All graduate courses used to complete the minor must have been taken within ten years prior to the date of completion of the graduate minor requirements.

# 19.0 Master's Degree Programs

## 19.1 Abbreviations.

MA - Master of Arts  
 MAG - Master of Agriculture  
 MAT - Master of Athletic Training  
 MBA - Master of Business Administration  
 MFA - Master of Fine Arts  
 MM - Master of Music  
 MPH - Master of Public Health  
 MS - Master of Science

## 19.2 Current Degree Inventory.

Accounting, MS  
 Agricultural Communications, MS

Agricultural Economics, MS  
 Agricultural Education, MS  
 Animal Science, MS  
 Applied Statistics, MS  
 Art History, MA  
 Athletic Training, MAT  
 Aviation and Space, MS  
 Biochemistry and Molecular Biology, MS  
 Biomedical Sciences, MS  
 Biosystems and Agricultural Engineering, MS  
 Business Administration, MBA  
 Business Analytics, MS  
 Chemical Engineering, MS  
 Chemistry, MS  
 Civil Engineering, MS  
 Communication Sciences and Disorders, MS  
 Computer Science, MS  
 Counseling, MS (Mental Health Counseling; School Counseling)  
 Creative Writing, MFA  
 Design, Housing and Merchandising, MS (Apparel Design and Production, Interior Design, Merchandising; Retail Merchandising Leadership)  
 Economics, MS  
 Educational Leadership Studies, MS (College Student Development; Higher Education; School Administration)  
 Educational Psychology, MS (Educational Psychology; Educational Research and Evaluation; School Psychometrics)  
 Educational Technology, MS (Educational Technology; School Library Media)  
 Electrical Engineering, MS (Control Systems; Optics and Photonics)  
 Engineering and Technology Management, MS  
 Engineering Technology, MS (Fire Safety and Explosion Protection)  
 English, MA  
 Entomology and Plant Pathology, MS (Entomology; Plant Pathology)  
 Entrepreneurship, MS  
 Environmental Engineering, MS

 Teaching, MATT (Art, Elementary, Foreign Language, Secondary English, Secondary Mathematics, Secondary Science, Secondary Social Studies)  
 Teaching, Learning and Leadership, MS (Curriculum and Leadership Studies; Elementary/Middle/Secondary Education/K-12 Education; Gifted and Talented Education; Mathematics/Science Education; Reading and Literacy; Secondary Education for Teachers Non-traditionally Certified; Special Education; Workforce and Adult Education)  
 Theatre, MA  
 Veterinary Biomedical Sciences, MS

### 19.3 Basic Requirements.

The master's degree may be earned by one of two plans as follows:

Plan I—coursework with thesis. Minimum 30 credit hours consisting of 24 hours of coursework and 6 hours of research or creative component with a grade of "SR".

Plan II—coursework without thesis. Minimum of 32 credit hours. May include no more than three hours of research or creative component with a grade of "SR." May include culminating experiences (e.g., formal report, final report, internship, practicum, comprehensive exam, portfolio or capstone project).

The numbers of credits specified for each plan are minimums set by the Graduate College. Graduate program requirements may exceed these minimums.

The graduate program, with the approval of the dean of the Graduate College, decides which alternatives are open to the students. Some graduate programs may require a minimum number of credit hours of upper-division and graduate courses in the major field, including courses taken as an undergraduate.

A student who holds a DVM, MD, DO, DDS, LLB, JD, or equivalent professional degree may receive up to nine hours credit toward a master's degree, subject to the recommendation of the advisory committee and the approval of the dean of the Graduate College. However, a student receiving this credit may not transfer additional hours to OSU from other graduate programs.

### 19.4 Residence Requirements.

Candidates for a master's degree must complete a minimum of 21 semester credit hours from OSU if they follow Plan I, or 23 semester credit hours if they follow Plan II. Nine semester credit hours of the 30 or 32 required for the degree may be graduate courses taken at another accredited college or university with appropriate approvals.

### 19.5 Advisory Committee.

Upon recommendation of the graduate program and approval of the dean of the Graduate College, an advisory committee of no fewer than three voting members will be appointed. The advisory committee must include a minimum of three members of the Graduate Faculty. The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU faculty appointment and have familiarity with the academic requirements of the degree sought. To view the roles and responsibilities associated with members of advisory committees, go to <https://gradcollege.okstate.edu/best-practices>.

### 19.6 Level of Courses Applied to Graduate Degree.

Graduate students must complete no fewer than 21 semester credit hours of 5000- and 6000-level courses through OSU as presented on the Plan of Study to meet requirements for the master's degree.

### 19.7 Plan of Study.

The Plan of Study for the degree must be submitted online to the Graduate College prior to completion of the second semester of enrollment for a master's program. The student should develop the Plan of Study with the advisor using the online Plan of Study application (<http://planofstudy.okstate.edu>.) The online submission request requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College. The Plan of Study is subject to modification. All changes must have the approval of the advisor and the student's graduate program, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the posted deadline.

Graduate credit, up to a maximum of nine hours, used to obtain one master's degree may, with the approval of the advisory committee, be counted toward completion of another master's degree.

### 19.8 Major Subject or Field.

A major field of study may cross graduate program lines with approval of the graduate program and dean of the Graduate College.

To receive a master's degree, the student must have completed in the major field of study a minimum of 16 semester credit hours above the prerequisites required for graduate work in that subject or field.

### 19.9 Language Requirements.

A candidate for a master's degree may be required to demonstrate a reading knowledge of a modern foreign language. Any such requirement of the graduate program included on the Plan of Study and is noted at the time the preliminary plan is approved by the student's advisor.

A foreign language requirement for a master's degree may be met either by examination or by college credit, according to individual graduate program requirement.

### 19.10 Written Examinations.

Some graduate programs require a written examination covering the major and minor fields. It is usually taken before the thesis or report has been completed. Arrangements for taking the examination should

be made with the graduate program at least three weeks in advance. The written examination must be passed before a final examination is scheduled, if a thesis or report option is used.

A student who fails all or part of the written examination should consult the chair of the examination committee to find out what must be done before taking another examination.

### 19.11 Thesis.

Any student working on a thesis should obtain a copy of the Graduate College Thesis/Dissertation Handbook available from the Graduate College at <http://gradcollege.okstate.edu/tdg>. A thesis must conform to the format specifications set forth in this document. The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student is writing a thesis must attend a format workshop prior to submission of their final copy. The dates for the workshops are on the Graduate Calendar and a webinar version is available.

It is strongly recommended that a graduate student submit complete copies of his or her thesis to the committee members at least two weeks prior to the defense date, that the defense presentation be publicized, and that the thesis defense occur on a date during the normal academic semesters and sessions. Graduate programs may have additional or more restrictive requirements for thesis defenses.

The student should submit an electronic copy of the final thesis through the OSU electronic submission website. Directions for the website submission are given to the student when he or she submits the Oral Defense Results Form to the Graduate College. In addition, the student must submit to the Graduate College one paper copy of the approval page with all original signatures and the student's name and eight digit CWID number entered at the top of the page. Both the electronic submission and paper approval page must be received no later than the stated final submission deadline date (see the "Calendar" at the front of the "Graduate College" chapter of the Catalog for dates).

### 19.12 Report.

The student must submit to the Graduate College the Formal Report Approval form.

### 19.13 Final Examination.

If the thesis or report option is used, the student should arrange with the graduate program for the final examination and to distribute a copy as described in the preceding section. The final examination may be oral or written or both.

The final examination is primarily a defense of the thesis or report. If the defense is judged inadequate, a decision on whether to permit re-examination will be made by the advisory committee. Another examination cannot be given for at least two months after a failure, and a graduate program may limit the number of times that the examination may be repeated.

The committee will notify the Graduate College immediately of results of the final examination. Following satisfactory completion of the final examination, the candidate will make changes in the thesis or report as required by the committee and by the Graduate College, and submit it in final form signed by the committee to the Graduate College by the semester deadline.

Please see the Graduate College's Best Practices: Advisory Committees and Defenses document for additional guidance (<https://gradcollege.okstate.edu/best-practices>).

## 20.0 Specialist in Education (EdS) Degree Program

The Specialist in Education degree in School Psychology is conferred as an appropriate recognition of achievement as evidenced by the following:

1. Successful professional performance in the area of the student's specialization.
2. Satisfactory completion of a program of graduate study of approximately two academic years.
3. Satisfactory performance on examinations designed to reveal the student's understanding of the field of specialization and its relation to other areas.
4. Preparation of a thesis dealing with some aspect of concern to the student's profession and its defense before a committee of the Graduate Faculty.

### 20.1 Temporary Advisor.

At the beginning of a student's Specialist in Education program, the school head will designate a member of the Graduate Faculty to serve as temporary advisor to the student. The temporary advisor will guide the student in the selection of courses for the first semester.

### 20.2 Advisory Committee.

Upon recommendation of the school head or the graduate committee of the school, an advisory committee of no fewer than three voting members will be appointed by the dean of the Graduate College. At least one member of the advisory committee must be from a school or department outside the student's major field of study. This committee

1. conducts the preliminary examination and conference,
2. approves the proposed Plan of Study,
3. supervises the student's progress in the program,
4. supervises the research, and
5. arranges for and conducts the final examination.

The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU faculty appointment and have familiarity with the academic requirements of the degree sought. To view the roles and responsibilities associated with members of advisory committees, go to <http://gradcollege.okstate.edu/faculty-and-staff-resources>.

### 20.3 Plan of Study.

The original Plan of Study for the degree must be submitted to the Graduate College prior to the end of the second semester (excluding summer sessions) of enrollment for a specialist in education program. The student should develop the Plan of Study with the advisor using the online Plan of Study application ([planofstudy.okstate.edu](http://planofstudy.okstate.edu)) (<http://planofstudy.okstate.edu>). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

The Plan of Study may be modified with the approval of the advisor. A final Plan of Study incorporating all changes should be filed in the

Graduate College by the eighth week of the semester in which the degree is to be conferred.

## 20.4 Credit hour Requirements.

A minimum of 60 credit hours beyond the bachelor's degree or 33 credit hours beyond the master's degree are required for the Specialist in Education degree. This may include as many as 10 credit hours for the practicum study and accompanying report.

## 20.5 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also:

1. pass a qualifying examination,
2. conduct an appropriate study of education,
3. show qualities of professional leadership and
4. pass a final examination.

## 20.6 Residence Requirements.

While the Graduate College does not have a specific residence requirement that applies to all graduate programs, programs may require a period of time in residence for students enrolled in departmental graduate programs. Programs must inform students of any residence requirements upon their admission to departmental graduate programs. No more than nine hours may be transferred from another university.

## 20.7 Qualifying Examination.

A qualifying examination is required of all candidates for the Specialist in Education degree. The nature of this exam is determined within each specialization.

## 20.8 Credit Toward an EdD or a PhD.

A student holding an EdS may have the credit hour requirements for a PhD or EdD reduced to 30 hours subject to recommendation by the advisory committee and approval of the dean of the Graduate College. However, all of the remaining 30 hours toward the doctoral degree must be taken at the 5000 or 6000 level and all must be taken at OSU.

## 21.0 Doctor of Education (EdD) Degree Programs

The degree of Doctor of Education is a professional degree conferred in recognition of outstanding ability as an educator in some special field or fields as shown by:

1. satisfactory completion of a program of study;
2. passing examinations showing an understanding of the field of specialization and its relation to allied subjects;
3. the preparation of a dissertation demonstrating ability to approach problems with a high degree of originality and independence; and
4. passing an examination covering the dissertation and related fields.

The following EdD degrees are offered:

Applied Educational Studies (Aviation and Space Education)  
Higher Education  
School Administration

## 21.1 Basic Requirements.

The Doctor of Education degree requires a minimum of 90 semester credit hours beyond the bachelor's degree, or a minimum of 60 semester

credit hours beyond the master's degree in a related discipline. Courses at the 5000 and 6000 level should make up at least 75 percent of the Plan of Study and must include ten hours, with a grade of "SR," for the doctoral dissertation. Students may use 90 hours beyond the bachelor's degree as a degree total only if admitted directly into the doctoral program from the bachelor's degree.

A student who holds a DVM, MD, DO, DDS, LLB, JD, or equivalent professional degree may also have the minimum credit hour requirement reduced to 60 hours, subject to the recommendation of their advisory committee and the approval of the dean of the Graduate College. A student may receive only one 30-hour credit reduction in the EdD requirement regardless of the number of master's or professional degrees that he or she holds.

## 21.2 Temporary Adviser.

At the beginning of a student's doctoral program, the school head will designate a member of the Graduate Faculty to serve as temporary advisor to the student. The temporary advisor will guide the student in the selection of courses for the first semester.

## 21.3 Advisory Committee.

Upon recommendation of the head of the graduate program and approval of the graduate dean, an advisory committee of no fewer than four voting members will be appointed. The duties of the advisory committee consist of:

1. advising the student,
2. assisting the student in preparing a Plan of Study,
3. assisting in planning and conducting the research,
4. supervising the writing of the dissertation, and
5. conducting the dissertation defense.

The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU faculty appointment, be a member of the Graduate Faculty with doctoral chairing privileges, and have familiarity with the academic requirements of the degree sought. Each doctoral committee must have at least one member of the Graduate Faculty from outside the student's major department. To view the roles and responsibilities associated with members of advisory committees, go to <http://gradcollege.okstate.edu/best-practices>.

The student should consult the members of the advisory committee frequently and keep them informed on the progress of his or her work.

## 21.4 Preliminary Conference.

As soon as the student is notified that an advisory committee has been appointed, the student should arrange with the chair for a conference with the committee. During the conference, the preparation and qualifications of the student for graduate work will be discussed and appropriate plans made for future study.

## 21.5 Plan of Study.

The student should develop the Plan of Study with the advisor and committee using the online Plan of Study application (<http://planofstudy.okstate.edu/>). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

Because the acceptance of work that the student desires to use toward the degree rests with the advisory committee, it is important to plan a

complete program and have it approved by the dean of the Graduate College as soon as possible.

The original Plan of Study must be submitted to the Graduate College prior to the end of the third semester (excluding summer sessions) of enrollment in the doctoral program.

The Plan must include all the acceptable graduate work that has been completed and all that will be taken for the degree. The plan should include:

1. at least 75 percent of courses taken at the 5000-6000 level,
2. a minimum of 60 hours beyond the master's degree or 30 hours beyond the EdS and
3. at least 10 hours of dissertation credit. Courses from a master's degree or EdS are not listed on the doctoral Plan of Study.

Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements.

Changes in the Plan of Study can be made with the approval of the advisory committee and the dean of the Graduate College. A final, accurate and approved plan must be filed by eighth week of the semester in which the degree is to be conferred.

## 21.6 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also:

1. pass a qualifying examination,
2. prepare an acceptable dissertation,
3. demonstrate the ability to do independent study,
4. pass a defense of dissertation and
5. comply with any other requirements of the major department.

## 21.7 Residence Requirements.

A minimum of 30 credit hours must be taken at OSU. While the Graduate College does not have a specific residence requirement that applies to all graduate programs, departments may require a period of time in residence for students enrolled in departmental graduate programs. Programs must inform students of any residence requirements upon their admission to graduate programs.

## 21.8 Language and Research Instruments Proficiency.

All candidates will be expected to have a command of those instruments necessary in the study of educational problems. The doctoral advisory committee of each candidate may require evidence of proficiency in one or more foreign languages, educational research, statistics and computer usage.

## 21.9 Admission to Doctoral Candidacy.

Admission to doctoral candidacy marks the transition into the research phase of a doctoral degree and indicates agreement that the student has demonstrated the ability to do acceptable graduate work and that satisfactory progress has been made toward a degree. Consideration for candidacy requires the presentation of a written research proposal for doctoral research to the doctoral advisory committee, who will assess the proposal and offer the student pertinent counsel, advice and feedback. The approval of the research proposal by the advisory committee is the basic requirement for admission to doctoral candidacy; individual programs will normally impose additional requirements, such as the successful completion of oral and/or written comprehensive or

qualifying examinations. These additional requirements may occur in conjunction with the presentation of the research proposal, or they may occur at different times within the course of doctoral study. Admission to doctoral candidacy is conferred with the approval of the dean of the Graduate College, on behalf of the Graduate Council, acting upon the recommendation of program faculty. It is the responsibility of the chair of the advisory committee to notify the Graduate College when admission to candidacy is granted by submitting the Admission to Doctoral Candidacy form.

## 21.10 Dissertation Hours Taken as a Doctoral Candidate.

Admission to candidacy must occur at least six months prior to the date of the final dissertation defense. Since admission to candidacy may occur at various times related to the academic calendar, the student will need to be admitted to candidacy early in the fall semester to be eligible to schedule their final dissertation defense and graduate in the spring; very early in the spring semester for summer graduation; and extremely early in the summer session for fall graduation. (See the Graduate College Calendar for term-specific dates.) If a student is admitted to candidacy prior to the first day of a given term, all dissertation hours taken that term and following may be included in the hours of dissertation research required as a doctoral candidate.

## 21.11 Dissertation.

A dissertation is required of each candidate for the Doctor of Education degree. The dissertation has three principal functions:

1. training in research,
2. promoting professional growth, and
3. contributing to professional knowledge in education. Not every dissertation will be expected to serve these three functions in the same way or to the same extent.

The format specifications, procedures and regulations for the dissertation are the same as for the PhD. The EdD candidate should refer to the "Doctor of Philosophy" section in the Graduate College chapter of the Catalog on dissertations and submission procedures through the Graduate College. The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student is writing a thesis must attend a format workshop prior to submission of their final copy. The dates for the workshops are on the Graduate Calendar and a webinar version is available.

## 22.0 Doctor of Philosophy (PhD) Degree Programs

The Doctor of Philosophy (PhD) degree is granted in recognition of high achievement in scholarship and independent investigation. The student must prove his or her acceptability by:

1. successfully completing a series of courses comprising a Plan of Study;
2. passing various examinations demonstrating academic competence;
3. carrying out a research program under supervision and preparing an acceptable dissertation; and
4. demonstrating initiative, creative intelligence, and ability to plan and carry out research in his or her chosen field.

## 22.1 Current Degree Inventory.

Agricultural Economics  
 Agricultural Education  
 Animal Science  
 Biochemistry and Molecular Biology  
 Biomedical Sciences  
 Biosystems and Agricultural Engineering  
 Business Administration (Accounting; Entrepreneurship; Executive Research; Finance; Management; Management Science and Information Systems; Marketing)  
 Chemical Engineering  
 Chemistry  
 Civil Engineering  
 Computer Science  
 Crop Science  
 Economics  
 Education (Curriculum Studies; Educational Technology; Language, Literacy and Culture; Professional Education Studies; Social Foundations of Education, Workforce and Adult Education)  
 Educational Leadership and Policy Studies (Educational Administration; Higher Education)  
 Educational Psychology (Counseling Psychology; Educational Psychology; Research and Evaluation; School Psychology)  
 Electrical Engineering  
 English  
 Entomology  
 Environmental Science  
 Fire and Emergency Management Administration  
 Food Science  
 Geography  
 Geology  
 Health, Leisure and Human Performance (Health and Human Performance; Leisure Studies)  
 History  
 Human Sciences (Design, Housing and Merchandising; Hospitality Administration; Human Development and Family Science)  
 Industrial Engineering and Management  
 Integrative Biology  
 Materials Science and Engineering  
 Mathematics  
 Mechanical and Aerospace Engineering  
 Microbiology, Cell and Molecular Biology  
 Natural Resource Ecology and Management (Fisheries and Aquatic Ecology; Forest Resources; Rangeland Ecology and Management; Wildlife Ecology and Management)  
 Nutrition  
 Photonics  
 Physics  
 Plant Pathology  
 Plant Science  
 Psychology (Clinical; Experimental)  
 Sociology  
 Soil Science  
 Statistics  
 Veterinary Biomedical Sciences

## 22.2 Basic Requirements.

The Doctor of Philosophy degree requires the number of credit hours as specified by the degree program with a minimum of 60 credit hours beyond the bachelor's degree. These hours must include a minimum of 15 dissertation hours (6000) with a grade of "SR". The maximum number

of dissertation hours (6000 with a grade of "SR") permissible on a Plan of Study must not exceed three-fourths of the total credit hours in the approved graduate degree program.

## 22.3 Temporary Adviser.

At the beginning of a student's doctoral program, the graduate program will designate a member of the Graduate Faculty to serve as temporary advisor to the student. The temporary advisor will assist the student in the early selection of courses. Often, it is the graduate coordinator who serves as the temporary advisor.

## 22.4 Advisory Committee.

Upon recommendation of the graduate program and approval of the dean of the Graduate College, an advisory committee of not fewer than four voting members will be appointed. The duties of the advisory committee consist of:

1. advising the student,
2. assisting the student in preparing a Plan of Study,
3. assisting in planning and conducting the research,
4. supervising the writing of the dissertation, and
5. conducting the dissertation defense.

The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU faculty appointment, be a member of the Graduate Faculty with doctoral chairing privileges, and have familiarity with the academic requirements of the degree sought. Each doctoral committee must have at least one member of the Graduate Faculty from outside the student's major department. To view the roles and responsibilities associated with members of advisory committees, go to <http://gradcollege.okstate.edu/best-practices>.

The student should consult the members of the advisory committee frequently and keep them informed on the progress of his or her work.

## 22.5 Preliminary Conference.

As soon as the student is notified that an advisory committee has been appointed, the student should arrange with the chairperson for a conference with the committee. During the conference, the preparation and qualifications of the student for graduate work will be discussed and appropriate plans made for future study.

## 22.6 Plan of Study.

The student should develop the Plan of Study with the advisor and committee using the online Plan of Study application (<http://planofstudy.okstate.edu/>). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

The original Plan of Study must be submitted to the Graduate College prior to the end of the third semester (excluding summer sessions) of enrollment in the doctoral program. The plan must include all the acceptable graduate work that has been completed and all that will be taken for the doctoral degree.

The Plan of Study must include all the acceptable graduate work that has been completed and all that will be taken for the doctoral degree. The Plan of Study should include:

1. at least 75 percent of courses taken at the 5000-6000 level,
2. a minimum of 60 hours beyond the master's degree, and

3. a minimum of 15 (maximum of 45) dissertation hours (6000) with a grade of "SR" for the 60 hour doctorate or a minimum of 15 (maximum of 60) dissertation hours (6000) for the 90 hour doctorate.

Courses used to earn a master's degree are not listed on the doctoral Plan of Study. Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements.

Changes in the Plan of Study can be made with the approval of the advisory committee and the dean of the Graduate College. A final, accurate and approved plan must be filed by the eighth week of the semester in which the degree is to be conferred.

## 22.7 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also

1. pass a qualifying examination,
2. prepare an acceptable dissertation,
3. demonstrate the ability to do independent study,
4. pass a defense of dissertation, and
5. comply with any other requirements of the major department.

## 22.8 Residence Requirements.

A minimum of 30 credit hours must be taken at OSU. While the Graduate College does not have a specific residence requirement that applies to all graduate programs, graduate programs may require a period of time in residence for students enrolled in departmental graduate programs. Programs must inform students of any residence requirements upon their admission to their graduate programs.

## 22.9 Language Requirement.

Foreign language or other proficiency requirements may be specified to meet the need for specific skills and areas of knowledge that facilitate research and contribute to wider understanding. Specific requirements are determined by graduate programs. In many fields, a reading knowledge of one or two modern foreign languages is an important part of scholarship and necessary for research. In other fields, proficiency in special and related disciplines may be required that will contribute to the needs of the individual program.

## 22.10 Admission to Doctoral Candidacy.

Admission to doctoral candidacy marks the transition into the research phase of a doctoral degree and indicates agreement that the student has demonstrated the ability to do acceptable graduate work and that satisfactory progress has been made toward a degree. Consideration for candidacy requires the presentation of a written research proposal for doctoral research to the doctoral advisory committee, who will assess the proposal and offer the student pertinent counsel, advice and feedback. The approval of the research proposal by the advisory committee is the basic requirement for admission to doctoral candidacy; individual programs will normally impose additional requirements, such as the successful completion of oral and/or written comprehensive or qualifying examinations. These additional requirements may occur in conjunction with the presentation of the research proposal, or they may occur at different times within the course of doctoral study. Admission to doctoral candidacy is conferred with the approval of the dean of the Graduate College, on behalf of the Graduate Council, acting upon the recommendation of program faculty. It is the responsibility of the chair of the advisory committee to notify the Graduate College when admission to

candidacy is granted by submitting the Admission to Doctoral Candidacy form.

## 22.11 Dissertation Hours Taken as a Doctoral Candidate.

Admission to candidacy must occur at least six months prior to the date of the final dissertation defense.

Since admission to candidacy may occur at various times related to the academic calendar, the student will need to be admitted to candidacy early in fall semester to be eligible to schedule their final dissertation defense and graduate in the spring; very early in the spring semester for summer graduation; and extremely early in the summer session for fall graduation. See the Graduate College Calendar for term-specific dates.

## 22.12 Dissertation.

A dissertation (doctoral thesis) is required of each doctoral candidate. The subject of the dissertation must be approved by the advisory committee and the dissertation is prepared under the direction of members of the committee or a special dissertation committee approved by the advisory committee chair.

The dissertation must follow specifications in the Graduate College Thesis/ Dissertation Guidelines, available at <http://gradcollege.okstate.edu/tdg>. The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student is writing a thesis must attend a format workshop prior to submission of their final copy. The dates for the workshops are on the Graduate Calendar and a webinar version is available.

All dissertation copies must have the necessary approval signatures before submission to the Graduate College.

It is strongly recommended that a graduate student submit complete copies of his or her dissertation to the committee members at least two weeks prior to the defense date, that the defense presentation be publicized, and that the dissertation defense occur on a date during the normal academic semesters and sessions. Graduate programs may have additional or more restrictive requirements for dissertation defenses.

The student should submit an electronic copy of the dissertation through the OSU electronic submission website. Instructions for on-line submission are given to the student after completion of the National Survey of Earned Doctorates. In addition, the student must submit to the Graduate College one paper copy of the approval page with all original signatures and the student's name and CWID number entered at the top of the page. Both the electronic submission and paper approval page must be received no later than the stated final copy submission deadline date (see the Calendar at the front of the "Graduate College" chapter for dates).

## 22.13 Final Examination.

The student should arrange with the graduate program for the final examination and to distribute a copy of the dissertation as described in the preceding section. The final examination is primarily a defense of the dissertation. If the defense is judged inadequate, a decision on whether to permit re-examination will be made by the advisory committee. Another examination cannot be given for at least two months after a failure, and a graduate program may limit the number of times that the examination may be repeated. If the advisory committee decides against re-examination, the committee's decision is final. The outcome of the dissertation defense falls under the "professional and scholarly

assessment made by faculty and advisory committees" and is not appealable.

The committee will notify the Graduate College immediately of results of the final examination. Following satisfactory completion of the final examination, the candidate will make changes in the dissertation as required by the committee and by the Graduate College and submit it in final form signed by the committee to the Graduate College by the semester deadline.

Please see the Graduate College's Best Practices: Advisory Committees and Defenses document for additional guidance (<https://gradcollege.okstate.edu/best-practices>).

## Academic Calendar

### Graduate College Academic Calendar

Refer also to the University Academic Calendar (p. 81).

#### 2017-2018

	Fall	Spring	Summer
Class work begins	Aug 21	Jan 16	May 21
Admission to doctoral candidacy for summer graduation due in Graduate College		Feb 2	
Admission to doctoral candidacy for fall graduation due in Graduate College			Jun 8
Thesis/ Dissertation Workshop (formerly FORMAT REVIEW DRAFT of dissertation or thesis) Attend workshop or watch the on-line tutorial	Oct 20	Mar 9	Jun 8
Last day to file a Graduation Clearance Form and a revised plan of study (if needed) and to Graduate College	Oct 27	Mar 23	Jun 22
Last day to file a Graduation Application (formerly diploma application)	Nov 1	Apr 2	Jul 2

Admission to doctoral candidacy for spring due in Graduate College	Nov 10		
Priority deadline to submit results of thesis/ dissertation oral defense form to Graduate College	Nov 17	Apr 13	Jul 14
Last day to submit results of thesis/ dissertation defense forms to Graduate College to meet semester graduation deadlines	Nov 27	Apr 20	Jul 21
Priority deadline for online submission of electronic dissertation or thesis, and paper submission of signature approval page	Nov 24	Apr 20	Jul 21
Last day to complete online submission of electronic dissertation or thesis, and paper submission of signature approval page	Dec 1	Apr 27	Jul 28
Term ends Graduate Commencement	Dec 8	May 4	Aug 3
	Dec 15	May 11	

#### 2018-2019 <sup>(Tentative)</sup>

	Fall	Spring	Summer
Class work begins	Aug 20	Jan 14	May 20
Admission to doctoral candidacy for summer graduation due in Graduate College		Feb 1	
Admission to doctoral candidacy for fall graduation due in Graduate College			Jun 7

Thesis/ Dissertation Workshop (formerly FORMAT REVIEW DRAFT of dissertation or thesis) Attend workshop or watch the on-line tutorial	Oct 19	Mar 8	Jun 7
Last day to file a Graduation Clearance Form and a revised plan of study (if needed) and to Graduate College	Oct 26	Mar 22	Jun 21
Last day to file a Graduation application (formerly diploma application)	Nov 1	Apr 1	Jul 1
Admission to doctoral candidacy for spring due in Graduate College	Nov 9		
Priority deadline to submit results of thesis/ dissertation oral defense form to Graduate College	Nov 16	Apr 12	Jul 12
Last day to submit results of thesis/ dissertation defense forms to Graduate College to meet semester graduation deadlines	Nov 26	Apr 19	Jul 19
Priority deadline for online submission of electronic dissertation or thesis, and paper submission of signature approval page	Nov 21	Apr 19	Jul 19

Last day to complete online submission of electronic dissertation or thesis, and paper submission of signature approval page	Nov 30	Apr 26	Jul 26
Term ends	Dec 7	May 3	Aug 2
Graduate Commencement	Dec 14	May 10	

## Faculty

The OSU Graduate Faculty are listed in two sections: **Members and Members Emeriti** (p. 1691). **Degrees held and degree granting institutions are listed for each member. Dates following indicate the year that the faculty member was initially appointed to a position at Oklahoma State University.**

## Members

Abdel Salam, Mohamed—BS (Univ. of Khartoum, Sudan), MS (ibid.), PhD (Univ. of Texas at Dallas); Professor of Geology. 2012.

Abdolvand, Reza—BS (Sharif Univ of Technology, Iran), MS (ibid.), PhD (Georgia Institute of Technology); Assistant Professor of Electrical and Computer Engineering. 2008.

Abit, Sergio Manacpo—BS (Visayas State Univ.), MS (North Carolina State Univ.), PhD (ibid.); Assistant Professor of Plant and Soil Sciences. 2012.

Abouzahr, Imad—B.S. (American Univ. of Beirut), M.S. (Oklahoma State Univ.), Ph.D. (ibid.); Associate Professor of Engineering Technology Division. 2016.

Abraham, Eric R. —BA (St. Olaf College), MS (Rice Univ.), PhD (ibid.); Adjunct Professor of Physics. 2014.

Abramson, Charles Ira—BA (Boston Univ), MA (ibid.), PhD (ibid.); Regents Professor of Psychology. 1993.

Acken, John Michael—BS (Oklahoma State Univ), MS (ibid.), PhD (Stanford Univ); Assistant Professor of Electrical and Computer Engineering. 2001.

Ackerson, Bruce—BS (Univ of Nebraska), MS (Univ of Colorado), PhD (ibid.); Professor of Physics. 1977.

Adam, Brian D.—BS (Wheaton College), MS (Univ of Nebraska, Lincoln), PhD (Univ of Illinois); Professor of Agricultural Economics. 1990.

Adams, Brant—BM (Capital Univ.), MM (Univ of Cincinnati College Conservatory of Music), PhD (Univ of Texas at Austin); Professor of Music. 1996.

Adams, Henry David—B.A. (Alfred Univ.), M.S. (Northern Arizona Univ.), Ph.D. (Univ. of Arizona); Assistant Professor of Botany. 2015.

Adkins, Lee C.—BS (Florida State Univ), MA (Louisiana State Univ), PhD (ibid.); Professor of Economics. 1988.

Adkison, Danny M.—BA (Oklahoma State Univ), MA (ibid.), EdD (ibid.); Associate Professor of Political Science. 1976.

Agarwal, Girish Saran—BS (Univ of Grakhpur), MS (Banaras Hindu Univ), PhD (Univ of Rochester); Regents Professor of Physics. 2004.

Agnew, Robert —BS (Oklahoma State Univ), MS (University of Oklahoma); Assistant Professor of Engineering Technology Division. 2014.

Ahmad, Ibrahim Abe—BS (Cairo Univ.), MS (Florida State Univ.), PhD (ibid.); Regents Professor of Statistics. 2009.

Ahmad, Salahuddin—BSc (Dhaka Univ, Bangladesh), MSc (ibid.), PhD (Univ of Victoria, BC, Canada); Adjunct Associate Professor of Physics. 2008.

- Ahmed, Mohamed Samir—BS (Cairo Univ), MS (Ain-Shams Univ), MS (McGill Univ), PhD (Univ of Oklahoma); Professor of Civil and Environmental Engineering. 1980.
- Aichele, Clint Philip—BS (Oklahoma State Univ.), PhD (Rice Univ.); Assistant Professor of Chemical Engineering. 2012.
- Aime, Federico—BS (Univ of Catolica, Argentina), MBA (Univ of North Carolina), PhD (Michigan State Univ); Assistant Professor of Management. 2006.
- Akkerman, Jill—BS (North Carolina State Univ.), DVM (ibid.), PhD (ibid.); Associate Professor of VBS: Physiological Sciences. 2015.
- Akselrod, Mark S.—BS (Urals State Technical Univ.), PhD (ibid.); Adjunct Professor of Physics. 2008.
- Alderman, Phil—BA (Univ of Florida), MS (ibid.), PhD (ibid.); Associate Professor of Plant and Soil Sciences. 2015.
- Alderson, Robert Matthew—BA (Auburn Univ), MS (Univ of South Alabama), PhD (Univ of Central Florida); Assistant Professor of Psychology. 2009.
- Allen, Kevin P.—BS (Southwest Missouri State Univ), MS (Oklahoma State Univ), PhD (ibid.); Assistant Professor of Natural Resource Ecology and Management. 2006.
- Allen, Randy Dale—BS (Southwestern Adventist College), MA (Univ of Texas at Arlington), PhD (Texas A&M Univ); Professor of Biochemistry and Molecular Biology. 2009.
- Allen, Robert W.—BS (Univ of Tulsa), PhD (Purdue Univ); Professor of CHS: Forensic Sciences. 2001.
- Alspach, Dale E.—BS (Univ of Akron), PhD (Ohio State Univ); Professor of Mathematics. 1979.
- Alvarez-Sancho, Isabel—PhD (Michigan State Univ.; Assistant Professor of Foreign Languages and Literature. 2015.
- Amiri, Ali—BS (IHEC, Tunisia), MBA (Ohio State Univ), PhD (ibid.); Associate Professor of Management Science and Information Systems. 1998.
- Amos, Orley M.—BA (Wichita State Univ), MS (Iowa State Univ), PhD (ibid.); Professor of Economics. 1979.
- Anderson, Jeffrey—BA (Rutgers Univ), PhD (Univ of Florida); Professor of Horticulture and Landscape Architecture. 1986.
- Anderson, Michael P.—BS (Brigham Young Univ), MS (Univ of Minnesota), PhD (ibid.); Associate Professor of Plant and Soil Sciences. 1990.
- Andiappan, Marimuthu—B.Tech. (Anna Univ., India), M.E. (Indian Institute of Science, India), Ph.D. (Univ. of Michigan); Assistant Professor of Chemical Engineering. 2016.
- Anella, Louis—BA (Vassar College), MS (Cornell Univ), PhD (ibid.); Associate Professor of Horticulture and Landscape Architecture. 1997.
- Angle, Julie Marie—BS (Oklahoma State Univ), MEd (Northwestern Oklahoma State Univ), PhD (Oklahoma State Univ); Assistant Professor of Teaching and Curriculum Leadership. 2010.
- Ansley, Robert J.—B.S. (Hastings College), M.S. (Utah State Univ.), Ph.D. (Univ. of Wyoming); Professor of Natural Resource Ecology and Management. 2016.
- Anthony, Christopher J.—B.A. (Univ. of Notre Dame), M.Ed. (The Pennsylvania State Univ.), Ph.D. (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2016.
- Apblett, Allen W.—BS (Univ of New Brunswick), PhD (Univ of Calgary); Professor of Chemistry. 1997.
- Arata, Laura—BA (Univ. of Washington), MA (Washington State Univ.), PhD (ibid.); Assistant Professor of History. 2014.
- Arena, Andrew S.—BS (Univ of Arizona), MS (Univ of Notre Dame), PhD (ibid.); Professor of Mechanical and Aerospace Engineering. 1993.
- Arens, Zachary Glenn—BBA (James Madison Univ.), MS (Univ. of Maryland), PhD (ibid.); Assistant Professor of Marketing. 2014.
- Armstrong, Cosette M.—BS (Middle Tennessee State Univ), MS (Kansas State Univ), PhD (ibid.); Assistant Professor of Design, Housing and Merchandising. 2011.
- Armstrong, John Scott—BS (Texas Tech Univ.), MS (Oklahoma State Univ.), PhD (Colorado State Univ.); Adjunct Professor of Entomology & Plant Pathology. 2013.
- Arnall, Daryl Brian—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Plant and Soil Sciences. 2009.
- Arnold, Todd J.—BBA (Univ of Texas), MBA (Univ of Wyoming), PhD (Univ of Missouri); Associate Professor of Marketing. 2006.
- Arrese, Estela Laura—BS (Univ of La Plata), PhD (ibid.); Research Associate Professor of Biochemistry and Molecular Biology. 2008.
- Asgari, Mahdi—BS (Sharif Univ of Tech), MS (Purdue Univ), PhD (ibid.); Assistant Professor of Mathematics. 2008.
- Asino, Tutaleni—BA (Duquesne Univ), MA (ibid.), MS (Cabrini College), PhD (Penn State Univ); Assistant Professor of Educational Studies. 2015.
- Atekwana, Eliot Anong—BS (Univ of Maryland), MS (Howard Univ), PhD (Western Michigan Univ); Associate Professor of Geology. 2006.
- Atekwana, Estella Akweseh—BS (Howard Univ), MS (ibid.), PhD (Dalhousie Univ); Regents Professor of Geology. 2006.
- Atilas, Jorge H.—BArch (Universidad Nacional Pedro Henriquez Urena), MUP (Virginia Polytechnic Institute and State Univ), PhD (ibid.); Professor of Design, Housing and Merchandising. 2010.
- Atiyeh, Hasan—BS (Jordan Univ of Science & Tech), MS (ibid.), PhD (Univ of Ottawa); Assistant Professor of Biosystems and Agricultural Engineering. 2009.
- Ausman, Kevin Douglas—BA (Rice Univ), PhD (ibid.); Assistant Professor of Chemistry. 2006.
- Austin, Linda Marilyn—BA (State Univ of New York at Stony Brook), MA (Univ of Rochester), MS (Univ of Illinois), PhD (Univ of Rochester); Professor of English. 1985.
- Ayoubi Canaan, Patricia Jane—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Associate Professor of Biochemistry & Molecular Biology. 2005.
- Azam, Mehtabul—B.A. (Univ. of Delhi, India), M.A. (Delhi School of Economics, India), M.A. (Southern Methodist Univ.), Ph.D. (ibid.); Assistant Professor of Economics. 2015.
- Azoug, Aurelie—B.Sc. (Univ. of Technology of Compiègne, France), M.Sc. (Ibid.), Ph.D. (Ecole Polytechnique, France); Assistant Professor of Mechanical and Aerospace Engineering. 2016.
- Babu, Kaladi S.—BSc (Univ of Mysore, India), MSc (Indian Inst of Technology, Bombay, India), PhD (Univ of Hawaii); Professor of Physics. 1998.
- Bach, Christian—Assistant Professor of Mechanical and Aerospace Engineering. 2014.
- Backus, Irene Bowen—BA (Kalamazoo College), MA (Univ. of Chicago), PhD (ibid.); Assistant Professor of Art. 2012.
- Baghurst, Timothy M.—BSc (Univ. of Chichester), MSc (Univ. of Bangor), PhD (Univ. of Arkansas); Assistant Professor of Applied Health and Educational Psychology. 2012.
- Baham, Corey W.—B.S. (Louisiana State Univ.), M.S. (Southern Univ. and A & M), Ph.D. (Louisiana State Univ.); Assistant Professor of Management Science and Information Systems. 2016.
- Bai, Henry—BE (Univ. of Science and Technology of China), PhD (Rensselaer Polytechnical Institute); Assistant Professor of Mechanical and Aerospace Engineering. 2015.
- Bailey, Keith L.—BS (Arkansas State Univ), DVM (Univ of Missouri, Columbia), PhD (ibid.); Associate Professor of VBS: Pathobiology. 2011.
- Bailey, Lucy E.—BA (Univ of Tennessee), MA (The Ohio State Univ), PhD (ibid.); Associate Professor of Educational Studies. 2005.

- Bailey, Whitney Brosi—BS (Univ. of Missouri, Northwest), MS (Univ. of Arkansas), PhD (Michigan State Univ.); Associate Professor of Human Development & Family Science. 2004.
- Baker, Marshall A. — BS (Univ. of Florida), MS (ibid.), PhD (Oklahoma State Univ.); Assistant Professor of Agricultural Education. 2013.
- Baker, Sharon— BS (Oklahoma College of Liberal Arts), MEd (Univ. of Oklahoma), EdD (Oklahoma State Univ.); Adjunct Professor of Human Development & Family Science. 2013.
- Balasundaram, Balabhaskar—BTech (Indian Institute of Technology), PhD (Texas A&M Univ); Assistant Professor of Industrial Engineering and Management. 2007.
- Ballard, Holly Noelle Woodward— BA (North Carolina State College), MS (Texas Tech Univ.), PhD (Montana State Univ.); Assistant Professor of CHS: Anatomy and Cell Biology. 2013.
- Bandy, Donna Kay—BA (Univ of Iowa), MA (Drexel Univ), PhD (ibid.); Professor of Physics. 1987.
- Banik, Gouranga—Ph.D. (Iowa State Univ.); Professor of Engineering Technology Division. 2015.
- Baraldi, Amanda—BA (Univ. of Massachusetts), MS (Columbia Univ.), PhD (Arizona State Univ.); Assistant Professor of Psychology. 2015.
- Barchini, Leticia I.—BA (Univ Nacional de Tucuman, Argentina), PhD (Univ Nacional de Cordoba, Argentina); Professor of Mathematics. 1997.
- Barnes, Laura L.B.—BA (Univ of Nebraska, Lincoln), MA (ibid.), PhD (ibid.); Associate Professor of Educational Studies. 1990.
- Baron, Robert A.—BS (City Univ of New York), MA (Univ of Iowa), PhD (ibid.); Professor of Entrepreneurship and Emerging Enterprise. 2010.
- Barringer, Bruce R.—BS (Iowa State Univ), MBA (ibid.), PhD (Univ of Missouri); Professor of Entrepreneurship and Emerging Enterprise. 2010.
- Basu, Arpita—BS (Univ of Calcutta, India), MS (ibid.), PhD (Texas Woman's Univ); Assistant Professor of Nutritional Sciences. 2006.
- Basu, Raja—BA (Delhi Univ), MBA (Duke Univ), PhD (Purdue Univ); Associate Professor of Management. 1991.
- Baughman, Todd Alan— BS (Oklahoma State Univ.), MS (ibid.), PhD (Mississippi State Univ.); Adjunct Professor of Plant and Soil Sciences. 2013.
- Baum, Kristen—BS (The College of William and Mary), MS (Texas A&M Univ), PhD (ibid.); Associate Professor of Zoology. 2006.
- Baumwart, Ryan—B.S. (Northeastern Oklahoma State Univ.), D.V.M. (Oklahoma State Univ.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2016.
- Bays, Brad—BA (Oklahoma State Univ), MS (Univ of Tennessee), PhD (Univ of Nebraska); Associate Professor of Geography. 1995.
- Beach, Maria Christine—BS (Vanderbilt Univ), MA (Villanova Univ), MEd (Vanderbilt Univ), PhD (Univ of Texas at Austin); Assistant Professor of Theatre, 2009.
- Beaman, Jason—B.S. (Oklahoma State Univ.), M.S. (Univ. of Florida), D.O. (ibid.); Clinical Assistant Professor of CHS: Psychiatry and Behavioral Sciences. 2016.
- Beasley, Lana—BS (Oklahoma State Univ), MA (Univ. of Kansas), PhD (Ibid.); Assistant Professor of Human Development & Family Science. 2015.
- Beauchamp, Toby Cason—BA (Univ. of Florida), PhD (Univ. of California, Davis); Assistant Professor of English. 2012.
- Beem, Marley Dale— BA (Claremont McKenna College), MAG (Auburn Univ.), PhD (Oklahoma State Univ.); Adjunct Professor of Natural Resource Ecology and Management. 2013.
- Beier, Richard A.—BS (Kansas State Univ), MS (ibid.), PhD (Univ of California); Professor of Engineering Technology Division. 2002.
- Belden, Jason B.—BS (Southwestern College), MS (Univ of Wisconsin, Milwaukee), PhD (Iowa State Univ); Assistant Professor of Zoology. 2007.
- Bell, Gregory E.—BS (Ohio State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Horticulture and Landscape Architecture. 1997.
- Bell, Kenneth John—B.S. (Case Inst. of Technology), M.Ch.E. (Univ. of Delaware), Ph.D. (ibid.); Regents Professor Emeritus of Chemical Engineering. 1961.
- Bell, Stephen S. — BSEE (Univ. of Wisconsin), MSEE (ibid.), PhD (ibid.); Associate Professor of Electrical & Computer Engineering. 1988.
- Bellmer, Danielle—BS (Michigan State Univ), PhD (Purdue Univ); Associate Professor of Biosystems and Agricultural Engineering. 1997.
- Belmonte, Laura—AB (Univ of Georgia), MA (Univ of Virginia), PhD (ibid.); Associate Professor of History. 1996.
- Belter, Babette Diane—BME (Univ of Wisconsin, Stevens Point), MM (Michigan State Univ); Associate Professor of Music. 1988.
- Bement, Leland C.—BA (Fort Lewis College), MA (Univ of Texas), PhD (ibid.); Adjunct Professor of Plant and Soil Sciences. 2007.
- Benjamin, Bruce A.—BA (Westminster College), PhD (Univ of Oklahoma); Associate Professor of CHS: Pharmacology and Physiology. 1997.
- Bennett, Rebecca Susan— BS (Univ. of Maryland, College Park), PhD (Cornell Univ.); Adjunct Assistant Professor of Entomology & Plant Pathology. 2013.
- Bensen-Cain, Rebecca—BA (Univ of New Orleans), MA (Michigan State Univ), PhD (Univ of California, Santa Barbara); Assistant Professor of Philosophy. 2007.
- Benton, Eric R.—BS (Univ of San Francisco), PhD (Univ College, Dublin); Assistant Professor of Physics. 2006.
- Berlin, Kenneth Darrell—BA (North Central College, Illinois), PhD (Univ of Illinois, Urbana); Regents Professor of Chemistry. 1960.
- Bernardoni, Jeremy—BA (Univ.of Oklahoma), M.F.A. (ibid.); Assistant Professor of Theatre. 2015.
- Betts, Nancy M.—BA (Pennsylvania State Univ.), MS (The Ohio State Univ), PhD (ibid.); Professor of Nutritional Sciences. 2005.
- Bidwell, Joseph R.—BS (Siena College), MS (Virginia Technical Univ), PhD (ibid.); Associate Professor of Zoology. 2001.
- Bidwell, Terrence G.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Professor of Natural Resource Ecology and Management. 1988.
- Bikkina, Prem—BTech(National Institute of Technology, Warangal), M.Tech. (Indian Institute of Technology, Guwahati), PhD (Univ. of Tulsa); Assistant Professor of Chemical Engineering. 2014.
- Bilbeisi, Mohammed U.—BArch (Oklahoma State Univ), MArch (ibid.); Professor of Architecture. 1999.
- Bilbeisi, Suzanne Denise— BArch (Oklahoma State Univ.), MArch (ibid.); Professor of Architecture. 2013.
- Billman, Jon Donald—BA (Iowa Wesleyan College), MFA (Eastern Washington Univ); Assistant Professor of English. 2007.
- Bindewald, Benjamin J.—BA (Anderson Univ.), MEd (Clemson Univ.), PhD (ibid.); Assistant Professor of Educational Studies. 2014.
- Binegar, Birne Thomas—BS (Univ of California, Los Angeles), MS (ibid.), PhD (ibid.); Associate Professor of Mathematics. 1988.
- Bird, Lee E.—BS (Univ of Arizona), MS (Univ of Wisconsin Superior), PhD (Univ of Arizona); Adjunct Professor of Educational Studies. 2000.
- Bird, Sharon—BA (Univ. of Oklahoma), MS (ibid.), PhD (Washington State Univ.); Professor of Sociology. 2015.
- Biros, David P.—BA (Flagler College), MA (The Troy State Univ), MS (Air Force Institute of Technology), PhD (Florida State Univ); Associate Professor of Management Science and Information Systems. 2006.
- Bishop, Alex J.—BA (Benedictine College), MA (Western Illinois Univ), PhD (Iowa State Univ); Associate Professor of Human Development and Family Science. 2005.
- Bjornsen, Matt—Ph.D. (Univ. of Nebraska-Lincoln); Assistant Professor of Accounting. 2016.
- Blagden, Trena Diann—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Research Assistant Professor of Entomology & Plant Pathology. 2015.

- Blanchong, Julie Anne—BS (Bowling Green State Univ.), MS (Michigan State Univ.), PhD (ibid.); Adjunct Professor of Natural Resource Ecology and Management. 2013.
- Blaylock, Bradley Scott—BS (Brigham Young Univ), MS (ibid.), PhD (Univ of Washington); Assistant Professor of Accounting. 2011.
- Blecha, Meredith—BM (Indiana Univ), MM (ibid.), DMA (Eastman School of Music); Assistant Professor of Music.
- Blewett, Earl L.—BSc (Univ of Saskatchewan), MSc (ibid.), PhD (ibid.); Associate Professor of CHS: Biochemistry and Microbiology. 1997.
- Bliss, Timm James—BS (Texas Tech Univ), MS (ibid.), EdD (Oklahoma State Univ); Associate Professor of Educational Studies. 2001.
- Bloomberg, Blake—BS (Texas A&M Univ.), MS (ibid.), PhD (Oklahoma State Univ.); Assistant Professor of Animal Science. 2014.
- Blum, Denise Frances—BA (Rhodes College), MA (Univ of Texas at Austin), PhD (ibid.); Assistant Professor of Educational Studies. 2009.
- Blum, Frank D.—BS (Eastern Illinois Univ), MS (ibid.), PhD (Univ of Minnesota, Minneapolis); Regents Professor of Chemistry. 2010.
- Boileau, Melanie Julie—MS (Oklahoma State Univ), DVM (Montreal Univ); Associate Professor of VBS: Veterinary Clinical Sciences. 2006.
- Bolek, Matthew G.—BS (Carroll College), MS (Univ of Wisconsin, Milwaukee), PhD (Univ. of Nebraska, Lincoln); Assistant Professor of Zoology, 2009.
- Boles, Richard J.—B.A. (Boston College), M.A. (ibid.), Ph.D. (The George Washington Univ.); Assistant Professor of History. 2016.
- Bolliger, Jeanne—B.S. (Univ. of Zurich, Switzerland), Ph.D. (ibid.); Assistant Professor of Chemistry. 2016.
- Borland, Jennifer Regan—BA (Univ of Pennsylvania), MA (Stanford Univ), PhD (ibid.); Assistant Professor of Art. 2008.
- Borunda, Mario F.—BS (Univ. of Texas at El Paso), PhD (Texas A&M Univ.); Assistant Professor of Physics. 2012.
- Bourne, Christina R.—BS (Univ. of Oklahoma), PhD (Univ. of Oklahoma Health Science Center); Research Associate of VBS: Physiological Sciences. 2012.
- Bourne, David W.A.—BPharm (Victorian College of Pharmacy), MS (Univ. of Kansas), PhD (ibid.); Adjunct Professor of VBS: Physiological Sciences, 2003.
- Bovenschen, Wayne Eric—BA (Mich. State Univ), MM (ibid.); Associate Professor of Music. 1987.
- Bowersock, Amy E.—B.S. (Northeastern State Univ.), M.S. (ibid.), Ph.D. (Univ. of Arkansas); Clinical Assistant Professor of Applied Health and Educational Psychology.
- Bowler, Wm. Matthew—BS (Southwest Missouri State Univ), MBA (ibid.), PhD (Univ of Kentucky); Associate Professor of Management. 2006.
- Bowser, Timothy J.—BS (Pennsylvania State Univ), MS (ibid.), PhD (Univ of Tennessee); Associate Professor of Biosystems and Agricultural Engineering. 1997.
- Boyer, Tracy Ann—BA (Stanford Univ), MA (Univ of Minnesota), PhD (ibid.); Assistant Professor of Agricultural Economics. 2003.
- Bradshaw, Craig R—B.S. (Purdue Univ.), Ph.D. (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2016.
- Brandenberger, Lynn—BS (Oklahoma State Univ), MAG (Texas A&M Univ), PhD (Univ. of Arkansas) Associate Professor of Horticulture and Landscape Architecture. 2002.
- Brasuell, Troy Lee—BA (Univ. of Central Oklahoma), MFA (Wayne State Univ.); Assistant Professor of Theatre. 2013.
- Breshears, Melanie Ann—BS (Oklahoma State Univ), DVM (ibid.), PhD (ibid.); Associate Professor of VBS: Pathobiology. 2005.
- Brewer, Shannon K.—BS (Missouri Western Univ), MS (Univ of Missouri), PhD (ibid.); Adjunct Associate Professor of Natural Resource Ecology and Management. 2010.
- Brienen, Marten Willem—BA (Leiden Univ., The Netherlands), MA (ibid.), PhD (Univ. of Amsterdam, The Netherlands); Lecturer of Political Science. 2013.
- Brienen, Rebecca Parker—BA (Wellesley College), MA (Harvard Univ.), MS (Northwestern Univ.), PhD (ibid.); Professor of Art. 2013.
- Broffitt, Virginia Lea—BM (North Carolina School of the Arts), MM (ibid.), DMA (Univ of Cincinnati); Assistant Professor of Music. 2011.
- Brooks, Ronald Clark—BS (Old Dominion Univ), MFA (ibid.), PhD (Univ of Oklahoma); Associate Professor of English. 2005.
- Brorsen, B. Wade—BS (Oklahoma State Univ), MS (ibid.), PhD (Texas A&M Univ); Regents Professor of Agricultural Economics. 1991.
- Brosi, Matthew W.—BS (Univ of Missouri, Northwest), MS (Univ of Arkansas), PhD (Michigan State Univ); Assistant Professor of Human Development and Family Science. 2005.
- Brown, Barbara Jean—BS (Kansas State Univ), MS (ibid.), PhD (Oklahoma State Univ); Assistant Professor of Nutritional Sciences. 2000.
- Brown, Glenn Owen—BS (Arizona State Univ), MS (Colorado State Univ), PhD (ibid.); Regents Professor of Biosystems and Agricultural Engineering. 1987.
- Brown, Nicholas R.—BS (Oklahoma State Univ.), MPA (Univ. of Oklahoma), PhD (Oklahoma State Univ.); Instructor of Agricultural Education. 2012.
- Brown, Pamela U.—BA (Univ of Oklahoma), MS (ibid.), EdD (Oklahoma State Univ); Professor of Teaching and Curriculum Leadership. 1999.
- Brown, Theresa Clare—BA (Truman State Univ.), MA (Univ. of Iowa), PhD (Univ. of Kansas); Assistant Professor of Applied Health and Educational Psychology. 2012.
- Brown, Tom J.—BS (Oklahoma State Univ), MBA (ibid.), PhD (Univ of Wisconsin, Madison); Professor of Marketing. 1997.
- Brunson, Dana Sue—BS (ibid.), MS (ibid.), PhD (Univ. of Texas at Austin); Adjunct Associate Professor of Computer Science. 2013.
- Bryans, William S.—BA (Colorado State Univ), MS (ibid.), PhD (Univ of Wyoming); Associate Professor of History. 1988.
- Buchanan, Austin—BS (Oklahoma State Univ), PhD (Texas A&M Univ); Assistant Professor of Industrial Engineering and Management. 2015.
- Bukkapatnam, Satish T.S.—BTech (SV Univ, India), MS (Pennsylvania State Univ), PhD (ibid.); Professor of Industrial Engineering and Management. 2004.
- Bulut, Rifat—BS (Middle East Technical Univ, Turkey), MS (Texas Tech Univ), PhD (Texas A&M Univ); Assistant Professor of Civil and Environmental Engineering. 2006.
- Bunce, Richard A.—BS (Marietta College), PhD (Univ of Wisconsin, Madison); Professor of Chemistry. 1983.
- Bunting, Charles F.—BSEET (Old Dominion Univ), MSEE (Virginia Technical Univ), PhD (ibid.); Professor of Electrical and Computer Engineering. 2001.
- Burba, Daniel—BS (Moorhead State Univ.), D.V.M. (Auburn Univ.); Professor of VBS: Veterinary Clinical Sciences. 2015.
- Burke, Megan—BA (George Mason Univ.), MA (San Diego State Univ.), PhD (Univ. of Oregon); Assistant Professor of Philosophy. 2015.
- Burkley, Edward—BS (Southern Illinois Univ), MA (ibid.), PhD (Univ of North Carolina); Assistant Professor of Psychology. 2006.
- Burkley, Melissa Anne—BS (Southern Illinois Univ), MA (ibid.), PhD (Univ of North Carolina); Assistant Professor of Psychology. 2006.
- Burkman, James Richard—BA (Western State College), MBA (Indiana Univ), PhD (ibid.); Visiting Assistant Professor of Management Science and Information Systems. 2010.
- Burnap, Robert L.—BS (Univ of Michigan), MA (Univ of California, Los Angeles), PhD (Univ of California, Santa Barbara); Professor of Microbiology and Molecular Genetics. 1991.
- Burnham, David Kim—BS (Brigham Young Univ), MS (ibid.), PhD (Univ of Texas Health Sciences Center); Associate Professor of Microbiology and Molecular Genetics. 1988.

- Burrell, Anthony T. — BS (Univ. of California-Santa Barbara), MS (West Coast Univ.), PhD (Univ. of Virginia); Associate Professor of Computer Science. 1999.
- Buser, Michael Dean—AAS (Rogers State College), BS (Oklahoma State Univ), MS (ibid.), PhD (Texas A&M Univ); Associate Professor of Biosystems and Agricultural Engineering. 2009.
- Bylund, Per L.—B.Sc. (Jonkoping International Business School), MS (Jonkoping International Business School), MA (Lund Univ.), PhD (Univ. of Missouri); Assistant Professor of Entrepreneurship and Emerging Enterprises. 2015.
- Byrd-Craven, Jennifer—BA (Univ of New Mexico), MS (Univ of Texas, Tyler), PhD (Univ of Missouri); Assistant Professor of Psychology. 2008.
- Byrnes, Jeffrey Myer—BA (Case Western Reserve Univ.), PhD (Univ of Pittsburgh); Assistant Professor of Geology. 2007.
- Cabrera-Guzman, Elisa—Ph.D. (Univ. of Sydney, Australia); Clinical Assistant Professor of Zoology. 2016.
- Cai, Tony—BS (Tianjin Univ, China), MS (ibid.), PhD (Oklahoma State Univ); School of Chemical Engineering. 2010.
- Cain, James W.—BA (Univ of Delaware), PhD (Univ of Pennsylvania); Associate Professor of Philosophy. 1998.
- Caldwell, Lloyd N.—BA (Univ of Cincinnati), MFA (Virginia Commonwealth Univ); Associate Professor of Theatre. 2004.
- Campbell, Polly—PhD (Boston Univ.); Assistant Professor of Zoology. 2013.
- Cantley, Penny L.—BS (Univ of Oklahoma), PhD (ibid.); Visiting Assistant Professor of Teaching and Curriculum Leadership. 2011.
- Caplow, Nancy Jill—BA (Colgate Univ), MA (Indiana Univ), PhD (Univ of California, Santa Barbara); Assistant Professor of English. 2011.
- Cardwell, Kitty F.—B.S. (Univ. of Texas), Ph.D. (Texas A&M Univ.); Professor of Entomology & Plant Pathology. 2016.
- Carlozzi, Alfred—BA (Iona College), MA (Trinity Univ), EdD (Univ of Houston); Professor of Applied Health and Educational Psychology. 1979.
- Carlozzi, Barbara Jane—BA (Michigan State University), MEd (Univ of Houston), PhD (Oklahoma State Univ); Assistant Professor of Applied Health and Educational Psychology. 2001.
- Carlson, John Douglas—BS (Michigan State Univ), MS (Univ of Wisconsin-Madison), PhD (The Ohio State Univ); Research Associate of Biosystems and Agricultural Engineering. 1991.
- Carlson, Thomas A.—BA(Univ. of Washington), BS (Univ. of Washington), MA (Princeton Univ.), MDiv (Trinity Evangelical Divinity School), MS (Oxford Univ.), PhD (Princeton Univ.); Assistant Professor of History. 2014.
- Carpenter, Nancy J.—BA (Albion College), MS (Univ of Michigan), PhD (ibid.); Adjunct Professor of CHS: Biochemistry and Microbiology. 1995.
- Carroll, Pamela Sissi—BA (Auburn Univ.), BS (ibid.), MS (Florida State Univ.), EdD (ibid.); Professor of Teaching and Curriculum Leadership. 2012.
- Carroll, Stanley—B.Arch. (Univ. of Oklahoma), BS (Oklahoma State Univ.), M.Arch. (Architectural Association of London); Assistant Professor of Architecture. 2014.
- Carter, Brian J.—BS (Rutgers Univ), MS (Pennsylvania State Univ), PhD (ibid.); Professor of Plant and Soil Sciences. 1982.
- Carter, David A.—BS (Brigham Young Univ), MBA (Utah State Univ), PhD (Univ of Georgia); Professor of Finance. 1998.
- Carter, Scott D.—BS (Oklahoma State Univ), PhD (Univ of Kentucky); Associate Professor of Animal Science. 1997.
- Cartmell II, David Dwayne—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Missouri); Professor of Agricultural Education. 2001.
- Carver, Brett F.—BS (Univ of Georgia), MS (North Carolina State Univ), PhD (ibid.); Regents Professor of Plant and Soil Sciences. 1985.
- Case, Kenneth E.—BSEE (Oklahoma State Univ), MSIE (ibid.), PhD (ibid.); Regents Professor Emeritus of Industrial Engineering and Management. 1975.
- Casebolt, Mallory K.—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of Educational Studies. 2016.
- Cecil, Joe—BE (Anna Univ, India), MS (State Univ of New York), PhD (Texas A&M Univ); Associate Professor of Industrial Engineering and Management. 2009.
- Chakraborty, Goutam—BTech (Indian Institute of Technology, Kharagpur), MS (Univ of Iowa), PhD (ibid.); Professor of Marketing. 1991.
- Chambers, Frank W.—BSME (Purdue Univ), MSME (Univ of Pennsylvania), PhD (Purdue Univ); Associate Professor of Mechanical and Aerospace Engineering. 1989.
- Champlin, Franklin Ross—BS (Oklahoma State Univ), PhD (ibid.); Associate Professor of CHS: Biochemistry and Microbiology. 2006.
- Chan-Tin, Eric David—BA (Macalester College), MS (Univ of Minnesota), PhD (ibid.); Assistant Professor of Computer Science. 2011.
- Chandler, Damon Michael—BS (The Johns Hopkins Univ), MS (Cornell Univ), PhD (ibid.); Assistant Professor of Electrical and Computer Engineering. 2006.
- Chandrasekera, Tilanka R. — BSc (Univ. of Moratuwa, Sri Lanka), MSc (ibid.), PhD (Univ. of Missouri-Columbia); Assistant Professor of Design, Housing & Merchandising. 2013.
- Chaney, John M.—BA (Univ of Central Oklahoma), MS (Univ of Missouri), PhD (ibid.); Professor of Psychology. 1991.
- Chang, Hsien-Ho—BA (Central Police Univ., Taiwan), MA (Arizona State Univ.), PhD (Univ. of Delaware); Assistant Professor of Political Science. 2015.
- Chang, Young Bae—BS (Hankuk Aviation College), MS (Korea Advance Institute of Science and Technology), PhD (Oklahoma State Univ); Associate Professor of Engineering Technology Division. 1991.
- Charter, Virginia—BS (Oklahoma State University), MS (Worcester Polytechnic Institute); Assistant Professor of Engineering Technology Division. 2014.
- Chen, Charles—PhD (Univ. of British Columbia, Canada); Assistant Professor of Biochemistry & Molecular Biology. 2015.
- Chen, Guangping—BS (Heilongjiang Univ, China), MS (Beijing Univ, China), PhD (Univ of Texas at Austin); Associate Professor of VBS: Physiological Sciences. 2001.
- Chen, Tingting—BS (Harbin Institute of Technology, China), MS (ibid.), PhD (State Univ of New York at Buffalo); Assistant Professor of Computer Science. 2011.
- Cheng, An—BA (Hainan Normal Univ), MA (Guangdong Univ of Foreign Studies), PhD (Pennsylvania State Univ); Associate Professor of English. 2005.
- Cheng, Qi—BE (Shanghai Jiao Tong Univ), MS (Syracuse Univ), PhD (ibid.); Assistant Professor of Electrical and Computer Engineering. 2006.
- Chevill, Richard Alan—BSEE (Rice Univ), MSEE (ibid.), PhD (ibid.); Associate Professor of Electrical and Computer Engineering. 1995.
- Childers, Sarah Beth—B.A. (Marshall Univ.), M.F.A. (West Virginia Univ.); Assistant Professor of English. 2015.
- Cho, Jongmin—B.E. (INHA Univ., Korea), MS (Seoul National Univ., Korea), MS (The Univ. of British Columbia), PhD (Univ. of Texas); Assistant Professor of Physics. 2015.
- Choo, Phil—BA (Seoul National Univ. of Technology, Korea), MFA (Iowa State Univ.); Associate Professor of Art. 2012.
- Chowanadisai, Winyoo—BA (Univ. of California at Berkeley), PhD (Univ. of California at Davis); Assistant Professor of Nutritional Sciences. 2014.
- Chowdhary, Girish—BEN (Royal Melbourne Institute of Technology), MS (Georgia Institute of Technology), PhD (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2013.

- Chung, Chanjin—BS (Kon-Kuk Univ.), MS (ibid.), PhD (Univ of Minnesota); Professor of Agricultural Economics. 2003.
- Chung, Yea Sun—BA (Sogang Univ, Korea), MS (Virginia Technical Univ), PhD (ibid.); Assistant Professor of Hotel and Restaurant Administration. 2011.
- Ciciolla, Lucia—B.A. (Wellesley College), M.A. (Arizona State Univ.), Ph.D. (ibid.); Assistant Professor of Psychology. 2016.
- Clare, Gregory Paul—BA (Michigan State Univ.), MBA (Univ. of Phoenix), PhD (Michigan State Univ.); Assistant Professor of Design, Housing & Merchandising. 2012.
- Clark, Burton Adrian— BS (Strayer Univ.), MA (Catholic Univ. of America), EdD (Nova Southeastern Univ.); Adjunct Professor of Political Science. 2013.
- Clark, Mary Kristen—BS (Univ. of North Carolina at Greensboro), MS (Univ. of North Carolina at Chapel Hill), PhD (Univ. of North Carolina at Greensboro); Assistant Professor of Communications Sciences and Disorders. 2012.
- Clark, Peter E. — BS (Oklahoma State Univ.), PhD (ibid.); Professor of Chemical Engineering. 2013.
- Clarke, Stephen L.—BS (Univ of Oklahoma Health Science Center), MS (ibid.), PhD (Univ of Wisconsin-Madison); Assistant Professor of Nutritional Sciences. 2007.
- Clary, Cynda R.— BS (California Polytechnic State Univ.), MS (Purdue Univ.), PhD (North Carolina State Univ.); Professor of Agricultural Economics. 2012.
- Clawson, Ashley Hum—Ph.D. (Univ. of Memphis); Assistant Professor of Psychology. 2016.
- Cline, David—BS (Brigham Young Univ), MS (ibid.), PhD (ibid.); Visiting Assistant Professor of Computer Science. 2011.
- Clinkenbeard, Kenneth D.—BS (Univ of California), DVM (ibid.), PhD (Johns Hopkins Univ); Professor of VBS: Pathobiology. 1986.
- Cobb-Greetham, Amanda Jane—BA (Southeastern Oklahoma State Univ), MS (Univ of North Texas), PhD (Univ of Oklahoma); Associate Professor of English. 2009.
- Coffey, William Scott—BS (Valparaiso Univ), MS (Univ of Arkansas), PhD (Oklahoma State Univ); Adjunct Assistant Professor of Geology, 2009.
- Coffman, Elizabeth—BS (Univ. of Tennessee), MS (Ohio State Univ.), D.V.M. (ibid.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2015.
- Cohen, Alex William— BS (Univ. of Arizona), MS (ibid.), MD (Yeshiva Univ.), PhD (ibid.); Adjunct Associate of VBS: Veterinary Clinical Sciences. 2013.
- Cole, Belinda McCharen—BS (Southwestern Oklahoma State Univ.), MEd (Univ. of Central Oklahoma), EdD (Oklahoma State Univ.); Associate Professor of Teaching and Curriculum Leadership. 2008.
- Cole, Ki Matlock—B.S. (Univ. of Arkansas), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of Educational Studies. 2014.
- Cole (Henderson), Janet C.—BS (South Dakota State Univ), MS (Kansas State Univ), PhD (Texas A&M Univ); Regents Professor of Horticulture and Landscape Architecture. 1988.
- Cole-Lade, Gretchen—B.S. (Old Dominion Univ.), M.Ed. (Boston Univ.), Ph.D. (Oklahoma State Univ.); Assistant Professor of Human Development & Family Science. 2015.
- Collins, Terry R.—BS (Texas Tech Univ), MS (ibid.), PhD (Oklahoma State Univ); Associate Professor of Industrial Engineering and Management. 2007.
- Comer, Jonathan—BA (Indiana Univ), MA (Ohio State Univ), PhD (ibid.); Professor of Geography. 1994.
- Compton, Paul R.—BM (Univ of Texas at Arlington), MM (ibid.), DMA (Univ of North Texas); Associate Professor of Music. 2003.
- Condacse, Anne-Marie—BS (Lic Ind 37), MM (Rice Univ); Associate Professor of Music. 2005.
- Confer, Anthony W.—BS (Oklahoma State Univ), MS (Ohio State Univ), DVM (ibid.), PhD (Univ of Missouri); Regents Professor of VBS: Pathobiology. 1981.
- Conner, Joseph P.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Adjunct Assistant Professor of Mechanical and Aerospace Engineering. 2010.
- Conway, Tyrrell—B.S. (Oklahoma State Univ), Ph.D. (Oklahoma State Univ.); Professor of Microbiology & Molecular Genetics. 2015.
- Cook, Gabriel—BS (Concordia Univ.),PhD.(Kansas State Univ.); Assistant Professor of Chemistry. 2014.
- Cook, John Paul—BS (Univ. of Oklahoma), MA (Ibid.), PhD (ibid.); Assistant Professor of Mathematics. 2015.
- Coon, Thomas—BA (Luther College), MS (Univ. of California-Davis), Ph.D. (ibid.); Professor of Natural Resource Ecology and Management. 2014.
- Cooper, James F.—BA (Univ of Connecticut), MA (ibid.), PhD (ibid.); Professor of History. 1988.
- Cooper, Steven R.—BS (Texas Tech Univ), MS (Univ of Illinois), PhD (Oklahoma State Univ); Associate Professor of Animal Science. 1999.
- Cordova, Carlos E.—BA (National Autonomous Univ of Mexico), MA (ibid.), PhD (Univ of Texas at Austin); Professor of Geography. 1997.
- Cornell, Robert M.—BS (Truman State Univ), PhD (Univ of Utah, Salt Lake City); Assistant Professor of Accounting. 2006.
- Cosh, Michael H. — BS (Pennsylvania State Univ.), MS (Cornell Univ.), PhD (ibid.); Adjunct Associate of Plant and Soil Sciences. 2012
- Cox, Charles Bryan—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Professor of Agricultural Education. 1988.
- Cox, Jr., Ronald Blake—BA (Harding Univ), MA (Univ of Louisiana, Monroe), PhD (Michigan State Univ); Assistant Professor of Human Development and Family Science. 2007.
- Crauder, Bruce—BA (Haverford College), MA (Columbia Univ), PhD (ibid.); Professor of Mathematics. 1986.
- Cremaschi, Lorenzo—BS (Univ of Modena), MS (ibid.), PhD (Univ of Maryland); Assistant Professor of Mechanical and Aerospace Engineering. 2006.
- Crethar, Hugh C.—BS (Brigham Young Univ), PhD (Univ of Oklahoma); Associate Professor of Applied Health and Educational Psychology. 2009.
- Cribbs, Jennifer D—B.S. (Florida Institute of Technology), M.A. (Converse College), Ph.D. (Clemson Univ.); Assistant Professor of Teaching and Curriculum Leadership. 2016.
- Crick, Christopher John—BA (Harvard Univ.), MS (ibid.), PhD (Yale Univ.); Assistant Professor of Computer Science. 2012.
- Criss, Michael M.—BS (Illinois State Univ), MS (ibid.), PhD (Auburn Univ); Associate Professor of Human Development and Family Science. 2005.
- Crochik, Sonia—MS (ibid.), DVM (ibid.); Associate Professor of VBS: Veterinary Clinical Sciences. 2012.
- Croff, Julie May—BS (San Diego State Univ), MPH (Boston Univ), PhD (Joint Doctoral Program UCSD & SDSU); Assistant Professor of Applied Health and Educational Psychology. 2010.
- Cross, Stephen Alan—BS (Univ of Arkansas), MS (ibid.), PhD (Auburn Univ); Professor of Civil and Environmental Engineering. 2003.
- Cruse, Anna M.—BS (Univ of Missouri, Columbia), MS (ibid.), PhD (Massachusetts Institute of Technology/Woods Hole Oceanographic Institution (Joint Program)); Assistant Professor of Geology. 2005.
- Currier, Kevin M.—BS (State Univ of New York at Albany), MA (ibid.), PhD (ibid.); Professor of Economics. 1984.
- Curry, Katherine A.—BS (West Texas State Univ), MEd (Southeastern Oklahoma State Univ), EdD (Univ of Oklahoma); Assistant Professor of Educational Studies. 2011.
- Curtis, Catherine R.—BM (Rider Univ), MS (Univ of Central Florida), PhD (ibid.); Assistant Professor of Hotel and Restaurant Administration. 2011.

- Curtis, Joseph Thomas—BS (Slippery Rock Univ), MS (Univ of Pittsburgh), PhD (Univ. of Missouri); Assistant Professor of CHS: Pharmacology and Physiology. 2006.
- Curtis, Kathleen S.—BS (Slippery Rock Univ), MS (Univ of Pittsburg), PhD (ibid.); Assistant Professor of CHS: Pharmacology and Physiology. 2006.
- D'Andrea, David M.—BA (Univ of Rhode Island), MA (Univ of Virginia), PhD (ibid.); Associate Professor of History. 2003.
- D'Offay, Jean Michel—BVSc (Pretoria, South Africa), Dip TVM (Edinburgh, Scotland), PhD (Univ of Missouri, Columbia); Professor of VBS: Pathobiology. 1986.
- Dai, Ho-Kwok—BMath (Univ of Waterloo), MS (Univ of Washington), PhD (ibid.); Associate Professor of Computer Science. 1998.
- Dalal, Nikunj P.—BS (MS Univ), MBA (South Gujarat Univ), MS (Texas Tech Univ), PhD (South Gujarat Univ); Associate Professor of Management Science and Information Systems. 1990.
- Damicone, John P.—BS (Univ of Rhode Island), MS (Univ of Massachusetts), PhD (ibid.); Professor of Entomology and Plant Pathology. 1990.
- Damron, Rebecca Lynn—BA (Univ of Wisconsin), MA (Oklahoma State Univ), PhD (ibid.); Assistant Professor of English. 2001.
- Daniel-Wariya, Joshua—PhD (Texas Christian Univ.); Assistant Professor of English. 2014.
- Danilowicz, Bret S.—B.S. (Syracuse Univ.), M.A. (Open Univ.), M.B.A. (Georgia Southern Univ.), Ph.D. (Duke Univ.); Professor of Zoology. 2012.
- Dare, William H.—BS (Univ of Maryland), MBA (Virginia Technical Univ), PhD (ibid.); Associate Professor of Finance. 2000.
- Davenport, John Lawrence—BA (Univ. of Oklahoma), MA (California State Univ. Northridge), PhD (Univ. of Kentucky); Visiting Assistant Professor of Geography. 2012.
- Davis, Charles Robert—BS (Univ of Oklahoma), MS (ibid.), PhD (ibid.); Associate Professor of Teaching and Curriculum Leadership. 1983.
- Davis, Craig Allen—BS (Ohio State Univ), MS (Iowa State Univ), PhD (Texas Tech Univ); Associate Professor of Natural Resource Ecology and Management. 2001.
- Davis, David W.—B.S. (Texas Tech Univ.), M.S. (Univ. of Houston), Ph.D. (Oklahoma State Univ.); Clinical Assistant Professor of Hotel & Restaurant Administration. 2017.
- Davis, Kimberly Bryant—BA (Univ. of Florida), MEd (ibid.), PhD (Univ. of Central Florida); Assistant Professor of Teaching and Curriculum Leadership. 2012.
- Davis, Michael Scott—MS (Virginia Technical Univ), DVM (Texas A&M Univ), PhD (John Hopkins Univ.); Associate Professor of VBS: Physiological Sciences. 1998.
- Davis, Randall L.—BS (Oklahoma State Univ), MS (ibid.), PhD (Texas Tech Univ); Associate Professor of CHS: Pharmacology and Physiology. 2004.
- Davis, Robert Evan—BS (Oklahoma State Univ.), MBA (ibid.), PhD (ibid.); Visiting Assistant Professor of Educational Studies. 2011.
- Dawson, Lionel James—BVSc (Madras Veterinary College), MS (Iowa State Univ); Professor of VBS: Veterinary Clinical Sciences. 2007.
- Day, Greg—BA (Antioch College), J.D. (Univ. of North Carolina), PhD (Univ. of Mississippi); Assistant Professor of Economics. 2014.
- Decker, William M.—BA (Denison Univ), PhD (Univ of Iowa); Professor of English. 1994.
- DeFreitas, Jason Michael—BS (Univ. of Connecticut), MS (Univ. of Oklahoma), PhD (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2013.
- Delahoussaye, Ronald D.—BSME (Louisiana Technical Univ), MSME (Georgia Institute of Technology), PhD (Oklahoma State Univ); Adjunct Professor of Mechanical and Aerospace Engineering. 1995.
- Delatte, Norbert J.—B.S. (The Citadel), M.S. (Massachusetts Institute of Technology), Ph.D. (Univ. of Texas); Assistant Professor of Civil & Environmental Engineering. 2016.
- Delen, Dursun—BS (Istanbul Technique Univ), MS (Yildiz Technique Univ), PhD (Oklahoma State Univ); Assistant Professor of Management Science and Information Systems. 2002.
- Deng, Junpeng—BS (Univ of Science & Technology, China), MS (Chinese Academy of Sciences, China), PhD (The Ohio State Univ); Associate Professor of Biochemistry and Molecular Biology. 2007.
- Deng, Shiping—BS (Southwest Agriculture Univ, China), MS (Oregon State Univ), PhD (Iowa State Univ); Professor of Plant and Soil Sciences. 1998.
- Depperschmidt, Chad L.—BS (Oklahoma State Univ), MS (ibid.), EdD (ibid.); Assistant Professor of Educational Studies. 2009.
- DeSilva, Udaya Enderawasam—BVSc (Univ of Peradeniya, Sri Lanka), MS (Kansas State Univ), PhD (Washington Univ); Associate Professor of Animal Science. 2001.
- DeVuyst, Cheryl—BS (Purdue Univ.), MS (ibid.), PhD (Univ. of Illinois at Urbana-Champaign); Professor of Agricultural Economics. 2015.
- DeVuyst, Eric A.—BS (Michigan State Univ), MS (ibid.), PhD (Purdue Univ); Professor of Agricultural Economics. 2009.
- DeYong, Camille F.—BS (Oklahoma State Univ), ME (ibid.), PhD (ibid.); Associate Professor of Industrial Engineering and Management. 1995.
- Dickey, Thomas Taylor—B.M. (Eastern Illinois Univ.), M.M. (Louisiana State Univ.), D.M.A. (Univ. of Georgia); Associate Professor of Music. 2016.
- Dickinson, Amber R. —BA (The Univ. of Oklahoma), MA (Oklahoma State Univ.), PhD (The Univ. of Kansas); Clinical Assistant Professor of Political Science. 2011.
- Dionne, Robert Andre—BS (State Univ. of New York, Binghamton), MA (Embry Riddle Aeronautical Univ.), PhD (Oklahoma State Univ.); Visiting Assistant Professor of Educational Studies. 2010.
- Doherty, William J.—BA (St Paul's College), MA (Univ of Connecticut), PhD (ibid.); Adjunct Associate Professor of Human Development and Family Science. 2010.
- Dotterer, Gary Paul—BS (ibid.), MS (ibid.), PhD (ibid.); Adjunct Professor of Teaching and Curriculum Leadership. 2012.
- Doust, Andrew N.—BS (Univ of Sydney), DEd (Univ of New England), PhD (Univ of Melbourne); Assistant Professor of Botany. 2007.
- Doye, Damona Grace—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Regents Professor of Agricultural Economics. 1986.
- Dresser, Michael Edward—BA (Duke Univ), MD (ibid.), PhD (ibid.); Biochemistry and Molecular Biology. 2011.
- Du, Yongtao—BA (Henan Univ), MA (Beijing Univ), PhD (Univ of Illinois); Assistant Professor of History. 2009.
- Dugat, Danielle Renee—BS (California Polytechnic State Univ.), MS (ibid.), DVM (Oklahoma State Univ.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2013.
- Duhon, Gary J.—BA (Nichols State Univ), MA (Louisiana State Univ), PhD (ibid.); Associate Professor of Applied Health and Educational Psychology. 2001.
- Dunford, Nurhan Turgut.—BS (Middle East Technical Univ), MS (Univ of Ankara), PhD (Univ of Alberta); Professor of Biosystems and Agricultural Engineering. 2001.
- Dunlap, Riley E.—BA (San Francisco State College), MS (Univ of Oregon), PhD (ibid.); Regents Professor of Sociology. 2005.
- Dunn, Bruce Lunday—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Arkansas); Assistant Professor of Horticulture and Landscape Architecture. 2009.
- DuRant, Sarah Elizabeth—BS (Univ. of South Carolina), MS (Virginia Tech Univ.), PhD (ibid.); Assistant Professor of Zoology. 2013.
- Dvorkin, Jack P. —MS (Moscow Univ.), PhD (ibid.); Adjunct Professor of Geology. 2012.
- Dyke, Erin—B.A. (Truman State Univ.), M.A. (DePaul Univ.), Ph.D. (Univ. of Minnesota); Assistant Professor of Teaching and Curriculum Leadership. 2016.

- Dzialowski, Andrew R.—BS (Michigan State Univ), MA (Univ of Kansas), PhD (ibid.); Assistant Professor of Zoology. 2007.
- Eastman, Kenneth K.—BBA (Iowa State Univ), MS (ibid.), PhD (Univ of Nebraska); Associate Professor of Management. 1989.
- Eberle, Richard W.—BA (Univ of California, Los Angeles), PhD (Baylor College of Medicine); Professor of VBS: Pathobiology. 1990.
- Ede, Kenneth F.—BA (Univ of South Florida), MS (Northeastern State Univ), PhD (Oklahoma State Univ); Adjunct Professor of Environmental Sciences. 2008.
- Edwards, Bryan D.—BS (Univ of Alabama), MS (Univ of South Alabama), PhD (Texas A&M Univ); Associate Professor of Management. 2010.
- Edwards, Jeffrey Todd—BS (Western Kentucky Univ), MS (Univ of Arkansas), PhD (ibid.); Associate Professor of Plant and Soil Sciences. 2004.
- Edwards, Michael Craig—BS (Sam Houston State Univ), MEd (ibid.), PhD (Texas A&M Univ); Professor of Agricultural Education. 2002.
- Edwards, Steven William—BPE (Purdue Univ), MS (ibid.), PhD (ibid.); Professor of Applied Health and Educational Psychology. 1982.
- Ekin, Sabit—B.Sc. (Eskisehir Osmangazi Univ., Turkey), M.Sc. (New Mexico Institute of Mining and Technology), Ph.D. (Texas A&M Univ.); Assistant Professor of Electrical & Computer Engineering. 2016.
- Ekman, Erik—BA (Univ of California, Santa Cruz), MA (Univ of Michigan), PhD (ibid.); Assistant Professor of Foreign Languages and Literature. 2010.
- Ekneligoda, Nishantha Chaminda—BSc (Univ. of Moratuwa, Sri Lanka), MS (ibid.), MS (Southern Methodist Univ.), MS (Univ. of Moratuwa, Sri Lanka), PhD (Michigan Technological Univ.); Assistant Professor of Electrical & Computer Engineering. 2014.
- El Rassi, Ziad—BS (Lebanese Univ), MS (Claude-Bernard Univ), PhD (ibid.); Professor of Chemistry. 1988.
- Elbing, Brian R.—BS (Western Michigan Univ.), MSE (Univ. of Michigan), PhD (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2013.
- Eldevik, Randi—BA (Univ of Minnesota), MA (Harvard Univ), PhD (ibid.); Associate Professor of English. 1987.
- Elliott, Norman Charles—BS (Western Michigan Univ), MS (ibid.), PhD (Michigan State Univ); Adjunct Professor of Entomology and Plant Pathology. 1990.
- Elliott, Ronald L.—BS (Univ of Illinois), MS (ibid.), PhD (Colorado State Univ); Professor Emeritus of Biosystems and Agricultural Engineering. 1981.
- Elmore, Robert Dwayne—BS (Univ of Tennessee), MS (Mississippi State Univ), PhD (Utah State Univ); Assistant Professor of Natural Resource Ecology and Management. 2006.
- Elshahed, Mostafa Samir—BS (Cairo Univ), PhD (Univ of Oklahoma); Associate Professor of Microbiology and Molecular Genetics. 2007.
- Emerson, Robert Neal—BS (Univ of Oklahoma), MS (Washington State Univ), PhD (ibid.); Associate Professor of Civil and Environmental Engineering. 2000.
- England, Robert E.—BA (Oklahoma College of Liberal Arts), MPA (Univ of Oklahoma), PhD (ibid.); Professor of Political Science. 1982.
- Engle, David M.—BS (Abilene Christian College), MS (ibid.), PhD (Colorado State Univ); Professor of Natural Resource Ecology and Management. 1982.
- Epplin, Francis M.—BS (Southern Illinois Univ), MS (ibid.), PhD (Iowa State Univ); Professor of Agricultural Economics. 1979.
- Escoubas, Joseph Roy—BS (McNeese State Univ.), MS (Oklahoma State Univ), PhD (ibid.); Professor of Animal Science. 2002.
- Eshleman, Dan—BS (North Carolina State Univ.), PhD. (Louisiana State Univ.); Assistant Professor of Accounting. 2014.
- Etamadpour, Ronak—M.Sc. (Univ. of Sains, Malaysia), PhD (Jacobs Univ. Bremen); Assistant Professor of Computer Science. 2015.
- Fabregas, Maria (Lupita) Guadalupe—BS (Instituto Tecnológico y de Estudios Superiores de Monterrey), MS (Universidad Popular Autónoma del Estado de Puebla), PhD (Oklahoma State Univ); Adjunct Professor of Agricultural Education. 2010.
- Fahlenkamp, Heather Dawn Nicole—BS (Oklahoma State Univ), MS (Univ of Utah), PhD (Oklahoma State Univ); Assistant Professor of Chemical Engineering. 2006.
- Fain, James Robert—BA (Univ of Texas at Austin), MS (Purdue Univ), PhD (ibid.); Professor of Economics. 1986.
- Fairbanks, Wendelyn Sue—BS (Nebraska Wesleyan Univ.), MS (Colorado State Univ.), PhD (Univ. of Kansas); Assistant Professor of Natural Resource Ecology and Management. 2013.
- Fan, Guoliang—BS (Xian Univ of Technology), MS (Xidian Univ of China), PhD (Univ of Delaware); Professor of Electrical and Computer Engineering. 2001.
- Fang, Xiang—Associate Professor of Marketing; 2003.
- Farris, Rodney Lewis—BS (ibid.), BS (ibid.), MS (ibid.), PhD (ibid.); Adjunct Assistant Professor of Plant and Soil Sciences. 2010.
- Fathepure, Babu—BS (Karnataka Univ), MS (ibid.), PhD (Indian Inst of Science, Bangalore); Associate Professor of Microbiology and Molecular Genetics. 2000.
- Fekete, Emily—B.A. (Univ. of New Hampshire), B.A. (ibid.), M.A. (Kent State Univ.), Ph.D. (Univ. of Kansas); Clinical Assistant Professor of Geography. 2015.
- Fennell, Christopher Joseph—BS (Drake Univ.), PhD (Univ. of Notre Dame); Assistant Professor of Chemistry. 2013.
- Ferrell, Shannon Lee—BS (Oklahoma State Univ), MS (ibid.), JD (Oklahoma City Univ School of Law); Assistant Professor of Agricultural Economics. 2008.
- Fielder, Susan E.—B.S. (Univ. of Oklahoma), M.S. (Univ. of Oklahoma), D.V.M. (Oklahoma State Univ.); Clinical Assistant Professor of VBS: Pathobiology. 2016.
- Fili, Paul A.—BA (Harvard Univ), PhD (Univ of Texas at Austin); Assistant Professor of Mathematics. 2013.
- Finch, Bryan Lewis—BS (Univ of Oklahoma), MBA (Arizona State Univ), PhD (Texas A&M Univ); Visiting Professor of Management. 2011.
- Finchum, George Allen—BS (East Tennessee State Univ), MA (Univ of Cincinnati), PhD (Univ of Tennessee); Associate Professor of Geography. 1996.
- Finchum, Tanya Ducker—BSW (East Tennessee State Univ), MA (Univ of Cincinnati), MLS (The Univ of Tennessee), PhD (Oklahoma State Univ); Associate Professor of Human Development and Family Science. 2006.
- Fink, Kevin Jordan—BS (Truman State Univ.), MS (Oklahoma State Univ.), PhD (ibid.); Research Associate of Nutritional Sciences. 2011.
- Finley, Patrick Michael—BA (Univ. of Wisconsin at Eau Claire), MFA (Iowa State Univ.); Assistant Professor of Art. 2013.
- Fishbein, Mark—BS (Univ of Illinois), MS (Univ of Arizona), PhD (ibid.); Associate Professor of Botany. 2010.
- Fisher, Daniel E.—BA (Carthage College), BS (Univ of Illinois), MS (ibid.) PhD (ibid.); Professor of Mechanical and Aerospace Engineering. 1999.
- Fisher, John Berton—BS (Yale Univ.), MS (Case Western Reserve Univ.), PhD (ibid.); Assistant Professor of Environmental Sciences. 2012.
- Fisher, Lance M.—BS (Brigham Young Univ), MS (ibid.), PhD (Univ of Arizona). Assistant Professor of Accounting, 2009.
- Fitch, Gerald—BS (California Polytech State Univ), MS (Colorado State Univ), PhD (ibid.); Professor of Animal Science. 1987.
- Flaherty-Pappas, Karen E.—BS (Providence College), MBA (Suffolk Univ), PhD (Univ of Massachusetts); Assistant Professor of Marketing. 2002.
- Focht, William J.—BE (Vanderbilt Univ), BS (Univ of Ohio), MA (Oklahoma State Univ), PhD (ibid.); Associate Professor of Political Science. 1994.
- Fontanier, Charles—B.S. (Texas A&M Univ.), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of Horticulture & Landscape Architecture. 2016.

- Ford Versypt, Ashlee—BS (Univ of Oklahoma), MS (Univ. of Illinois at Urbana-Champaign), PhD (ibid.); Assistant Professor of Chemical Engineering. 2014.
- Foubert, John D.—BA (College of William and Mary), MA (Univ of Richmond), PhD (Univ of Maryland, College Park); Associate Professor of Educational Studies. 2009.
- Foutch, Gary Lynn—BS (Univ of Missouri, Rolla), MS (ibid.), PhD (ibid.); Regents Professor of Chemical Engineering. 1980.
- Francisco, Christopher Alan—BS (Univ of Illinois, Urbana), MS (Cornell Univ), PhD (ibid.); Assistant Professor of Mathematics. 2007.
- Frankwick, Gary—BBA (Univ of Wisconsin, Madison), MBA (Univ of Wisconsin, Oshkosh), PhD (Arizona State Univ); Associate Professor Emeritus of Marketing. 1990.
- Frazier, Amy Elizabeth—BA (Dartmouth College), MA (West Chester Univ.), PhD (State Univ. of New York at Buffalo); Assistant Professor of Geography. 2013.
- Frazier, Robert Scott—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Biosystems and Agricultural Engineering, 2009.
- Freeman, Craig—BA (Johns Hopkins Univ.), J.D. (Paul M. Herbert Law Center); Associate Professor of Media and Strategic Communications. 2014.
- Frehner, Brian W.—BA (Univ of California Los Angeles), MA (Univ of Nevada Las Vegas), PhD (Univ of Oklahoma); Associate Professor of History. 2006.
- French, Donald P.—BS (Fordham Univ), MS (ibid.), PhD (Indiana Univ); Professor of Zoology. 1992.
- French, Eric Michael—B.A. (Univ. of Nebraska), M.A. (ibid.), Ph.D. (Indiana Univ.); Assistant Professor of Political Science. 2013.
- Fried, Vance H.—BS (Oklahoma State Univ), JD (Michigan State Univ); Professor of Entrepreneurship and Emerging Enterprise. 1987.
- Frohock, Richard Randall—BA (The Colorado College), MA (Univ. of California, Santa Barbara), PhD (ibid.); Associate Professor of English. 1996.
- Fry, Pamela Martin—BS (Univ of Oklahoma), MS (ibid.), EdD (Oklahoma State Univ); Professor of Teaching and Curriculum Leadership. 2001.
- Fuhlendorf, Samuel D.—BS (Angelo State Univ), MS (Texas A&M), PhD (ibid.); Professor of Natural Resource Ecology and Management. 1997.
- Fullerton, Andrew S.—BS (Michigan State Univ), MA (Indiana Univ), PhD (Univ of Connecticut); Assistant Professor of Sociology. 2008.
- Fullerton, Jami A.—BA (Univ of Oklahoma), MJ (Univ of North Texas, Denton), PhD (Univ of North Texas); Associate Professor of Media and Strategic Communications. 1998.
- Furr, Martin—MA (Michigan State Univ.), D.V.M. (Oklahoma State Univ.), PhD (Univ. of Maryland); Professor of VBS: Physiological Sciences. 2015.
- Gade, Mary Nell—BS (Univ of Wisconsin, Oshkosh), MA (Michigan State Univ), PhD (ibid.); Associate Professor of Economics. 1986.
- Gaeta, Richard Joseph—BS (Georgia Institute of Technology), MS (Univ. of Cincinnati), PhD (Georgia Institute of Technology); Adjunct Associate Professor of Mechanical and Aerospace Engineering. 2012.
- Gallagher, Anne-Katrin—M.S. (The Ohio State Univ.), Ph.D. (ibid.); Assistant Professor of Mathematics. 2016.
- Gallus (Schwerdtfeger), Kami Lyn—BS (Anderson Univ.), MS (Kansas State Univ.), PhD (Texas Tech Univ.); Assistant Professor of Human Development & Family Science. 2007.
- Garbutt, Keith—B.Sc. (Univ. of Wales), Ph.D. (ibid.); Professor of Botany. 2014.
- Garcia, Eric Anthony—BM (Univ. of Texas at Austin), MM (ibid.), DMA. (Northwestern Univ.); Assistant Professor of Music. 2013.
- Gardner, Brandt Craig—BS (Brigham Young Univ), MS (ibid.), PhD (Texas Tech Univ); Assistant Professor of Human Development and Family Science. 2004.
- Gardner, Ryan Bernard—BM (Eastman School of Music), MM (Rice Univ), DMA (Manhattan School of Music); Assistant Professor of Music. 2011.
- Garzon, Carla Domenica—BS (Pontificia Universidad Catolica del Ecuador), PhD (Pennsylvania State Univ); Assistant Professor of Entomology and Plant Pathology. 2009.
- Gasem, Khaled A. M.—BS (Oklahoma State Univ), MS (Colorado School of Mines), PhD (Univ of California, Berkeley); Professor of Chemical Engineering. 1987.
- Gates, Gail E.—BS (Texas Tech Univ), MS (ibid.), PhD (Pennsylvania State Univ); Regents Service Professor of Nutritional Sciences. 1995.
- Geertsema, Marten—BSc (Univ of Alberta), MSc (ibid.), PhD (Univ of Utrecht, Netherlands); Department of Natural Resource Ecology and Management. 2010.
- Gelder, John Ives—BS (Western Washington Univ), MS (Univ of Wisconsin), PhD (Univ of Arizona); Professor of Chemistry. 1977.
- Gelfand, Scott D.—BA (Univ of Southern Florida), JD (Georgetown Univ Law Center), PhD (Univ. of Maryland); Associate Professor of Philosophy. 1998.
- George, K. M.—BSc (Univ of Madras, India), MSc (ibid.), PhD (State Univ of New York at Stony Brook); Professor of Computer Science. 1986.
- Gethner, Perry J.—BA (Carleton College), MA (Yale Univ), PhD (ibid.); Regents Professor of Foreign Languages and Literature. 1984.
- Ghajar, Afshin J.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Regents Professor of Mechanical and Aerospace Engineering. 1981.
- Ghosh, Amit—BSc (Imperial College, London), PhD (Nottingham Univ); Professor of Mathematics. 1983.
- Giddens, Cheryl LeAnn—BS (Univ of Oklahoma), MS (Univ of Oklahoma Health Science Center), PhD (ibid.); Assistant Professor of Communication Sciences and Disorders. 2004.
- Gignac, Paul Michael—BS (Univ. of Connecticut), PhD (Florida State Univ.); Assistant Professor of CHS: Anatomy and Cell Biology. 2013.
- Giles, Kristopher L.—BS (Alma College), MS (Iowa State Univ), PhD (ibid.); Associate Professor of Entomology and Plant Pathology. 1997.
- Gill, Duane A.—BA (Central College, Iowa), MA (Kansas State Univ), PhD (Texas A&M Univ); Professor of Sociology. 2011.
- Gilliam, Lyndi Liane—BS (Oklahoma State Univ), DVM (ibid.), Diplomate (ibid.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2009.
- Gilmour, Margi Ann—BS (Michigan State Univ.), DVM (ibid.); Associate Professor of VBS: Veterinary Clinical Sciences. 2009.
- Goad, Carla Lynn—BS (Friends Univ), MS (Kansas State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Statistics. 1994.
- Goh, Ben Kok Beng—BS (Texas Tech Univ.), MBA. (Texas Tech Univ.), EdD. (Nova Southeastern Univ.); Professor of Hotel & Restaurant Administration. 2014.
- Golliver, April Dawn—BM (Oklahoma City Univ), MM (Indiana Univ); Associate Professor of Music. 2002.
- Gong, Yanmin (Emily)—B.E. (Huazhong Univ. of Science & Technology, China), M.S. (Tsinghua Univ., China), Ph.D. (Univ. of Florida); Assistant Professor of Electrical & Computer Engineering. 2016.
- Gonzalez, Cristina Cruz—BA (Yale Univ), MA (Univ of Texas, Austin), MPhil (Cambridge Univ), PhD (Univ of Chicago); Assistant Professor of Art. 2008.
- Good, James Keith—BSME (Oklahoma State Univ), MME (ibid.), PhD (ibid.); Professor of Mechanical and Aerospace Engineering. 1980.
- Goodman, Laura E.—BS (Abilene Christian Univ.), MS (New Mexico State Univ.), PhD (ibid.); Assistant Professor of Natural Resource Ecology and Management. 2015.
- Gordon, Sarah R.—B.S. (ibid.), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of Educational Studies. 2014.
- Govindaraju, Nirmal—B.E. (National Institute of Technology, India), MS (Washington State Univ.), PhD (North Carolina State Univ); Assistant Professor of Materials Science and Engineering. 2014.

- Graham, Emily E. — BA (Smith College), MA (Univ. of St Andrews, Scotland), PhD (ibid.); Assistant Professor of History. 2013.
- Graham, Toni—BA (New College of California), MA (San Francisco State Univ), MFA (ibid.); Associate Professor of English. 2000.
- Grammer, Michael— BA (Univ. of South Florida), MS (Southern Methodist Univ.), PhD (Univ. of Miami); Professor of Geology. 2012.
- Grant, DeMond M.—BA (Pennsylvania State Univ), MA (State Univ of New York, Buffalo), PhD (ibid.); Assistant Professor of Psychology. 2009.
- Grantham, Richard Allen—BS (Univ of Central Oklahoma), MS (ibid.), PhD (Oklahoma State Univ); Adjunct Assistant Professor of Entomology and Plant Pathology. 2003.
- Greco, Lindsey M.—B.S. (Univ. of Georgia), M.A. (Western Kentucky Univ.), Ph.D. (Univ. of Iowa); Assistant Professor of Management. 2016.
- Greenbaum, Rebecca L.—BS (Univ of Florida), MS (Univ of Central Florida), PhD (ibid.); Assistant Professor of Management. 2010.
- Greenwood, Carmen—BS (Western Carolina Univ), MS (Longwood Univ), PhD (North Carolina State Univ); Assistant Professor of Entomology and Plant Pathology. 2007.
- Greer, Alex—BS (East Tennessee State Univ.), MS (Univ. of Delaware), PhD (ibid.); Assistant Professor of Political Science. 2015.
- Gregg, Jay Mason—BS (Bowling Green State Univ), MS (Oklahoma State Univ), PhD (Michigan State Univ.); Professor of Geology. 2005.
- Gregory, Garry H.—BS (Oklahoma City Univ), MSCE (South Dakota Tech), PhD (Oklahoma State Univ); Adjunct Professor of Civil and Environmental Engineering. 2009.
- Greiner, Alyson L.—BA (Mary Washington College), MA (Univ of Missouri, Columbia), PhD (Univ of Texas, Austin); Associate Professor of Geography. 1996.
- Grice, James W.—BS (Wright State Univ.), MS (Univ of New Mexico), PhD (ibid.); Professor of Psychology. 2001.
- Grindstaff, Jennifer Lynn—BA (Knox College), PhD (Indiana Univ); Assistant Professor of Zoology. 2007.
- Grischkowsky, Daniel R.—BS (Oregon State Univ), MA (Columbia Univ), PhD (ibid.); Regents Professor of Electrical and Computer Engineering. 1993.
- Gross, Marjorie Ellen—BS (Univ of Oklahoma), MS (Univ of Illinois), DVM (Oklahoma State Univ); Associate Professor of VBS: Veterinary Clinical Sciences. 2010.
- Grubgeld, M. Elizabeth—BA (Lewis and Clark College), PhD (Univ of Iowa); Professor of English. 1986.
- Grzywacz, Joseph G.—BS (Univ. of Wisconsin-Stevens Point), MS (ibid.), PhD (Univ. of Wisconsin-Madison); Professor of Human Development & Family Science. 2012.
- Gull, Tamara—BA (Univ of Chicago), DVM (Tufts Univ), PhD (Texas A&M Univ); Assistant Professor of VBS: Pathobiology. 2009.
- Guo, Yuanxiong Richard— BS(Huazhong Univ. of Science & Technology, China), MS (Univ. of Florida), PhD (ibid.) Assistant Professor of Electrical & Computer Engineering. 2014.
- Gustafson, John Eric —BS (Illinois State Univ.), MS (ibid.), PhD (Univ. of Zurich, Switzerland); Professor of Biochemistry & Molecular Biology. 2012.
- Gustavson, Kevin—BA (Carleton College), PhD (Univ of Wisconsin); Adjunct Assistant Professor of Environmental Sciences. 2007.
- Guthaus, Matthew— BSE (Univ. of Michigan), MSE (ibid.), PhD (ibid.); Adjunct Professor of Electrical & Computer Engineering. 2014.
- Gwin, Mary Frances—BS (Univ. of Oklahoma), MA (Oklahoma State Univ), PhD (Univ. of Oklahoma); Visiting Assistant Professor of Philosophy. 2012.
- Habiger, Joshua Daniel—BS (Kansas State Univ), MS (ibid.), PhD (Univ of South Carolina); Assistant Professor of Statistics. 2010.
- Hadwiger, Jeffrey Allen—BS (Washington State Univ, Pullman), PhD (Univ of California, Santa Barbara); Associate Professor of Microbiology and Molecular Genetics. 1992.
- Hagan, Martin Thomas—BS (Univ of Notre Dame), MS (Georgia Institute of Tech), PhD (Univ of Kansas); Professor of Electrical and Computer Engineering. 1986.
- Haley, Joseph G. — BS (Univ. of Washington), PhD (Princeton Univ.); Assistant Professor of Physics. 2013.
- Haley, Julia W.—BME (Oklahoma Baptist Univ), MME (Univ of Oklahoma), PhD (ibid.); Associate Professor of Music. 1991.
- Halihan, Todd—BA (Monmouth College), MS (Univ of Missouri), PhD (Univ of Texas, Austin); Associate Professor of Geology. 2000.
- Halleck, Gene B.—BA (City College of New York), MA (Pennsylvania State Univ), MA (City Univ of New York), PhD (Pennsylvania State Univ); Associate Professor of English. 1991.
- Hallemeier, Katherine M.K.—BA (The Univ. of Toronto), MA (The Univ. of British Columbia), PhD (Queen's Univ., Ontario); Assistant Professor of English. 2013.
- Hallgren, Stephen W.—BS (Univ of Minnesota), MS (Oregon State Univ), PhD (Univ of California, Berkeley); Associate Professor of Natural Resource Ecology and Management. 1986.
- Hambidge, K. Michael—BA (Cambridge Univ), MB BChir (Cambridge and Westminster Medical School), Postgraduate (British Postgraduate Medical School); Department of Nutritional Sciences. 2009.
- Hamilton, Douglas Wayne—BS (Univ of Arkansas), MS (Iowa State Univ), PhD (Pennsylvania State Univ); Associate Professor of Biosystems and Agricultural Engineering. 1995.
- Hamilton, Meredith J.—BS (Univ of Arkansas, Little Rock), MS (Memphis State Univ), PhD (Texas Tech Univ); Associate Professor of Zoology. 1996.
- Hammer, Bryan Iwata— BS (Brigham Young Univ.), MS (ibid.), PhD (Univ. of Arkansas); Assistant Professor of Management Science and Information Systems. 2013.
- Hammer, Tonya R. — BA (Univ. of Texas at Arlington), MA (Univ. of Mary Hardin - Baylor), PhD (St. Mary's Univ.); Assistant Professor of Applied Health and Educational Psychology. 2013.
- Hanan, Jay C.—BS (Oklahoma Christian Univ), MS (California Institute of Technology), PhD (ibid.); Associate Professor of Mechanical and Aerospace Engineering. 2005.
- Hancer, Murat—BS (Dokuz Eylul Univ, Turkey), MS (Univ of New Haven), PhD (The Ohio State Univ); Associate Professor of Hotel and Restaurant Administration. 2006.
- Hanks, Reuel R.—BA (Univ of Missouri), MA (Univ of Kansas), PhD (ibid.); Professor of Geography. 1998.
- Hansen, Fredrick D.—BS (Iowa State Univ), MPA (Univ of Nebraska), PhD (ibid.); Associate Professor of Educational Studies. 2001.
- Hansen, Holley Elizabeth— BA (Truman State Univ.), BS (ibid.), MA (Univ. of Iowa), PhD (ibid.); Visiting Assistant Professor of Political Science. 2013.
- Hanson, Gregory J.—BS (Univ of Minnesota), MS (Iowa State Univ), PhD (ibid.); Adjunct Associate Professor of Biosystems and Agricultural Engineering. 1999.
- Hanzlicek, Andrew Stephen—BS (Kansas State Univ), MS (ibid.), DVM (ibid.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2011.
- Hardy, Nathan R—B.S. (Brigham Young Univ.), M.S. (Kansas State Univ.), Ph.D. (ibid.); Assistant Professor of Human Development & Family Science. 2016.
- Hareland, Geir— BSc (Univ. of Minnesota), MS (Univ. of Tulsa), PhD (Oklahoma State Univ.); Professor of Chemical Engineering. 2014.
- Harimkar, Sandip P.— BS (Visvesvaraya National Institute of Technology, India), MS (Indian Institute of Science, India), PhD (Univ of Tennessee); Associate Professor of Mechanical and Aerospace Engineering, 2009.
- Harris, Benjamin—Assistant Professor of Mathematics. 2014.

- Harris, Edward L.—BS (Arkansas State Univ), MA (Dallas Theological Seminary), PhD (Texas A&M Univ); Professor of Educational Studies. 1990.
- Harrist, Amanda Wiginton—BA (Univ of Texas), PhD (Univ of Tennessee); Associate Professor of Human Development and Family Science. 1998.
- Hartell, Julie Ann—BE (Sherbrooke Univ.), ME (McGill Univ.), PhD (ibid.); Assistant Professor of Civil & Environmental Engineering. 2013.
- Hartson, Steven D.—BS (Oklahoma State Univ), PhD (ibid.); Research Associate Professor of Biochemistry and Molecular Biology. 2000.
- Hathcock, Stephanie—BS (John Brown Univ.), MS (Univ. of Arkansas), PhD (Old Dominion Univ.); Assistant Professor of Curriculum Leadership. 2014.
- Hausselle, Jerome G.—M.S. (Cleveland State Univ.), Ph.D. (Ecole Nationale Supérieure des Mines de Saint-Etienne); Assistant Professor of Mechanical and Aerospace Engineering. 2016.
- Havakhor, Taha—Ph.D. (Univ. of Arkansas); Assistant Professor of Management Science and Information Systems. 2016.
- Hawkins, Misty — PhD (Indiana Univ.-Purdue Univ. Indianapolis); Assistant Professor of Psychology. 2015.
- Haygood, Christopher D.—BA (Samford Univ.), BM (ibid.), MM (Univ. of Mississippi), DMA (Univ. of Southern California); Assistant Professor of Music. 2012.
- Hays-Grudo, Jennifer—BA (Texas Tech Univ.), MA (Univ. of Houston), PhD (ibid.); Professor of Human Development & Family Science. 2013.
- Hebert, Paulette —BA (Louisiana State Univ), MS (ibid.), PhD (ibid.); Professor of Design, Housing and Merchandising. 2007.
- Heisterkamp, Douglas Roger—BS (Univ of Iowa), MS (Univ of Nebraska, Omaha), PhD (Univ of Nebraska, Lincoln); Associate Professor of Computer Science. 1999.
- Heitz, Marty Henry—BA (Lake Forest College), MA (Univ. of Hawaii), PhD (ibid.); Associate Professor of Philosophy. 2007.
- Hendershot, Marcus E. — BS (Saint Louis Univ.), MA (ibid.), PhD (Washington Univ., St. Louis); Visiting Assistant Professor of Political Science. 2013.
- Henderson, Douglas Scott—BM (The Univ of Texas at Austin), MM (Michigan State Univ), DMA (ibid.); Assistant Professor of Music. 2010.
- Henderson, Tammy L.—BA (Louisiana State Univ), MS (ibid.), PhD (Oregon State Univ); Associate Professor of Human Development and Family Science. 2006.
- Hendrix, Charles C.—BS (Kansas State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Human Development and Family Science. 1989.
- Henry, William J.—BS (Southampton College), PhD (Duke Univ); Professor of Botany. 1992.
- Henneberry, David Michael—BS (Univ of Minnesota), MS (ibid.), PhD (Univ of Wisconsin, Madison); Professor of Agricultural Economics. 1984.
- Henneberry, Shida Rastegari—BS (National Univ of Iran), MS (Iowa State Univ), PhD (ibid.); Regents Professor of Agricultural Economics. 1984.
- Hennessey, Thomas C.—BS (Univ of Northern Iowa), PhD (Iowa State Univ); Professor of Natural Resource Ecology and Management. 1976.
- Henry, Carolyn S.—BSE (Oklahoma Christian Univ), MS (Oklahoma State Univ), MS (Univ of Tennessee, Knoxville), PhD (ibid.); Professor of Human Development and Family Science. 1988.
- Heragu, Sunderesh S. — BS (Univ. of Mysore, India), MBA (Univ. of Saskatchewan), PhD (Univ. of Manitoba); Professor of Industrial Engineering and Management. 2013.
- Hermann, Janice R.—BS (Kansas State Univ), MS (ibid.), PhD (ibid.); Professor of Nutritional Sciences. 1985.
- Hernandez, Boris Dan—BS (San Diego State Univ.), MS (Oklahoma State Univ.), PhD (ibid.); Adjunct Assistant Professor of Civil & Environmental Engineering. 2011.
- Herrick, Rebekah L.—BS (Nebraska Wesleyan Univ.), MA (Tufts Univ), PhD (Univ of Nebraska); Professor of Political Science. 1991.
- Herrmann, Don—BS (John Brown Univ), MS (Kansas State Univ), PhD (Oklahoma State Univ); Associate Professor of Accounting. 2005.
- Hershey, Douglas—BA (California State Univ, Northridge), MA (Univ of Southern California), PhD (ibid.); Associate Professor of Psychology. 1996.
- Hess, James Daniel—BS (Northeastern State Univ), MS (ibid.), EdD (Oklahoma State Univ); Associate Professor of CHS: Family Medicine. 2006.
- Hickman, Karen R.—BS (Oklahoma State Univ), PhD (Kansas State Univ); Professor of Natural Resource Ecology and Management. 2004.
- High, Martin Scott—BS (Pennsylvania State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Chemical Engineering. 1991.
- Hildebrand, Deana A.—BS (Univ of Central Oklahoma), MS (ibid.), PhD (Oklahoma State Univ); Assistant Professor of Nutritional Sciences. 2007.
- Hileman, Mary Esther—BS (Univ. of Michigan), MS (ibid.), PhD (ibid.); Adjunct Assistant Professor of Geology. 2008.
- Hill, Aaron D. —BBA (Gonzaga Univ.), MBA (ibid.), PhD (Oklahoma State Univ.); Assistant Professor of Management. 2012.
- Hiney, Kris—BS (Univ. of Illinois), MS (Texas A&M Univ.), PhD (Michigan State Univ.); Assistant Professor of Animal Science. 2015.
- Hinsdale, Myron E.—BS (Rocky Mountain College), DVM (Colorado State Univ), PhD (Univ of Alabama); Assistant Professor of VBS: Physiological Sciences. 2007.
- Hiziroglu, Selim Salim—BS (Blacksea Technical Univ, Turkey), MS (Univ of California, Berkeley), PhD (Michigan State Univ); Associate Professor of Natural Resource Ecology and Management. 2000.
- Ho, Chrwan-Jyh (David)—BS (National Chao-Tun Univ), MBA (Univ of Georgia), PhD (Michigan State Univ); Professor of Management Science and Information Systems. 1985.
- Hoagland, Bruce William—BA (Univ. of Louisville), MS (Eastern Kentucky Univ.), PhD (Univ. of Oklahoma); Individuals Not Employed by OSU of Botany. 2005.
- Hoback, Wyatt—BA (Randolph-Macon College), MS (Southwest Missouri State Univ.), Ph.D. (Univ. of Nebraska); Assistant Professor of Entomology & Plant Pathology. 2014.
- Hoberock, Lawrence L.—BSME (Univ of Missouri-Rolla), MSME (Purdue Univ), PhD (ibid.); Professor of Mechanical and Aerospace Engineering. 1987.
- Hoff, Wouter David—BS (Univ of Amsterdam, The Netherlands), PhD (ibid.); Professor of Microbiology and Molecular Genetics. 2005.
- Hoffer, Heidi Finch—BA (Northern Illinois Univ), MA (ibid.), MFA (Northwestern Univ); Professor of Theatre. 1988.
- Hoffman, Neil R—B.A. (Williams College), Ph.D. (Univ. of Texas); Assistant Professor of Mathematics. 2016.
- Holbrook, Todd C.—DVM (Univ of Georgia); Associate Professor of VBS: Veterinary Clinical Sciences. 2004.
- Holcomb, Rodney—BS (Texas A&M Univ), PhD (ibid.); Professor of Agricultural Economics. 1997.
- Hollenbach, Lisa—B.A. (Washington Univ., St. Louis), M.A. (Univ. of Wisconsin-Madison), M.A. (Queen's Univ., N. Ireland), Ph.D. (Univ. of Wisconsin-Madison); Assistant Professor of English. 2016.
- Holmes, Michael Vaughan—B.S. (Berry College), M.L.A. (North Carolina State Univ.); Associate Professor of Horticulture & Landscape Architecture. 2007.
- Holmes, Tawni Welk—BS (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Adjunct Professor of Nutritional Sciences. 2013.
- Holmes, Teri Sue—BA (Univ. of Tulsa), MS (Oklahoma State Univ.), PhD (ibid.); Adjunct Professor of Environmental Sciences. 2013.
- Holtzhausen, Derina Rhoda—BA (Univ of Pretoria), MA (Univ of South Africa), PhD (Rand Afrikaans Univ); Professor of Media and Strategic Communications. 2008.

- Holtzower, Lantz D.—BS (Univ. of Florida), PhD (Ibid.); Assistant Professor of Engineering Technology Division. 2014.
- Holyoak, Gilbert Reed—BS (Brigham Young Univ), MS (ibid.), DVM (Washington State Univ), PhD (Univ of Kentucky); Professor of VBS: Veterinary Clinical Sciences. 1999.
- Horn, Gerald W.—BS (Texas Tech Univ), MS (Purdue Univ), PhD (ibid.); Professor of Animal Science. 1974.
- Horn, Justin—BA (Washington Univ., St. Louis), MA (Univ. of Wisconsin-Madison), Ph.D. (ibid.); Assistant Professor of Philosophy. 2014.
- Hoyt, Peter R.—BS (Univ of Houston), MS (ibid.), PhD (Univ of Texas Medical Branch); Research Associate Professor of Biochemistry and Molecular Biology. 2005.
- Hu, Jingtong—BE (Shandong Univ.), MS (Univ. of Texas at Dallas), PhD (ibid.); Assistant Professor of Electrical & Computer Engineering. 2013.
- Huang, Yinghua—BS (Huazhong Agricultural Univ), MS (ibid.), PhD (Michigan Technological Univ); Adjunct Professor of Natural Resource Ecology and Management. 1994.
- Hubach, Randolph—BA (Southern Methodist Univ.), M.P.H. (California State Univ.), PhD (Indiana Univ.); Assistant Professor of Applied Health and Educational Psychology. 2014.
- Hubbs-Tait, Laura—BA (Univ of Michigan), MA (Boston Univ), PhD (ibid.); Regents Professor of Human Development and Family Science. 1992.
- Hughes, Charles—BA (Univ. of Wisconsin-Madison), MA (ibid.), PhD (ibid.); Assistant Professor of History. 2014.
- Hughes, Patricia Lynn—BS (Texas Christian Univ), MA (Texas Woman's Univ), PhD (ibid.); Associate Professor of Applied Health and Educational Psychology. 2002.
- Huhnke, Raymond L.—BS (Purdue Univ), MS (Univ of Illinois), PhD (Iowa State Univ); Professor of Biosystems and Agricultural Engineering. 1980.
- Hull, Debra Flint—BA (Univ of Tulsa), MS (Oklahoma State Univ), PhD (ibid.); Adjunct Associate Professor of Applied Health and Educational Psychology, 2010.
- Humphrey, Stephen Erik —BS (James Madison Univ.), PhD (Michigan State Univ.); Assistant Professor of Management. 2012.
- Hunger, Robert Marvin—BS (Colorado State Univ), MS (ibid.), PhD (Oregon State Univ); Professor of Entomology and Plant Pathology. 1982.
- Huston, James L.—BA (Denison Univ), MA (Univ of Illinois), PhD (ibid.); Regents Professor of History. 1980.
- Hutchens, Chriswell G.—BS (South Dakota State Univ), MS (ibid.), PhD (Univ of Missouri); Associate Professor of Electrical and Computer Engineering, 1986.
- Igrek, Apple Zefelius —BA (Michigan State Univ.), MA (Vanderbilt Univ.), PhD (ibid.); Assistant Professor of Philosophy. 2012.
- Ireland, Timothy C.—BS (Phillips Univ), MS (Oklahoma State Univ), PhD (ibid.); Professor of Management Science and Information Systems. 1978.
- Ismail, Ahmed—B.Sc. (Mansoura Univ., Egypt), M.Sc. (ibid.), Ph.D. (Missouri Univ. of Science and Technology); Assistant Professor of Geology. 2016.
- Ivey, Toni Ann—BS (Texas A&M Univ), MEd (ibid.), PhD (ibid.); Assistant Professor of Teaching and Curriculum Leadership. 2010.
- Jackson, Todd A.—DVM (Purdue Univ.); Associate Professor of VBS: Veterinary Clinical Sciences. 2012.
- Jaco, William H.—BA (Fairmont State College), MA (Pennsylvania State Univ), PhD (Univ of Wisconsin); Regents Professor of Mathematics. 1982.
- Jacob, Jamey Darin—BS (Univ of Oklahoma), MS (Univ of California), PhD (ibid.); Professor of Mechanical and Aerospace Engineering. 2006.
- Jacobs, Sue C.—BA (Antioch College), MA (Vermont College/Norwich Univ), PhD (Univ of Southern Mississippi); Associate Professor of Applied Health and Educational Psychology. 2001.
- Jacobson, Bert H.—BS (Oklahoma State Univ), MEd (Northwestern Oklahoma State Univ), EdD (ibid.); Professor of Educational Studies. 1980.
- Jadeja, Ravirajsinh P.—BS (Sardar Patel Univ., India), MS (ibid.), PhD (Louisiana State Univ.); Assistant Professor of Animal Science. 2015.
- Jahanshahi, Farshid—BS (Tehran Univ.), EdS (ibid.), EdD (Oklahoma State Univ.); Adjunct Assistant Professor of Sociology. 2011.
- Jahanshahi, Pouya—MFA (California Institute of the Arts); Assistant Professor of Art. 2014.
- Jaiswal, Priyank—BSc (Indian Institute of Technology, India), MA (Rice Univ), PhD (ibid.); School of Geology. 2010.
- Jalalzai, Farida—BS (SUNY College at Brockport), MA (Univ. of Buffalo), PhD (Ibid.); Professor of Political Science. 2015.
- Jansa, Joshua M.—B.A. (Univ. of Illinois at Urbana-Champaign), M.A. (Univ. of North Carolina at Chapel Hill), Ph.D. (ibid.); Assistant Professor of Political Science. 2016.
- Jaroni, Divya —BS (ibid.), BEd (Devi Ahilya Univ., India), MS (Univ. of Nebraska-Lincoln), PhD (ibid.); Assistant Professor of Animal Science. 2012.
- Jaworski, Deborah—BS (The Ohio State Univ.), MS (Oklahoma State Univ), PhD (The Ohio State Univ); Assistant Professor of Entomology and Plant Pathology. 2007.
- Jayadas, Aditya—BS (Bangalore Institute of Technology, India), MS (St. Mary's Univ.), PhD (Texas Tech Univ.); Assistant Professor of Design, Housing & Merchandising. 2014.
- Jayaraman, Balaji—B.Tech. (Naval Architecture and Ocean Engineering, India), MS (Univ. of Florida), PhD (Ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2015.
- Jenkins, Nathaniel D.M.—B.S. (Messiah College), M.S. (Univ. of Nebraska), Ph.D. (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2016.
- Jenswold, Joel M.—BS (Univ of Wisconsin), MA (Univ of Kansas), MPhil (ibid.), PhD (ibid.); Associate Professor of Political Science. 1984.
- Jeyasingh, Punidan D.—BSc (Madras Christian College), MS (Pondicherry Univ), MS (Murray State Univ), PhD (Univ of Oklahoma); Assistant Professor of Zoology. 2009.
- Jhang, Ji Hoon—BBA (Korea Univ., South Korea), MS (Stanford Univ.), PhD (Univ. of Colorado at Boulder); Assistant Professor of Marketing. 2014.
- Jiang, Haobo—BS (East China Univ of Chemical Technology), PhD (Kansas State Univ); Professor of Entomology and Plant Pathology. 2000.
- Jin, Xiaoliang—BSc (Beihang Univ., China), MSc (ibid.), PhD (Univ. of British Columbia); Assistant Professor of Mechanical and Aerospace Engineering. 2013.
- Jinks, Jodi—BA (Univ. of Missouri), MFA (Univ. of Virginia); Assistant Professor of Theatre. 2011.
- Job, Jennifer Grace—BA (College of Charleston), MA (Univ. of North Carolina at Chapel Hill), PhD (ibid.); Assistant Professor of Teaching and Curriculum Leadership. 2013.
- Johannes, Arland H.—BS (Illinois State Univ), MSE (West Virginia Univ), PhD (Univ of Kentucky); Professor of Chemical Engineering. 1984.
- Johansen, Thomas C. —BS (Fort Hays State Univ.), MBA (ibid.), PhD (Oklahoma State Univ.); Clinical Associate Professor of Finance. 2013.
- John, Gilbert H.—BS (Colorado State Univ), PhD (ibid.); Associate Professor of Microbiology and Molecular Genetics. 1995.
- Johnson, Carol Bauman—BS (Illinois State Univ), MS (ibid.), PhD (Arizona State Univ); Associate Professor of Accounting. 1992.
- Johnson, Christine A.—BA (Alma College), MS (Iowa State Univ.), PhD (ibid.); Associate Associate Professor of Human Development and Family Science. 2009.
- Johnson, Jared L.—BA (Weber State Univ.), MA (Ohio Univ.), PhD (Georgia State Univ.); Assistant Professor of Media and Strategic

- Communications, 2014 Johnson, Jesse—BA (Middlebury College), PhD (Univ of California, Davis); Assistant Professor of Mathematics. 2009.
- Johnson, Mark Z.—BS (Oklahoma State Univ), MS (ibid.), PhD (Kansas State Univ); Associate Professor of Animal Science. 1985.
- Johnson, Scott Gerald—BS (Univ of Colorado), MBA (Michigan State Univ), PhD (Univ of Wisconsin); Associate Professor of Management. 2005.
- Johnson, Sheila G.—B.A. (Baylor Univ.), M.L.S. (Univ. of Texas at Austin); Professor of Library. 2004.
- Johnston, Jan H.—BS (Valdosta State Univ), MEd (Univ of Texas, Austin), PhD (Univ of Texas, Arlington); Assistant Professor of Human Development and Family Science. 2007.
- Jones, Carol L.—BS (Oklahoma State Univ), PhD (ibid.); Associate Professor of Biosystems and Agricultural Engineering. 2006.
- Jones, Clinton J.—B.A. (Bethany College), Ph.D. (Univ. of Kansas); Professor of VBS: Pathobiology. 2015.
- Jones, Edward—BA (Central Connecticut), MA (Ohio Univ), PhD (ibid.); Associate Professor of English. 1987.
- Jones, Jennifer Lynn—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Visiting Assistant Professor of Human Development and Family Science. 2011.
- Jones, Rodney D.—BS (Kansas State Univ), MS (ibid.), PhD (Virginia Technical Univ); Adjunct Assistant Professor of Agricultural Economics. 2010.
- Joseph, Janine—B.A. (Univ. of California, Riverside), M.F.A. (New York Univ.), Ph.D. (The Univ. of Houston); Assistant Professor of English. 2016.
- Joshi, Omkar—B.S. (Tribhuvan Univ.), M.S. (Univ. of Arkansas, Monticello), Ph.D. (Mississippi State Univ.); Assistant Professor of Natural Resource Ecology and Management. 2016.
- Ju, Ning—MS (Indiana Univ), PhD (ibid.); Associate Professor of Mathematics. 2003.
- Kable, Anthony C.—BS (The Australian National Univ), MS (Oxford Univ), PhD (Oklahoma State Univ); Associate Professor of Mathematics. 2001.
- Kaipa, Ramesh—BSc (Bangalore Univ., India), MA (Univ. of Mangalore, India), PhD (Univ. of Canterbury, New Zealand); Assistant Professor of Communications Sciences and Disorders. 2012.
- Kak, Subhash C.—BS (Jammu and Kashmir Univ), PhD (Indian Institute of Tech, Delhi); Regents Professor of Computer Science. 2007.
- Kakani, Vijaya Gopal—BS (Andhra Pradesh Agricultural Univ., Hyderabad, India), MS (ibid.), PhD (Univ of Reading, Reading, United Kingdom); Assistant Professor of Plant and Soil Sciences. 2008.
- Kalkan, Ali Kaan—BS (Bogazici Univ, Turkey), MS (Penn State Univ), PhD (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2006.
- Kamalapurkar, Rushikesh—B.Tech. (Visvesvaraya National Institute of Technology, India), M.S. (Univ. of Florida), Ph.D. (Ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2016.
- Kamath, Manjunath—BS (Indian Institute of Technology), ME (Indian Institute of Science), PhD (Univ of Wisconsin); Professor of Industrial Engineering and Management. 1989.
- Kander, Faryl Leigh—BA (San Diego State Univ.), MEd (Univ. of San Diego), PhD (Arizona State Univ.); Assistant Professor of Teaching and Curriculum Leadership. 2011.
- Kang, Mihyun—BS (Yonsei Univ, Korea), MA (Iowa State Univ), PhD (Univ of Minnesota); Associate Professor of Design, Housing and Merchandising. 2010.
- Karaca, Igor—BS (Sarajevo Univ), MA (Ohio State Univ), PhD (ibid.); Assistant Professor of Music. 2006.
- Kard, Bradford M.—BA (San Jose State Univ), MS (Virginia Polytechnic State Univ), PhD (North Carolina State Univ); Associate Professor of Entomology and Plant Pathology. 2001.
- Karibo, Holly M—B.A. (Univ. of Guelph), M.A. (Univ. of Toronto), Ph.D. (ibid.); Assistant Professor of History. 2016.
- Kaul, Anil K.—MPH (Univ of Minnesota), MD (Madras Univ); Associate Professor of CHS: Family Medicine. 2009.
- Kaul, Rashmi—BS (Government Women's College, India), MS (Kashmir Univ, India), PhD (Delhi Univ, India); Associate Professor of CHS: Biochemistry and Microbiology. 2003.
- Kaundal, Rakesh—BSc (CSK HP Agricultural Univ., India), MSc (ibid.), PhD (Dr. B. R. Ambedkar Univ., India); Research Assistant Professor of Biochemistry & Molecular Biology. 2011.
- Kazianga, Harounan—BS (Univ of Ouagadougou), MS (ibid.), PhD (Purdue Univ); Assistant Professor of Economics. 2010.
- Kearney, Kerri Shultz—BS (Oklahoma State Univ), MBA (ibid.), EdD (ibid.); Associate Professor of Educational Studies. 2004.
- Kedron, Peter J.—B.A. (State Univ. of New York at Buffalo), B.A. (ibid.), M.A. (Univ. of Michigan), Ph.D. (State Univ. of New York at Buffalo); Assistant Professor of Geography. 2016.
- Kenkel, Phil—BS (Univ of Kentucky), MBA (ibid.), PhD (ibid.); Professor of Agricultural Economics. 2001.
- Kennedy, Tay S.—BS (Cornell Univ), MS (State Univ of Albany), PhD (Iowa State Univ); Associate Professor of Nutritional Sciences. 2000.
- Kennison, Shelia M.—BA (Harvard Univ), MS (Univ of Massachusetts), PhD (ibid.); Associate Professor of Psychology. 2000.
- Ketterer, Stanley Eugene—BA (Univ of Missouri, Columbia), MEd (ibid.), PhD (ibid.); Associate Professor of Media and Strategic Communications. 1998.
- Khanov, Alexander Sasha—MS (Moscow Institute of Physics and Technology), PhD (Univ of Rochester); Associate Professor of Physics. 2009.
- Khojasteh, Jam Justin—BS (Missouri State Univ.), MS (ibid.), PhD (Univ. of Arkansas); Assistant Professor of Educational Studies. 2013.
- Kian, Edward (Ted) M. — BA (Univ. of Georgia), MEd (Univ. of Texas at Austin), PhD (The Florida State Univ.); Associate Professor of Media and Strategic Communications. 2013.
- Kickham, Kenneth P. — BS (Oklahoma State Univ.), MPA (Univ. of Oklahoma), PhD (ibid.); Assistant Professor of Political Science. 2012.
- Kidd, James Allan— BS (Oklahoma State Univ.), MS (U.S. Air Force Institute of Technology), PhD (Oklahoma State Univ.); Associate Professor of Mechanical and Aerospace Engineering. 2012.
- Kiley, Jason—B.S. (Dalton State College), J.D. (Hofstra Univ.), Ph.D. (Univ. of Georgia); Assistant Professor of Management. 2016.
- Kim, Brian—BA (Univ. of California), BS (ibid.), PhD (Columbia Univ); Assistant Professor of Philosophy. 2015.
- Kim, Do Young—BS (Kyung Hee Univ.), MS (Ibid.), PhD (Univ. of Florida); Assistant Professor of Materials Science and Engineering. 2015.
- Kim, Jaebeom—BA (The Inha Univ, South Korea), MA (The Ohio State Univ), MA (Univ of South Carolina), PhD (ibid.); Assistant Professor of Economics. 2005.
- Kim, Jong Hoon—B.S. (Colorado State Univ.), M.S. (Univ. of Louisville), Ph.D. (Arizona State Univ.); Assistant Professor of Engineering Technology Division. 2016.
- Kim, Kenneth E.—BA (Korea Univ, South Korea), MA (ibid.), PhD (Univ of Florida); Assistant Professor of Media and Strategic Communications. 2010.
- Kim, Seok-Jhin—BS (Yonsei Univ., Korea), MS (Ibid.), PhD (Univ. of Cincinnati); Assistant Professor of Chemical Engineering. 2015.
- Kimbrough, Andrew M. — BA (Wake Forest Univ.), MFA (Carnegie Mellon Univ.), PhD (Louisiana State Univ.); Professor of Theatre. 2013.
- Kinder, John M.—BA (Univ of Alabama), MA (Univ of Tennessee), PhD (Univ of Minnesota); Assistant Professor of History. 2009.
- Kirksey, Jason F.—BA (Oklahoma State Univ), MA (ibid.), PhD (Univ of New Orleans); Associate Professor of Political Science. 1995.

- Kiser, Kenneth J.—BA (Oklahoma State Univ), MS (ibid.), PhD (Ohio State Univ); Professor of Sociology. 1970.
- Klopfstein, Matthew J. —BS (Ohio State Univ.), MA (ibid.), MS (Oklahoma State Univ.), PhD (ibid.); Clinical Assistant Professor of Mechanical and Aerospace Engineering. 2012.
- Knottnerus, John David—BA (Beloit College), MA (Southern Illinois Univ), PhD (ibid.); Regents Professor of Sociology. 1988.
- Koch, Julie Mae—BA (Univ of Massachusetts), MEd (Univ of Texas at Austin), PhD (Univ of Minnesota); Assistant Professor of Applied Health and Educational Psychology. 2009.
- Koehler, Gerwald Anton—MS (Technical Univ, Munich, Germany), PhD (ibid.); Assistant Professor of CHS: Biochemistry and Microbiology. 2009.
- Kolarik, William J.—BS (Louisiana State Univ), MS (ibid.), PhD (Oklahoma State Univ); Professor of Industrial Engineering and Management. 1999.
- Krasinski, Jerzy S.—MS (Univ of Warsaw), PhD (ibid.); Professor of Electrical and Computer Engineering. 1990.
- Krehbiel, Clinton—BS (Kansas State Univ), MS (ibid.), PhD (Univ of Nebraska); Professor of Animal Science. 2000.
- Krehbiel, Timothy Lee—BS (Illinois State Univ), MS (Purdue Univ), PhD (ibid.); Professor of Finance. 1989.
- Krishnan, Sadagopan—BSc (M.S. Univ., India), MSc (M.K. Univ., India), PhD (Univ. of Connecticut); Assistant Professor of Chemistry. 2012.
- Krumm, Bernita L.—BA (South Dakota State Univ), MA (ibid.), MS (ibid.), MEd (ibid.), PhD (Univ of Nebraska); Assistant Professor of Educational Studies. 2005.
- Krzmarzick, Mark J. — BS (Oklahoma State Univ.), MS (Univ. of Minnesota), PhD (ibid.); Assistant Professor of Civil & Environmental Engineering. 2013.
- Ku, JaEun—PhD (Cornell Univ.); Assistant Professor of Mathematics. 2007.
- Kumar, Ajay—BTech (Indian Institute of Technology, Kharagpur), MS (Univ of Nebraska, Lincoln), PhD (ibid.); Assistant Professor of Biosystems and Agricultural Engineering. 2010.
- Kusmanoff, Antone—BS (Univ. of Missouri), BS (Southern Illinois Univ.), MS (Univ. of Missouri), MS (Georgia Institute of Technology), PhD (Oklahoma State Univ.); Assistant Professor of Engineering Technology Division. 2014.
- Lacombe, Veronique A. —DVM (National Veterinary School of Maisons-Alfort), PhD (The Ohio State Univ.); Associate Professor of VBS: Physiological Sciences. 2012.
- Lahiri, Bidisha—BSc (Calcutta Univ), MS (Indian Statistical Institute), PhD (Univ of North Carolina, Chapel Hill); Assistant Professor of Economics, 2009.
- Lalman, David L.—BS (Kansas State Univ), MS (Montana State Univ), PhD (Univ of Missouri); Associate Professor of Animal Science. 1996.
- Lampert, David J.—B.S. (Oklahoma State Univ.), M.S. (The Univ. of Texas at Austin), Ph.D. (ibid.); Assistant Professor of Civil & Environmental Engineering. 2016.
- Lanners, Heather—BM (Univ. of Western Ontario, Canada), MM (Eastman School of Music); Assistant Professor of Music. 2014.
- Lanners, Thomas Martin—BM (Florida State Univ), MM (ibid.), DMA (Eastman School of Music); Professor of Music. 1995.
- Lansford, Notie Harold—BS (Texas A&M Univ), MS (ibid.), PhD (ibid.); Professor of Agricultural Economics. 1991.
- Lao-Davila, Daniel Alberto—BS (Univ. of Puerto Rico), MS (Florida International Univ.), PhD (Univ. of Pittsburgh); Assistant Professor of Geology. 2012.
- Larson, Mary Ann—BA (Harvard Univ), MA (Brown Univ), PhD (ibid.); Professor of History. 2010.
- Larzelere, Robert—BS (Wabash College), MS (Georgia Institute of Technology), PhD (Pennsylvania State Univ); Associate Professor of Human Development and Family Science. 2006.
- Latino, Carl D.—BS (The City College of the City Univ of New York), MS (Pennsylvania State Univ), PhD (ibid.); Associate Professor of Electrical and Computer Engineering. 1986.
- Lavery, Jason E.—BA (Univ of California at Berkeley), MA (Yale Univ.), MPhil (ibid.), PhD (ibid.); Associate Professor of History. 1997.
- Lavine, Barry Kenneth—BA (Temple Univ), MS (Ohio State Univ), PhD (Pennsylvania State Univ); Associate Professor of Chemistry. 2004.
- Lawson, Bradley P.—BA (Drury Univ.), MA (Univ. of Houston), PhD (Texas A&M Univ.); Adjunct Assistant Professor of Accounting. 2012.
- Lebl, Jiri—BA (San Diego State Univ.), MA (ibid.), PhD (Univ. of California, San Diego); Assistant Professor of Mathematics. 2013.
- Lee, Hang-Shim—BA (Ewha Women's Univ., Korea), MA (Ibid.), PhD (Univ. of Missouri - Columbia); Assistant Professor of Applied Health and Educational Psychology. 2014.
- Lee, Jin Kyu—BBA (Yonsei Univ, Korea), MS (Griffith Univ, Australia), PhD (State University of New York, Buffalo); Assistant Professor of Management Science and Information Systems. 2009.
- Lee, Kelly—BA (Yonsei Univ., Korea), M.BA (Seoul National Univ., Korea), PhD (Univ. of Toronto); Assistant Professor of Marketing. 2015.
- Leffingwell, Thad Ryan—BA (Southwestern College), MS (Univ of Arizona), PhD (Univ of Washington); Associate Professor of Psychology. 2000.
- Leong, Jerrold Kim—BS (Cornell Univ), MS (Univ of Hawaii), MPS (ibid.), MS (Florida Internatioanl Univ), PhD (ibid.); Associate Professor of Hotel and Restaurant Administration. 1985.
- Leslie, Jr., David M.—BA (Prescott College), MS (Univ of Nevada), PhD (Oregon State Univ); Adjunct Professor of Natural Resource Ecology and Management. 1985.
- Leung, Ying Tat—BS (Univ. of Hong Kong), MS (Univ. of Wisconsin-Madison), PhD (ibid.); Adjunct Professor of Industrial Engineering and Management. 2014.
- Lewis, Bobbi Kay—BS (Oklahoma State Univ), MS (ibid.); Associate Professor of Media and Strategic Communications. 2007.
- Lewis, Lisa—BA (Virginia Intermont College), MFA (Univ of Iowa), PhD (Univ of Houston); Professor of English. 1995.
- Lewis, Lynn Campbell—BA (Occidental College), MA (San Francisco State Univ), PhD (Univ of Oklahoma); Assistant Professor of English. 2010.
- Lewis, Michael Phil—BS (North Carolina State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Civil and Environmental Engineering. 2010.
- Ley, Matthew Tyler—BS (Oklahoma State Univ), MS (Univ of Texas at Austin), PhD (ibid.); Assistant Professor of Civil and Environmental Engineering. 2007.
- Li, Qiang Joshua— BS (Xian Highway & Transportation Univ.), MS (Changan Univ.), PhD (Univ. of Arkansas, Fayetteville); Assistant Professor of Civil & Environmental Engineering. 2013.
- Li, Shitao—B.S. (Wuhan Univ., China), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of VBS: Physiological Sciences. 2015.
- Li, Weiping—BS (Dalian Institute of Technology), PhD (Michigan State Univ); Professor of Mathematics. 1995.
- Liang, Bin—BA (Foreign Affairs College), MS (Arizona State Univ), PhD (ibid.); Associate Professor of Sociology. 2005.
- Liang, Ye —BS (Nanjing Univ., China), MA (Univ. of Missouri, Columbia), PhD (ibid.); Assistant Professor of Statistics. 2012.
- Lightfoot, Dale Robert—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Colorado, Boulder); Professor of Geography. 1994.
- Ligon, Day B. — BS (Lewis and Clark College), MS (Oklahoma State Univ.), PhD (ibid.); Adjunct Professor of Zoology. 2013.
- Lin, Dingbo Daniel— BS (Zhejiang Agriculture and Forestry Univ., China), MS (Shanxi Agricultural Univ., China), Ph.D. (Zhejiang Univ., China); Assistant Professor of Nutritional Sciences. 2013.
- Lindenmeier, Donna K.—BS (Texas Tech Univ), MAg (Texas A&M Univ), PhD (ibid.); Associate Professor of Applied Health and Educational Psychology. 2007.

- Link, Stephanie—BS (Winona State Univ.), MA (Tamkang Univ., Taiwan), MA (ibid.), PhD (Iowa State Univ.); Assistant Professor of English. 2015.
- Little, Susan E.—BS (Cornell Univ.), DVM (Virginia Technical Univ), PhD (Univ of Georgia); Regents Professor of VBS: Pathobiology. 2005.
- Liu, Lin—BS (Univ of Science and Technology), PhD (Shanghai Institute of Biochemistry); Regents Professor of VBS: Physiological Sciences. 2000.
- Liu, Richie—BS (Santa Clara Univ.), M.BA (Gonzaga Univ.), PhD (Washington State Univ.); Assistant Professor of Marketing. 2015.
- Liu, Tieming—BS (Tsinghua Univ), MS (Northwestern Univ), MS (Tsinghua Univ, China), PhD (Massachusetts Institute of Technology); Associate Professor of Industrial Engineering and Management. 2005.
- Liu, Yingmei—BS (Jilin Univ, China), MS (Univ of Pittsburgh), PhD (ibid.); Assistant Professor of Physics. 2010.
- Lloyd, Pamela Goodrick—BA (Univ of Missouri), PhD (ibid.); Assistant Professor of VBS: Physiological Sciences. 2007.
- Loeffert, Jeffrey John—BM (Northwestern Univ), MM (ibid.), DMA (Michigan State Univ); Assistant Professor of Music. 2010.
- Loffi, Jon Michael—BA (Univ. of Oklahoma), MS (ibid.), EdD (Oklahoma State Univ.); Assistant Professor of Educational Studies. 2012.
- Lofton, Josh—BS (Oklahoma State Univ.), MS (ibid.), PhD (Louisiana State Univ); Assistant Professor of Plant and Soil Sciences. 2015.
- Logan, Michael Farley—BA (Univ of Arizona), MA (ibid.), PhD (ibid.); Professor of History. 1994.
- Long, James M.—BS (Southwest Missouri State Univ), MS (ibid.), PhD (Oklahoma State Univ); Adjunct Assistant Professor of Natural Resource Ecology and Management. 2010.
- Long, John—BS (North Carolina State Univ.), MS (ibid.), PhD (ibid.); Assistant Professor of Biosystems & Agricultural Engineering. 2014.
- Long, Michael A.—BA (Bucknell Univ), MA (Univ of New Orleans), PhD (Colorado State Univ); Assistant Professor of Sociology. 2010.
- Lopez-Compton, Refugia Lanette—BM (Univ of Nebraska), MM (Univ of North Texas); Associate Professor of Music. 2005.
- Loss, Scott R. —BS (Univ. of Wisconsin - Stevens Point), MS (Univ. of Illinois), PhD (Univ. of Minnesota); Assistant Professor of Natural Resource Ecology and Management. 2013.
- Lovern, Matthew B.—BS (Duke Univ), PhD (Virginia Technical Univ); Associate Professor of Zoology. 2003.
- Lucas, Edralin Aguinaldo—BS (Univ of Santo Tomas, Manila), PhD (Oklahoma State Univ); Assistant Professor of Nutritional Sciences, 2004.
- Lucas, Laurie A.—BBA (Univ of Oklahoma), MLIS (ibid.), JD (ibid.); Assistant Professor of Economics. 2007.
- Lucca, Don A.—BS (Cornell Univ.), MSE (Princeton Univ), PhD (Rensselaer Polytechnical Institute); Regents Professor of Mechanical and Aerospace Engineering. 1990.
- Luetkenhaus, Holly—B.A. (Culver-Stockton College), M.A. (Western Illinois Univ.), M.L.S. (Univ. of Illinois at Urbana-Champaign); Assistant Professor of Library. 2016.
- Lukaszewski, Aaron W.—PhD (Univ. of California, Santa Barbara); Assistant Professor of Psychology. 2014.
- Luo, Qing—BS (Beijing Forestry Univ.), MS (Univ. of Minnesota); Assistant Professor of Horticulture & Landscape Architecture. 2015.
- Luse, Andrew W. —BA (Simpson College, Iowa), MBA. (Iowa State Univ.), MS (ibid.), MS (ibid.), PhD (ibid.); Assistant Professor of Management Science and Information Systems. 2013.
- Lusk, Jayson Lee—BS (Texas Tech Univ), PhD (Kansas State Univ); Professor of Agricultural Economics. 2005.
- Luttbeg, Bernard T.—BA (Univ of California), PhD (ibid.); Assistant Professor of Zoology. 2009.
- Lutter, Erika Ildiko—BSc (Univ. of Lethbridge), MSc (Univ. of Calgary), PhD (ibid.); Assistant Professor of Microbiology & Molecular Genetics. 2013.
- Lynch, Thomas B.—BS (Virginia Polytechnic Institute and State Univ), MS (ibid.), PhD (Purdue Univ); Professor of Natural Resource Ecology and Management. 1982.
- Lyon, Shane D.—DVM. (Oklahoma State Univ.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2014.
- Ma, Li—BS (Dailan Light Industry Institute, China), PhD (Purdue Univ); Assistant Professor of Entomology and Plant Pathology. 2010.
- Madhally, Sundararajan V.—BE (Bangalore Univ), MS (Wayne State), PhD (ibid.); Associate Professor of Chemical Engineering. 2002.
- Mafi, Gretchen Hilton—BS (Texas Tech Univ.), MS (Colorado State Univ.), PhD (Texas Tech Univ.); Associate Professor of Animal Science. 2006.
- Maguire, Karen—B.A. (Clark Univ.), M.A. (Univ. of Colorado, Boulder), Ph.D. (ibid.); Assistant Professor of Economics. 2012.
- Mahalingam, Ramamurthy—BS (Univ of Agriculture Science, Bangalore, India), MS (Clemson Univ), PhD (ibid.); Associate Professor of Biochemistry and Molecular Biology. 2003.
- Maione, Lisa—B.F.A. (Rhode Island School of Design), M.F.A. (ibid.); Assistant Professor of Art. 2016.
- Malayer, Jerry R.—BS (Purdue Univ), MS (ibid.), PhD (Univ of Florida, Gainesville); Professor of VBS: Physiological Sciences. 1994.
- Malone, Chad—BA (Ohio State Univ), MA (Univ of Toledo), PhD (Ohio State Univ); Assistant Professor of Sociology. 2015.
- Maness, Niels O.—BS (Texas A&M Univ), MS (ibid.), PhD (Oklahoma State Univ); Professor of Horticulture and Landscape Architecture. 1990.
- Manimala, James—B.Tech. (College of Engineering Trivandrum, Univ. of Kerala), MSE (Purdue Univ.), PhD (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2014.
- Mannor, Michael Joseph—BS (Aquinas College), MBA (Grand Valley State Univ.), PhD (Michigan State Univ.); Adjunct Professor of Management. 2013.
- Mansy, Khaled A.—BA (Cairo Univ), MS (Helwan Univ), PhD (Illinois Institute of Technology); Associate Professor of Architecture. 2002.
- Mantini, Lisa A.—BS (Univ of Pittsburgh), MA (Harvard Univ), PhD (ibid.); Professor of Mathematics. 1985.
- Manuchehri, Misha—B.S. (Washington State Univ.), M.S. (ibid.), Ph.D. (Texas Tech Univ.); Assistant Professor of Plant and Soil Sciences. 2016.
- Manzer, L. Lee—BA (Oklahoma State Univ), MBA (ibid.), PhD (ibid.); Professor of Marketing. 1975.
- Mao, Yu Jessie—BS (Tsinghua Univ, China), MS (ibid.), PhD (Massachusetts Institute of Technology); Assistant Professor of Biosystems and Agricultural Engineering. 2006.
- Marburger, David A—B.S. (Univ. of Illinois at Urbana-Champaign), M.S. (Univ. of Wisconsin - Madison), Ph.D. (ibid.); Assistant Professor of Plant and Soil Sciences. 2016.
- Marek, Stephen M.—BS (Univ of Missouri), MS (ibid.), PhD (Univ of California, Davis); Associate Professor of Entomology and Plant Pathology. 2003.
- Marks, Steven Ken—BSEd (Emporia State Univ), MS (ibid.), EdD (Oklahoma State Univ); Professor of Educational Studies. 1976.
- Martin, Dennis Loren.—BS (Univ of Illinois), MS (ibid.), PhD (ibid.); Professor of Horticulture and Landscape Architecture. 1990.
- Mason, Marlys Jean—BS (Minnesota State Univ), MBA (ibid.), PhD (Univ of Utah); Associate Professor of Marketing. 2002.
- Materer, Nicholas F.—BS (Univ of Missouri), PhD (Univ of California, Berkeley); Associate Professor of Chemistry. 1998.
- Matherly, James Edward—BS (Univ. of Michigan), PhD (Univ. of Maryland); Assistant Professor of Marketing. 2012.
- Mathews, Adam J.—BA (State Univ. of New York at Cortland), MA (Binghamton Univ.), PhD (Texas State Univ.); Assistant Professor of Geography. 2014.
- Mattern, Andrew—BFA (Univ. of New Mexico), MFA (Univ. of Minnesota); Assistant Professor of Art. 2015.

- Matts, Robert L.—BS (Hamline Univ), PhD (Univ of Wisconsin, Madison); Regents Professor of Biochemistry and Molecular Biology. 1985.
- Maxwell, Lara Kathleen—DVM (Univ of Florida), PhD (ibid.); Associate Professor of VBS: Physiological Sciences. 2003.
- Mayer, Robert John—BA (Univ of Michigan), MA (Northwestern), MA (San Francisco State Univ), PhD (Northwestern); Professor of English. 1991.
- Mayfield, Blayne E.—BS (Univ of Missouri, Rolla), MS (ibid.), PhD (ibid.); Associate Professor of Computer Science. 1988.
- McBee, Karen—BS (Baylor Univ), MS (Texas Tech Univ), PhD (Texas A&M Univ); Professor of Zoology. 1987.
- McCann, Joseph P.—BSc (Edinburgh Univ), MS (Cornell Univ), PhD (ibid.); Associate Professor of VBS: Physiological Sciences. 1987.
- McCann, Melinda H.—BA (Univ of Missouri), PhD (Univ of South Carolina); Associate Professor of Statistics. 1994.
- McCornack, Brian—BS (Luther College), MS (Michigan State Univ.), PhD (Univ. of Minnesota); Adjunct Professor of Entomology & Plant Pathology. 2013.
- McElroy, Kathleen O.—BA (Texas A&M Univ.), M.A. (New York Univ.), Ph.D. (Univ. of Texas at Austin); Assistant Professor of Media and Strategic Communications. 2014.
- McFarlane, Dianne—BS (Clemson Univ), MS (Univ of Georgia), DVM (Univ of California at Davis), PhD (Univ of Prince Edward Island); Associate Professor of VBS: Physiological Sciences. 2005.
- McGaha, Valerie Kay—BS (Texas Tech Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2007.
- McGlynn, William George—BA (Univ of California at Davis), MS (Univ of Arkansas), PhD (ibid.); Associate Professor of Horticulture and Landscape Architecture. 2004.
- McGrew, Kevin S. —BA (Moorhead State Univ.), MS (ibid.), PhD (Univ. of Minnesota); Adjunct Professor of Applied Health and Educational Psychology. 2014.
- McGuire, John Patrick—BS (Northwest Missouri State Univ), MA (ibid.), PhD (Univ of Missouri); Assistant Professor of Media and Strategic Communications. 2002.
- McIntyre, Nancy E. —BS (Univ. of Georgia), MS (ibid.), PhD (Colorado State Univ.); Adjunct Professor of Zoology. 2013.
- McKinnon, Lori Melton—BS (Arizona State Univ), MS (Oklahoma State Univ), PhD (Univ of Oklahoma); Associate Professor of Media and Strategic Communications. 2005.
- McLaughlin, Heather Rae— BA (Univ. of Maine), PhD (Univ. of Minnesota); Assistant Professor of Sociology. 2013.
- McMurry, Scott T.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Professor of Zoology. 2007.
- McNamara, Gerry Michael—BBA (Univ. of San Diego), MBA (ibid.), PhD (Univ. of Minnesota); Assistant Professor of Management. 2012.
- Meek, William D.—BS (Baylor Univ), PhD (Baylor College of Dentistry); Professor of CHS: Anatomy and Cell Biology. 1985.
- Meinke, David W.—BA (College of Wooster), PhD (Yale Univ); Regents Professor of Botany. 1982.
- Meinkoth, James H.—MS (Oklahoma State Univ), DVM (ibid.), PhD (Washington State Univ); Professor of VBS: Pathobiology. 1992.
- Melancon, Celinda Reese— BS (Abilene Christian Univ.), MA (Univ. of Richmond), PhD (Louisiana State Univ.); Associate Professor of Psychology. 2013.
- Melouk, Hassan A.—BSc (Alexandria Univ, Egypt), MSc (Oregon State Univ), PhD (ibid.); Adjunct Professor of Entomology and Plant Pathology. 1976.
- Melstrom, Max—BA (Kalamazoo College), MA (Michigan State Univ.), PhD (ibid.); Assistant Professor of Agricultural Economics. 2014.
- Mendez, Jeanette Mourehouse—BS (Santa Clara Univ), MA (Indiana Univ), PhD (ibid.); Associate Professor of Political Science. 2006.
- Menne, Jeffrey Michael—BA (Univ of Louisville), MA (Vanderbilt Univ), PhD (ibid.); Assistant Professor of English. 2011.
- Mermin, Jeffrey A.—BS (Duke Univ), PhD (Cornell Univ); Assistant Professor of Mathematics. 2009.
- Merten, Michael J.—BA (Univ of Wisconsin, Eau Claire), MS (Iowa State Univ), PhD (ibid.); Associate Professor of Human Development and Family Science. 2005.
- Metheny, Jarett—Assistant Professor of Engineering Technology Division. 2015.
- Miao, Li—BA (Nankai Univ., China), MS (Oklahoma State Univ.), PhD (The Pennsylvania State Univ.); Associate Professor of Hotel & Restaurant Administration. 2015.
- Mihalko, Cheryl Ann—BS (California Polytechnic State Univ.), MLA (Cornell Univ.); Assistant Professor of Horticulture & Landscape Architecture. 2012.
- Miller, Bridget Marie—BS (Univ of Nebraska), MEd (Univ of Texas), PhD (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2004.
- Miller, Douglas—BA (Univ. of Minnesota), MA (Univ. of Illinois-Chicago), PhD (Univ. of Oklahoma); Assistant Professor of History. 2015.
- Miller, Janice Williams—BS (Frostburg State Univ), MPA (California State Univ, Chico), PhD (Univ of California, Los Angeles); Professor of Educational Studies. 1988.
- Miller, Kenneth Eugene—BS (Kansas State Univ), PhD (Univ of Vermont College of Medicine); Professor of CHS: Anatomy and Cell Biology. 2002.
- Miller, Rita K.—BS (Michigan State Univ), PhD (Northwestern Univ Medical School); Assistant Professor of Biochemistry and Molecular Biology. 2009.
- Miller, Robert V.—BA (Univ of California, Davis), MS (Univ of Illinois, Urbana-Champaign), PhD (Univ of Illinois, Urbana); Regents Professor of Microbiology and Molecular Genetics. 1991.
- Miller, Ronald Keith—BSBA (Univ of Missouri), MBA (ibid.), PhD (ibid.); Associate Professor of Finance. 1981.
- Mills, Melissa Ann— BS (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Clinical Instructor of Mathematics. 2014.
- Minghetti, Matteo—PhD (Univ. of Stirling, United Kingdom); Assistant Professor of Zoology. 2015.
- Mintmire, John W.—BS (Univ of Florida), PhD (ibid.); Regents Professor of Physics. 2001.
- Missal, Joseph P.—BM (Michigan State Univ), MM (Univ of Cincinnati), DMA (Univ. of Colorado); Professor of Music. 1986.
- Mitchell, Thomas K.—BS (Pennsylvania State Univ), MS (Clemson Univ), PhD (North Carolina State Univ); Adjunct Assistant Professor of Entomology and Plant Pathology. 2008.
- Mix, Tamara Lee—BA (James Madison Univ.), MA (Univ. of Tennessee), PhD (ibid.); Associate Professor of Sociology. 2005.
- Moder, Carol Lynn—BA (State Univ of New York, Geneseo), MA (State Univ of New York, Buffalo), PhD (ibid.); Associate Professor of English. 1986.
- Moen, Daniel—BA (North Dakota State Univ.), PhD (Stony Brook Univ.); Assistant Professor of Zoology. 2015.
- Mohanty, Smrita—BS (Utkal Univ., India), MS (Univ. of Delhi, India), PhD (ibid.); Associate Professor of Chemistry. 2014.
- Molnar, Adam—BA (Harvard Univ.), MS (Univ. of Chicago), PhD (Univ. of Georgia); Assistant Professor of Statistics. 2015.
- Moore, Tami L.—BA (ibid.), MA (ibid.), PhD (Washington State Univ); Assistant Professor of Educational Studies. 2009.
- Moore-Merrell, Lori I.—BS (George Washington Univ.), MPH (ibid.), DrPH (ibid.); Assistant Professor of Political Science. 2012.
- Morgenstein, Randy—B.A. (Univ. of California, Berkeley), B.S. (ibid.), Ph.D. (Emory Univ.); Assistant Professor of Microbiology & Molecular Genetics. 2016.

- Morris, Amanda—BA (Southwestern Univ), PhD (Temple Univ); Associate Professor of Human Development and Family Science. 2006.
- Morris, Michael D.S.—BA (Southwestern Univ), PhD (Univ of Pennsylvania); Assistant Professor of Economics, 2009.
- Mort, Andrew J.—BS (McGill Univ), PhD (Michigan State Univ); Regents Professor of Biochemistry and Molecular Biology. 1981.
- Moses, L. G.—BA (Sonoma State), MA (ibid.), PhD (Univ of New Mexico); Professor of History. 1989.
- Mosier, Rachel—BA (Oklahoma State Univ.), MS (Univ. of Oklahoma), PhD (Ibid.); Assistant Professor of Engineering Technology Division. 2014.
- Moss, Justin Quetone—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Horticulture and Landscape Architecture. 2009.
- Mowen, John C.—BA (William and Mary College), PhD (Arizona State Univ); Regents Professor Emeritus of Marketing. 1978.
- Mueller, Brandon Austin—BA (Luther College), MBA (Univ of Iowa), PhD (Indiana Univ); Assistant Professor of Entrepreneurship and Emerging Enterprise. 2011.
- Mulder, Phillip G.—BS (Ferris State College), MS (Iowa State Univ), PhD (ibid.); Professor of Entomology and Plant Pathology. 1995.
- Mullins, Larry L.—BA (Oklahoma State Univ), MA (Univ of Missouri), PhD (ibid.); Professor of Psychology. 1995.
- Mullins-Sweatt, Stephanie N.—BS (Univ of Kentucky), MA (Morehead State Univ), PhD (Univ of Kentucky); Assistant Professor of Psychology. 2009.
- Munasib, Abdul Baten Ahmed—BA (Shri Ram College of Commerce), MA (Ohio State Univ), PhD (ibid.); Assistant Professor of Economics, 2009.
- Muriana, Peter M.—BS (Fairfield Univ), MS (North Carolina State Univ), PhD (ibid.); Associate Professor of Animal Science. 1997.
- Muriel, Leah Elena—BBA (Texas A&M Univ.), MS (ibid.), PhD (Univ. of Tennessee); Assistant Professor of Accounting. 2013.
- Murphy, Haley C.—BA (Univ. of Central Oklahoma), MA (Univ. of Oklahoma), PhD (ibid.); Assistant Professor of Political Science. 2014.
- Murphy, Timothy S.—BA (Cornell Univ.), MA (Univ. of California-Los Angeles), PhD (ibid.); Professor of English. 2013.
- Murray, Don S.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Regents Professor of Plant and Soil Sciences. 1978.
- Murray, Raymond T.—B.A. (Univ. of Montana), M.J. (Univ. of Missouri); Associate Professor of Media and Strategic Communications. 2016.
- Mwavita, Mwarumba—BS (Kenyatta Univ), MEd (Univ of Central Oklahoma), PhD (Oklahoma State Univ); Visiting Assistant Professor of Educational Studies. 2006.
- Myers, J. Robert—BA (Rice Univ), MA (ibid.), PhD (ibid.); Professor of Mathematics. 1979.
- Nabar, Sandeep—BCom (Univ of Bombay), MBA (ibid.), PhD (Univ of Texas); Assistant Professor of Accounting. 2003.
- Naething, Richard Maxwell—BS (Rensselaer Polytechnical Institute), MS (The Univ. of Texas at Austin), PhD (ibid.); Adjunct Professor of Electrical & Computer Engineering. 2013.
- Nafe, Laura—D.V.M. (University of Missouri); Assistant Professor of VBS: Veterinary Clinical Sciences. 2014.
- Nagaraj, Kalyani—B.E. (Univ. of Pune, India), M.S. (Virginia Technical Univ.), Ph.D. (ibid.); Assistant Professor of Industrial Engineering and Management. 2016.
- Nandi, Satyanarayan—BS (Univ of Calcutta), MS (ibid.), PhD (Univ of Chicago); Regents Professor of Physics. 1989.
- Nash, Tonia Sharlach—BA (Cambridge Univ), MA (ibid.), PhD (Harvard Univ); Assistant Professor of History. 2006.
- Nazemetz, John W.—BSIE (Lehigh Univ), PhDIE (ibid.); Associate Professor of Industrial Engineering and Management. 1978.
- Neal, David Miller—BS (Bowling Green State Univ), MA (ibid.), PhD (The Ohio State Univ); Professor of Political Science, 2006.
- Nejadmalayeri, Ali—BS (Univ of Tehran, Iran), MBA (Texas A&M, Kingsville), PhD (Univ of Arizona); Assistant Professor of Finance. 2007.
- Nelson, Debra Lynn—BBA (Texas Tech Univ), MBA (Univ of Texas at Arlington), PhD (ibid.); Professor of Management. 1985.
- Nelson, Nicholas Glade—BLA (Utah State Univ.), MLA (Univ. of Texas at Arlington); Assistant Professor of Horticulture & Landscape Architecture. 2012.
- Nelson, Richard Scott—AB (Washington Univ), MS (Urbana-Champaign, Illinois), PhD (ibid.); Adjunct Professor of Entomology and Plant Pathology. 2006.
- Nelson, Toby Larue—BS (Francis Marion Univ), PhD (Univ of South Carolina); Assistant Professor of Chemistry. 2011.
- Nemeth, Stephen Charles—BA (Union College), MA (Univ. of Iowa), PhD (ibid.); Assistant Professor of Political Science. 2013.
- Nguyen, Ellie—B.S. (Nong Lam Univ., Vietnam), Ph.D. (Univ. of Missouri-Columbia); Assistant Professor of Biochemistry & Molecular Biology. 2016.
- Nichols, Cynthia Ann—BBA (Oklahoma Baptist Univ), MA (Univ of Alabama), PhD (ibid.); Assistant Professor of Media and Strategic Communications. 2010.
- Nichols, Jason Robert—BS (Univ of Oregon), MBA (Arizona State Univ), MS (ibid.), PhD (ibid.); Visiting Assistant Professor of Management Science and Information Systems. 2010.
- Noden, Bruce Howard—BS (Houghton College), PhD (The Johns Hopkins Bloomberg School of Public Health); Assistant Professor of Entomology & Plant Pathology. 2013.
- Noell, Alan V.—BA (Texas A&M Univ), MA (Princeton Univ), PhD (ibid.); Professor of Mathematics. 1985.
- Nord, Jeretta A.—BS (Southeastern Oklahoma State Univ), MBS (ibid.), EdD (Oklahoma State Univ); Professor of Management Science and Information Systems. 1982.
- Norwood, Franklin Bailey—BS (Clemson Univ), MS (Kansas State Univ), PhD (North Carolina State Univ); Assistant Professor of Agricultural Economics. 2003.
- Nowell, Shanendra Dilese—BS (Oral Roberts Univ.), MS (Oklahoma State Univ.), PhD (ibid.); Assistant Professor of Teaching and Curriculum Leadership. 2012.
- Nygaard, Runar—B.Sc. (Univ. of Oslo, Norway), M.Sc. (ibid.), Ph.D. (ibid.); Assistant Professor of Chemical Engineering. 2016.
- O'Connell, Timothy John—BS (Cornell Univ), MA (College of William & Mary), PhD (Pennsylvania State Univ); Associate Professor of Natural Resource Ecology and Management. 2003.
- O'Brien, Haley D.—B.S. (College of Charleston), Ph.D. (Ohio Univ.); Assistant Professor of CHS: Anatomy and Cell Biology. 2016.
- O'Brien, Matthew Scott—BS (Duquesne Univ.), MEd (Salisbury Univ.), PhD (Oklahoma State Univ.); Associate Professor of Applied Health and Educational Psychology. 2006
- O'Hara, John F.—BSE (Univ. of Michigan), PhD (Oklahoma State Univ.); Adjunct Associate Professor of Electrical & Computer Engineering. 2012.
- O'Hara, Steven Eugene—BS (Oklahoma State Univ), MAE (ibid.); Professor of Architecture. 1988.
- Ochoa Corona, Francisco Manuel—BS (Universidad del Zulia-Venezuela), MS (Universidad Central de Venezuela), PhD (Univ of Florida); Assistant Professor of Entomology and Plant Pathology. 2009.
- Ochsner, Tyson E.—BS (Oklahoma State Univ), MS (Iowa State Univ), PhD (ibid.); Assistant Professor of Plant and Soil Sciences. 2009.
- Oehrtman, Michael C.—BS (ibid.), Ph.D. (Univ. of Texas at Austin); Associate Professor of Mathematics. 2009.
- Oltenucu, Pascal Anton—MS (Iowa State Univ.), DVM (College of Veterinary Medicine, Bucharest, Romania), PhD (Univ. of Minnesota, St. Paul); Professor of Animal Science. 2013.

- Oomens, Antonius G.—BS (Wageningen University, The Netherlands), MS (ibid.), PhD (ibid.); Assistant Professor of VBS: Pathobiology. 2009.
- Ophir, Alexander G.—BS (Univ of Texas), PhD (McMaster Univ); Assistant Professor of Zoology. 2009.
- Opit, George Patrick—BS (Makerere Univ, Uganda), MS (Simon Fraser Univ), PhD (Kansas State Univ); Assistant Professor of Entomology and Plant Pathology. 2009.
- Ormsbee, Christine Kay—BSE (Emporia State Univ), MS (ibid.), PhD (Univ of Kansas); Professor of Teaching and Curriculum Leadership. 2006.
- Osteen, Sissy R.—BSHE (Univ of Arkansas), MS (ibid.), EdS (Univ of South Carolina), PhD (Oklahoma State Univ); Associate Professor of Human Development and Family Science. 2001.
- Owens, Michael Keith—BS (Univ of Idaho), MS (Univ of Wyoming), PhD (Utah State Univ); Professor of Natural Resource Ecology and Management. 2007.
- Ownbey, Shiretta F.—BS (Texas Tech Univ), MS (ibid.), PhD (ibid.); Professor of Design, Housing and Merchandising. 1991.
- Ownby, Charlotte L.—BS (Univ. of Tennessee), MS (ibid.), PhD (Colorado State Univ.); Regents Professor Emeritus of VBS: Physiological Sciences. 1974.
- Palmer, Michael W.—BS (Earlham College), PhD (Duke Univ); Regents Professor of Botany. 1989.
- Pappas, James Milton—BA (Tufts Univ), MBA (Univ of Washington), PhD (Univ of Massachusetts); Associate Professor of Management. 2002.
- Park, Haejun—B.S. (Hanyang Univ., South Korea), M.S. (Worcester Polytechnic Institute), Ph.D. (ibid.); Assistant Professor of Engineering Technology Division. 2016.
- Park, Hyejune—BS (Keimyung University), MS (Virginia Tech), PhD (University of Tennessee); Assistant Professor of Design, Housing & Merchandising. 2015.
- Park, Nohpill—BS (Seoul National Univ, Korea), MS (ibid.), PhD (Texas A&M Univ); Associate Professor of Computer Science. 1999.
- Parker, Owen—B.S. (The Univ. of Southern Mississippi), M.Phil. (Cambridge Univ., U.K.), M.S. (The Univ. of Southern Mississippi), Ph.D. (Indiana Univ.); Assistant Professor of Management. 2016.
- Parker, Stephany Paige—AB (Univ of Georgia), MS (Oklahoma State Univ), PhD (ibid.); Assistant Professor of Nutritional Sciences. 2003.
- Parkison, Aimee—M.F.A. (Cornell Univ.); Assistant Professor of English. 2014.
- Parks, Charles M.—BSIE (Oklahoma State Univ.), MSIE (ibid.), PhD (ibid.); Lecturer of Industrial Engineering and Management. 2012.
- Parsons, M. Sue Christian—BS (Baylor Univ), MS (ibid.), PhD (Arizona State Univ); Associate Professor of Teaching and Curriculum Leadership. 1999.
- Parveen, Sabiha—BA (Univ. of Calcutta, India), PhD (Bowling Green State Univ.); Assistant Professor of Communications Sciences and Disorders. 2013.
- Pashin, Jack Charles— BS (Bradley Univ.), MS (Univ. of Kentucky), PhD (ibid.); Professor of Geology. 2013.
- Passmore, Tim R.J.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Applied Health and Educational Psychology. 2005.
- Pasternack, Lawrence—BA (York Univ), MA (Yale Univ), PhD (Boston Univ); Associate Professor of Philosophy. 2004.
- Patneau, Doris K.—BA (Univ of Arkansas), MA (ibid.), PhD (ibid.); Associate Professor of CHS: Anatomy and Cell Biology. 2001.
- Patrauchan, Marianna Arkadijevna—BS (Shevchenko State Univ., Kiev, Ukraine), MS (ibid.), PhD (Institute of Microbiology, Kiev, Ukraine); Assistant Professor of Microbiology and Molecular Genetics. 2008.
- Patten, Michael A. — BS (Univ. of California-Riverside), PhD (ibid.); Adjunct Professor of Zoology. 2013.
- Payne, Joshua B.—BS (Arkansas State Univ), MS (Univ of Arkansas), PhD (North Carolina State Univ); Adjunct Assistant Professor of Biosystems and Agricultural Engineering. 2009.
- Payton, Mark E.—BSEd (Southwest Missouri State Univ), MS (Oklahoma State Univ), PhD (ibid.); Regents Service Professor of Statistics. 1991.
- Peakheart, David W.—BS (Southwestern Oklahoma State Univ), MS (Oklahoma State Univ), PhD (ibid.); Assistant Professor of Physics. 1996.
- Peek, Gina G.—BA (Univ of Wisconsin, Milwaukee), MPH (Univ of Georgia, Athens), PhD (ibid.); Assistant Professor of Design, Housing and Merchandising. 2010.
- Peel, Derrell S.—BS (Montana State Univ), MS (ibid.), PhD (Univ of Illinois); Professor of Agricultural Economics. 1989.
- Peksoz, Semra—BS (METU Turkey), MS (ibid.), PhD (Oklahoma State Univ); Associate Professor of Design, Housing and Merchandising. 2005.
- Penn, Chad John—BS (Pennsylvania State Univ), MS (Univ of Delaware), PhD (Virginia Technical Univ); Associate Professor of Plant and Soil Sciences. 2006.
- Penn, Jeremy Daniel— BS (Univ. of Nebraska-Lincoln), MA (ibid.), PhD (ibid.); Adjunct Professor of Educational Studies. 2011.
- Perea-Fox, Silvia S.—BA (Oklahoma State Univ), MA (Univ of Oklahoma), PhD (ibid.); Assistant Professor of Foreign Languages and Literature. 2007.
- Perk, Jacques H.H.—Candidaat (Univ of Amsterdam), Doctorandus (ibid.), Doctor (Univ of Leiden); Professor of Physics. 1988.
- Perkins, Stephen M.—BA (Univ of Oklahoma), MA (Arizona State Univ), PhD (ibid.); Associate Professor of Sociology. 2003.
- Perry, Mark E. — Ph.D. (Univ. of Kansas); Assistant Professor of Music. 2014.
- Peterson, James T. — BS (Univ. of Illinois at Urbana-Champaign), MS (ibid.), PhD (Univ. of Missouri); Adjunct Professor of Natural Resource Ecology and Management. 2013.
- Petrova, Adriana G.—BS (Sofia Univ, Bulgaria), MA (Univ of Texas at Austin), PhD (Cornell Univ); Assistant Professor of Design, Housing and Merchandising. 2009.
- Pexa, Christopher—Assistant Professor of English. 2015.
- Peza, Eva— BS (Polytechnic Univ. of Tirana), MS (Institut Francais du Petrole), PhD (Univ. of Oklahoma); Adjunct Assistant Professor of Geology. 2012.
- Pezeshki, Adel—B.Sc. (Zanjan Univ., Iran), M.Sc. (Isfahan Univ. of Technology, Iran), Ph.D. (Ghent Univ., Belgium); Assistant Professor of Animal Science. 2016.
- Phillips, Brenda Diane—BA (Bluffton College), MA (The Ohio State Univ), PhD (ibid.); Professor of Political Science. 2005.
- Phillips, John Joseph—BAE (Oklahoma State Univ), MAE (ibid.); Associate Professor of Architecture. 2003.
- Piao, Daqing—BS (Tsinghua Univ, China), MS (Univ of Connecticut), PhD (ibid.); Associate Professor of Electrical and Computer Engineering. 2005.
- Pivateau, Griffin Patrick—BA (McNeese State Univ), JD (Univ of Texas); Assistant Professor of Economics. 2010.
- Place, Sara Elisabeth— BS (Cornell Univ.), PhD (Univ. of California, Davis); Assistant Professor of Animal Science. 2013.
- Polonchek, John A.—BA (Northwestern Univ), MS (Georgia Institute of Technology), PhD (ibid.); Professor of Finance. 1983.
- Poncy, Brian Charles—BA (Univ of Northern Iowa), EdS (ibid.), PhD (Univ of Tennessee); Assistant Professor of Applied Health and Educational Psychology. 2009.
- Poole, Thomas Andrew—BM (The Univ. of Texas at Austin), MM (Univ. of Miami), D.MA (Ibid.); Assistant Professor of Music. 2015.
- Pope, Carey N.—BS (Stephen F. Austin State Univ), MS (ibid.), PhD (Univ of Texas at Houston); Regents Professor of VBS: Physiological Sciences. 2000.

- Pope, Jing Liu—MS (Beijing Medical Univ), MD (ibid.), PhD (Univ of Louisiana, Monroe); Research Scientist of VBS: Physiological Sciences. 2002.
- Porck, Jeanine Pieterel—B.Sc. (Delft Univ. of Technology, Netherlands), M.Sc. (ibid.), Ph.D. (Erasmus Univ., Netherlands); Assistant Professor of Management. 2016.
- Potter, Howard—B.M. (State Univ. of New York, Fredonia), M.M. (Eastman School of Music), D.M.A. (Manhattan School of Music), Postgraduate (Juilliard School); Professor of Music. 2016.
- Potts, Charles Richard—BA (Univ of North Carolina, Charlotte), MA (Univ of Kansas), PhD (ibid.); Associate Professor Emeritus of Psychology. 1990.
- Pourhabib, Arash—BS (Sharif Univ. of Technology, Iran), PhD (Texas A&M Univ.); Assistant Professor of Industrial Engineering and Management. 2014.
- Prade, Rolf Alexander—BS (Univ of San Paulo), MS (ibid.), PhD (ibid.); Professor of Microbiology and Molecular Genetics. 1995.
- Pratt, David B.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Industrial Engineering and Management. 1992.
- Prentice, Jaclyn—B.B.A. (Southeastern Oklahoma State Univ.), B.S. (ibid.), M.S. (Univ. of Texas at Dallas), Ph.D. (Univ. of Arkansas); Assistant Professor of Accounting. 2016.
- Prestamo, Anne M.—BM (Kent State Univ), MLS (Univ of Wisconsin-Milwaukee), EdD (Oklahoma State Univ); Professor of Teaching and Curriculum Leadership. 2007.
- Preston, Dennis Richard—BA (Univ of Louisville), PhD (Univ of Wisconsin, Madison); Regents Professor of English. 2009.
- Price, Taryn—BS (The Univ. of Texas at Austin), MS (Middle Tennessee State Univ.), PhD (ibid.); Assistant Professor of Applied Health and Educational Psychology. 2015.
- Price III, Joseph A.—BS (Rutgers Univ), PhD (Univ of Massachusetts); Professor of CHS: Pathology. 1985.
- Pritsker, Igor E.—BA (Donetsk State Univ, USSR), MS (ibid.), PhD (Univ of South Florida); Professor of Mathematics. 2001.
- Pucket, Jonathan David—MS (Kansas State Univ.), DVM (Oklahoma State Univ.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2012.
- Puckette, James O.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Geology. 2000.
- Pulay, Alana—BS (Oregon State Univ.), MS (Univ. of Nebraska), PhD (Ohio State Univ.); Assistant Professor of Design, Housing & Merchandising. 2015.
- Pumphrey, Lela Dale—BSBA (Univ. of Southern Mississippi), MBA (Arkansas State Univ.), PhD (Univ. of Missouri - Columbia); Clinical Associate Professor of Accounting. 2013.
- Puterka, Gary Joseph—BS (Univ of Wyoming), MS (ibid.), PhD (Oklahoma State Univ); Adjunct Associate Professor of Entomology and Plant Pathology. 2005.
- Qu, Hailin—BS (Northern Arizona Univ), MS (Purdue Univ), PhD (ibid.); Regents Professor of Hotel and Restaurant Administration. 1999.
- Quan, Tracy Michelle—BS (Univ of California, San Diego), PhD (Massachusetts Institute of Technology); Assistant Professor of Geology. 2010.
- Raff, Lionel Mischa—BS (Univ of Oklahoma), MS (ibid.), PhD (Univ of Illinois); Regents Professor of Chemistry. 1964.
- Rahaim, Ronald James—BS (Michigan State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Chemistry. 2011.
- Rahnavard, Nazanin—BS (Sharif Univ of Technology), MS (ibid.), PhD (Georgia Institute of Technology); Assistant Professor of Electrical and Computer Engineering. 2009.
- Rajamani, Vignesh—BS (Univ. of Madras, India), MS (Oklahoma State Univ.), PhD (ibid.); Visiting Assistant Professor of Electrical & Computer Engineering. 2013.
- Ramakumar, Ramachandra Gupta—BE (Univ of Madras), MTech (Indian Inst of Technology), PhD (Cornell Univ); Regents Professor of Electrical and Computer Engineering. 1967.
- Ramanathan, Ranjith—BVSc (Kerala Agricultural Univ., India), MS (Univ. of Connecticut), PhD (ibid.); Assistant Professor of Animal Science. 2012.
- Ramming, Carisa Huey—BAE (Oklahoma State Univ.), MAE (ibid.), MS (ibid.); Assistant Professor of Architecture. 2011.
- Ramsay, Chris—BFA (Univ of Michigan), MFA (Texas Tech Univ); Professor of Art. 2002.
- Ramsey, Jon W.—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Agricultural Education. 2010.
- Ramsey, Joshua D.—BS (Oklahoma State Univ), MS (Univ of Illinois, Urbana), PhD (ibid.); Associate Professor of Chemical Engineering. 2008.
- Ranjan, Ashish—BVSc (Madras Veterinary College, India), PhD (Virginia Technical Univ.); Assistant Professor of VBS: Physiological Sciences. 2012.
- Rao, Ramesh P.—BS (Univ of the Philippines), MBA (Asian Institute of Management), PhD (Texas Tech Univ); Professor of Finance. 2002.
- Raper, Kellie—BS (Oklahoma State Univ), MS (ibid.), PhD (Texas A&M Univ); Associate Professor of Agricultural Economics, 2009.
- Raun, William Robert—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Nebraska); Regents Professor of Plant and Soil Sciences. 1991.
- Rayas-Duarte, Patricia—BS (Univ of Sonora, Mexico), MS (Univ of Nebraska), PhD (ibid.); Professor of Biochemistry and Molecular Biology. 1997.
- Rebek, Eric J.—BS (Univ of Wisconsin, Madison), MS (ibid.), PhD (Purdue Univ); Assistant Professor of Entomology and Plant Pathology. 2008.
- Recker, Doren A.—BA (Southern Illinois Univ), MA (ibid.), MA (Univ of Oklahoma), PhD (ibid.); Associate Professor of Philosophy. 1988.
- Reed, Hal C.—BS (Oral Roberts Univ), MS (Texas A&M Univ), PhD (Washington State Univ); Adjunct Associate Professor of Entomology and Plant Pathology. 2004.
- Reese, Brandon—BFA (Kansas City Art Institute), MFA (Bowling Green State Univ); Associate Professor of Art. 2005.
- Reichard, Mason V.—BS (Central Michigan Univ), MS (Northern Michigan Univ), PhD (Oklahoma State Univ); Assistant Professor of VBS: Pathobiology. 2008.
- Reid, Karl Nevelle—BS (Oklahoma State Univ), MS (ibid.), DSc (Massachusetts Institute of Technology); Regents Service Professor of Mechanical and Aerospace Engineering. 1964.
- Reilly, Frank Kent III—BA (Univ. of West Florida), MA (Univ. of Texas, Austin), PhD (ibid.); Assistant Professor of History. 2012.
- Reinman, Suzanne L.—BA (Albright College), MLIS (Univ. of Michigan); Associate Professor of Library. 2014.
- Reiskind, Michael Hay—AB (Amherst College), MPH (Univ of Michigan), PhD (ibid.); Assistant Professor of Entomology and Plant Pathology. 2009.
- Reitan, Eric H.—BA (Univ of Rochester), PhD (State Univ of New York, Buffalo); Professor of Philosophy. 2000.
- Renyer, Justen Michael—B.F.A. (Cameron Univ.), M.F.A. (Univ. of Oklahoma); Associate Professor of Art. 2013.
- Reuter, Ryan—BS (Oklahoma State Univ.), MS (ibid.), Ph.D. (Texas Tech Univ); Associate Professor of Animal Science. 2014.
- Rezabek, Grant B.—BS (Univ of Virginia), MPH (Univ of Oklahoma Health Science Center), DVM (Oklahoma State Univ); Assistant Professor of VBS: Pathobiology. 2006.
- Rhinehart, R. Russell—BS (Univ of Maryland), MS (ibid.), PhD (North Carolina State Univ); Professor of Chemical Engineering. 1997.
- Rhoads, Kelley E.—B.S. (Univ. of Florida), M.S. (Florida Atlantic Univ.), Ph.D. (Univ. of Arkansas); Assistant Professor of Applied Health and Educational Psychology. 2016.

- Rich, Jamie Paul—BS (Indiana Univ. at Pennsylvania), MS (Univ. of Oklahoma), PhD (ibid.); Visiting Assistant Professor of Geology. 2012.
- Richards, Christopher J.—BS (Texas A&M Univ), MS (Univ of Nebraska), PhD (Univ of Kentucky); Associate Professor of Animal Science. 2005.
- Richardson, Nathan—B.Arch. (Oklahoma State Univ.), M.Arch. (Harvard Univ.); Associate Professor of Architecture. 2016.
- Richmond, Edward—PhD (Univ. of North Carolina at Chapel Hill); Assistant Professor of Mathematics. 2014.
- Richtsmeier, Peter—BA (Washington Univ.), MS (Purdue Univ.), PhD (Univ. of Arizona); Assistant Professor of Communications Sciences and Disorders. 2014.
- Rickman, Dan S.—BS (Univ of Wyoming), MPA (ibid.), PhD (ibid.); Regents Professor of Economics. 1996.
- Riedinger, Natascha—MS (Univ. of Bremen), PhD (ibid.); Assistant Professor of Geology. 2014.
- Riggs, Angel Noel—BA (Univ of Central Oklahoma), MS (Northwestern Univ), PhD (Oklahoma State Univ); Lecturer of Agricultural Education. 2011.
- Riley, John Michael—BS (Mississippi State Univ.), MS (ibid.), PhD (Kansas State Univ.); Assistant Professor of Agricultural Economics. 2015.
- Rimmel, Lesley A.—BA (Yale College), MA (Columbia Univ), PhD (Univ of Pennsylvania); Associate Professor of History, 1999.
- Ringsmuth, Eve M.—BA (Washington Univ, St. Louis), MA (Univ of Minnesota), PhD (ibid.); Assistant Professor of Political Science. 2010.
- Ritchey, Jerry W.—BS (Oklahoma State Univ), DVM (ibid.), PhD (North Carolina State Univ); Professor of VBS: Pathobiology. 1997.
- Rizatdinova, Flera—MS (Moscow State Univ), PhD (ibid.); Assistant Professor of Physics. 2005.
- Roberts, Emily—BA (California State Univ., Fullerton), MA (Univ. of Missouri-Columbia), MArch. (Univ. of New Mexico), PhD (Univ. of Missouri-Columbia); Assistant Professor of Design, Housing & Merchandising. 2015.
- Robinson, Jeremy Shane—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Missouri, Columbia); Professor of Agricultural Education. 2007.
- Robinson, Robert Louis—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Regents Professor Emeritus of Chemical Engineering. 1965.
- Rocateli, Alex Caldeira—B.S. (UNESP, Brazil), M.S. (Auburn Univ.), Ph.D. (Texas Tech Univ.); Assistant Professor of Plant and Soil Sciences. 2015.
- Roggia, Aaron—BA (Brigham Young Univ.), M.A. (ibid.), PhD (Pennsylvania State Univ.) Assistant Professor of Foreign Languages and Literature. 2014.
- Rohrs, Richard Carlton—BA (Bucknell Univ), MA (Univ of Nebraska), PhD (ibid.); Professor of History. 1976.
- Rolf, Megan Margaret—BS (Kansas State Univ.), MS (Univ. of Missouri), PhD (ibid.); Assistant Professor of Animal Science. 2012.
- Romans, John S.C.—BS (Iowa State Univ), MA (Univ of Iowa), PhD (Univ of Kansas); Associate Professor of Applied Health and Educational Psychology. 1990.
- Roos, Jason Micah—BA (North Carolina State Univ.), MA (East Carolina Univ.), PhD (Univ. of North Carolina); Assistant Professor of Sociology. 2015.
- Rosenberger, Albert T.—BA (Whitman College), MS (Univ of Chicago), PhD (Univ of Illinois, Urbana); Professor of Physics. 1995.
- Ross, Chris R.—BS (Univ of Missouri), PhD (ibid.); Professor of VBS: Physiological Sciences. 2007.
- Rossler, Paul E.—BSIE (GMI Engineering and Management Inst), MS (Virginia Polytechnic Inst and State Univ), PhD (ibid.); Instructor of Industrial Engineering and Management. 2000.
- Roth, Liz —BA (Smith College), MFA (Univ. of Wisconsin-Madison); Associate Professor of Art. 2012.
- Rouch, Alexander J.—B.S. (United States Military Academy), M.S. (Univ. of Tennessee), Ph.D. (Medical College of Georgia); Associate Professor of CHS: Pharmacology and Physiology. 1992.
- Rouser, Kurt P.—B.S. (US Air Force Academy), M.S. (Oklahoma State Univ.), M.S. (Air Force Institute of Technology), Ph.D. (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2016.
- Rowland, Brad James—B.S. (Southeastern Oklahoma State Univ.), Ph.D. (Oklahoma State Univ.); Clinical Assistant Professor of Chemical Engineering. 2017.
- Royer, Tom A.—BS (Iowa State. Univ), MS (South Dakota State Univ), PhD (Texas A&M Univ.); Associate Professor of Entomology and Plant Pathology. 1997.
- Rudloff, Peter Joseph—BA (St. Louis Univ), MA (Univ of Illinois at Urbana-Champaign), PhD (ibid.); Assistant Professor of Political Science, 2009.
- Ruhl, Donald Dean—BA (Univ of Missouri), PhD (Saint Louis Univ School of Medicine); Assistant Professor of Biochemistry and Molecular Biology. 2010.
- Ruppert-Stroescu, Mary Susan—BS (Southern Illinois Univ), MS (ibid.), MS (Univ of Missouri), PhD (ibid.); Assistant Professor of Design, Housing and Merchandising. 2011.
- Rusin, Walter M.—B.S. (Univ. of Warsaw), M.S. (Univ. of Minnesota), Ph.D. (ibid.); Assistant Professor of Mathematics. 2014.
- Russell, Bruce W.—BSCE (Rice Univ), MCE (ibid.), PhD (Univ of Texas); Associate Professor of Civil and Environmental Engineering. 2003.
- Rutherford, Matthew—BS (Ball State Univ.), PhD (Auburn Univ); Associate Professor of Entrepreneurship and Emerging Enterprises. 2015.
- Ryan, Bill—BS (Oklahoma State Univ), MS (ibid.), EdD (ibid.); Associate Professor of Hotel and Restaurant Administration. 1981.
- Ryter, Di Ann—BA (Kearney State College), MEd (Univ. of Nebraska-Lincoln), PhD (ibid.); Assistant Professor of Teaching and Curriculum Leadership. 2012.
- Sabina, Lou—PhD (Univ. of Pittsburgh); Assistant Professor of Educational Studies. 2014.
- Sagarnaga Castillo, Jose Alfredo—B.A. (Instituto Tecnológico y de Estudios Superiores de Monterrey), M.S. (Oklahoma State Univ.), Ph.D. (Universidad Popular Autónoma del Estado de Puebla); Clinical Assistant Professor of Management. 2014.
- Sahoo, Avimanyu—B.Sc. (Cochin Univ. of Science and Technology, India), M.Tech. (Indian Institute of Tech., India), Ph.D. (Missouri Univ. of Science and Technology); Assistant Professor of Engineering Technology Division. 2016.
- Sallam, Khaled A.—BS (Cairo Univ), ME (ibid.), MS (Univ of Michigan), PhD (ibid.); Associate Professor of Mechanical and Aerospace Engineering. 2003.
- Sallee, Jeffrey Alan—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Agricultural Education. 2009.
- Samadzadeh, Mansur H.—BS (Sharif Univ of Tech.), MS (Univ of Louisiana Lafayette), PhD (ibid.); Professor of Computer Science. 1987.
- San, Omer—BS (Istanbul Technical Univ.), MS (Old Dominion Univ.), PhD (Virginia Tech); Assistant Professor of Mechanical and Aerospace Engineering. 2015.
- Sanatullova-Allison, Elvira—BA (Uzbekistan State Univ.), MA (Univ. of Nebraska), PhD (ibid.); Associate Professor of Teaching and Curriculum Leadership. 2014.
- Sandefur, Gary—BA (Univ. of Oklahoma), PhD. (Stanford Univ.); Professor of Sociology. 2014.
- Sanders, Jennifer Yong—BA (Univ of Florida), MEd (ibid.), PhD (ibid.); Associate Professor of Teaching and Curriculum Leadership. 2006.
- Sanders, Larry D.—BA (Chapman College), MS (New Mexico State Univ), PhD (Colorado State Univ); Professor of Agricultural Economics. 1985.

- Sanders, Paula Renee—BS (Univ. of California at Berkeley), MBA (*ibid.*), PhD (Univ. of Illinois at Urbana-Champaign); Assistant Professor of Accounting. 2012.
- Sanders, Steven Patrick—BA (Univ. of Sciences and Arts of Oklahoma), MM (Oklahoma City Univ.); Assistant Professor of Music. 2013.
- Sanny, Charles G.—BS (Oklahoma Baptist Univ), PhD (Univ of Oklahoma); Professor of CHS: Biochemistry and Microbiology. 1985.
- Sanogo, Adrienne Redmond—BS (Oklahoma State Univ.), MA (Univ. of Phoenix), PhD (Oklahoma State Univ.); Assistant Professor of Teaching and Curriculum Leadership. 2010.
- Santhanakrishnan, Arvind—BE (Bharathidasan Univ.), PhD (Univ. of Kentucky); Assistant Professor of Mechanical and Aerospace Engineering. 2013.
- Sarathy, Rathindra—BE (Univ of Madras, India), PhD (Texas A&M Univ); Professor of Management Science and Information Systems. 2000.
- Sarin, Pankaj—BTech. (Institute of Technology, Banaras Hindu Univ., India), PhD (Univ. of Illinois at Urbana-Champaign); Assistant Professor of Materials Science and Engineering. 2013.
- Sayre, Rebecca—Assistant Professor of VBS: Veterinary Clinical Sciences. 2015.
- Schatzer, Raymond Joe—BS (Univ of Missouri), MS (*ibid.*), PhD (Iowa State Univ); Professor of Agricultural Economics. 1983.
- Schauer, Matthew—BA (Beloit College), MA (Univ. of Pennsylvania), PhD (*ibid.*); Assistant Professor of History. 2015.
- Scheets, George M.—BS (United States Military Academy), MS (Kansas State Univ), PhD (*ibid.*); Associate Professor of Electrical and Computer Engineering. 1987.
- Schestokat, Karin—BA (Univ of Freiburg, Germany), MA (Univ of New Mexico), PhD (Univ of Southern California); Professor of Foreign Languages and Literature. 1996.
- Schick, Laurie Susan—BA (California State Univ, Northridge), MS (California State Univ, Los Angeles), PhD (Univ of California, Los Angeles); Assistant Professor of English. 2005.
- Schnelle, Michael Allen—BS (Kansas State Univ), MS (*ibid.*), PhD (Colorado State Univ); Professor of Horticulture and Landscape Architecture. 1989.
- Schoenknecht, Gerald—BS (Albert Ludwig Univ), MS (Univ of Osnabruck), PhD (*ibid.*); Associate Professor of Botany. 2000.
- Schoonover, Michael John—MS (*ibid.*), DVM (Oklahoma State Univ.); Assistant Professor of VBS: Veterinary Clinical Sciences. 2012.
- Schrader, David Charles—BA (Bethel College), MA (Indiana Univ), PhD (*ibid.*); Associate Professor of Psychology. 1991.
- Schuster, Mike—BS (Univ. of Texas), MA (New York Univ. School of Law), J.D. (South Texas College of Law); Assistant Professor of Economics. 2015.
- Schwartz, William Carleton—BS (Oklahoma State Univ), MS (*ibid.*), PhD (Univ of Iowa); Assistant Professor of Accounting. 2009.
- Schweig, Jay—B.S. (George Mason Univ.), M.S. (Cornell Univ.), Ph.D. (*ibid.*); Assistant Professor of Mathematics. 2013.
- Scott, Allen—BM (Samford Univ), MM (Univ of Alabama), PhD (Florida State Univ.); Associate Professor of Music. 1998.
- Scott-Halsell, Sheila Ann—BA (Texas Tech Univ), BS (Univ of Nebraska), MS (Texas Tech Univ), PhD (*ibid.*); Assistant Professor of Hotel and Restaurant Administration. 2006.
- Segerman, Henry—M.S. (Univ. of Oxford), Ph.D. (Stanford Univ.); Assistant Professor of Mathematics. 2014.
- Seitsinger, Jack Randall—BS (Oklahoma State Univ), MArch (*ibid.*); Professor of Architecture. 1989.
- Self, Mary Jo—BS (Oklahoma State Univ), MS (Univ of Central Oklahoma), EdD (*ibid.*); Associate Professor of Teaching and Curriculum Leadership. 2001.
- Senat, Eugene (Joey) Joseph—BA (Louisiana State Univ), MA (Univ of Memphis), PhD (Univ of North Carolina); Associate Professor of Media and Strategic Communications. 1998.
- Shabazz, Demetria R.—B.A. (Univ. of Houston), M.A. (Univ. of Alabama), Ph.D. (*ibid.*); Assistant Professor of English. 2014.
- Shah, Jindal—BTech. (Indian Institute of Technology, Bombay), MS (Univ. of Cincinnati), PhD (Univ. of Notre Dame); Assistant Professor of Chemical Engineering. 2014.
- Shan, Yongwei—BE (Chongqing Univ., China), MS (Univ. of Kentucky), PhD (Univ. of Colorado at Boulder); Assistant Professor of Civil & Environmental Engineering. 2014.
- Sharda, Ramesh—BE (Univ of Udaipur), MBA (Univ of Wisconsin, Madison), MS (Ohio State Univ), PhD (*ibid.*); Regents Professor of Management Science and Information Systems. 1980.
- Sharma, Maneesh K.—BS (The Univ. of Alabama), PhD (*ibid.*); Assistant Professor of Finance. 2013.
- Shaw, Donita Massengill—B.S. (Andrews Univ.), M.A. (Andrews Univ.), Ph.D. (Univ. of Kansas); Assistant Professor of Teaching and Curriculum Leadership. 2016.
- Shaw, Edward I.—BS (Georgia Southwestern State Univ), PhD (Univ of South Alabama College of Medicine); Associate Professor of Microbiology and Molecular Genetics. 2004.
- Shaw, James H.—BS (Stephen F. Austin State College), MFS (Yale Univ), PhD (*ibid.*); Professor of Natural Resource Ecology and Management. 1974.
- Shaw, Jennifer H.—BS (Florida State Univ.), PhD (Univ. of Montana); Assistant Professor of Zoology. 2010.
- Sheehan, Rebecca A.—BS (Purdue Univ), MAG (Southwest Texas State Univ), PhD (Louisiana State Univ.); Assistant Professor of Geography. 2006.
- Sheeran, Linda R.—BS (Western State College), MS (Fort Hays State Univ), EdD (Oklahoma State Univ); Clinical Professor of Human Development and Family Science. 1998.
- Shelton, John W.—BA (Baylor Univ.), MS (Univ. of Illinois), PhD. (*ibid.*); Assistant Professor of Geology. 2012.
- Shen, Wenyi—B.A. (Beijing Normal Univ.), M.A. (*ibid.*), Ph.D. (Indiana Univ.); Assistant Professor of Economics. 2015.
- Sheng, Weihua—BS (Zhejiang Univ, China), MS (*ibid.*), PhD (Michigan State Univ); Assistant Professor of Electrical and Computer Engineering. 2006.
- Shepherd, Steven—BA (Brock Univ.), PhD (Univ. of Waterloo); Assistant Professor of Marketing. 2015.
- Shideler, David W.—BS (Clemson Univ), MS (Pennsylvania State Univ), PhD (Ohio State Univ); Assistant Professor of Agricultural Economics. 2009.
- Shin, Huiyoung—BA (Seoul National Univ. of Education), MA (Seoul National Univ.), PhD (Univ. of Michigan); Assistant Professor of Applied Health and Educational Psychology. 2014.
- Shipka, Danny Gene—B.A. (Oklahoma State Univ.), M.S. (*ibid.*), Ph.D. (Univ. of Florida); Assistant Professor of Media and Strategic Communications. 2013.
- Sholom, Sergii—B.S. (Kiev State Univ., Ukraine), Ph.D. (*ibid.*); Research Assistant Professor of Physics. 2014.
- Shoup, Dan E.—BS (Miami Univ), MS (Univ of Oklahoma), PhD (Kent State Univ); Associate Professor of Natural Resource Ecology and Management. 2005.
- Shreffler, Karina M.—BS (Oklahoma State Univ), MA (Pennsylvania State Univ), PhD (*ibid.*); Assistant Professor of Human Development and Family Science. 2007.
- Shreffler, James William—BS (Ohio State Univ), MS (Louisiana State Univ), PhD (Univ of Florida); Adjunct Assistant Professor of Horticulture and Landscape Architecture. 2001.

- Shriver, Lenka Humenikova—BS (Oklahoma State Univ), MS (*ibid.*), PhD (*ibid.*); Assistant Professor of Nutritional Sciences. 2006.
- Shriver, Thomas E.—BA (Western Kentucky Univ), MA (Univ of Tennessee), PhD (*ibid.*); Professor of Sociology. 1995.
- Shufran, Kevin A.—BS (Purdue Univ), MS (Univ of Kentucky), PhD (Kansas State Univ); Adjunct Assistant Professor of Entomology and Plant Pathology. 1998.
- Shull, Jr., Peter Otto—BA (Princeton Univ), MS (Rice Univ), PhD (*ibid.*); Associate Professor of Physics. 1984.
- Siddons, Louise Elizabeth—BA (Cornell Univ), AM (Stanford Univ), PhD (*ibid.*); Assistant Professor of Art. 2010.
- Simkins, Betty Jo—BS (Univ of Arkansas), MBA (Oklahoma State Univ), PhD (Case Western Reserve Univ); Professor of Finance. 1997.
- Simms, Alexander Ray—BS (Oklahoma State Univ), PhD (Rice Univ); Assistant Professor of Geology. 2005.
- Simpson, William Gary—BBA (Texas Tech Univ), MBA (Southern Methodist Univ), PhD (Texas A&M Univ); Professor of Finance. 1978.
- Singh, Raj N.—BTech (I.I.T., India), MS (Univ. of Manitoba), DSc (Massachusetts Institute of Technology); Professor of General Engineering. 2012.
- Singh, Raman Pal—BTech (Indian Institute of Technology, Kanpur), MS (Univ of Rhode Island), PhD (*ibid.*); Professor of Materials Science and Engineering. 2006.
- Sippel, Kate—Assistant Professor of VBS: Veterinary Clinical Sciences. 2015.
- Sittner, Kelley J.—B.S. (Univ. of Nebraska-Lincoln), M.A. (*ibid.*), Ph.D. (*ibid.*); Assistant Professor of Sociology. 2012.
- Sitton, Shelly Ruth—BS (Oklahoma State Univ), MS (*ibid.*), PhD (*ibid.*); Associate Professor of Agricultural Education. 1992.
- Slevitch, Elisaveta Lisa—BS (St Petersburg Univ of Finance & Commerce, St Petersburg, Russia), MBA (Iowa State Univ), PhD (*ibid.*); Assistant Professor of Hotel and Restaurant Administration. 2008.
- Smay, James Earl—BS (Oklahoma State Univ), PhD (Univ of Illinois at Urbana-Champaign); Associate Professor of Chemical Engineering. 2002.
- Smith, Alexis N.—BS (Rice Univ.), PhD (Tulane Univ.); Assistant Professor of Management. 2012.
- Smith, Brenda Jane—BS (Oklahoma Baptist Univ), MS (Univ of Texas at Tyler), PhD (Oklahoma State Univ); Professor of Nutritional Sciences. 2002.
- Smith, Damon L.—BS (State Univ of New York), MS (North Carolina State Univ), PhD (*ibid.*); Assistant Professor of Entomology and Plant Pathology. 2008.
- Smith, Douglas Boyd—BS (Univ of Nebraska), MS (Univ of Nevada, Las Vegas), PhD (Univ of Nebraska); Associate Professor of Applied Health and Educational Psychology. 2002.
- Smith, Kent S.—BS (Cameron Univ), MS (Midwestern State Univ), PhD (Univ of Oklahoma); Associate Professor of CHS: Anatomy and Cell Biology. 2003.
- Smith, Lindsey Claire—BA (Hendrix College), MA (Univ of North Carolina), PhD (*ibid.*); Assistant Professor of English. 2006.
- Smith, Loren Michael—BS (Truman State Univ), MS (South Dakota State Univ), PhD (Utah State Univ); Regents Professor of Zoology. 2007.
- Smith, Michael Myrle—BA (Southern Illinois Univ), MA (*ibid.*), PhD (Texas Christian Univ); Professor of History. 1970.
- Smith, Michael Wayne—BS (Oklahoma State Univ), MS (*ibid.*), PhD (Michigan State Univ); Regents Service Professor of Horticulture and Landscape Architecture. 1977.
- Snider, Timothy A.—BS (Oklahoma State Univ), DVM (*ibid.*), PhD (*ibid.*); Associate Professor of VBS: Pathobiology. 2009.
- Soliah, Lu Ann—BS (North Dakota State Univ.), MS (Kansas State Univ.), PhD (Oklahoma State Univ.); Visiting Professor of Nutritional Sciences. 2012.
- Soliman, Mohamed—B.Sc. (Alexandria Univ., Egypt), M.Sc. (*ibid.*), PhD (Lehigh Univ); Assistant Professor of Civil & Environmental Engineering. 2015.
- Som, Mousumi—D.O. (Univ. of North Texas); Associate Professor of CHS: Family Medicine. 2017.
- Somerville, Ian D.—BSc (The Queens Univ of Belfast), PhD (*ibid.*); Adjunct Professor of Geology. 2007.
- Soulages, Jose L.—BS (Univ Nacional de la Plata), PhD (*ibid.*); Associate Professor of Biochemistry and Molecular Biology. 1999.
- Spaulding, Shannon—BA (Texas Tech Univ.), MA (Univ. of Arkansas), PhD (Univ. of Wisconsin-Madison); Assistant Professor of Philosophy. 2012.
- Spector, Tom—BS (Florida State Univ), MArch (Georgia Tech), PhD (Univ of California, Berkeley); Associate Professor of Architecture. 2003.
- Speed, George Maurice—BM (Vanderbilt Univ), MM (Boston Univ); Associate Professor of Music. 2005.
- Spencer, Angela Wheeler—BS (Univ of the Ozarks), MS (Univ of Central Arkansas), PhD (Univ of Arkansas); Professor of Accounting. 2006.
- Spicer, Leon J.—BS (Univ of Minnesota), MS (Univ of Idaho), PhD (Michigan State Univ); Professor of Animal Science. 1988.
- Spitler, Jeffrey D.—BSME (Univ of Illinois, Urbana-Champaign), MSME (*ibid.*), PhD (Oklahoma State Univ); Regents Professor of Mechanical and Aerospace Engineering. 1990.
- Stadler, Stephen John—BSEd (Miami Univ), MA (*ibid.*), PhD (Indiana State Univ); Professor of Geography. 1980.
- Stansberry, Susan L.—BS (Oklahoma State Univ), MS (*ibid.*), PhD (*ibid.*); Associate Professor of Educational Studies. 2002.
- Steelman, Zachary Raymond—B.B.A. (Northeastern State Univ.), M.S. (Univ. of Arkansas); Assistant Professor of Management Science and Information Systems. 2014.
- Steets, Janette Ann—BS (Muhlenberg College), PhD (Univ of Pittsburgh); Assistant Professor of Botany. 2007.
- Stein, Daniel R.—BS (Northwestern Oklahoma State Univ), MS (Oklahoma State Univ), PhD (*ibid.*); Assistant Professor of Animal Science. 2010.
- Stevens, Craig W.—BA (Augustana College), MS (Univ of Illinois, Chicago), PhD (Mayo Clinic); Professor of CHS: Pharmacology and Physiology. 1990.
- Stevens, Vivian M.—BS (Montclair State College), PhD (Univ of Health Science/Chicago Med School); Professor of CHS: Psychiatry and Behavioral Sciences. 1990.
- Stewart, Gary F.—B.S. (Oklahoma State Univ.), M.S. (Univ. of Oklahoma), Ph.D. (Univ. of Kansas); Professor Emeritus of Geology. 1971.
- Stine, James Edward—AB (Lycoming College), MS (Univ of Bridgeport), PhD (Lehigh Univ); Associate Professor of Electrical and Computer Engineering. 2005.
- Stinnett, Terry A.—BS (Univ of Southwestern Louisiana), MS (Northeast Louisiana Univ), PhD (Univ of Southern Mississippi); Professor of Applied Health and Educational Psychology. 1995.
- Stoecker, Arthur Louis—BS (Kansas State Univ), MS (Iowa State Univ), PhD (*ibid.*); Associate Professor of Agricultural Economics. 1987.
- Stoecker, Barbara J.—BS (Kansas State Univ), PhD (Iowa State Univ); Regents Professor of Nutritional Sciences. 1987.
- Stone, Thomas H.—BA (Univ of Michigan), MA (Univ of Minnesota), PhD (*ibid.*); Professor of Management. 1989.
- Stoodley, Scott H.—BS (West Virginia Univ), MS (Baylor Univ), PhD (Oklahoma State Univ); Adjunct Professor of Environmental Sciences. 2011.
- Storm, Daniel Eugene—BS (Virginia Tech Univ), MS (*ibid.*), PhD (Univ of Kentucky); Professor of Biosystems and Agricultural Engineering. 1990.
- Story, Chandra R.—B.S. (The Univ. of Tennessee, Knoxville), M.S. (Boise State Univ.), Ph.D. (The Univ. of Tennessee, Knoxville); Assistant Professor of Applied Health and Educational Psychology. 2012.

- Stout, Mike—B.A. (Temple Univ.), Ph.D. (Penn State Univ.); Associate Professor of Human Development & Family Science. 2016.
- Streeter, Robert N.—BS (Oklahoma State Univ), MS (ibid.), DVM (Ohio State Univ); Adjunct Associate Professor of VBS: Veterinary Clinical Sciences. 2003.
- Stroope, Z. Randall—BME (Oral Roberts Univ), MM (Univ of Colorado), DMA (Arizona State Univ); Associate Professor of Music. 2009.
- Stutey, Diane Marie—B.A. (Benedictine College), M.A. (Univ. of Colorado at Colorado Springs), Ph.D. (Univ. of Northern Colorado); Assistant Professor of Applied Health and Educational Psychology. 2016.
- Su, Kemin—BS (Beijing Agricultural Univ., China), MS (China Agricultural Univ.), PhD (Kansas State Univ.); Research Assistant Professor of Horticulture & Landscape Architecture. 2014.
- Sukhdial, Ajay Singh—BS (State Stephens College), MBA (Wake Forest Univ), PhD (Univ of Oregon); Associate Professor of Marketing. 1988.
- Sullivan, Maureen A.—BS (Texas A&M Univ), MA (State Univ of New York at Stony Brook), PhD (ibid.); Associate Professor of Psychology. 1990.
- Summy, Gil—BS (Univ of Queensland), BS (Griffith Univ), PhD (ibid.); Assistant Professor of Physics. 2002.
- Sunkar, Ramanjulu—MPhil (Sri Krishnadevaraya Univ), MSc (ibid.), PhD (ibid.); Associate Professor of Biochemistry and Molecular Biology. 2006.
- Suter, Tracy A.—BS (Wichita State Univ), MBA (Univ of Arkansas), PhD (ibid.); Associate Professor of Marketing. 2001.
- Swinney, Jane L.—BS (Colorado State Univ), MS (Iowa State Univ), PhD (Oklahoma State Univ); Associate Professor of Design, Housing and Merchandising. 2004.
- Tadege, Million—BSc (Asmara Univ), MSc (Wageningen Agricultural Univ), PhD (Univ of Bern); Associate Professor of Plant and Soil Sciences. 2010.
- Taghvaeian, Saleh—BS (Ferdowsi Univ., Iran), MS (ibid.), PhD (Utah State Univ.); Assistant Professor of Biosystems & Agricultural Engineering. 2014.
- Tahsini, Laleh—BS (Azarbaijan Univ., Iran), MSc (Sharif Univ. of Technology, Iran), PhD (ibid.); Assistant Professor of Chemistry. 2014.
- Takacs, Stacy Lynn—BA (Northwestern Univ), MA (Indiana Univ), PhD (ibid.); Associate Professor of English. 2002.
- Talbott, Laura—BM (Vanderbilt Univ), MM (Univ of Michigan), DMA (Boston Univ); Associate Professor of Music. 2004.
- Talent, Larry Gene—BA (California State Univ), MA (ibid.), PhD (Oregon State Univ); Associate Professor of Natural Resource Ecology and Management. 1980.
- Talley, Justin Lee—BS (West Texas A&M Univ), MS (ibid.), PhD (Kansas State Univ); Assistant Professor of Entomology and Plant Pathology. 2011.
- Tallman, Michael—B.S. (Univ. of Northern Colorado), M.A. (ibid.), Ph.D. (Arizona State Univ); Assistant Professor of Mathematics. 2015.
- Tapps, Tyler Nicholas—BS (Northwest Missouri State Univ), MS (ibid.), PhD (Oklahoma State Univ); Assistant Professor of Applied Health and Educational Psychology. 2010.
- Tate, Amy Halliburton—BS (Vanderbilt Univ.), MEd (Univ. of Virginia), PhD (Univ. of Missouri); Assistant Professor of Human Development & Family Science, 2005.
- Tayebi, Lobat—BS (Sharif Univ of Technology), MS (McMaster Univ), PhD (Univ of California, Davis); Assistant Professor of CHS: Biochemistry and Microbiology. 2011.
- Taylor, Jared D.—MPH (Univ of Iowa), DVM (Virginia Maryland Regional College of Veterinary Medicine), PhD (Oklahoma State Univ); Assistant Professor of VBS: Pathobiology. 2010.
- Taylor, Merritt Jefferson—BS (New Mexico State Univ), MS (ibid.), PhD (Texas A&M Univ); Professor of Agricultural Economics. 2010.
- Taylor, Randal Kevin—BS (Oklahoma State Univ), MS (ibid.), PhD (Univ of Nebraska); Professor of Biosystems and Agricultural Engineering. 2005.
- Taylor, Robert Michael—BS (ibid.), MS (ibid.), PhD (ibid.); Research Professor of Mechanical and Aerospace Engineering. 2011.
- Te Velde, John R.—BA (Dordt College), BA (Western Washington Univ), MA (Middlebury College), PhD (Univ of Washington); Professor of Foreign Languages and Literature. 1991.
- Teague, Keith A.—BSEE (Oklahoma State Univ), MSEE (ibid.), PhD (ibid.); Professor of Electrical and Computer Engineering. 1988, 1983.
- Tefft, Donita R.—BS (Oklahoma State Univ), MA (ibid.); Instructor of Communication Sciences and Disorders. 2011.
- Teluguakula, Narasaraju—BS (Sri Krishnadevaraya Univ, India), MS (Sri Venkateshwara Univ, India), PhD (Osmania Univ, India); Research Assistant Professor of VBS: Physiological Sciences. 2011.
- Tenorio, Lucero—BA (Universidad del Valle, Colombia), MA (Purdue Univ), MS (Universidad del Valle, Colombia), PhD (Purdue Univ); Associate Professor of Foreign Languages and Literature. 2010.
- Terry, H. Robert, Jr.—BS (ibid.), MS (ibid.), PhD (Texas A&M Univ); Professor of Agricultural Education. 2011.
- Thomas, Daniel L.—BS (Louisiana State Univ), ME (ibid.), PhD (Purdue Univ); Professor of Biosystems and Agricultural Engineering. 2011.
- Thomas, David Gethin.—BA (Albion College), MA (Univ of Denver), PhD (ibid.); Professor of Psychology. 1985.
- Thomas, Johnson P.—BS (Univ of Wales), MS (Univ of Edinburgh), PhD (Univ of Reading); Associate Professor of Computer Science. 2001.
- Thomas, Wayne Brian—BS (Southwestern Oklahoma State Univ.), MS (Oklahoma State Univ.), PhD (ibid.); Assistant Professor of Accounting. 2012.
- Thompson, Penny Marie —BS (Univ. of Minnesota), MA (ibid.), PhD (Michigan State Univ.); Assistant Professor of Educational Studies. 2012.
- Thrasher, Ronald R.—BUS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Visiting Assistant Professor of Sociology. 2002.
- Tikalsky, Paul J. —BS (Univ. of Wisconsin at Madison), MS (Univ. of Texas at Austin), PhD (ibid.); Professor of Civil & Environmental Engineering. 2012.
- Tilley, Daniel Stephen.—BA (Iowa State Univ), MS (ibid.), PhD (ibid.); Professor of Agricultural Economics. 1982.
- Tomas, Stacy—B.S. (Texas A&M Univ.), M.S. (ibid.), Ph.D. (ibid.); Assistant Professor of Hotel & Restaurant Administration. 2016.
- Toulouse, Michael—BS (Univ of Quebec at Montreal), MSc (Univ of Montreal), PhD (ibid.); Visiting Associate Professor of Computer Science. 2009.
- Towner, Mary Christine—BA (Univ of California, San Diego), MS (Univ of California, Davis), PhD (ibid.); Visiting Assistant Professor of Zoology. 2009.
- Towner, Rheal A.—BSc (Univ. of Guelph), MSc (ibid.), PhD (ibid.); Associate Professor of VBS: Pathobiology. 2012.
- Townsend (Townsend-Bell), Erica Elizabeth—BA (Xavier Univ. of Louisiana), MA (Washington Univ., St. Louis), PhD (ibid.); Assistant Professor of Political Science. 2012.
- Tree, David Alan—BS (Brigham Young Univ), MS (Univ of Illinois), PhD (ibid.); Professor of Chemical Engineering. 1990.
- Tringali, Michael Dominic— B.S. (Univ. of Florida), M.S. (Univ. of South Florida), Ph.D. (ibid.); Assistant Professor of Natural Resource Ecology and Management. 2013.
- Tripp, Paula J.— B.S. (Northwestern State Univ. of Louisiana), M.S. (Oklahoma State Univ.), Ph.D. (ibid.); Clinical Associate Professor of Human Development & Family Science. 2013.
- Tucker, Sheryl A.—BS (Kent State Univ), PhD (Univ of North Texas); Professor of Chemistry. 2011.
- Turcat, Eric—Ph.D. (Univ. of Wisconsin); Assistant Professor of Foreign Languages and Literature. 2015.

- Twidwell, Dirac—BS (Missouri Univ. of Science and Technology), MS (Oklahoma State Univ.), PhD (Texas A&M Univ.); Assistant Professor of Natural Resource Ecology and Management. 2014.
- Tyagi, Avdhesh—BS (Univ of Allahabad), MS (Univ of Roorkee), PhD (Univ of California, Berkeley); Associate Professor of Civil and Environmental Engineering. 1980.
- Uhlin, Graig Alan— B.A. (Univ. of Arizona), B.A. (ibid.), M.A. (New York Univ.), Ph.D. (ibid.); Assistant Professor of English. 2013.
- Ullrich, David C.—BA (Univ of Wisconsin-Madison), MA (ibid.), PhD (ibid.); Professor of Mathematics. 1983.
- Utley, Juliana Gail—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Teaching and Curriculum Leadership. 2005.
- Vadjunec, Jacqueline Michelle—BA (Bucknell Univ), MA (Clark Univ), PhD (ibid.); Assistant Professor of Geography. 2009.
- Vaidyanathan, Krishnan Ranji—BTech (Banaras Hindu Univ), MSME (North Carolina State Univ), PhD (ibid.); Professor of General Engineering. 2010.
- Van Delinder, Jean—BA (Univ of Minnesota), MA (Univ of Kansas), PhD (ibid.); Professor of Sociology. 1996.
- Van Den Bussche, Ronald Alan—BS (Eastern Kentucky Univ), MS (Memphis State Univ), PhD (Texas Tech Univ); Regents Professor of Zoology. 1995.
- Vance, Samuel Matt—BS (Univ. of Michigan), MS (Purdue Univ.), PhD (Saint Louis Univ.); Assistant Professor of Educational Studies. 2015.
- VanOverbeke, Deborah Lynn—BS (Univ of Nebraska), MS (Colorado State Univ), PhD (ibid.); Assistant Professor of Animal Science. 2005.
- Vasinda, Sheri Felske —BS (North Texas State Univ.), MS (ibid.), EdD (Texas A&M Univ.); Assistant Professor of Teaching and Curriculum Leadership. 2012.
- Vasquez, Yolanda—BS (Univ. of Texas at El Paso), PhD (Texas A&M Univ.); Assistant Professor of Chemistry. 2012.
- Vassar, Ben Matthew (Matt)—BA (Oklahoma State Univ), MBA (ibid.), PhD (ibid.); Adjunct Assistant Professor of CHS: Biochemistry and Microbiology. 2009.
- Vazquez Samroman, Dolores—B.S. (Universidad Veracruzana, Mexico), M.S. (Universidad Jaime I, Spain), M.S. (Universidad Veracruzana, Mexico), Ph.D. (Universidad Jaime I, Spain); Assistant Professor of CHS: Anatomy and Cell Biology. 2017.
- Veenstra, John N.—BS (Iowa State Univ), MS (Univ of Iowa), PhD (ibid.); Professor of Civil and Environmental Engineering. 1980.
- Vennavelli, Anand Narayanasudha—BTech (Osmania Univ), MS (Oklahoma State Univ), PhD (ibid.); Adjunct Assistant Professor of Chemical Engineering. 2011.
- Vilcaez, Javier—BE (Univ. of St. Francis Xavier, Bolivia), ME (Gunma Univ., Japan), PhD (Tohoku Univ., Japan); Assistant Professor of Geology. 2014.
- Vinson, Laura Thaut—BA (Whitworth Univ.), MA (Univ. of Minnesota), PhD (ibid.); Assistant Professor of Political Science. 2014.
- Vitale, Jeffrey Dunn—BS (Purdue Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Agricultural Economics. 2006.
- Vogel, Jason Robert—BS (Univ of Nebraska), MS (Texas A&M Univ), PhD (Oklahoma State Univ); Associate Professor of Biosystems and Agricultural Engineering. 2010.
- Vogler Cragun, Jane Susan— BA (Univ. of Northern Iowa), MEd (Wichita State Univ.), PhD (Univ. of Texas at Austin); Assistant Professor of Applied Health and Educational Psychology. 2013.
- Volberding, Jennifer L.—BS (Boston Univ), MS (Georgia State Univ), PhD (Univ of Kansas); Assistant Professor of Applied Health and Educational Psychology. 2010.
- Vora, Hitesh D.—BE (Univ. of Mumbai, India), MS (Univ. of North Texas), PhD (ibid.); Assistant Professor of Mechanical and Aerospace Engineering. 2015.
- Voss, Kevin E.—BS (Washington State Univ), MS (ibid.), PhD (ibid.); Associate Professor of Marketing. 2001.
- Wadoski, Andrew Marc—BS (St. Lawrence Univ), MA (Univ of Rochester), PhD (ibid.); Assistant Professor of English. 2010.
- Wagner, Jarrad—BS (Univ of California, Irvine), PhD (ibid.); Associate Professor of CHS: Forensic Sciences. 2007.
- Walker, Jeffrey Brian—BA (Shippensburg State College), MA (Middlebury College), PhD (Pennsylvania State Univ); Professor of English. 1981.
- Walker, Nathan R.—BA (Bloomsburg Univ), MS (Clemson Univ), PhD (Univ of Arkansas); Associate Professor of Entomology and Plant Pathology. 1999.
- Wall, Corey—D.V.M. (Colorado State Univ); Assistant Professor of VBS: Veterinary Clinical Sciences. 2014.
- Wallace, David R.—BS (Western Michigan Univ), PhD (Univ of Florida); Professor of CHS: Pharmacology and Physiology. 1996.
- Wallace, Julian Craig—BS (Univ of Tennessee at Chattanooga), MA (Univ of West Florida), PhD (Georgia Institute of Technology); Associate Professor of Management. 2006.
- Wallen, Martin J.—BA (Linfield College), MA (Vanderbilt), PhD (ibid.); Professor of English. 1987.
- Wallis, Janette—BS (Univ of Oklahoma), MS (ibid.), PhD (ibid.); Adjunct Associate Professor of Natural Resource Ecology and Management. 2009.
- Wang, Cynthia S.—BA (Yale Univ.), MS (Northwestern Univ.), PhD (ibid.); Assistant Professor of Management. 2012.
- Wang, Emma—B.E. (Wuhan Univ. of Technology, China), MA (Univ. of Nebraska-Lincoln), MA (Univ. of Arizona), MA (Anhui, Univ., China), PhD (Univ. of Arizona); Assistant Professor of Finance. 2015.
- Wang, Hongyu—BA (Northeast Normal Univ, China), MA (East China Normal Univ), PhD (Louisiana State Univ); Associate Professor of Teaching and Curriculum Leadership. 2001.
- Wang, Kelvin C.P.—BS (Southwest Jiaotong Univ, China), MS (Beijing Jiaotong Univ), PhD (Louisiana State Univ); Associate Professor of Teaching and Curriculum Leadership. 2011.
- Wang, Ning—BS (Beijing Agricultural Engineering Univ), MS (Asian Institute of Technology), PhD (Kansas State Univ); Assistant Professor of Biosystems and Agricultural Engineering. 2007.
- Wang, Qingsheng—BS (Zhejiang Univ, China), MS (ibid.), PhD (Texas A&M Univ); Assistant Professor of Chemical Engineering. 2011.
- Wang, Qiuying—BA (Harbin Normal Univ), MA (Nottingham Univ), PhD (Univ of Illinois); Associate Professor of Teaching and Curriculum Leadership. 2005.
- Wang, Shuodao—B.E. (Tsinghua Univ, China), PhD (Northwestern Univ); Assistant Professor of Mechanical and Aerospace Engineering. 2014.
- Wang, Yanqiu—BS (Fudan Univ), MS (ibid.), PhD (Texas A&M Univ); Assistant Professor of Mathematics. 2007.
- Wanger, Stephen Paul—BA (Oral Roberts Univ), MDiv (Duke Univ), PhD (Purdue Univ); Assistant Professor of Educational Studies. 2006.
- Warren, Aric Jon—BS (Univ of Nebraska), MS (Michigan State Univ), EdD (DePaul Univ); Associate Professor of Applied Health and Educational Psychology. 2005.
- Warren, Jason G.—BS (Oklahoma State Univ), MS (ibid.), PhD (Virginia Technical Univ); Assistant Professor of Plant and Soil Sciences. 2009.
- Washburn, Isaac Joel— BS (Brigham Young Univ.), MS (Oregon State Univ.), PhD (ibid.); Assistant Professor of Human Development & Family Science. 2014.
- Watson, Linda E.—BS (Louisiana State Univ), PhD (Univ of Oklahoma); Professor of Botany. 2009.
- Watters, Craig Emory—BA (Syracuse Univ), MS (ibid.), PhD (ibid.); Associate Professor of Entrepreneurship and Emerging Enterprise. 2011.

- Wayadande, Astri C.—BS (Univ of California), MS (Univ of Missouri, Columbia), PhD (Ohio State Univ); Assistant Professor of Entomology and Plant Pathology. 1997.
- Weaver, Jimmie Dean—BS (Southern Nazarene Univ.), PhD (Univ. of Kansas); Assistant Professor of Chemistry. 2012.
- Weckler, Paul R.—BS (California Polytechnic State Univ), MS (Utah State Univ), PhD (Oklahoma State Univ); Assistant Professor of Biosystems and Agricultural Engineering. 2002.
- Weeks, Penny Pennington—BS (Texas A&M Univ), MS (ibid.), PhD (ibid.); Associate Professor of Agricultural Education. 2001.
- Weeks, William Gerard—BS (Illinois State Univ), MEd (Univ of Illinois), PhD (Texas A&M Univ); Professor of Agricultural Education. 1989.
- Weil, Anne I.—AB (Harvard Univ), MA (Univ of Texas at Austin), PhD (Univ of California, Berkeley); Associate Professor of CHS: Anatomy and Cell Biology. 2006.
- Weimer, Christopher Brian—BA (Colgate Univ), MA (Miami Univ of Ohio), PhD (Pennsylvania State Univ); Professor of Foreign Languages and Literature. 2007.
- Weinert, Charles Scott—BS (Univ of Michigan), MS (Univ of Chicago), PhD (Northwestern Univ); Assistant Professor of Chemistry. 2004.
- Weiser, Mark—BS (Pennsylvania State Univ), PhD (Univ of Iowa); Associate Professor of Management Science and Information Systems. 1995.
- Welch, Ginger Lea—BS (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Clinical Associate Professor of Human Development & Family Science. 2013.
- Wells, Tony Terry—BA (Univ. of Texas at Austin), MA (Univ. of Pennsylvania), PhD (Univ. of Texas at Austin); Assistant Professor of Psychology. 2012.
- Wen, Jun—BS (Central China Agricultural Univ.), PhD (Ohio State Univ.); Adjunct Professor of Botany. 2013.
- West, James C.—BSEE (Univ of Oklahoma), MSEE (Univ of Kansas), PhD (ibid.); Professor of Electrical and Computer Engineering. 1989.
- Westerhoff, Benjamin Peter—BA (Wittenburg Univ.), MFA (Univ of Connecticut); Professor of Theatre. 1985.
- Wettemann, Robert Paul—BS (Univ of Connecticut), MS (Michigan State Univ), PhD (ibid.); Regents Professor of Animal Science. 1972.
- Whitacre, Brian E.—BS (Univ of Mary Washington), MS (Virginia Tech), PhD (ibid.); Associate Professor of Agricultural Economics. 2006.
- White, Jeffery L.—BS (Stephen F. Austin State Univ), PhD (Texas A&M); Professor of Chemistry. 2005.
- White, Margaret A.—BS (Sam Houston State Univ), MBA (ibid.), PhD (Texas A&M, College Station); Associate Professor of Management. 1986.
- White, Scott D.—PhD (Univ. of Missouri - Columbia); Assistant Professor of Accounting. 2014.
- Whiteley, James Robert—BS (Oklahoma State Univ), MS (ibid.), PhD (ibid.); Professor of Chemical Engineering. 1995.
- Whitham, Monica—BA (Simpson College), BS (Iowa State Univ.), MS (ibid.), PhD (Univ. of Arizona); Assistant Professor of Sociology. 2014.
- Wiener, Joshua Lyle—BA (Hiram), PhD (Univ of North Carolina); Professor of Marketing. 1983.
- Wikle, Thomas A.—BA (Univ of California), MA (California State Univ), PhD (Southern Illinois Univ); Professor of Geography. 1989.
- Wilber, Gregory G.—BA (Hastings College), MS (Univ of Iowa), PhD (ibid.); Associate Professor of Civil and Environmental Engineering. 1991.
- Wilder, Shawn—BA (Bradford College), MS (Miami Univ., Ohio), PhD (ibid.); Assistant Professor of Zoology. 2014.
- Will, Rodney Edward—BS (Cornell Univ), MS (Virginia Technical Univ), PhD (Univ of Georgia); Associate Professor of Natural Resource Ecology and Management. 2005.
- Willett, Keith D.—BS (Nebraska Wesleyan Univ.), MS (Univ of Nebraska at Omaha), PhD (Univ of New Mexico); Regents Service Professor of Economics. 1981.
- Williams, Elizabeth A.—BA (Univ of Oklahoma), MA (Univ of Oregon), PhD (Indiana Univ); Professor of History. 1986.
- Williamson, Amy—BS (Univ. of Oklahoma), M.Ed. (Ibid.), PhD (Univ. of North Carolina at Greensboro); Assistant Professor of Human Development & Family Science. 2015.
- Wilson, Blake Kenyon—BS (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Assistant Professor of Animal Science. 2015.
- Wilson, Duncan S.—BS (Univ of Washington), MS (Univ of Maine), PhD (Oregon State Univ); Assistant Professor of Natural Resource Ecology and Management. 2010.
- Wilson, Gail W.T.—BS (Mercyhurst College), MS (Slippery Rock State Univ), PhD (Kansas State Univ); Associate Professor of Natural Resource Ecology and Management. 2007.
- Wilson, Jeff D.—BS (Edinboro State Univ.), MS (Slippery Rock State Univ.), PhD (Kansas State Univ); Assistant Professor of Natural Resource Ecology and Management. 2013.
- Wilson, Kevin Scott—BS (Univ of Arizona), PhD (Univ of Oregon); Assistant Professor of Biochemistry and Molecular Biology. 2011.
- Wilson, Nedra Faye—BS (Northeastern Oklahoma State Univ), PhD (Univ of Texas Southwestern Graduate School); Associate Professor of CHS: Anatomy and Cell Biology. 2006.
- Wilson, Rick L.—BS (Univ of Nebraska), MS (Creighton Univ), PhD (Univ of Nebraska); Professor of Management Science and Information Systems. 1990.
- Wilson, Stephan M.—AB (Wabash College), MS (Univ of Tennessee, Knoxville), PhD (ibid.); Regents Professor of Human Development and Family Science. 2009.
- Wingate, LaRicka Rosalyn—BS (Florida State Univ), MS (ibid.), PhD (ibid.); Assistant Professor of Psychology. 2006.
- Winterowd, Carrie L.—BA (Univ of Missouri, Columbia), MS (Univ of Kansas), MS (ibid.); Associate Professor of Applied Health and Educational Psychology. 1994.
- Winters, John V.—BA (Mississippi State Univ.), MA (Georgia State Univ.), PhD (ibid.); Assistant Professor of Economics. 2013.
- Witte, Shelbie Dee Ann—B.S. (Univ. of Oklahoma), M.S. (Kansas State Univ.), Ph.D. (ibid.); Associate Professor of Teaching and Curriculum Leadership. 2015.
- Wolfgram, Mark A.—BA (Western Michigan Univ), MA (Univ of Toronto), PhD (Univ of Wisconsin); Assistant Professor of Political Science. 2005.
- Wollenberg, Gena Suela—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Clinical Assistant Professor of Nutritional Sciences. 2015.
- Womack, John Calvin—BA (Univ of Arkansas), BArch (ibid.), MArch (Oklahoma State Univ); Professor of Architecture, 1999.
- Woods, Michael D.—BS (Arkansas Tech Univ), MS (Univ of Arkansas), PhD (Oklahoma State Univ); Professor of Agricultural Economics. 1986.
- Worley, Virginia Ann—BA (College of Great Falls), MA (State Univ of New York, Buffalo), PhD (Univ of Oklahoma); Professor of Teaching and Curriculum Leadership. 2001.
- Wright, Charlotte J.—BBA (Univ of Texas-Arlington), MPA (ibid.), PhD (North Texas State Univ); Professor of Accounting. 1982.
- Wright, David J.—BA (Cornell Univ), MA (Harvard Univ), PhD (ibid.); Professor of Mathematics. 1985.
- Wroldsen, Jack—BA (Univ. of Arizona), M.Ed. (Ibid.), J.D. (Duke Univ); Assistant Professor of Economics. 2014.
- Wu, Hao Che Tristan—BA (Chinese Culture Univ., Taiwan), MA (Ming Chuan Univ., Taiwan), PhD (Texas A&M Univ.); Assistant Professor of Political Science. 2014.
- Wu, Jiahong—BS (Beijing Univ), MS (ibid.), PhD (Univ of Chicago); Associate Professor of Mathematics. 2000.

Wu, Yanqi—BSc (Ningxia Agricultural College), MSc (Sichuan Agricultural Univ), PhD (Oklahoma State Univ); Associate Professor of Plant and Soil Sciences. 2006.

Wymore, Randy S.—B.S. (Univ. of California, Davis), Ph.D. (Univ. of Californai, Irvine); Associate Professor of CHS: Pharmacology and Physiology. 2004.

Xie, Aihua—BS (Zhejiang Univ), MS (Carnegie Mellon Univ), PhD (ibid.); Professor of Physics. 1997.

Yan, Liuling—BS (Yangzhou Univ, China), MSc (ibid.), PhD (Victoria Univ); Associate Professor of Plant and Soil Sciences. 2006.

Yan, Shu—BS (Nankai Univ., China), PhD (Univ. of California at San Diego), PhD (Univ. of California Los Angeles); Assistant Professor of Finance. 2014.

Yang, Chulho—BS (Hanyang Univ.), MS (ibid.), PhD (Purdue Univ.); Associate Professor of Engineering Technology Division. 2013.

Yang, Jing—BA (China Foreign Affairs Univ.), MA (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Assistant Professor of Hotel & Restaurant Administration. 2013.

Yang, Ming—BS (Beijing Univ), MS (Chinese Academy of Sciences), PhD (Ohio State Univ); Associate Professor of Botany. 2001.

Yang, Xiaoming —BS (Tongji Univ.), MS (ibid.), PhD (Univ. of Kansas); Assistant Professor of Civil & Environmental Engineering. 2012.

Yates, Heather Noelle— BS (ibid.), ME (Pittsburg State Univ.), EdD (ibid.); Associate Professor of Engineering Technology Division. 2013.

Yen, Gary G.—BS (Nat'l Taipei Institute of Technology, Taiwan), MS (Marquette Univ), PhD (Univ of Notre Dame); Professor of Electrical and Computer Engineering. 1996.

Yetter, Georgette Protanides— BS (Dickinson College), MS (Villanova Univ), PhD (Univ of Nebraska); Associate Professor of Applied Health and Educational Psychology. 2005.

Yough, Mike—B.A. (Mt. Vernon Nazarene Univ.), M.A. (The Ohio State Univ.), M.S. (Capella Univ.), Ph.D. (The Ohio State Univ.); Assistant Professor of Applied Health and Educational Psychology. 2016.

Young, Jeffrey L.—B.S. (Ohio Northern Univ.), M.S. (Univ. of Arizona), Ph.D. (ibid.); Professor of Electrical & Computer Engineering. 2015.

Yousefian, Farzad—BS (Sharif Univ. of Technology, Iran), MS (Ibid.), PhD (Univ. of Illinois, Urbana-Champaign); Assistant Professor of Industrial Engineering and Management. 2015.

Youssef, Noha H. — BS (Ain Shams Univ., Egypt), PhD (Univ. of Oklahoma); Assistant Professor of Microbiology & Molecular Genetics. 2013.

Yu, Hongbo—BS (Peking Univ), MS (The Chinese Univ of Hong Kong), PhD (Univ of Tennessee); Associate Professor of Geography. 2005.

Yukihara, Eduardo Gardenali—BS (Univ of Sao Paulo), PhD (ibid.); Associate Professor of Physics. 2004.

Zahl, Melissa—BS (Univ. of North Dakota), MS (Univ. of Utah), PhD (Ibid.); Assistant Professor of Applied Health and Educational Psychology. 2014.

Zarrabi, Ali A. — BS (Hamadan Agricultural College), MS (Oklahoma State Univ.), PhD (ibid.); Research Assistant, Entomology & Plant Pathology. 2013.

Zhang, Bo—BS (Huazhong Univ. of Science & Technology, China), BS (ibid.), MS (ibid.), PhD (Univ. of Florida); Assistant Professor of Horticulture & Landscape Architecture. 2015.

Zhang, Guolong Glenn—BS (China Agricultural Univ), MS (ibid.), PhD (Kansas State Univ); Associate Professor of Animal Science. 2002.

Zhang, Hailin—BS (Nanjing Agricultural Univ, China), MS (Iowa State Univ), PhD (Nanjing Agricultural Univ); Regents Professor of Plant and Soil Sciences. 1984.

Zhang, Jun—BS (Wuhan Univ. of Technology, China), MS (Ibid.), PhD (Texas A&M Univ.), PhD (Institute of Physics, Chinese Academy of Sciences); Assistant Professor of Finance. 2014.

Zhang, Shaoqian—BA (Beijing Univ, China), MA (Northwestern Univ), PhD (ibid.); Assistant Professor of Art. 2011.

Zhang, Weili—BS (Tianjin Univ, China), MS (ibid.), PhD (ibid.); Professor of Electrical and Computer Engineering. 2002.

Zhao, Chaoyue Charlene—BS (Fudan Univ., China), PhD (Florida); Assistant Professor of Industrial Engineering and Management. 2014.

Zhao, Guoping—BE (Shasekai Institute of Mechanical Engineering), MA (ibid.), PhD (Univ of Virginia); Associate Professor of Educational Studies. 2002.

Zhou, Donghua H.—BS (Peking Univ), MS (College of William and Mary), PhD (ibid.); Associate Professor of Physics. 2009.

Zhu, Lan—BMed (Peking Univ), MS (Cornell Univ), PhD (ibid.); Associate Professor of Statistics. 2007.

Zierau, Roger C.—BS (Trinity College), PhD (Univ of California, Berkeley); Professor of Mathematics. 1988.

Zou, Chris Bocai—BS (Southwest Univ, China), MS (ibid.), PhD (Univ of Canterbury, New Zealand); Assistant Professor of Natural Resource Ecology and Management. 2009.

## Members Emeriti

Adolphson, Alan C.—BA (Western Washington Univ.), PhD (Princeton Univ.); Regents Professor Emeritus of Mathematics. 1983.

Aichele, Douglas B.— B.A. (Univ. of Missouri), M.A. (ibid.), Ed.D. (ibid.); Professor Emeritus of Mathematics. 1969.

Anderson, Kim Barry— B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Professor Emeritus of Agricultural Economics. 1982.

Ausburn, Lynna Joyce—BS (Univ. of Tulsa), M.A. (ibid.), Ph.D. (Univ. of Oklahoma). Associate Professor Emeritus of Teaching and Curriculum Leadership. 2000.

Banks, J. C. — BS (Oklahoma State Univ.),MS (ibid.), Ph.D. (ibid.); Professor Emeritus of Plant and Soil Sciences. 1988.

Bartels, Kenneth E. — M.S. (Colorado State Univ.), D.V.M. (Iowa State Univ.); Professor Emeritus of VBS: Veterinary Clinical Sciences. 1982

Bender, Carol L.—BS (Texas Tech Univ.), M.S. (Oregon State Univ.), Ph.D. (Univ. of California); Regents Professor Emeritus of Entomology & Plant Pathology 1986.

Boswell, Donald L.—BA (Univ. of Central Florida), M.S. (Indiana State Univ.), Ph.D. (ibid.); Associate Professor Emeritus of Applied Health and Educational Psychology. 1991.

Brown, Anthony Edward— B.A. (Baylor Univ.), M.P.A. (Univ. of Tennessee), Ph.D. (ibid.); Regents Service Professor Emeritus of Political Science. 1980.

Byrnes, Joseph F.—BA (De Montfort Seminary), M.A. (Univ. of Notre Dame), Ph.D. (Univ. of Chicago); Professor Emeritus of History. 1976.

Caneday, Lowell M.—B.A. (Le Tourneau College), M.A. (Univ. of Wyoming), Ph.D. (Univ. of Minnesota); Regents Professor Emeritus of Applied Health and Educational Psychology. 1981.

Cartinhour, John W.—BS (Univ. of Arkansas-Little Rock), MS (Oklahoma State Univ.), Ph.D. (ibid.); Associate Professor Emeritus of Engineering Technology Division. 1987.

Castle, Kathryn—BA (Univ. of Oklahoma), MA (Emory Univ.), EdD. (Univ. of Virginia); Professor Emeritus of Teaching and Curriculum Leadership. 1975.

Chandler, John P.—BS (Lehigh Univ.), MS (Indiana Univ.), PhD (ibid.); Professor Emeritus of Computer Science. 1970.

Choike, James Richard— B.S. (Univ. of Detroit), M.S. (Purdue Univ.), Ph.D. (Wayne State Univ.); Professor Emeritus of Mathematics. 1970

Conway, Kenneth E.—BA (Univ. of New York College), MS (Univ. of New York College, Syracuse), PhD (Univ of Florida);Professor Emeritus of Entomology & Plant Pathology.1978.

- Criswell, Jim T.—BS (Oklahoma State Univ.), MS (ibid.), PhD (ibid.); Professor Emeritus Entomology & Plant Pathology. 1988.
- Dicks, Michael R.—BS (California Polytechnic State Univ); MS (Univ. of Missouri at Columbia), Ph.D. (ibid.); Professor Emeritus of Agricultural Economics. 1989.
- Dillwith, Jack W.—B.S. (California State Polytechnic), M.S. (St. Mary's Univ.), Ph.D. (Univ. of Nevada, Reno); Professor Emeritus of Entomology & Plant Pathology. 1986.
- Doeksen, Gerald Arthur—B.S. (South Dakota State Univ.), M.S. (Oklahoma State Univ.), Ph.D. (ibid.); Regents Professor Emeritus of Agricultural Economics. 1978
- Echelle, Anthony A.—B.S. (Southeastern Oklahoma State Univ.), M.S. (Univ. of Oklahoma), Ph.D. (ibid.); Regents Professor Emeritus of Zoology. 1980.
- Edelson, Jonathan V.—BS (Missouri), M.S. (Auburn Univ), Ph.D. (ibid.); Professor Emeritus of Entomology & Plant Pathology. 1989.
- Edwards, Lewis H.—BS (Oklahoma State Univ), PhD (North Dakota State Univ); Professor Emeritus of Plant and Soil Sciences. 1967.
- Evans, Benny— B.S. (Oklahoma State Univ.), M.A. (Univ. of Michigan), Ph.D. (ibid.); Professor Emeritus of Mathematics. 1972
- Fischer, Leroy Henry—BA (Univ of Illinois), MA (ibid.), PhD (ibid.); Regents Professor Emeritus of History. 1946.
- Fletcher, Jacqueline— B.S. (Emory Univ.), M.S. (Univ. of Montana), Ph.D. (Texas A&M); Regents Professor Emeritus of Entomology & Plant Pathology. 1983
- Fowler, Joe Wiley— B.S. (Oklahoma State Univ.), J.D. (Oklahoma City Univ.); Professor of Legal Studies in Business. 1972.
- Fox, Stanley F.— B.S. (Univ. of Illinois), M.Phil. (Yale Univ.), Ph.D. (ibid.); Regents Professor Emeritus of Zoology. 1977
- Frank, Gerald D.— BA (Valparaiso Univ.), S.MM (Union Theological Seminary), D.MA (Univ. of Cincinnati); Professor Emeritus of Music . 1972.
- Hackett, Neil John—BA (Southern Illinois Univ), MA (ibid.), PhD (Univ of Cincinnati); Professor Emeritus of History. 1969.
- Harmon, Harold James—BS (Purdue Univ), MS (ibid.), PhD (ibid.); Professor Emeritus of Physics. 1977.
- Harriman, Helga H.—BA (Wells College), MA (Oklahoma State Univ), PhD (ibid.); Professor Emeritus of History. 1975.
- Hauenstein, Robert J.—B.S. (John Carroll Univ.), M.S. (ibid.), Ph.D. (California Institute of Technology); Professor Emeritus of Physics. 1991.
- Hedrick, George E.—BA (Adams State College), MS (Iowa State Univ.), PhD (ibid.); Regents Professor Emeritus of Computer Science. 1970.
- Jewsbury, George Frederick—BA (Mankato State College), MA (Univ of Washington), PhD (ibid.); Professor Emeritus of History. 1967.
- Johnson, Louis G.—B.S. (Massachusetts Institute of Technology), M.S. (ibid.), Ph.D. (ibid.); Professor Emeritus of Electrical & Computer Engineering. 1979
- Kahn, Brian Aleck—B.S. (Delaware Valley College), M.S. (Cornell Univ.), Ph.D. (ibid.); Professor Emeritus of Horticulture & Landscape Architecture. 1982.
- Key, James Perry—BS (Univ. of Tennessee), MEd (Virginia Polytechnic Institute), Ed.D. (North Carolina State Univ.); Professor Emeritus of Agricultural Education. 1969.
- Kirby, James S.—BS (Oklahoma State Univ), MS (ibid.), PhD (Iowa State Univ); Professor Emeritus of Plant and Soil Sciences. 1969.
- Klatt, Arthur R.—BS (Texas Tech Univ.), MS (Colorado State Univ.), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1988.
- Kletke, Marilyn G.—BA (The Colorado College), MS (Iowa State Univ.), PhD (Oklahoma State Univ.); Professor Emeritus of Management Science and Information Systems. 1976.
- Krenzer, Eugene G.—BS (Cornell Univ), MS (Univ of Minnesota), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1978.
- Lamphere-Jordan, Patricia M.—BS (Univ. of North Texas), MS (Texas A&M, Corpus Christi), Ed.D. (Univ. of Houston); Associate Professor Emeritus of Teaching and Curriculum Leadership. 1997.
- Lish, James W.—B.S. (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (ibid.); Associate Professor Emeritus of VBS: Physiological Sciences. 2012.
- Love, Ross O.—BS (Cornell Univ.), MS (Michigan State Univ.), PhD (ibid.); Professor Emeritus of Agricultural Economics. 1982.
- Lynd, Julian Q.—BS (Univ of Arkansas), MS (Michigan State Univ), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1951.
- Martin, Bjorn C.—BS (Umea, Sweden), Ph.D. (ibid.); Professor Emeritus of Plant and Soil Sciences. 1951.
- McCoy, Ronald Timothy— B.S. (Arizona State Univ.), M.A. (Northern Arizona Univ.), Ph.D. (ibid.); Professor Emeritus of History. 2009.
- McCubbins, Tipton F.— B.S. (ibid.), M.Ed. (Phillips Univ.), J.D. (Univ. of Oklahoma); Associate Professor of Legal Studies in Business. 1986.
- McKeever, Stephen W. S.—B.S. (Univ. College of North Wales, Bangor), M.S. (ibid.), Ph.D. (ibid.); Regents Professor Emeritus of Physics. 1983.
- McMurphy, Wilfred E.—BS (Oklahoma State Univ), MS (ibid.), PhD (Kansas State Univ); Professor Emeritus of Plant and Soil Sciences. 1964.
- Melcher, Ulrich K.— B.S. (Univ. of Chicago), Ph.D. (Michigan State Univ.); Regents Professor Emeritus of Biochemistry & Molecular Biology. 1975
- Miller, Edwin L.— B.S. (Iowa State Univ.), M.S. (ibid.), Ph.D. (ibid.); Regents Service Professor Emeritus of Natural Resource Ecology and Management. 1986.
- Montgomery, Diane M.— BS (Univ), MAT (Western New Mexico Univ), PhD (Univ. of New Mexico); Regents Professor Emeritus of Applied Health. 1972.
- Morgan, Sandra E.— M.S. (ibid.), D.V.M. (Oklahoma State Univ.); Professor Emeritus of VBS: Physiological Sciences. 1998.
- Nofziger, David L.—BA (Goshen College), MS (Purdue Univ), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1974.
- Nord, G. Daryl—BS (Mayville State College), MS (Univ. of North Dakota-Grand Forks), Ph.D. (ibid.); Professor Emeritus of Management Science and Information Systems. 1977.
- Oberlender, Garold D.—BS (Oklahoma State Univ.), M.S. (ibid.), Ph.D. (Univ. of Texas); Professor Emeritus of Plant and Soil Sciences. Civil & Environmental Engineering. 1974.
- Peeper, Thomas F.—BS (Oklahoma State Univ.), MS (ibid.), Ph.D. (North Carolina State Univ.); Professor Emeritus of Plant and Soil Sciences. 1976.
- Petrin, Ronald A.— B.A. (Bridgewater State College), M.A. (Clark Univ.), M.A. (Univ. of Rhode Island), Ph.D. (Clark Univ.); Professor Emeritus of History. 1985.
- Pettyjohn, Wayne A.—BA (Univ of South Dakota), MA (ibid.), PhD (Boston Univ); Regents Professor Emeritus of Geology. 1980.
- Reed, Robert M.—BS (Univ of Illinois), MS (ibid.), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1950.
- Rutledge, James A.—BS (Univ. of Wisconsin - Madison), MS (ibid.), Ed.D. (Oklahoma State Univ.); Professor Emeritus of Agricultural Education. 1990.
- Sanders, Dee Ann—BSCE (Univ. of Missouri-Rolla), MS (Oklahoma State Univ.), Ph.D. (Univ. of Texas at Austin); Associate Professor Emeritus of Civil & Environmental Engineering. 1996.
- Santelmann, Paul W.—BS (Univ of Maryland), MS (Michigan State Univ), PhD (Ohio State Univ); Regents Professor Emeritus of Plant and Soil Sciences. 1962.
- Sherwood, Peter M. A.—BSc (St. Andrew's Univ., U.K.), MA (ibid.), PhD (ibid.), DSc (Cambridge Univ., U.K.); Regents Professor Emeritus of Physics. 2004.
- Sholar, James R.—BS (Univ of Tennessee, Martin), MS (Oklahoma State Univ), PhD (ibid.); Professor Emeritus of Plant and Soil Sciences. 1975.

Smith, Edward L.—BS (Oklahoma State Univ), MS (*ibid.*), PhD (Univ of Minnesota); Regents Professor Emeritus of Plant and Soil Sciences. 1966.

Smolen, Michael— B.S. (Univ. of Rochester), M.S. (Univ. of Tennessee), Ph.D. (Virginia Poly & State Univ.); Professor Emeritus of Biosystems & Agricultural Engineering. 1990.

Snethen, Donald Ray—BS (Oklahoma State Univ.), MS (*ibid.*), PhD (*ibid.*); Professor Emeritus of Civil & Environmental Engineering. 1978.

Spaulding, Robert M.—AB (Univ of Michigan), AM (*ibid.*), PhD (*ibid.*); Professor Emeritus of History. 1971.

St. Clair, James Kenneth—BA (North Texas State Univ), BM (*ibid.*), MME (North Texas State Univ), EdD (Univ of Texas); Professor Emeritus of Educational Studies. 1964.

Stiegler, James H.—BS (Texas A&M Univ), MS (Oklahoma State Univ), PhD (Virginia Polytechnic Inst. and State Univ); Professor Emeritus of Plant and Soil Sciences. 1973.

Taliaferro, Charles M.—BS (Oklahoma State Univ), MS (Texas A&M Univ), PhD (*ibid.*); Regents Professor Emeritus of Plant and Soil Sciences. 1968.

Thayer, James Steel—BA (Indiana Univ.), MA (*ibid.*), MTS (Harvard Univ.), PhD (Univ. of Michigan); Professor Emeritus of Religious Studies. 1981.

Verhalen, Laval M.—BS (Texas Tech Univ.), Ph.D. (Oklahoma State Univ.), Professor Emeritus of Plant and Soil Sciences. 1956.

Ward, Clement E.—BS (Iowa State Univ.), MS (Kansas State Univ.), PhD (*ibid.*); Professor Emeritus of Agricultural Economics. 1978.

Warden, Paul George—BA (Baldwin-Wallace College), MA (Kent State Univ), PhD (*ibid.*); Professor Emeritus of Applied Health and Educational Psychology. 1970.

Watson, Alastair G.— B.S. (Lincoln College), B.V.Sc. (Massey Univ.), M.A.G. (*ibid.*), Ph.D. (Cornell Univ.); Professor Emeritus of VBS: Physiological Sciences. 1986.

Westhaus, Paul Anthony—BS (Saint Louis Univ.), PhD (Washington Univ.); Professor Emeritus of Physics. 1968.

Wicksted, James P.— B.A. (New York Univ.), M.A. (City Univ. of New York), Ph.D. (*ibid.*); Professor Emeritus of Physics. 1985.

Wilhm, Jerry Leo—BS (Kansas State Teachers College), MS (*ibid.*), PhD (Oklahoma State Univ); Professor Emeritus of Zoology. 1966.

Williams, Joseph E.—BS (New Mexico State Univ.), MS (*ibid.*), Ph.D. (Iowa State Univ.); Professor Emeritus of Agricultural Economics. 1975.

Wilson, Timothy Michael—BS (Univ. of Florida), Ph.D. (*ibid.*); Professor Emeritus of Physics. 1969.

Wolfe, John E.—BA (Bucknell Univ), MA (Univ of California), PhD (*ibid.*); Professor Emeritus of Mathematics. 1974.

Yarlagadda, Radha K. Rao—BE (BMS College of Engineering), MS (South Dakota State Univ), PhD (Michigan State Univ); Professor of Electrical and Computer Engineering. 1966.

# CENTER FOR HEALTH SCIENCES

## College Administration

Kayse M. Shrum, DO—President and Dean

Johnny Stephens, PharmD—Senior Vice President and Chief Operating Officer

William J. Pettit, DO—Provost, Senior Associate Dean for Academic Affairs, Associate Dean for Rural Health

Eric Polak, MBA—Vice President for Administration and Finance

Jeffrey Stroup, PharmD—Vice President for Strategy

Anhna Vuong, MALD—Vice President for External Affairs

Bruce Benjamin, PhD—Vice Provost for Graduate Studies, Associate Dean for Biomedical Sciences

LeRoy Young, DO – Senior Associate Dean for Clinical Affairs

Robin Dyer, DO—Associate Dean for Academic Affairs

Joseph Johnson, DO—Associate Dean for Clinical Education and Simulation Medicine

Kent Smith, PhD—Associate Dean for the Office for the Advancement of American Indians in Medicine and Science

Jeff Hackler, JD—Assistant Dean for Enrollment Management

Jenny Alexopoulos, DO—Director of Medical Education for OSU Medical Center, Medical Director for OSU Physicians

Gary L. Slick, DO—Director of Medical Education for Teaching Health Center

## Campus Address and Phone

**Address:** 1111 West 17th St., Tulsa, OK 74107

**Phone:** 918.582.1972, 800.677.1972

**Website:** [www.healthsciences.okstate.edu](http://www.healthsciences.okstate.edu) (<http://www.healthsciences.okstate.edu>)

**E-mail:** [admissions@chs.okstate.edu](mailto:admissions@chs.okstate.edu)

## College of Osteopathic Medicine

As health care grows more sophisticated, the supply of primary care physicians will continue to be a challenge. The OSU College of Osteopathic Medicine is helping to address that challenge and to fulfill a critical need in Oklahoma, and beyond, by training physicians who are qualified to treat every member of the family and enhance the health care process by applying his or her knowledge to treat the whole person. The mission of the OSU College of Osteopathic Medicine is to educate osteopathic primary care physicians with an emphasis on serving rural and underserved Oklahoma.

The majority of graduates of the OSU College of Osteopathic Medicine practice in the primary care fields—family medicine, emergency medicine, pediatrics, internal medicine and obstetrics/gynecology. The remaining graduates do their postdoctoral training in other specialties and subspecialties—anesthesiology, neurology, psychiatry, radiology, surgery, dermatology and oncology, to name a few. Regardless of the field they pursue, our students are trained to be excellent physicians, beginning with a strong background in general osteopathic medicine.

The college was founded in 1972 in response to a physician shortage in the small towns and rural areas of Oklahoma. The college opened its doors in 1974 and graduated its first class in 1977. In 1988, the college was merged with Oklahoma State University and confirmed its mission to prepare students to be primary care physicians with emphasis in rural medicine. In 2001, the Oklahoma legislature added

another designation by creating the OSU Center for Health Sciences – the umbrella organization for the College of Osteopathic Medicine; and graduate programs in biomedical and forensic sciences, health care administration and athletic training.

OSU Center for Health Sciences is located on 16 acres along the west bank of the Arkansas River with an impressive view of downtown Tulsa. Modern buildings house conference facilities, a hospital simulation center, expanded classroom space, a medical bookstore and a forensic sciences and biomedical research facility. The OSU Medical Center, located a half-mile north of campus, is the primary teaching hospital for the college. The medical center serves Tulsa and the surrounding communities, and serves as both a teaching clinic for medical students, interns and residents, and a health care resource for residents of Tulsa and the surrounding area. The medical center is a state entity operated by the Oklahoma State University Medical Authority, with management by Saint Francis Health System. The hospital provides comprehensive and specialized health care and is staffed by licensed physicians and other health care professionals who supervise students in the care of patients. The OSU combined clinic system covers a wide variety of specialties. The clinics provide essential health care to the community.

Promoting a patient-centered approach to health care, osteopathic physicians are concerned with the entire patient and traditionally have excelled in general and family health care. The doctor of osteopathic medicine is a fully-trained and licensed physician who selectively utilizes all accepted scientific modalities to maintain and restore health. Osteopathic physicians and surgeons are licensed in every state to practice all phases of medicine, and offer their patients the added dimension of health care through osteopathic manipulation, a hands-on technique that uses palpation and manipulative procedures of the musculoskeletal system to diagnose and treat illness.

## Minimum Admission Requirements

At the time of application, the applicant must have an overall grade-point average of at least 3.00 (on a 4.00 scale), a pre-professional science GPA of at least 2.75, and a minimum score of 492 on the Medical College Admissions Test (MCAT). All applicants must take the MCAT. They are encouraged to take the examination in the spring of the year prior to making application. Under special circumstances, the College may use discretion to admit students who do not meet these minimum requirements.

At the time of entry, the applicant must have completed:

1. At least 90 semester hours and not less than 75 percent of the courses required for the baccalaureate degree at a regionally-accredited college or university;
2. Satisfactory completion of the following courses, with no grade below a "C" (2.00 on a 4.00 scale):

Code	Title	Hours
	English (six semester hours)	
	Biology (eight semester hours), including laboratory	
	Physics (eight semester hours), including laboratory	
	General chemistry (eight semester hours), including laboratory	
	Organic chemistry (eight semester hours), including laboratory	

3. Applicants must have taken at least one upper-division (3000-4000 level) science course, including laboratory. Examples include, but are

not limited to: biochemistry, comparative anatomy, cellular biology, embryology, microbiology or molecular biology, histology, physiology, and genetics.

The annual application deadline is February 28. The deadline for supplemental application materials is March 30.

An on-campus interview with the Applicant Interview Committee is by invitation only. Interviews are conducted by clinical and basic science faculty members, as well as alumni. Applicants must participate in the interview to qualify for further consideration. Interview results and other data submitted will be considered when determining which applicants have demonstrated appropriate levels of scholarship, aptitude and motivation for admission to the program. Class size is limited to 115 students (in 2017).

OSU-COM seeks to admit students who want to become primary care physicians in rural and underserved Oklahoma. The Rural and Underserved Primary Care Early Admissions Program allows students who want to become dedicated primary care physicians practicing in rural and underserved Oklahoma to complete undergraduate and pre-doctoral training in seven years. For more information on early admissions please visit [www.healthsciences.okstate.edu/com/admissions/options.php](http://www.healthsciences.okstate.edu/com/admissions/options.php) (<http://www.healthsciences.okstate.edu/com/admissions/options.php>).

## Selection Factors

The College considers applications for admission from all qualified candidates. Oklahoma State University Center for Health Sciences prohibits discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their age, race, color, religion, sex, sexual orientation, gender, gender identity, national origin or ethnicity. Preference is given to Oklahoma residents. Applicants must be U.S. citizens or permanent residents of the U.S. Non-U.S. citizens must have a permanent resident visa ("green card") at the time of application in order to be considered for admission.

## College Curriculum

The curriculum at the OSU College of Osteopathic Medicine places significant focus on primary care. The four-year program emphasizes the integration of biomedical sciences with clinical systems. The curriculum includes early hands-on clinical experiences with patients, patient models, and simulations. Instructional methods are student-centered and include traditional lecture, and small group and team-based learning. Problem-solving and information retrieval skills are emphasized to produce and develop skills that support lifelong learning.

The culture of OSU College of Osteopathic Medicine encourages students to establish an academic relationship with faculty members and community-based physicians. The curriculum emphasizes integration of biomedical with clinical and behavioral sciences to permit the full comprehension of the clinician's work and promote a holistic approach to the care of patients and their families. Students receive training in all areas of medicine, with additional emphasis on osteopathic manipulative medicine.

Incorporated within the OSU-COM curriculum is a Rural Medical Track (RMT) that stresses the unique nature and characteristics of a rural practice, provides a pathway for student matriculation into a rural primary

care residency, and supports residency graduates in the establishment of a practice in a rural or underserved Oklahoma location.

The first semester focuses on the foundations of biomedical and clinical sciences along with an introduction to patient care. Starting in the second semester and continuing through the end of the second year, students are introduced to a total of 11 clinical systems that systematically prepare students for addressing conditions typically seen in the primary care environment. The third and fourth years are comprised of clinical rotations, which are community based, consisting of clerkship experiences in hospitals and clinics where students observe patient care and participate in the evaluation and treatment of patients under physician faculty supervision.

In the Clerkship Program, students are required to complete 22, four-week rotations in the core areas of family medicine, osteopathic manipulative medicine, pediatrics, internal medicine, surgery, obstetrics-gynecology, psychiatry and emergency medicine. In addition to the core rotations, students are also required to complete three rotations at affiliated teaching sites in rural communities, two of which are focused on gaining experience in a rural hospital setting. Students must also complete two primary care electives, seven general electives, and one required vacation. Many rotations are completed at the OSU Medical Center in Tulsa, one of the largest osteopathic hospitals in the United States.

Furthermore, students enrolled in the Rural Medical Track Program take our mission to serve rural Oklahoma to new heights. The Rural Medical Track Program is designed to allow students to complete, whenever possible, the core rotations in rural communities. In addition to the core rotations, the Rural Medical Track students must also complete at least two sub-internships with rural residency programs, as well as two sub-specialty electives.

Students graduate from the four-year program with the Doctor of Osteopathic Medicine (DO) degree. Although more than half of graduates enter primary care, graduates are prepared to enter residencies in all medical specialty fields. This training period lasts a minimum of three years with several specialties requiring up to five years of postgraduate education. To see a full list of residency programs our recent graduates have entered and residency acceptance data, along with OSU-COM's pass rate on the COMLEX-USA, please visit: see: <http://www.healthsciences.okstate.edu/com/admissions/graduates.php>

## Accreditation

The college is accredited by the Commission on Osteopathic College Accreditation (COCA) of the American Osteopathic Association, the recognized accrediting agency for institutions that educate osteopathic physicians. The Oklahoma State Regents for Higher Education are empowered by the Oklahoma Constitution to prescribe standards for higher education applicable to each institution in the Oklahoma State System of Higher Education.

## Financial Aid

Financing a medical education should be seriously considered. The primary responsibility for meeting your educational costs rests with the student and his or her family; however the Office of Student Financial Aid makes every attempt to assist him or her financially.

The Office of Student Financial Aid supports the mission of the University by enabling students and families to reduce or eliminate financial barriers that might prohibit their participation in the programs offered by OSU Center for Health Sciences. The office administers need-based

financial aid programs funded by federal, state, University, and private sources in the form of Federal Stafford loan, Perkins loan, Graduate PLUS loan, employment, as well as need- and merit-based scholarships. The office also administers the Federal non-need based loan programs (Unsubsidized) and provides information and support to students interested in the alternative loan options available to them.

Tuition and fees at the College of Osteopathic Medicine (for the 2016-2017 school year) totals \$24,926<sup>1</sup> per year for Oklahoma residents and \$48,717<sup>1</sup> per year for out-of-state residents.

Most financial aid is renewable on an annual basis, provided there is adequate funding and the student remains eligible (enrolled in a matriculated program, in good academic standing, and with continued need for need-based aid). To qualify, each student should file the Free Application for Federal Student Aid (FAFSA) by Feb. 15. Students are encouraged to continue to file after this date; however, consideration for funds will be given on a first-come basis.

The FAFSA and other required applications may be obtained by contacting:

Office of Financial Aid - OSU College of Osteopathic Medicine  
1111 West 17th Street  
Tulsa, OK 74107-1898;

Students may apply online at [www.fafsa.gov](http://www.fafsa.gov) (<http://www.fafsa.gov>) (School code is G11282).

## Graduate Education

The Center for Health Sciences offers graduate degree programs in Biomedical Sciences, Forensic Sciences, Health Care Administration and Athletic Training.

The Biomedical Sciences Graduate Program offers PhD, MS, DO/MS and DO/PhD degree programs. These programs provides students with a foundation in biomedical sciences that is broadly applicable to many disciplines, including anatomy, biochemistry, cell biology, microbiology, pathology, pharmacology and physiology.

The Master of Science in Biomedical Sciences offers a thesis and non-thesis option, with both programs designed to be completed in two years with a minimum of 32 credit hours. The PhD program is designed to be completed in four years with a minimum of 90 credit hours. The DO/PhD program is designed to be completed in a minimum of seven years. The first two years are the basic science years of the program. The middle three years are graduate study, research and dissertation of the PhD program. The final two years are the clinical sciences years of the DO program. The DO/MS program is designed to be completed in a minimum of five years. The first year is primarily the graduate portion of the program. The last four years consist of the medical portion of the degree, with any remaining graduate work completed during the first year of medical school and subsequent summers.

The Master of Science in Forensic Sciences requires a minimum of 39 credit hours with the thesis program typically completed in two full years. The MS/thesis program offers specialization in the areas of forensic biology/DNA, forensic pathology/death scene investigation, forensic pathology/microbiology, forensic psychology and forensic toxicology/trace evidence. Full-time thesis students complete first-year classes online and complete laboratory courses and research. Non-thesis options

in forensic science administration and forensic document examination are designed for practitioners with related professional experience, who complete the degree online, usually over three to four years while maintaining full-time careers. This degree is designed for individuals pursuing careers in crime labs, investigative agencies or research institutions.

The Master of Science in Health Care Administration consists of 32 total hours with a creative component or thesis including six hours of general graduate level electives. The program has an option in healthcare leadership and entrepreneurship or an option in administration. The curriculum provides exposure to management concepts, processes and techniques associated with administration and entrepreneurship functions in a variety of health care organizations. This degree is ideal for those individuals working in health care who wish to move into management or executive positions; however, healthcare experience is not required. This degree offers on-site courses at OSU-Stillwater and OSU-Tulsa as well as distance learning opportunities. This degree can be completed in-class or fully online. The DO/MS program is designed to be completed in five years. The first year is the graduate portion of the program and the last four years consist of the medical portion of the degree.

The DO/MBA is an accelerated program that allows DO students to gain their MBA through the Spears School of Business in a single year. Six hours of elective credit can be shared from the DO coursework or business electives of the student's choice. The DO/MPH is an accelerated program that allows D.O. students to gain their M.P.H. in one calendar year, by allowing DO coursework to serve as elective coursework for the MPH degree. This 42-hour program captures 27 hours of the MPH's core coursework in the fall and spring semesters with six elective hours taken in the summer.

The Master of Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Once accepted into the program, students are assigned to a Board of Certification (BOC) Certified Athletic Trainer (AT) where they are responsible to provide for the overall health care of patients over the course of their respective seasons or occupation. Clinical instruction of students is achieved through direct supervision of a licensed physician and the athletic trainer. The curriculum is based in the human sciences with anatomy, physiology, biomechanics, pathology, pharmacology, nutrition and psychology providing the theoretical foundation of student inquiry. Students learn how to apply these theoretical concepts while in the clinical setting learning under licensed physicians, athletic trainers, physical therapists and other allied health care professionals. This balance of theory and practical application prepares students to sit for the Board of Certification examination where upon successful completion, may earn the credentials ATC. Additional information about these programs can be found at: <http://www.healthsciences.okstate.edu/com/catalog.php>

## Honor and Service Organizations

The College emphasizes community service, and many students volunteer their time in giving school and athletic physicals, visiting nursing homes, working with school children, and working at College-sponsored health fairs or the annual Osteopathic Scrub Run. Listed below are official student organizations.

American College of Osteopathic Emergency Physicians (ACOEP)  
American College of Osteopathic Family Physicians (ACOFPP)  
American College of Osteopathic Pediatricians (ACOP)  
American Medical Student Association (AMSA)

American Medical Women's Association (AMWA)  
 American Osteopathic College of Physical Medicine and Rehabilitation  
 Anesthesiology Student Interest Group (ASIG)  
 Association of Military Osteopathic Physicians and Surgeons (AMOPS)  
 Association of Native American Medical Students (ANAMS)  
 Atlas Fraternity - social  
 Biomedical Science Graduate Student Association (BSGSA)  
 Business & Leadership in Medical Practice (BLIMP)  
 Christian Medical Association (CMA)  
 Club S.P.I.N.E. - fundraising for Eugene Field Elementary  
 Forensic Science Organization (FSO)  
 Gay & Lesbian Advocacy in Medicine (GLAM)  
 Health Innovation, Technology, and Entrepreneurship Club (HITEC)  
 International Federation of Medical Students' Associations (IFMSA)  
 Oklahoma Osteopathic Obstetrics and Gynecology Student Association  
 Pathology & Laboratory Medicine (PLM)  
 Pros For Africa (PFA)  
 Sigma Sigma Phi (SSP) – honor society  
 Society for Career Opportunities and Professional Exploration (SCOPE)  
 Student American Academy of Osteopathy (SAAO)  
 Student American Osteopathic Academy of Orthopedics (SAOAO)  
 Student Association Auxiliary (SAA)  
 Student Government Association (SGA)  
 Student Interest Group in Neurology (SIGN)  
 Student National Medical Association (SNMA)  
 Student Osteopathic Association for Sports Medicine (SOASM)  
 Student Osteopathic Association of Radiology (SOAR)  
 Student Osteopathic Association of Research  
 Student Osteopathic Internal Medicine Association (SOIMA)  
 Student Osteopathic Medical Association (SOMA)  
 Student Osteopathic Physical Medicine and Rehabilitation Association  
 Student Osteopathic Psychiatry Association (SOPA)  
 Student Osteopathic Research Association (SORA)  
 Student Osteopathic Rural Medicine Club (STORM)  
 Student Osteopathic Surgical Association (SOSA)  
 Student Political Action Committee  
 Wilderness Medical Society (WMS)

## Faculty

### Center for Health Sciences

**President of the Center for Health Sciences and Dean of the College of Osteopathic Medicine:** Kayse M. Shrum, DO

**Provost of the Center for Health Sciences and Senior Associate Dean of Academic Affairs of the College of Osteopathic Medicine:** William J. Pettit, DO

### Biomedical Sciences and Graduate Studies

Bruce Benjamin, PhD—Vice Provost for Graduate Studies, Associate Dean for Biomedical Sciences

### Anatomy and Cell Biology

Kenneth E. Miller PhD—Professor and Chair

**Professors:** William D. Meek, PhD; Kent S. Smith, PhD

**Associate Professors:** Anne Weil, PhD; Nedra Wilson, PhD

**Assistant Professors:** Holly Ballard, PhD; Paul Gignac, PhD; Haley O'Brien, PhD; Dolores Vasquez Sanroman, PhD

### Athletic Training

Jennifer L. Volberding, PhD—Associate Professor and Program Director

**Associate Professors:** Matthew S. O'Brien, PhD; Aric Warren, EdD

### Biochemistry and Microbiology

Charles G. Sanny, PhD—Professor and Chair

**Professors:** Martin W. Banschbach, PhD; Franklin R. Champlin, PhD

**Associate Professors:** Earl L. Blewett, PhD; Rashmi Kaul, PhD; Gerwald Köhler, PhD

### Emergency Medicine

Dennis E. Blankenship, DO—Clinical Associate Professor and Chair

**Clinical Professor:** Kent Denmark, MD

**Clinical Associate Professors:** Mark E. Blubaugh, DO; Jennifer Eischen-Galbraith, DO; David Gearhart, DO; Aaron Q. Lane, DO; Michael R. Schiesel, DO

**Clinical Assistant Professors:** Bobby Abernathy, DO; David Behm, DO; William Bickell, DO; Tyson Bryant, DO; Michael Cannon, DO; Linden Cowley, DO; Anastasia Fisher, DO; Gavin Gardner, DO; Charles Harris III, DO; James Herrington, DO; Megan Johanning, DO; Kelly A. Murray, PharmD; Zackary Spradlin, DO

### Family Medicine

Christopher Thurman, DO—Professor and Chair

Jennifer Alexopoulos, DO—Professor, Medical Education Director, Medical Director

William J. Pettit, DO—Professor, Provost, Senior Associate Dean and Associate Dean for Rural Health

**Professor:** Lora D. Cotton, DO

**Clinical Professor:** LeRoy Young, DO

**Associate Professors:** Sarah Hall, DO; Regina Lewis, DO

**Clinical Assistant Professors:** Steffen Carey, DO; Amanda Carey, DO; Amanda Gordon Green, DO; Erin Kratz DO; Andrea E. McEachern, DO; Lana Myers, DO

### Forensic Sciences

Robert W. Allen, PhD—Professor, Graduate Program Director and Chair

**Professor:** Jarrad R. Wagner, PhD

**Associate Professor:** Ronald R. Thrasher, PhD

### Health Care Administration

James Hess, EdD—Professor, Chair and Director

### Internal Medicine

Damon L. Baker, DO—Professor, Chair and Chief Medical Officer for OSUMC

Johnny R. Stephens, PharmD—Professor, Senior Vice President and Chief Operating Officer

Gary L. Slick, DO—Professor and Medical Director of OMECO

Jeffrey S. Stroup, PharmD—Professor and Interim Vice President for Strategy

**Professor:** Paul B. Rock, DO, PhD

**Associate Professor:** Mousumi Som, DO

**Assistant Professor:** Katherine Cook, DO

**Clinical Associate Professors:** Jay Johnson, DO; Matt Wilkett, DO

**Clinical Assistant Professors:** John Carabello, DO; Justin Chronister; Stacy Chronister, DO; Christina Connel, PharmD; Sharolyn Cook, DO;

Riccardo Gigante, DO; Steve Kim, DO; Leonard Laceyfield, DO; Madhuri Lad, DO; Kaleb Veit, DO; Daniel Wildes, Jr., DO; William Woods, DO

## Medical Education

Susan Steele, DO—Clinical Associate Professor and Chair

**Professors:** William Stephen Eddy, DO, MPH; Nancy Van Winkle, PhD

**Associate Professor:** Sarah Hall, DO

**Clinical Professor:** Laurie Clark, DO

**Clinical Assistant Professors:** Jana Baker, DO; Brandy Close, PhD; Matthew Tucker, DO

## Obstetrics and Gynecology

Lance Frye, MD—Clinical Associate Professor and Chair

**Clinical Professor:** William Po, MD

**Clinical Assistant Professors:** Corey Babb, DO; Erin E. Brown, DO; Carlos M. Guevara, DO; Daniel R. Oraee, DO

## Osteopathic Manipulative Medicine

Robin Dyer, DO—Professor and Chair, Associate Dean for Academic Affairs

**Clinical Professor:** Miriam Mills, MD

**Clinical Associate Professor:** Mark Thai, DO

**Clinical Assistant Professors:** Stephen Barnes, DO; Leslie Ching, DO; Amelia McConaghy, DO; Jennifer Wilson, DO

## Pathology

Anthony Alfrey, MD—Assistant Professor and Chair

**Professor:** Joseph Price, PhD

**Clinical Assistant Professor:** Eric Harp, DO

## Pediatrics

Rhonda L. Casey, DO—Professor and Chair

Kayse M. Shrum, DO—President and Dean, Professor

**Professor:** Shawna Seagraves-Duncan, DO

**Clinical Professors:** M. Hany Elsayed, MD; Colony S. Fuguete, DO

**Clinical Associate Professors:** Travis Campbell, DO; Amanda Foster, DO; Jeremy Jones, DO; Heather Rector, DO

**Clinical Assistant Professors:** Laura Bode, DO; Bing Phung, DO

## Pharmacology and Physiology

Alexander Rouch, PhD—Associate Professor and Chair

Bruce Benjamin, PhD—Vice Provost, Associate Dean for Biomedical Sciences, Associate Professor

**Professors:** Randall L. Davis, PhD; Craig Stevens, PhD; David R. Wallace, PhD

**Associate Professors:** J. Thomas Curtis, PhD; Kathleen S. Curtis, PhD; Warren E. Finn, PhD; Randy S. Wymore, PhD

## Psychiatry and Behavioral Sciences

Jason W. Beaman, DO—Clinical Assistant Professor and Chair

**Professor:** Vivian M. Stevens, PhD

**Clinical Associate Professor:** Aaron Pierce, DO

**Clinical Assistant Professors:** Alicia Ford, PhD; Shannon Hillier, DO; Samuel Martin, MD; Anna Mazur-Mosiewicz, PhD; Matt Vassar, PhD; Kimberlee Wilson, DO

## Radiology

Dean Fullingim, DO—Clinical Professor and Chair

**Clinical Assistant Professor:** Jeremy Fullingim, DO

## Rural Health

William J. Pettit, DO—Professor, Provost, Senior Associate Dean and Associate Dean for Rural Health

Gary L. Slick, DO—Professor and Medical Director of OMECO

Jeff Hackler, JD, MBA—Clinical Assistant Professor and Assistant Dean for Enrollment Management

Denna Wheeler, PhD—Clinical Associate Professor, Interim Assistant to the Dean for Operation and Interim Section Chief

**Clinical Assistant Professors:** Duane Koehler, DO, Assistant to the Dean; Douglas Nolan, DO; C. Michael Ogle, DO

## Surgery

Michael Thomas, MD—Clinical Assistant Professor and Chair

**Professors:** Brian C. Diener, DO; Douglas C. Foster, DO

**Clinical Associate Professor:** Laurie A. Duckett, DO

**Clinical Assistant Professors:** Stephen Bovasso, DO; Adam Bradley, DO; Trevor Bright, DO; Sarah Carter-Layman, DO; Kimberlie Dullye, MD; Tom Hamilton, DO; Jaclyn Jones, DO; Bradley Mons, DO; Jeffrey Morris, DO; Hal H. Robbins, DO; Nathan Roberts, DO; Lea Rollings, DO; Brad White, DO

# CENTER FOR VETERINARY HEALTH SCIENCES

## College Administration

Chris Ross, DVM, PhD—Interim Dean  
 Margi Gilmour, DVM—Interim Associate Dean for Academic Affairs  
 Jerry Malayer, PhD—Associate Dean for Research and Graduate Education

## Campus Address and Phone

**Address:** 205 McElroy Hall, Stillwater, OK 74078  
**Phone:** 405.744.6651  
**Fax:** 405.744.6633  
**Website:** [www.cvhs.okstate.edu](http://www.cvhs.okstate.edu) (<http://www.cvhs.okstate.edu>)

## Doctor of Veterinary Medicine Program

A primary objective of the Center for Veterinary Health Sciences is to educate veterinarians for private practice. In addition, the professional curriculum provides an excellent basic biomedical education and training in diagnosis, disease prevention, medical treatment and surgery. Graduates are qualified to pursue careers in many facets of veterinary medicine and health-related professions.

## Accreditation

The College has full academic accreditation status approved by the Council on Education of the American Veterinary Medical Association. Accreditation is based on an assessment of 11 essential factors, namely, the college's organization, its finances, facilities and equipment, clinical resources, library and learning resources, enrollment, admissions, faculty, curriculum, continuing and post-graduate education, and research.

## Preparatory Requirements

In preparation for the professional DVM training the student must complete both prescribed and elective collegiate courses. The minimum prescribed preparatory studies, totaling 64 semester hours of undergraduate course work, can be completed in three calendar years. Most of the entering veterinary medical students in recent years have had three to four years of preparatory training, often earning a bachelor's degree.

## Admission Requirements

Collegiate course requirements for entry into veterinary medical college may be completed at any accredited university or college that offers the required courses. Pre-veterinary curricula are available at Oklahoma State University through the Division of Agricultural Sciences and Natural Resources and through the College of Arts and Sciences. Both offer programs of study in pre-veterinary medical sciences, which provide for the award of a bachelor's degree after successful completion of the first or second year of veterinary medical studies.

Requests for information on pre-veterinary medical study programs and applications for admission to such programs should be addressed to the dean of either the Division of Agricultural Sciences and Natural Resources or the College of Arts and Sciences.

Listed below are the minimum course prerequisites for consideration for admission to the Center for Veterinary Health Sciences:

English—nine semester hours including six hours of composition and three hours of an English elective. Course work in speech or technical writing is encouraged.

Chemistry—general inorganic chemistry including labs (9 hours); an organic chemistry series (8 semester hours) designed for pre-veterinary and pre-medical students that includes both the aliphatic and aromatic compounds or survey course with lab (5-8 hours); and 3 semester hours of biochemistry.

Physics—Eight hours of general physics.

Mathematics—three semester hours. Minimum level of college algebra or higher math. Course work in statistics is not acceptable.

Biological science—16 semester hours. Courses in zoology, general biology, microbiology and genetics are required. All courses, except genetics, must include laboratory work.

Animal Nutrition—three semester hours of the basic principles of animal nutrition, including rumen digestion, absorption and metabolism of the various food nutrients and ration formulation. Courses in human nutrition are not acceptable.

Humanities and social science—six semester hours.

Business electives—although not required, courses in business are encouraged.

The information on admission requirements was current at the time of publication but is subject to change. The admission requirements are under annual review and changes may be made at any time.

## Scholarships

The College has scholarships which may be available to matriculating veterinary medicine students; most are based on academic achievement.

## Application Process

Admission is competitive and enrollment in veterinary medicine is restricted. Applications for admission must be submitted by September 15th, and a new class enters the College each year at the beginning of the subsequent fall semester.

Applicants who are legal residents of Oklahoma will be given first priority. In addition, a limited number of nonresidents will be selected. Questions about residency should be directed to the Office of the Registrar, Oklahoma State University. Requests for application materials should be directed to the Student Services Office, Center for Veterinary Health Sciences.

Students are admitted as candidates for the Doctor of Veterinary Medicine degree on the basis of records of academic performance in preparatory studies, GRE test, and references to determine personal characteristics and career motivation. Details concerning admissions procedures are available via the Center for Veterinary Health Sciences website [www.cvhs.okstate.edu](http://www.cvhs.okstate.edu) (<http://www.cvhs.okstate.edu>).

The veterinary curriculum extends over four calendar years. The first two academic years conform to the normal semester system of the University. The last two academic years are continuous, with the fourth starting shortly after completion of the third. The fourth year is clinical in nature and classes are primarily in the Boren Veterinary Medical Teaching Hospital. The fourth year is organized into three-week rotations to provide

for lower faculty-student ratio and more efficient use of clinical facilities and resources.

## Veterinary Medical Research Scholars

Thanks to opportunities in research for veterinary students at OSU, those receiving degrees can qualify for 'veterinary medical research scholar designation' on the transcript, a valuable designation to achieve. To be considered, the student must:

- For a minimum of two semesters or in full-time summer employment, be engaged in and contribute substantively to research or creative inquiry with a faculty mentor and/or faculty-led team. The supervising mentor may be employed at Oklahoma State University or at another university.
- Present his or her research or creativity project at a state, regional or national conference or juried artistic venues such as art exhibitions, concerts, or festivals;
- Publish his or her work or a manuscript related to the creativity product in a refereed research or professional journal (or have it accepted for publication).

Applicants should apply through the Office of the Associate Dean for Academic Affairs, Center for Veterinary Health Sciences and Recognition at least six weeks before the end of their studies at OSU. A committee appointed by the Faculty Council will examine the materials and determine whether or not the candidate will be approved and recognized.

For further information contact the office at 405.744.6595 or email [chris.ross@okstate.edu](mailto:chris.ross@okstate.edu).

## Veterinary Biomedical Sciences Graduate Program

Pamela Lloyd, PhD—Associate Professor and Coordinator of Graduate Studies

The veterinary biomedical sciences (VBS) graduate program is a multidisciplinary program intended to provide students a broad base of research areas to address individual student interests. The program is administered within the Center for Veterinary Health Sciences but may involve faculty from other colleges. Programs of research and study leading to the degrees of Master of Science and Doctor of Philosophy are available within the broad areas of focus: infectious diseases, pathobiology, and physiological sciences. The program is designed to prepare individuals for careers in teaching and research, and specialization is possible within each area dependent upon student and faculty interests and available funding.

Current areas of research focus include molecular, cell and developmental biology, clinical sciences (including laser applications and oncology); infectious and parasitic diseases (including vector-borne diseases, bacterial and viral diseases in wild and domestic animals); pathobiology; and toxicology. Faculty and their specific areas of interest are available through the graduate coordinator ([vbsc@okstate.edu](mailto:vbsc@okstate.edu)) or online at <https://cvhs.okstate.edu/veterinary-biomedical-sciences-graduate-program>.

### Prerequisites

Candidates for admission must possess a bachelor's degree or equivalent, with a background in biological or physical sciences. Although there are no absolute performance level requirements, applicants with quantitative GRE scores at the 75th percentile or greater and GPAs of 3.0 (out of 4.0) or greater, will receive strongest consideration.

### The Master of Science Degree

The MS may be earned with 30 credit hours beyond a bachelor's degree or 21 hours beyond the DVM degree, including not more than six credit hours for the thesis. The plan of study is designed to meet the student's needs and interests and typically includes two credits of seminar, one course in statistics, and courses in molecular or cell biology and pathophysiology. The student must also pass a final oral examination covering the thesis and related course work.

### The Doctor of Philosophy Degree

The PhD requires a minimum of 60 credit hours beyond the bachelor's degree or DVM degree, including up to 45 credit hours for research and dissertation. The plan of study is designed to meet the student's needs and interests and typically includes courses in cell and molecular biology, pathophysiology, statistics and seminar. Written and oral qualifying examinations are required. Students must prepare a research proposal and complete and defend a dissertation based on original research.

### Application Procedure

Applications are made to the Graduate College (<http://gradcollege.okstate.edu/apply>) and are accepted at any time; however, all documents should be received prior to March 1st for admission to the fall semester. Applicants are required to submit official transcripts of all college-level work and scores for the GRE general test. International applicants are required to take an English proficiency exam TOEFL or

equivalent exam, unless a student is from a country where English is a first language. For students seeking graduate teaching assistantships, a score of 22 or greater on speaking part of the internet-based TOEFL (iBT) is required. In addition, the applicant will submit a statement of purpose stating their preparation for graduate study as well as how earning a graduate degree will further their educational and career goals and will have three persons knowledgeable of their preparation for graduate study write and submit letters of reference.

Information about faculty research interests is available upon request to the graduate coordinator ([vbsc@okstate.edu](mailto:vbsc@okstate.edu)). After acceptance to the graduate program, students select a major professor and an advisory committee and develop a plan of study consistent with the VBS graduate program requirements and subject to approval of the dean of the Graduate College.

### Assistantships

A limited number of graduate teaching and research assistantships are available.

### Internship and Residency Programs

Internships and residency programs in clinical medicine and surgery are offered through the Department of Veterinary Clinical Sciences. Residency programs in pathology are offered through the Department of Veterinary Pathobiology.

### Faculty

Pamela Lloyd, PhD—Associate Professor and Coordinator of Graduate Studies

## Veterinary Clinical Sciences

### Internship and Residency Programs

The department offers graduate professional programs (internships and residencies). Internships are one-year post-DVM clinical programs in small or large animal medicine and surgery.

Internships are designed in part to prepare students for residencies or graduate academic programs. Currently internships are offered in small animal medicine and surgery rotating, equine internal medicine and surgery rotating, theriogenology, food animal medicine and surgery, zoological medicine, and diagnostic imaging.

Residencies are three-year clinical programs in various disciplines designed in part to prepare for specialty board certification. Currently, residencies are offered in small animal surgery, small animal internal medicine, equine internal medicine, equine surgery, food animal medicine and surgery, ophthalmology, and theriogenology. Graduate academic programs may be available in association with residencies.

### Application Procedure

Applications are accepted at any time and are considered as positions become available. Most open positions are listed in the Veterinary Internship/Residency Matching Program at [www.virmp.org](http://www.virmp.org) (<http://www.virmp.org>).

### Faculty

\*Daniel J. Burba, DVM, DACVS, McCasland Professor of Biomedical Laser Surgery and Interim Department Head

**Regents Professor and Endowed Chairs:** Kenneth Bartels, DVM, MS, and Cohn Family Chair for Animal Care (emeritus); \*Melanie Boileau, DVM, MS, DACVIM, and Clinical Professorship in the Center for Veterinary Health Sciences; \*Daniel J. Burba, DVM, DACVS, and McCasland Endowed Chair; Andrew Hanzlicek, DVM, MS, DACVIM, and Kirkpatrick Chair in Small Animal Medicine; \*Todd Holbrook, DVM, DACVIM, DACVSMR, and Jack & June Jacobs Chair in Veterinary Medicine; G. **\*Board Certification in Specialty Area**

## Veterinary Pathobiology

\*Board Certification in Specialty Area

Jerry Ritchey, DVM, PhD, DACVP—Professor and Department Head  
**Residency Coordinators:** Dr. Melanie A. Breshears, Anatomic Residency Coordinator and Dr. James H. Meinkoth, Clinical Residency Coordinator  
 Residency programs in anatomic and clinical veterinary pathology are offered. Candidates must have the DVM degree or equivalent. The anatomic and clinical pathology residency programs are three years with options to enter into the PhD program. The programs are designed for those interested in diagnostic veterinary pathology and board certification by the American College of Veterinary Pathologists. Residency training occurs through the Veterinary Medical Teaching Hospital and through the Oklahoma Animal Disease Diagnostic Laboratory. The program involves extensive diagnostic casework on primarily domestic animals and includes weekly case conferences and seminars. In addition, abundant archived materials are available for the specialty board preparation.

### Application Procedure

Usually one new residency training position is available each year in anatomic pathology and two of every three years in clinical pathology. Open positions are listed at the ACVP website (<https://www.acvp.org/>) and typically in the “Educational Opportunities” section of the *Journal of the American Veterinary Medical Association*.
